Hanson Elementary Receives Bikes

On Wednesday, September 20, Brian Klock along with members of his staff from Klock Werks in Mitchell delivered \$5000 worth of equipment to Hanson Elementary which included bikes, pedal kits and helmets. The bikes were assembled on site.

Hanson Elementary received the bikes due to donations from Klock Werks and community members. Hanson staff helped with raising money for the equipment by working the Sturgis Kick Off Rally in Mitchell during the summer.

The bikes were made possible due to the All Kids Bike Kindergarten PE Program. The program places 2-in-1, balance-to-pedal conversion bikes, helmets, an instruction bike, and proven learn-to-ride curriculum into PE classes. This provides an opportunity packed with fun, gratification, and success! Building upon a

foundation of skills acquired in each lesson, students achieve milestones that guide them to the final goal of pedaling a bike

independently.

The bikes and equipment will be used by the Hanson PreK and kindergarten classes.

Hanson kindergarten students had the opportunity to test drive the bikes after they were assembled last week.

Klock Werks' staff that helped assemble the Strider bikes last week at Hanson School were (L-R): Raeanne DeWitt, Brian Klock, Jacob Schafer, Dave Sietsema, Ryan Anderson, Denise Del Favero. Not pictured: Jason Hanson.
