August 16, 2021

Good Afternoon Noble Public Schools,

Based upon guidance and direction from the health department, students exposed to COVID-19 will no longer be required to quarantine. While we strongly advocate for and highly recommend that anyone exposed be quarantined for the protection of themselves, their families and their classmates, the decision to quarantine will be the responsibility of the parent/guardian.

Contact Tracing will continue for all students and staff, and a parent/guardian will be notified of every exposure. As the surge in cases continue, we will continue to advocate for the safety and protection of our students. Please consider vaccinating if willing and able, wear a mask when in close proximity to others, Socially Distance at every opportunity, do everything in your power for the health, safety and well-being of your family.

Should a positive case occur in your family, we are strongly advising that everyone in the family quarantine unless the infected party is able to completely isolate. We know that isolation is possible in some scenarios, but most of our positive cases have occurred outside of school, hence our recommendation for families to quarantine.

We know that this decision will continue to divide our community further, and for that, we are truly sorry. Our goal has always been and always will be, the safety of our students and staff. The virus is real, please do your part to help us. As further information is made available, we will continue to update you. Thank you for your support and understanding!
