SUPPORT SERVICES

The non-instructional operations of the school division are an important component of the educational process and support the instructional program.

The KING AND QUEEN School Board provides support services necessary for the efficient and cost-effective operation of its schools.

Adopted: 8/13

Legal Ref.: Code of Virginia, 1950, as amended, §§ 22.1-78, 22.1-79(3), 22.1-253.13:2.

SCHOOL CRISIS, EMERGENCY MANAGEMENT AND MEDICAL EMERGENCY RESPONSE PLAN

Each school develops a written school crisis, emergency management and medical emergency response plan as defined below. The School Board includes the chief law-enforcement officer, the fire chief, the chief of the emergency medical services agency, the executive director of the regional emergency medical services council, and the emergency management official of the locality, or their designees, in the development of such plans. The School Board, the chief law-enforcement officer, the fire chief, the chief of the emergency medical services agency, the executive director of the regional emergency medical services council, and the emergency management official of the locality, or their designees, annually review each school's plan. The Department of Education and the Virginia Center for School and Campus Safety will provide technical assistance to the school division in the development of the plans. In developing these plans, schools may consult the model school crisis, emergency management, and medical emergency response plan developed by the Board of Education and the Virginia Center for School and Campus Safety.

The School Board designates Division Superintendent as emergency manager.

Each school annually conducts school safety audits as defined below. The results of such school safety audits are made public within 90 days of completion. The School Board may withhold or limit the release of any security plans, walk-through checklists and specific vulnerability assessment components as provided in the Virginia Freedom of Information Act, Va. Code § 2.2-3705.2. The completed walk-through checklist will be made available upon request to the chief law-enforcement officer of the locality or that officer's designee. Each school maintains a copy of the school's safety audit, which may exclude such security plans, walk-through checklists and vulnerability assessment components, within the office of the school principal and makes a copy of such report available for review upon written request.

Each school submits a copy of its school safety audit to the superintendent. The superintendent collates and submits all such school safety audits, in the prescribed format and manner of submission, to the Virginia Center for School and Campus Safety and shall make available upon request to the chief law-enforcement officer of the locality the results of such audits.

The superintendent establishes a school safety audit committee to include, if available, representatives of parents, teachers, local law-enforcement, emergency services agencies, local community services boards and judicial and public safety personnel. The school safety audit committee reviews the completed school safety audits and submits any plans, as needed, for improving school safety to the superintendent for submission to the School Board.

"School crisis, emergency management, and medical emergency response plan" means the essential procedures, operations, and assignments required to prevent, manage, and respond to a critical event or emergency, including natural disasters involving fire, flood, tornadoes or other severe weather; loss or disruption of power, water, communications or shelter; bus or other accidents; medical emergencies,

including cardiac arrest and other life threatening medical emergencies; student or staff member deaths; explosions; bomb threats; gun, knife or other weapons threats; spills or exposures to hazardous substances; the presence of unauthorized persons or trespassers; the loss, disappearance or kidnapping of a student; hostage situations; violence on school property or at school activities; incidents involving acts of terrorism; and other incidents posing a serious threat of harm to students, personnel or facilities. The plan includes a provision that the Department of Criminal Justice Services and the Virginia Criminal Injuries Compensation Fund shall be contacted immediately to deploy assistance in the event of an emergency as defined in the emergency response plan when there are victims as defined in Va. Code § 19.2-11.01, as well as current contact information for both.

“School safety audit” means a written assessment of the safety conditions in each public school to (1) identify and, if necessary, develop solutions for physical safety concerns, including building security issues and (2) identify and evaluate any patterns of student safety concerns occurring on school property or at school-sponsored events. Solutions and responses include recommendations for structural adjustments, changes in school safety procedures and revisions to the School Board’s standards for student conduct.

Each school has contingency plans for emergencies that include staff certified in cardiopulmonary resuscitation (CPR), the Heimlich maneuver, and emergency first aid.

In addition, the school administration ensures that the school has:

1. written procedures to follow in emergencies such as fire, injury, illness, allergic reactions and violent or threatening behavior. The procedures include Policy JHCD Administering Medicine to Students. The plan is outlined in the student handbook and discussed with staff and students during the first week of each school year;
2. space for the proper care of students who become ill;
3. a written procedure, in accordance with guidelines established by the School Board, for responding to violent, disruptive or illegal activities by students on school property or during a school sponsored activity; and
4. written procedures to follow for the safe evacuation of persons with special physical, medical or language needs who may need assistance to exit a facility.

BUILDINGS AND GROUNDS INSPECTION

The School Board is responsible for the maintenance of the property of the school division. In order to fulfill this responsibility, the School Board will cause the schools to be inspected at reasonably frequent intervals. Inspections required by law will be performed as required by law.

The results of inspections will be reported to the School Board.

