Revised

Delia Bonenberger, Acting Superintendent
Silver Creek Central School District
1 Dickinson Street
Silver Creek, NY 14136

Dear Superintendent Bonenberger:

Congratulations. I am pleased to inform you that your Annual Professional Performance Review Plan (APPR) meets the criteria outlined in Education Law §3012-d and Subpart 30-3 of the Commissioner's Regulations and has been approved. As a reminder, we are relying on the information you provided on your APPR form, including the certifications and assurances that are part of your approved APPR. If any material changes are made to your approved APPR plan, your district/BOCES must submit such material changes to us for approval. Please see the attached notes for further information.

Please be advised that, pursuant to Education Law §3012-d, the Department will be analyzing data supplied by districts, BOCES, and/or schools and may order a corrective action plan if there are unacceptably low correlation results between the Student Performance category and the Teacher Observation or Principal School Visits category, and/or if the teachers' or principals' overall ratings and subcomponent scores show little differentiation across educators and/or the lack of differentiation is not justified by equivalently consistent student achievement results, and/or if schools or districts show a pattern of anomalous results in the Student Performance category and/or the Observation/School Visits category.

The New York State Education Department and I look forward to continuing our work together, with the goal of ensuring that every school has world-class educators in the classroom, every teacher has a world-class principal to support his or her professional growth, and every student achieves college and career readiness.

Thank you again for your hard work.

Sincerely,

MaryEllen Elia
Commissioner

Task 1. School District Information

Disclaimers

The Department will review the contents of each school district's/BOCES' Annual Professional Performance Review (APPR) plan as submitted using this online form, including required attachments, to determine if the plan rigorously complies with Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents. Department approval does not imply endorsement of specific educational approaches in a district's/BOCES' plan.

The Department reserves the right to request further information from a district/BOCES to monitor compliance with Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents. As such, each district/BOCES is required to keep detailed records on file for each section of the currently implemented APPR plan. Such detailed records must be provided to the Department upon request. The Department reserves the right to disapprove or require modification of a district's/BOCES plan that does not rigorously adhere to the requirements of Education Law §3012-d and Subpart 30-3 of the Rules of the Board of Regents.

The Department will not review any attachments other than those required in the online form. Any additional attachments supplied by the school district/BOCES are for informational purposes only for the teachers and principals reviewed under this APPR plan. Statements and/or materials in such additional attachments have not been approved and/or endorsed by the Department. However, the Department considers void any other signed agreements between and among parties in any form that prevent, conflict, or interfere with full implementation of the APPR Plan approved by the Department. The Department also reserves the right to request further information from the school district/BOCES, as necessary, as part of its review of this plan.

If the Department reasonably believes through investigation, or otherwise, that statements made in this APPR plan are not true or accurate, it reserves the right to reject this plan at any time and/or to request additional information to determine the truth and/or accuracy of such statements.

REQUIRED SUBCOMPONENT

(100% of Student Performance category if only the Required subcomponent is used or at least 50% when used with the Optional subcomponent)

(A) For a teacher whose course ends in a State-created or administered test for which there is a State-provided growth model and at least 50% of a teacher's students are covered under the State-provided growth measure, such teacher shall have a State-provided growth score based on such model.

(B) For a teacher whose course does not end in a State-created or administered test or where less than 50% of the teacher's students are covered by a State-provided growth measure, such teacher shall have a Student Learning Objective (SLO) developed and approved by his/her superintendent or another trained administrator, using a form prescribed by the Commissioner, consistent with the SLO process determined or developed by the Commissioner, that results in a student growth score; provided that, for any teacher whose course ends in a State-created or administered assessment for which there is no State-provided growth model, such assessment must be used as the underlying assessment for such SLO.

