

South Creek High School

Dear Parent/Guardian:

The purpose of this letter is to inform you of the immunization requirements that will impact rising 12th grade students. Students entering the 12th grade are now required to have a booster dose of **Meningococcal Conjugate vaccine** for individuals that have not already received these vaccines. This a booster dose to the vaccine that the student received prior to entering the 7th grade.

Please contact your child's Primary Care Physician or the local Health Department if your child needs these vaccines. With Covid-19 affecting us this year it is very important that you call ahead to make an appointment for your child. For additional information regarding this vaccine and the disease that it protects against visit the Centers for Disease Control and Prevention's website at www.cdc.gov/vaccines/who/teens/index.html.

You will have 30 calendar days from the first day of school to provide the required up-to-date immunization record for your child. If proof of vaccination is not provided by the end of the 30 calendar day period, your child will be suspended from school until you can provide proof of immunization as required by law.

Please remember that you will need to provide proof on immunization (i.e. Certificate of Immunization [shot record]) on the first day of school. If you have any questions, please contact **Wanda Taylor School Nurse or Mrs. Morlock Principal South Creek High School 252-795-4081**.

Sincerely,

Principal