Adopted: 8/09

Legal Refs.: Code of Virginia, 1950, as amended, §§ 2.2-1165, 22.1-79(3).

8 VAC 20-131-260.

REPORTING OF HAZARDS

Any employee who discovers a dangerous condition should report the condition immediately to the employee's supervisor, the superintendent or the superintendent's designee.

The superintendent shall name a designee to evaluate and label toxicity of all art materials used in the division in accordance with criteria established by the Virginia Department of Education. All materials which meet the criteria as toxic shall be so labeled. Such materials are not used in kindergarten through grade 5.

Adopted: 5/14

Legal Refs.: Code of Virginia, 1950, as amended, § 22.1-274.1.

8 VAC 20-530-10 et seq.

POSSIBLE EXPOSURE TO VIRAL INFECTIONS

Upon notification by a School Board employee who believes the employee has been involved in a possible exposure-prone incident which may have exposed the employee to the blood or body fluids of a student, the superintendent shall contact the local health director who, upon immediate investigation of the incident, shall determine if a potentially harmful exposure has occurred and make recommendations based upon all information available to the health director regarding how the employee can reduce any risks from such exposure.

The superintendent shall share these recommendations with the School Board employee.

The superintendent and the School Board employee shall not divulge any information provided by the local health director regarding the student involved except as described below. The information provided by the local health director is subject to any applicable confidentiality requirements set forth in Va. Code § 32.1-35.

Whenever any School Board employee is directly exposed to body fluids of any person in a manner which may, according to the current guidelines of the Centers for Disease Control and Prevention, transmit human immunodeficiency virus or hepatitis B or C viruses, the person whose body fluids were involved in the exposure shall be deemed to have consented to testing for infection with human immunodeficiency virus or hepatitis B or C viruses. Such person shall also be deemed to have consented to the release of such test results to the School Board employee who was exposed.

If the person whose blood specimen is sought for testing is a minor, consent for obtaining such specimen shall be obtained from the parent, guardian, or person standing in loco parentis of such minor prior to initiating such testing. If the parent or guardian or person standing in loco parentis withholds such consent, or is not reasonably available, the person potentially exposed to the human immunodeficiency virus or hepatitis B or C viruses, or the employer of such person, may petition the juvenile and domestic relations district court in the county or city where the minor resides or resided, or, in the case of a nonresident, the county or city where the School Board has its principal office, for an order requiring the minor to provide a blood specimen or to submit to testing and to disclose the test results in accordance with this policy.

Whenever any person is directly exposed to the body fluids of a School Board employee in a manner that may, according to the then current guidelines of the Centers for Disease Control and Prevention, transmit human immunodeficiency virus or hepatitis B or C viruses, the School Board employee whose body fluids were involved in the exposure shall be deemed to have consented to testing for infection with human immunodeficiency virus or hepatitis B or C viruses. The School Board employee shall also be deemed to have consented to the release of such test results to the person.

Except if the person to be tested is a minor, if the person whose blood specimen is sought for testing refuses to provide such specimen, any person identified by this policy who was potentially exposed to the human immunodeficiency virus or the

hepatitis B or C viruses in the manner described by this policy, or the employer of such person, may petition, on a form to be provided by the Office of the Executive Secretary of the Supreme Court of Virginia, the general district court of the county or city in which the person whose specimen is sought resides or resided, or, in the case of a nonresident, the county or city where the School Board has its principal office, for an order requiring the person to provide a blood specimen or to submit to testing and to disclose the test results in accordance with this policy. A copy of the petition, which shall specify the date and location of the hearing, shall be provided to the person whose specimen is sought. At any hearing before the court, the person whose specimen is sought or the person's counsel may appear. The court may be advised by the State Health Commissioner or the Commissioner's designee prior to entering any testing order. If the general district court determines that there is probable cause to believe that a person identified by this policy has been exposed in the manner prescribed by this policy, the court shall issue an order requiring the person whose bodily fluids were involved in the exposure to provide a blood specimen or to submit to testing and to disclose the test results in accordance with this policy. If a testing order is issued, both the petitioner and the person from whom the blood specimen is sought shall receive counseling and opportunity for face-to-face disclosure of any test results by a licensed practitioner or trained counselor.

THREAT ASSESSMENT TEAMS

The superintendent will establish a threat assessment team for each school. Teams may serve one or more schools as determined by the superintendent. The teams will assess and intervene with individuals whose behavior may pose a threat to the safety of school staff or students consistent with the model policies developed by the Virginia Center for School and Campus Safety including procedures for referrals to community services boards or health care providers for evaluation or treatment when appropriate.