2.1) Assurances

Please check the boxes below:

Assure that the growth score provided by NYSED will be used, where required.	Checked
Assure that back-up SLOs will be set by the superintendent or another trained administrator for all 4-8 ELA and Math teachers in the event that a State-provided growth score cannot be generated for that teacher.	Checked
For any grade/subject that requires a back-up SLO, but for which there are not enough students, not enough scores, or data issues that prevent a teacher-specific SLO from being created, the superintendent or another trained administrator shall develop a school-wide back-up SLO using available State/Regents assessments.	Checked

STATE-PROVIDED MEASURES OF STUDENT GROWTH

For teachers in grades 4 - 8 Common Branch, ELA, and Math, NYSED will provide a growth score and rating. That rating will incorporate students' academic history compared to similarly academically achieving students and takes into consideration students with disabilities, English

language learners, students in poverty, and, in the future, any other student-, classroom-, and school-level characteristics approved by the Board of Regents. While most teachers of 4-8 Common Branch, ELA and Math will have State-provided scores and ratings, some may teach other courses where there is no State-provided growth measure. Teachers with 50 – 100% of students covered by State-provided growth measures will receive a growth score and rating from the State for the full Student Performance category of their evaluation. Teachers with 0 – 49% of students covered by State-provided growth measures must have SLOs for the Student Performance category of their evaluation and one SLO must use the State-provided measure if applicable for any courses. (See APPR Guidance and SLO Guidance for more detail on teachers with State-provided growth measures and SLOs.)

For those teachers who would typically receive a State-provided growth score, the district/BOCES must also include a back-up SLO process in the event that there are not enough students, not enough scores, or data issues that prevent a State-provided growth score from being calculated for that teacher.

2.2) Grades 4-8 ELA and Math: Assessments

Using the drop-down boxes below, please select the assessment that will be used for the back-up SLOs for the grade/subject listed.

Please note: If your district/BOCES does not have grade/subject-specific teachers for one or more of the rows in task 2.2, choose "Not Applicable" from the drop-down box. This would be appropriate if, for example, the district/BOCES does not have certain grades; the district/BOCES does not offer a specific subject; etc. If a grade/subject ends in a State assessment, i.e., 4-8 ELA or Math, such assessment must be used as the underlying evidence for the SLO.

2.12) Teachers with More Than One Growth Measure

If educators have more than one State-provided growth score and rating, those scores and ratings will be combined into one score and HEDI rating for the Required Student Performance subcomponent provided by the Department. (Examples: Common branch teacher with State-provided measures for both ELA and Math in grade 4; middle school math teacher with both 7th and 8th grade math courses.)

If educators have more than one SLO (or a State-provided growth measure and an SLO), the measures will each earn a score from 0-20 points which districts/BOCES must weight proportionately based on the number of students in each SLO (or in the State-provided growth measure and the SLO). For more information on teachers with more than one growth measure, please see NYSED APPR Guidance and NYSED SLO Guidance: <https://www.engageny.org/resource/appr-3012-d>.

2.13) Assurances

For guidance on SLOs and the development of back-up SLOs, please see NYSED APPR Guidance and NYSED SLO Guidance: <https://www.engageny.org/resource/appr-3012-d>.

Assure that the teacher has an SLO or a back-up SLO, where applicable, consistent with the goal setting process developed by the Commissioner that results in a student growth score.	Checked
Assure that all growth targets represent a minimum of one year of expected growth, as determined by the superintendent or another trained administrator. Such targets, as determined by the superintendent or another trained administrator, may only take the following characteristics into account: poverty, students with disabilities, English language learners status and prior academic history.	Checked
Assure that all growth targets are approved by the superintendent or another trained administrator.	Checked
Assure that any disagreement between parties regarding the content of the SLO, including the growth target, will be resolved by the superintendent or another trained administrator.	Checked
Assure that if a teacher's SLO is based on a small n size population and the district/BOCES chooses not to use the HEDI scoring bands listed in task 2.11, then the teacher's 0-20 score and HEDI rating will be determined using the HEDI scoring bands specified by the Department in APPR Guidance.	Checked
Assure that processes are in place for the superintendent to monitor SLOs.	Checked

Assure that the final Student Performance category rating for each teacher will be determined using the weights and growth parameters specified in Subpart 30-3 of the Rules of the Board of Regents.

