For Immediate Release:

With great consideration, the school board has approved a Communicable Disease Plan that is effective immediately to require masks indoors and when social distancing is not possible for all persons who are present on school campuses or in school vehicles or buses. This plan applies to our staff members, students, visitors and any others who are present on our school campuses or at indoor school events. The administration will review the plan and COVID data each month.

This message is very important, because we are hosting open houses the week of August 9 and the first day of school is August 17. We are excited to have our students back on campus for in-classroom learning. Although no mitigation strategy will prevent all transmission of the virus, having a mask requirement in place will allow students to return to a safer campus.

We appreciate your support and understanding as we implement this plan. This plan is based on the high transmission rate in our state, region and community. We will have masks available at all campuses for our students and visitors.

[Please see the plan here.](#)