Each team will include persons with expertise in counseling, instruction, school administration and law enforcement. Each team will

- provide guidance to students, faculty and staff regarding recognition of threatening or aberrant behavior that may represent a threat to the community, school or self;
- identify members of the school community to whom threatening behavior should be reported; and
- implement policies adopted by the School Board.

A principal who has received information that a juvenile is a suspect in or has been charged with certain violations of law pursuant to Va. Code § 16.1-301 may provide such information to a threat assessment team. No member of a threat assessment team may disclose any such information or use such information for any purpose other than evaluating threats to students and school personnel.

Upon a preliminary determination that a student poses a threat of violence or physical harm to self or others, a threat assessment team shall immediately report its determination to the superintendent or superintendent's designee. The superintendent or superintendent's designee shall immediately attempt to notify the student's parent or legal guardian. Nothing in this policy precludes school division personnel from acting immediately to address an imminent threat.

Upon a preliminary determination by the threat assessment team that an individual poses a threat of violence to self or others or exhibits significantly disruptive behavior or need for assistance, a threat assessment team may obtain criminal history record information, as provided in Va. Code §§ [19.2-389](#) and [19.2-389.1](#), and health records, as provided in Va. Code § [32.1-127.1:03](#). No member of a threat assessment team shall re-disclose any criminal history record information or health information obtained pursuant to this policy or otherwise use any record of an individual beyond the purpose for which such disclosure was made to the threat assessment team.

Each threat assessment team will report quantitative data on its activities according to guidance developed by the Department of Criminal Justice Services.

The superintendent may establish a committee to oversee the threat assessment teams or may assign the oversight of the teams to an existing committee. If such a committee is established, it will include individuals with expertise in human resources, education, school administration, mental health and law enforcement.

EMERGENCY FIRST AID, CPR AND AED CERTIFIED PERSONNEL

In school buildings with an instructional and administrative staff of ten or more, there shall be at least three employees who have current certification or training in emergency first aid, cardiopulmonary resuscitation (CPR) and the use of an automated external defibrillator (AED). If one or more students diagnosed as having diabetes attend such school, there shall be at least two employees who have been trained in the administration of insulin and glucagon.

In school buildings with an instructional and administrative staff of fewer than ten, there shall be at least two employees who have current certification or training in emergency first aid, CPR and the use of an AED. If one or more students diagnosed as having diabetes attend such school, there shall be at least one employee who has been trained in the administration of insulin and glucagon.

When a registered nurse, nurse practitioner, physician or physician assistant is present, no employee who is not a registered nurse, nurse practitioner, physician or physician assistant shall assist with the administration of insulin or administer glucagon. Prescriber authorization and parental consent shall be obtained for any employee who is not a registered nurse, nurse practitioner, physician or physician assistant to assist with the administration of insulin and administer glucagon.

SAFETY DRILLS

Fire Drills

Each school holds a fire drill at least twice during the first 20 school days of each session. Each school holds at least two additional fire drills during the remainder of the school session. Evacuation routes for students are posted in each room. No fire drills are conducted during periods of mandatory testing required by the Board of Education.

Lock-Down Drills

Each school has a lock-down drill at least once during the first 20 school days of each school session. Each school holds at least one additional lock-down drill after the first 60 days of the school session. Each school provides the parents of enrolled students with at least 24 hours' notice before the school conducts any lock-down drill. Such notice is not required to include the exact date and time of the lock-down drill.

Pre-kindergarten and kindergarten students are exempt from mandatory participation in lock-down drills during the first 60 days of the school session. The superintendent develops procedures to implement such exemption. Each pre-kindergarten and kindergarten students participate in each lock-down drill after the first 60 days of each school session.

School Bus Emergency Drills

Each school having school buses holds a drill in leaving school buses under emergency circumstances at least once during the first ninety calendar days of each school session and more often if necessary.

Tornado Drills

There is at least one tornado drill every school year in every school.

Emergency Situations

In addition to the drills mentioned above, the School Board provides training to each student and employee at least once each school year on safety procedures in the event of an emergency situation on school property.

ELECTRONIC ROOM PARTITIONS

No school employee opens or closes an electronic room partition in any school building unless

- i. no student is present in such building,
- ii. (a) no student is present in the room or area in which such partition is located and
(b) such room or area is locked or otherwise inaccessible to students, or
- iii. such partition includes a safety sensor that automatically stops the partition when a body passes between the leading edge and a wall, an opposing partition, or the stacking area.

Any annual safety review or exercise for school employees includes information and demonstrations, as appropriate, regarding the provisions of the previous paragraph.

Adopted: 6/19

Legal Refs.: Code of Virginia, § 22.1-138.

Cross Refs.: EB Safety Drills

SCHOOL CLOSINGS

The superintendent or his/her designee may order the closing, the delay in opening or the early dismissal of any or all schools in order to protect the safety and welfare of the students and staff.