2.14) Use of the Optional Subcomponent and Student Performance Category Weighting

- If the Optional subcomponent is not used, the Required subcomponent will comprise 100% of the Student Performance category.
- If the Optional subcomponent is used, the Required subcomponent must comprise at least 50% of the Student Performance category.

Please indicate the use of the Optional subcomponent by making the appropriate selection below. Information related to the Optional subcomponent will be entered into Task 3.

The Optional subcomponent WILL be used; the weight of each subcomponent is indicated below.

Select the weight of the Required Student Performance subcomponent; the corresponding Optional Student Performance subcomponent weight is shown.

OPTIONAL SUBCOMPONENT

(Up to 50% of Student Performance category if selected)

Such second measure shall apply in a consistent manner, to the extent practicable, across all classrooms in the same grade/subject in the district/BOCES and be either:

- (A) a second State-provided growth score on a State-created or administered test; provided that the State-provided growth measure is different than that used in the Required subcomponent, or
- (B) a growth score based on a State-designed supplemental assessment, calculated using a State-provided or approved growth model.

3.1) Use of the Optional Subcomponent of the Student Performance Category

Please indicate the use of the Optional subcomponent by making the appropriate selection below.

OPTIONAL SUBCOMPONENT

(Up to 50% of Student Performance category if selected)

Such second measure shall apply in a consistent manner, to the extent practicable, across all classrooms in the same grade/subject in the district/BOCES and be either:

- (A) a second State-provided growth score on a State-created or administered test; provided that the State-provided growth measure is different than that used in the Required subcomponent, or
- (B) a growth score based on a State-designed supplemental assessment, calculated using a State-provided or approved growth model.

Options for measures include:

OPTION A: SECOND STATE-PROVIDED GROWTH SCORE

- Option (A1) Teacher-specific growth score computed by the State based on percentage of students who achieve a State-determined level of growth (e.g., percentage of students whose growth is above the median for similar students)
- Option (A2) School-wide growth results based on a State-provided school-wide growth score for all students attributable to the school who took the State ELA or math assessment in grades 4-8
- Option (A3) School- or BOCES-wide, group, team, or linked growth results using available State-provided growth scores that are locally-computed

OPTION B: STATE-DESIGNED SUPPLEMENTAL ASSESSMENTS

- Option (B1) Teacher-specific growth score based on a State-designed supplemental assessment, calculated using a State-provided or approved growth model
- Option (B2) School- or BOCES-wide, group, team or linked growth score based on a State-designed supplemental assessment, calculated using a State-provided or approved growth model capable of generating such a score

The same locally selected measures of student growth across all classrooms in the same grade/subject in the district/BOCES must be used in a consistent manner to the extent practicable.

Task 3.1) Assurances

Please check the boxes below.

Assure that if a teacher receives an overall rating of Ineffective on the Student Performance category, and a State-designed supplemental assessment (option B1 or B2) was included as an Optional subcomponent of the Student Performance category, then the teacher must be rated Ineffective overall (see Education Law §3012-d(5)(a) and (7)).	Checked

3.10) All Other Courses: Process for Assigning a 0-20 Score and HEDI Rating (Option A3)

Please describe the process your district/BOCES will use to locally compute a 0-20 score and HEDI rating using school-wide, group, team, or linked growth results based on available State-provided growth scores. Please indicate which grades/subjects of the available State-provided growth scores will be used. Please also include an upload in Task 3.11 demonstrating the process of assigning all points 0 to 20.

	The appropriate school building combined adjusted mpg score as determined by the state, for elementary(K-5), middle(6-8) or high school(9-12) will be utilized to determine the 0-20 score and HEDI rating. Refer to section 3.11 for the attached Conversion Chart.