Unless employees are notified that their work schedule is changed because of adverse weather or emergency conditions, it is expected that all employees will work according to the terms of their contract and division policy.

During adverse weather or emergency conditions, however, employees will follow guidelines related to work schedules. The guidelines may be reviewed by the School Board.

BUILDINGS AND GROUNDS MANAGEMENT AND MAINTENANCE

The superintendent has the general responsibility for the care, custody, and safekeeping of all school property. The principal of each school is responsible for the operation, supervision, care and maintenance of the school plant.

Each school maintains records of regular safety, health and fire inspections that have been conducted and certified by local health and fire departments. The frequency of such inspections is determined by the School Board in consultation with the local health and fire departments. In addition, the school administration equips all exit doors with panic hardware as required by the Uniform Statewide Building Code.

The school division maintains documentation of any pesticide application that includes the target pest, the formulation applied and the specific location of the application.

Adopted: 5/20

INVENTORY AND REPORTING OF LOSS OR DAMAGE

I. Inventories

The superintendent shall devise an adequate system of inventory of school property to identify items for the purpose of insurance and to control the loss of property.

The inventory shall include, but not be limited to the following: buildings, movable equipment, vehicles and all other items of significant value. Each school shall keep a complete inventory of all equipment, listing make, source, date of purchase, model, serial number, and other identifying data.

II. Reporting Losses

All loss of or damage to school property shall be promptly reported to the superintendent.

Adopted: 5/14, Updated: 5/19

VANDALISM

The School Board urges staff, students and the public to cooperate in the reduction of vandalism by reporting incidents of vandalism and the name of any person(s) believed to be responsible.

The School Board may institute action and recover from the parents or either of them of any minor living with such parents or either of them up to (\$2,500) for damages suffered by reason of the willful or malicious destruction of, or damage to, public property by such minor.

In addition, a student who damages or destroys public property will be subject to whatever disciplinary action is deemed necessary and advisable by the school principal.

AUTHORIZED USE OF SCHOOL-OWNED MATERIALS

To ensure the security and efficient use of school property, the superintendent shall develop regulations governing the use of all school owned property. The regulations shall address the use of school division facilities, supplies, materials and equipment by employees and outside organizations.

Employees are prohibited from utilizing school property for personal use or gain.

Adopted: 8/14, Updated: 12/19, Updated: 5/20

SCHOOL-OWNED VEHICLES

Every vehicle owned by the school system shall be used only for school-related uses and not for any personal uses, except for de minimis personal use as defined by the Internal Revenue Service. When the School Board provides a school owned vehicle for the use of an employee, the School Board may authorize the employee to commute between work and home and is subject to periodic review.

The King and Queen County School Board agrees that it will be responsible for the automobile liability insurance coverage for these vehicles.

The King and Queen County School Board will include the value of the employee's personal usage for commuting in each employee's W-2 form annually. This value will be computed under methods as established by IRS regulations. Social Security and Medicare contributions shall be withheld as required by the IRS.

Adopted: 01/14

AUTHORIZED USE OF SCHOOL PROPERTY

“The School Board or the Division Superintendent, subject to the approval of the Board, may provide for, or permit, the use of school buildings and grounds out of school hours during the school term, or in vacations, for any legal assembly, or may permit the same to be used as voting places in any primary, regular, or special election. The Board shall adopt rules and regulations necessary to protect school property when used for such purposes” – (State Law)

School facilities are for the students. Use of facilities is a privilege for other groups.

Use of buildings and grounds by school groups for educational purposes after school hours shall be handled by the principal of the school according to policies and regulations of the Board. The Board may cancel permission to use school building and grounds when such action is necessary for the best interest of the school division.

The Board’s intent is to provide building access to a broad constituency. Outside groups may not use the building more frequently than once per month. Use of buildings and grounds by groups not a part of the school shall be governed by the following and may be cancelled on the same basis as stated above with reference to school groups:

1. Church groups, commercial or professional entertainers, and out-of-county groups may be given the use of school buildings and grounds if the program is of a cultural or an educational nature. (For example, retirement gatherings, birthday parties, graduation parties, baby or wedding showers are not permitted.)
1. Permission to use the buildings and grounds by such groups shall be granted with the approval of the Superintendent, unless a special situation arises that requires the action of the Board. Requests shall be presented for action no less than 30 days prior to the date scheduled for the event. The principal or his designee shall be present for such activities.
2. The custodial service from a King and Queen County Public Schools (KQCPS) staff member is required. Payment for this service shall be a flat rate of \$25.00 per hour and will be billed after the event. Payment will be made to King and Queen County Public Schools. If the building use is during the regular custodial day, custodial fees shall not be collected from the following groups: PTA meetings, school-sponsored activities, professional education organizations, non-school organizations whose purpose is to improve and educate the community in civic growth and welfare, and performances by local talent and non-professionals sponsored by civic groups when any net profit is used for school betterment projects.

Public school property may be used by the citizens of King and Queen County Public Schools under the following rules and regulations:

2. All applications for the use of school property must be made as the office of the Superintendent through an officer of an organization, or two responsible citizens on regular application form furnished by the Board. The organization, or parties, signing the application will be held responsible for any damage to building, furniture, or equipment.
3. If the application is approved, the Superintendent’s office will issue a letter for the use of the property.

4. No individual or group will be permitted to use the school facilities without the principal having first approved the application. No building should be considered reserved until the written application is on file and the letter is issued from the Superintendent.
5. The requirements of the regular school program shall receive first consideration.
6. The use of any school facility shall in no way interfere with the regular school program.
7. School-related activities shall be given priority over non-school-related organizations.
8. No series of engagements for the same building will be permitted, and no secret meetings will be allowed.
9. School buildings shall not be rented to commercial organizations or private individuals for fund-raising purposes, even though funds raised are contributed to charitable organizations.
10. Community organizations renting a school auditorium may use a school piano, provided it is not moved. If it is desired to have the piano tuned, the request should be made to the designated person in the office of the Superintendent, who shall arrange to have the piano tuned at the expense of the organization using it. Renting organizations are forbidden to move school pianos.
11. Pianos and other large musical instruments shall not be moved into a school either as a gift or a loan, without the approval of the Superintendent or his/her designee.
12. Gymnasium shoes shall be required of all who use the school gymnasium.
13. No electrical equipment or appliances of any kind shall be brought to and/or used in any school building by any person without approval of the designated person in the office of the Superintendent.
14. The use of tobacco in any form on school grounds or in the school building shall not be permitted.
15. No display advertising shall be erected or mentioned on school property except by action of the School Board.

16. The School Board reserves the right to revoke at any time a permit granted, in which event any fees which have been paid will be refunded.
17. The Superintendent of Schools is authorized to promulgate such administrative rules as are necessary to implement these policies.
18. Use of alcoholic beverages and illegal drugs shall be prohibited at all times on school property.
19. Additional guidelines for any group seeking use of outdoor sports facilities are necessary to protect the integrity of the sport facilities. At times, during the school year or during inclement weather conditions, outdoor sports facility use may be limited at the discretion of the Principal. The following are guidelines for requesting use of outdoor sport facilities:
 - A. The locker rooms will not be available for guests.
 - B. Fields will be prepared for games by the groups using the field. No lime is to be used to mark the fields
 - C. Parking vehicles inside the fenced area or on a field is prohibited.

- D. Play will not be permitted during the months of December through March.
- E. Games will not be played if the field is wet. This decision will be made by the KQCPS administrators.

Approved: 4/17

STUDENT TRANSPORTATION SERVICES

The School Board provides for the transportation of students as required by state and federal laws and regulations.

Students may be suspended from using school transportation services for violations of the Student Code of Conduct or when the student endangers the health, safety or welfare of other riders. In such cases the parent or guardian is responsible for transporting the student to school.

STUDENT CONDUCT ON SCHOOL BUSES

Transportation of Students

The Board of Education may furnish transportation to resident students enrolled in the schools of the division who satisfy the following requirements:

1. Reside within the attendance area of the school(s) served;
 2. Comply with division standards and regulations in their conduct and behavior.
- Student Conduct on School Buses In the interest of the safety and welfare of school bus passengers, the Board of Education desires the Superintendent of schools and his designees to establish and enforce strict school bus discipline and safety regulations. Students who do not conform to all regulations and directives concerning discipline, safety and conduct or whose behavior could be detrimental to the safety or welfare of others or the safe operation of the bus may have their bus riding privileges suspended or revoked in accordance with this policy.

Procedural Guidelines

The following general procedural guidelines should be followed when administering this policy:

1. Initially bus drivers should try to resolve the discipline problem or violation of rules directly with the student(s) involved. Bus drivers will also attempt to confer with parents and request their cooperation in resolving the problem. These actions should be documented by the driver.
2. For problems not resolved by step 1 or in cases of more serious discipline or safety problems, a discipline referral may be made to the school principal or designee ("administrator"). In such cases, unless more severe sanctions appear warranted, the administrator will give the student a formal warning, notify the parents and provide the parents with a copy of the discipline referral.

3. If a problem occurs which results in a second discipline referral or, in the case of an initial discipline referral involving a serious discipline or safety problem, the following procedure shall apply:

a. The administrator will advise the student orally or in writing of the charges.

b. If the student denies the charges, the administrator will explain the evidence against the student and give the student an opportunity to present the student's side of the incident.

c. If, on the basis of this discussion, the administrator believes the student to be guilty of the misconduct charged, the administrator will suspend the student's bus riding privileges for five (5) school days.

d. The administrator shall immediately notify the parents of the suspension of bus riding privileges, the grounds for such suspension, the duration of such suspension and the time and place for the parents to meet with the administrator to review the suspension. Such meeting shall be held prior to reinstatement of the student's bus riding privileges. The parents shall also be provided with a copy of the discipline referral.