3.11) Conversion Chart

- For option (A1) or option (A3), please upload a chart demonstrating how the second growth score chosen will be converted to a HEDI score from 0-20.
- For option (B1) or option (B2), please upload the chart provided by the assessment provider to demonstrate how the growth model translates to a HEDI score from 0-20.
- An upload is not required with the use of Option (A2). For Option (A2), the 0-20 score and HEDI rating provided by the State must be used.

Please note, within this section, task 4.1 may contain the rubric selection(s) from your plan as it existed on June 2, 2015.* The remaining tasks in this section will not contain data from your previous plan and must be completed.

* Please note that documents and language will not be pre-populated into the plan if your district/BOCES chose to start with a blank application.

For guidance on the Teacher Observation category, see NYSED APPR Guidance: <https://www.engageny.org/resource/appr-3012-d>.

4.1) Teacher Practice Rubric

Select a teacher practice rubric from the menu of State-approved rubrics to assess performance based on the observable NYS Teaching Standards. If your district has been granted a variance by NYSED through the variance process, select "district variance" from the menu.

If your district/BOCES is using an additional rubric, please select the rubric from the second menu below. If your district/BOCES will not use a second rubric, please select "N/A" from the end of the drop-down menu. (Note: Any district/BOCES may use multiple rubrics, as long as the same rubric is used for all classroom teachers in a grade/subject across the district/BOCES.)

Rubric 2

N/A

4.2) Assurances

Please check all of the boxes below:

Assure that all observable NYS Teaching Standards/Domains of the selected practice rubric are assessed at least once a year across the total number of annual observations.	Checked
Assure that the process for assigning points for the Teacher Observation category will be in compliance with the locally-determined subcomponent weights and overall Observation category score and rating based on the constraints prescribed by the Commissioner in Subpart 30-3 of the Rules of the Board of Regents.	Checked
Assure that the same rubric(s) is used for all classroom teachers in a grade/subject across the district/BOCES; provided that districts/BOCES may locally determine whether to use different rubrics for teachers who teach different grades and/or subjects during the school year.	Checked
Assure that the same rubric(s) is used for all observations of a classroom teacher across the observation types in a given school year.	Checked

4.3) Process for Weighting Rubric Domains/Subcomponents

Please describe the process for weighting the observable domains/subcomponents of the chosen practice rubric (e.g., All observable components will be weighted equally and averaged). For guidance on the Teacher Observation category, see NYSED APPR Guidance: <https://www.engageny.org/resource/appr-3012-d>.

All observable components will be weighted equally to determine the overall Performance HEDI score.

4.4) Calculating Observation Ratings

Please check the boxes below:

Assure that each set of observations (by supervisor/other trained administrator, independent, or peer) will be completed using the selected practice rubric, producing an overall score between 1 and 4. The overall weighted observation score will then be converted into a HEDI rating using the chart shown below.	Checked
Assure that once all observations are complete, the different types of observations will be combined using a weighted average consistent with the weights specified in task 4.5 below, producing an overall Observation category score between 0 and 4. In the event that a teacher earns a score of 1 on all rated components of the practice rubric across all observations, a score of 0 will be assigned.	Checked

6.4) Appeals

Pursuant to Education Law §3012-d, a teacher may only challenge the following in an appeal to their district/BOCES:

- (1) the substance of the annual professional performance review; which shall include the following:
 - (i) in the instance of a teacher rated Ineffective on the Student Performance category, but rated Highly Effective on the Observation category based on an anomaly, as determined locally;
- (2) the school district's/BOCES' adherence to the standards and methodologies required for such reviews, pursuant to Education Law §3012-d; and
- (3) the adherence to the regulations of the Commissioner and compliance with any applicable locally negotiated procedures, as well as the school district's/BOCES' issuance and/or implementation of the terms of the teacher or principal improvement plan, as required under Education Law §3012-d.

Describe the procedure for ensuring that appeals of annual performance evaluations will be handled in a timely and expeditious way:

APPEAL PROCESS FOR TEACHERS DESIGNATED AS "DEVELOPING" OR "INEFFECTIVE"

APPEAL PROCEDURE

All tenured and probationary employees who meet the appeal process criteria identified below may use this appeal process. A teacher may not file multiple appeals regarding the same performance review or TIP. All grounds for appeal must be raised with specificity and within one appeal, provided that the teacher knew or could have reasonably known the ground(s) existed at the time the appeal was initiated, in which instance a further appeal may be filed but only based upon such previously unknown ground(s). Any grounds not raised at the time the appeal is filed shall be deemed waived.

APPEAL PROCESS

Any unit member aggrieved by an APPR rating of either "ineffective or "developing" may challenge that APPR. In accordance with Regents rule section 30-3.12(c). An APPR which is the subject of a pending appeal shall not be sought to be offered in evidence or placed in evidence in any Education Law Section §3020-b proceeding, or any locally negotiated procedure, until the appeal process is concluded.

GROUND FOR AN APPEAL

An appeal may be filed challenging the APPR based upon one or more of the following grounds:

- a. The substance of the Annual Professional Performance Review; which shall include the instance of a teacher rated Ineffective on the Student Performance Category but rated Highly Effective on the Observation Category based on an anomaly, as determined locally.
- b. The district's failure to adhere to the standards and methodologies required for the Annual Professional Performance Review, pursuant to Education Law §3012-d and Subpart 30-3 of Commissioner's regulations;
- c. The adherence to the Commissioner's regulations, as applicable to such reviews and compliance with any applicable locally negotiated procedures, as required under Education Law 3012-d; and
- d. The district's failure to issuance and/or implementation the terms of the Teacher Improvement Plan, where applicable, as required under Education Law §3012-d.

TIME LIMITS

Time limits set forth in the procedure shall be strictly adhered to by all parties and persons. Any appeal not initiated or taken to the next step within these time limits will be considered settled on the basis of the last answer by the District. Time limits may be extended by mutual agreement of the District and the teacher, or his representative, if any, which agreement shall be in writing and signed by the teacher, or his representative, if any, and the District. Consent to an extension shall not be unreasonably withheld. All steps in the appeals process will be timely and expeditious in accordance with Education Law §3012-d.

STEPS FOR APPEAL PROCESS

The entire steps process will be completed within 60 school days.

Step 1

The teacher, with input and guidance from his/her SCTA representative, shall present his/her appeal, in writing, to his/her evaluator in an attempt to resolve it provided he/she does so within fifteen (15) school days of the date he/she is presented his/her summative evaluation, which shall include scores from all phases of the APPR. When filing an appeal, the teacher must submit a detailed written description of the specific areas of disagreement over his or her performance review, or the issuance and/or implementation of the terms of his or her improvement plan and any additional documents or materials relevant to the appeal. The performance review and/or improvement plan being challenged must also be submitted with the appeal.

Step 2

Within ten (10) school days of receipt of an appeal, the administrator who issued the performance review must submit a detailed written response to the appeal. The response must include any and all additional documents or written materials specific to the point(s) of disagreement that support the district's response and are relevant to the resolution of the appeal. Any such information that is not submitted at the time the response is filed shall not be considered in the deliberations related to the resolution of the appeal. The teacher initiating the appeal shall receive a copy of the response filed by the district, and any and all additional information submitted with the response, at the same time the school district files its response.

Step 3

If the teacher is not satisfied with the written response of the evaluator, then a meeting will be scheduled with the teacher, their union representative, peer coach, the evaluator and, if the evaluator chooses, another administrator. This meeting will occur within five (5) school days from the date of the written response in Step 2.