4. If a student, who has previously had bus riding privileges suspended during the current school year, receives another discipline referral, the administrator will follow the procedures in steps 3.a. through d. above with the following modifications:

a. If the administrator believes the student to be guilty of the misconduct charged, the administrator will suspend the student's bus riding privileges for ten (10) school days; and

b. The student's bus riding privileges will not be reinstated until a meeting with the parents and the administrator has taken place or until, in the discretion of the administrator, the parents have substantially agreed to review the suspension. The administrator may also reinstate such privileges where the parents cannot be contacted or if the parents repeatedly fail to appear for scheduled meetings.

5. If a student, who has twice previously during the current school year had bus riding privileges suspended, receives another discipline referral, the administrator

will follow the procedures in steps 3.a. through d. above with the following modifications:

a. If the administrator believes the student to be guilty of the misconduct charged, the administrator will suspend the student's bus riding privileges for thirty (30) school days; and

b. The student's bus riding privileges will not be reinstated until a meeting with the student, the parents, the bus driver, the administrator and the Director of Transportation has taken place.

6. In cases of severe and/or continuing problems, the school principal or the Director of Transportation may, after following the steps in 3.a. through d. above, suspend privileges for an additional fifteen (15) days, during which time an informal hearing will be scheduled before the Superintendent of schools with the student, the parents and division officials for the purpose of considering the revocation of the student's bus riding privileges for the remainder of the current school year.

7. An appeal may be taken to the Board of Education from any decision of the Superintendent revoking a student's bus riding privileges.

8. This policy and applicable regulations shall not be limited in their application to bus riding privileges alone, but shall also extend to all District provided or supervised transportation. Disorderly conduct by students at bus stops shall be reported and acted upon in the same manner as misconduct on buses.

9. Nothing contained in this policy shall preclude the imposition of other disciplinary measures as appropriate, including suspension or expulsion from school, in accordance with other division policies and procedures.

SCHOOL BUS SCHEDULING AND ROUTING

The operation of school buses is scheduled to maximize safety and efficiency. School bus routes, school sites, and safety of students at designated school bus stops are reviewed at least once each year and as changes occur. Routes are reviewed for safety hazards, fuel conservation, and to assure the most efficient use of buses. School administrators shall evaluate the safety of pupils at bus stops periodically and shall, at the request of the School Board, report the results annually to the School Board. A written vehicular and pedestrian traffic control plan for each school shall be reviewed annually for safety hazards. All new school site plans shall include provisions that promote vehicular and pedestrian safety.

SCHOOL BUS SAFETY PROGRAM

All buses and other vehicles owned and operated by the school division are inspected for safety in accordance with the regulations prescribed by the Department of Education.

All accidents, regardless of the amount of damage involved, are reported to the transportation supervisor.

Crashes involving school buses resulting in property damage of \$1,500 or more or personal injury are reported to the Virginia Department of Education at least once per month. The superintendent or superintendent's designee notifies the Virginia Department of Education of any school bus crash involving serious injuries, requiring professional medical treatment, or death within the next working day after the crash.

No person uses any wireless telecommunications device, whether handheld or otherwise, while driving a school bus, except in case of an emergency, or when the vehicle is lawfully parked and for the purposes of dispatching. Nothing in this policy prohibits the use of two-way radio devices or wireless telecommunications devices that are used hands free to allow live communication between the driver and school or public safety officials.

SPECIAL USE OF SCHOOL BUSES

The use of school buses for purposes other than transporting children to and from school for the regular school hours and for extracurricular activities is permitted with prior approval of the superintendent and in accordance with regulations pertaining to field trips.

In addition, the School Board may enter into agreements with its appropriating body, or any state agency or any federal agency established or identified pursuant 42 U.S.C. § 3001 et seq. providing for the use of the school buses of the division by such body or agency for public purposes, including transportation for the elderly. Each such agreement shall provide for reimbursing the school board in full for the proportionate share of any and all costs, both fixed and variable, of such buses incurred by such school board attributable to the use of such buses pursuant to such agreement. The appropriating body, or state or federal agency, shall indemnify and hold harmless the school board from any and all liability of the school board by virtue of use of such buses pursuant to an agreement.

FOOD SERVICE MANAGEMENT

The superintendent is authorized to develop and implement an efficient and effective food services system for the students and employees of the school division. From time to time the superintendent shall report to the school board on the financial status of the division's food service operations.