Step 4

If after the meeting, in Step 3, the teacher wishes to appeal the decision of the evaluator set forth above, the teacher shall present his/her appeal from the decision of the evaluator, in writing within 10 school days of the receipt of the decision, to the Superintendent of Schools, or his/her designee. When filing an appeal, the teacher must submit a detailed written description of the specific areas of disagreement over his or her performance review, or the issuance and/or implementation of the terms of his or her improvement plan and any additional documents or materials relevant to the appeal. The performance review and/or improvement plan being challenged and the decision of the evaluator to the teacher's appeal must also be submitted with the appeal. Any information not submitted at the time the appeal is filed shall not be considered. A written decision on the merits of the appeal shall be rendered no later than ten (10) school days from the date upon which the teacher filed his or her appeal with the Superintendent of Schools. The decision shall set forth the reasons and factual basis for determination on each of the specific issues raised in the teacher's appeal. If the appeal is sustained, the reviewer may set aside a rating if it has been affected by substantial error or defect, modify a rating if it is affected by substantial error or defect or order a new evaluation if procedures have been violated. A copy of the decision shall be provided to the teacher and the evaluator.

EXCLUSIVITY OF SECTION 3012-d APPEAL PROCEDURE

The 3012-d appeal procedure shall constitute the exclusive means for initiating, reviewing, and resolving any and all challenges and appeals related to a teacher performance review and/or improvement plan. A teacher may not resort to any other contractual grievance procedures for the resolution of challenges and appeals related to a professional performance review and/or improvement plan, except as otherwise authorized by law.

7.1) STATE-PROVIDED MEASURES OF STUDENT GROWTH

For principals with at least 30% of their students covered under a State-provided growth measure, such principal shall have a State-provided growth score based on such model. Please list the grade configurations of the school(s)/program(s) in your district/BOCES where it is expected that 30-100% of a principal's students are taking assessments with a State-provided growth, (e.g., K-5, PK-6, 6-8, 6-12, 9-12, etc.). For principals where less than 30% of their students are covered under a State-provided growth measure, such principals shall have a SLO consistent with a goal setting process determined or developed by the Commissioner that results in a student growth score; provided that for any teacher whose course ends in a State created or administered assessment for which there is no State-provided growth model, such assessment must be used as the underlying assessment for such SLO. (See Guidance for more detail on principals with State-provided measures and SLOs.)

For those principals who would typically receive a State-provided growth score, the district/BOCES must also include a back-up SLO process in the event that there are not enough students, not enough scores, or data issues that prevent a State-provided growth score from being calculated for that principal.

Please list the grade configurations of the schools or principals where State-provided growth measures will apply (please list, e.g., K-5, PK-6, 6-8, 6-12, 7-12, 9-12). For each configuration, also indicate the measure and assessment(s) used for the back-up SLO.

For each grade configuration indicate the following:

- **Column 1: lowest grade that corresponds to the building or program**
- **Column 2: highest grade that corresponds to the building or program**
- **Use the checkboxes to indicate the State assessments or Regents exams used**

7.1) Assurances

Assure that the growth score provided by NYSED will be used, where required.	Checked
Assure that back-up SLOs will be set by the superintendent or another trained administrator for all principals who receive a State-provided growth score in the event that a State-provided growth score cannot be generated for that principal.	Checked

7.2) STUDENT LEARNING OBJECTIVES

SLOs must be used for principals in buildings or programs in which fewer than 30% of students take Grades 4-8 ELA, math, and/or high school courses with State or Regents assessments. SLOs will be developed using the assessments covering the most students in the school or program and continuing until at least 30% of students in the school or program are covered by SLOs. For guidance on SLOs, see NYSED SLO Guidance: <https://www.engageny.org/resource/appr-3012-d>. The district/BOCES must select the type of assessment that will be used with the SLO from the options below.

- If any grade/course in the building has a State-provided growth measure AND the principal must have SLOs because fewer than 30% of students in the building are covered, then the SLOs must begin first with the SGP results.
- Additional SLOs must then be set based on grades/subjects with State assessments for which there is no State-provided growth measure, where applicable.
- If additional SLOs are necessary, principals must begin with the grade(s)/course(s) that have the largest number of students using school-wide student results from one of the following assessment options:
 - State-approved 3rd party assessment; or
 - State-approved district, regional, or BOCES-developed assessment.