Adopted: 5/20

FOOD SERVICES

Generally

Employees of King and Queen School Board do not require a student who cannot pay for a meal at school or who owe a school meal debt to do chores or other work to pay for such meals or wear a wristband or hand stamp.

The King and Queen County School Board does not file lawsuits against a student of the student's parent because the student can not pay for a meal at school or owes a school debt.

The King and Queen school division provides free and reduced price breakfasts, lunches and milk to students according to the terms of the National School Lunch Program, the National School Breakfast Program and the Special Milk Program.

Competitive foods, as defined herein, comply with state and federal requirements.

The King and Queen School Board may solicit and receive any donation or other funds for the purpose of eliminating or offsetting any school meal debt at any time and will use any such funds solely for such purposes.

Free and Reduced Price Food Services

School officials determine student eligibility based on guidelines established by federal law. Eligible students are provided nutritionally acceptable meals and milk free or at a reduced cost if state and federal resources for school food programs are available. The superintendent or superintendent's designee establishes regulations or procedures as needed to implement this policy.

The criteria for determining a student's eligibility and the procedures for securing free and reduced price meals and milk is publicly announced at the beginning of each school year and provided to parents of all children in attendance at King and Queen County Public Schools.

If the School Board collects information to determine eligibility for participation in the National School Breakfast Program or the National School Lunch Program, it posts prominently on its website a web-based application for student participation in such program and provides a paper-based application.

Employees of King and Queen School Board do not physically segregate, overtly identify, or otherwise discriminate against any child eligible for free or reduced price meals.

The superintendent or superintendent designee is responsible for establishing procedures by which excess food may be distributed to enrolled students eligible for the School Breakfast Program or National School Lunch Program administered by the U.S. Department of Agriculture, saving excess food for later consumption, or donating food.

The superintendent's procedures identify which students are eligible to receive excess food.

Definitions

"Competitive food" means all food and beverages other than meals reimbursed under programs authorized by the National School Lunch Act and the Child Nutrition Act of 1966 available for sale to students on the school campus during the school day. Competitive foods meet the nutrient guidelines established by the Board of Education, including the guidelines for calories, fat, sugar and sodium.

"Excess food" means any remaining unexpired, unopened, or unconsumed food intended to be served as part of a reimbursable meal that was unable to be utilized for a current or future meal provision after a school has served breakfast and lunch to students during a school day.

"Fundraiser" means a school-sponsored activity where food or nonfood items are sold on the school campus during regular school hours by a school-sponsored organization to raise money for a school-related program or activity. One fundraiser is defined as one or more fundraising activities by one or more school-sponsored organizations that last one school day. If multiple school-sponsored organizations conduct fundraisers on the same day, the combined activities are counted as one fundraiser. If a fundraising activity lasts more than one school day, each subsequent day's activity is considered as one fundraiser and counts toward the total number of permitted fundraisers.

"School campus" means all areas of the property under the jurisdiction of the school that are accessible to students during the school day.

"School day" means the period from the midnight before to 30 minutes after the end of the official school day.

School Sponsored Fundraisers

Each school may conduct 4 school-sponsored fundraisers per school year during which food that does not meet the nutrition guidelines for competitive foods may be available for sale to students. Fundraisers are not conducted during school meal service times.

Unpaid Meal Charges

Students who do not have money on account or in hand to cover the cost of a meal at the time of service may be permitted to charge the meal. Students may charge no more than \$5.00 to their accounts.

A student carrying a negative balance of \$5.00 or more is not permitted to charge any additional amounts. A student who is not permitted to charge any additional

amounts is permitted to buy a meal if the student has cash on hand. Reasonable efforts are used to avoid calling attention to a student's inability to pay.

Notice of low or negative balances in a student's meal account are sent to parents and the school principal. Parents are expected to pay all meal charges in full by the last day of the school year.

If a parent regularly fails to provide meal money or send food to school with the student and the student does not qualify for free or reduced benefits, the school nutrition director will inform the principal, who will determine the next course of action, which may include notifying the department of social services of suspected child neglect.

The superintendent or superintendent's designee ensures that federal child nutrition funds are not used to offset the cost of unpaid meals and that the child nutrition program is reimbursed for bad debt. In order to accomplish those goals, the following procedures are followed:

- At least one written notice is provided prior to the student being denied reimbursable meals for exceeding the division's charge limit.
- If payment of the negative balance is not received within 30 days of the maximum charge limit being reached, the debt will be turned over to the superintendent or superintendent's designee for collection. If the debt is not paid within 60 days of notice being given, it is considered bad debt for the purposes of federal law concerning unpaid meal charges.

Recordkeeping

The King and Queen School Board is responsible for maintaining records that document compliance with this policy. Those records include documentation used to assess the nutritional profile of food items and determine whether a food item is an allowable competitive food, such as recipes, nutrition labels and/or product specifications for the competitive food available for sale to students.

The School Board is also responsible for

- maintaining records documenting compliance with the competitive food nutrition standards for food available for sale in areas that are outside of the control of the school nutrition programs operations,
- ensuring any organization or school activity designated as responsible for food service at the various venues in the school, other than the school nutrition programs, maintains records documenting compliance with the competitive food nutrition standards,
- maintaining records each school year documenting the number of exempt fundraisers, if any, conducted at each school within the division, and
- designating an individual at the division or school level to monitor and ensure compliance with this policy in all areas that are outside the control of the school nutrition programs operation. The designee may not be a school nutrition personnel.

REPRODUCTION OF COPYRIGHTED MATERIALS

The reproduction and use of copyrighted materials, including computer software, electronic materials, video tapes, compact discs, laser discs and other non-print materials, are controlled by federal law. In general, copyright owners have the exclusive right to use, reproduce and modify their materials. Federal law does provide limited exceptions to this general rule which permit the reproduction and use of copyrighted materials in some circumstances. The superintendent is responsible for promoting an understanding of the applicable law among staff members and students.

The KING AND QUEEN School Board encourages its staff and students to enrich the educational experience by making proper use of supplementary materials. However, each staff member and student is responsible for complying with copyright law and with any regulations or procedures developed by the superintendent. Any employee or student who is uncertain as to whether reproducing or using copyrighted materials complies with the division procedures or is permissible under law should contact the School Principal or Designee who will provide clarification and assist staff members and students in obtaining proper authorization to copy or use protected material when such authorization is required.

At no time is it necessary for a staff member to violate copyright laws in order to properly perform the staff member's duties. At no time is it necessary for a student to violate copyright laws in order to complete any assigned work. For staff members, violation of copyright laws or division requirements may result in discipline up to and including termination of employment. For students, violation of copyright laws or division requirements may result in discipline up to and including suspension or expulsion.

INSURANCE MANAGEMENT

The School Board maintains such insurance on school property, including vehicles, as it deems necessary or as is required by law. The School Board may provide liability insurance, or may provide self-insurance, for certain or all of its officers and employees and for student teachers and other persons performing functions or services for any school in the school division, regardless of whether payment is made for such functions or services. Such insurance, including workers' compensation and all property and casualty insurance, is placed with insurance companies authorized to do business in Virginia or provided by insurance pools, groups, or self-insured programs authorized by the state Bureau of Insurance.

Adopted: 5/14, Updated: 1/18, Updated: 3/19

Legal Refs.: Code of Virginia, 1950, as amended, §§ 15.2-2700 through 15.2-2709, 22.1-84, 22.1-188 through 22.1-198.

EDUCATIONAL TECHNOLOGY FOUNDATIONS AND PUBLIC SCHOOL FOUNDATIONS

The School Board may establish educational technology foundations for the express purpose of implementing a public/private partnership to expand access to and improve the quality of educational technology in the division. The School Board may also establish public school foundations for the express purpose of implementing a public/private partnership to implement public school improvement projects approved by the School Board. Such foundations may be established directly by the School Board or by the School Board and other organizations or persons, on behalf of the School Board by a third party, or through a contract with a corporation as defined by Va. Code § 2.2-212.2:2. The foundations may be established as a cooperative regional effort with other school boards.

I. Requirements

Upon establishing or contracting with a corporation, whether or not other organizations, school boards, or persons are involved, the School Board shall:

- Review and approve the articles of incorporation and bylaws
- Establish a system of accounting to protect public funds
- Establish agreement that, upon dissolution of the corporation, any assets remaining after payment of just debts shall be transferred to and become the property of the School Board or, if a regional effort, the procedure by which the property may be divided among the school boards
- Require, in any instance in which the School Board advances, contributes or loans funds to the corporation, that such contract shall provide for the posting of a bond with surety by the officers of the corporation conditioned to protect the rights of the School Board
- Establish terms for the allocation of any profits or revenues between the School Board and the corporation
- Take such other steps as may be necessary to comply with applicable law

II. Funding

The School Board may (i) advance, contribute or loan funds to such foundations, and (ii) establish an escrow fund for the purpose of funding various educational technology projects.

III. Procurement

In making purchases through its public school foundation or purchasing educational technology through its educational technology foundation, the School Board is exempt from the Virginia Public Procurement Act, except, relative to such purchases, the School Board shall comply with the provisions of sections 2.2-4311 and 2.2-4367 through 2.2-4377 of the Act.

Adopted: 5/14, Updated: 1/18, Updated: 3/19

Legal Ref: Code of Virginia, §§ 2.2-4311, 2.2-4343, 2.2-4367 through 2.2-4377, 22.1-212.2:2.