For each grade configuration indicate the following:

- **Column 1: lowest grade that corresponds to the building or program**
- **Column 2: highest grade that corresponds to the building or program**
- **Column 3: measure used**
- **Once a measure is selected, a corresponding menu will appear for the selection of the name(s) of the assessment(s) used.**

7.4) Principals with More Than One Growth Measure

If educators have more than one State-provided growth score and rating, those scores and ratings will be combined into one score and HEDI rating for the Required Student Performance subcomponent provided by the Department. (Examples: Principals of K-8 schools with growth measures for ELA and math grades 4-8.)

If educators have more than one SLO (or a State-provided growth measure and an SLO), the measures will each earn a score from 0-20 points which districts/BOCES must weight proportionately based on the number of students in each SLO (or in the State-provided growth measure and the SLO). For more information on principals with more than one growth measure, please see NYSED APPR Guidance and NYSED SLO Guidance: <https://www.engageny.org/resource/appr-3012-d>.

7.5) Assurances

Please check all of the boxes below:

Assure that the principal has an SLO or a back-up SLO, where applicable, consistent with the goal setting process developed by the Commissioner that results in a student growth score.	Checked
Assure that all growth targets represent a minimum of one year of expected growth, as determined by the superintendent or another trained administrator. Such targets, as determined by the superintendent or another trained administrator, may only take the following characteristics into account: poverty, students with disabilities, English language learners status and prior academic history.	Checked
Assure that all growth targets are approved by the superintendent or another trained administrator.	Checked
Assure that any disagreement between parties regarding the content of the SLO, including the growth target, will be resolved by the superintendent or another trained administrator.	Checked
Assure that if a principal's SLO is based on a small n size population and the district/BOCES chooses not to use the HEDI scoring bands listed in task 7.3, then the principal's 0-20 score and HEDI rating will be determined using the HEDI scoring bands specified by the Department in APPR Guidance.	Checked
Assure that processes are in place for the superintendent to monitor SLOs.	Checked
Assure that the final Student Performance category rating for each principal will be determined using the weights and growth parameters specified in Subpart 30-3 of the Rules of the Board of Regents.	Checked

Task 8.1) Assurances

Please check the boxes below.

Assure that if a principal receives an overall rating of Ineffective on the Student Performance category, and a State-designed supplemental assessment (option B) was included as an Optional subcomponent of the Student Performance category, then the principal must be rated Ineffective overall (see Education Law §3012-d(5)(a) and (7)).	Checked
Assure that if a principal receives an overall rating of Ineffective on the Student Performance category, and a State-provided growth score on a State-created or administered test (option A1 or A2) was included as an Optional subcomponent of the Student Performance category, then the principal may not be rated higher than Developing overall (see Education Law §3012-d(5)(a) and (7)). Assure the district/BOCES has collectively bargained appeal procedures that are consistent with the regulations and that they provide for the timely and expeditious resolution of an appeal.	Checked
---	---------

11.4) Appeals

Pursuant to Education Law §3012-d, a principal may only challenge the following in an appeal to their district/BOCES:

- (1) the substance of the annual professional performance review; which shall include the following:
 - (i) in the instance of a principal rated Ineffective on the student performance category, but rated Highly Effective on the school visit category based on an anomaly, as determined locally;
- (2) the school district's/BOCES' adherence to the standards and methodologies required for such reviews, pursuant to Education Law §3012-d; and
- (3) the adherence to the regulations of the Commissioner and compliance with any applicable locally negotiated procedures, as well as the school district's/BOCES' issuance and/or implementation of the terms of the teacher or principal improvement plan, as required under Education Law §3012-d.

Describe the procedure for ensuring that appeals of annual performance evaluations will be handled in a timely and expeditious way:

1. Only a principal whose APPR rating is 'Ineffective' shall have the right to appeal the substance of the APPR.
2. By 15 business days from the receipt of the APPR composite rating, the principal must submit a written appeal which shall include all reasons for appealing the rating.
3. The appeal shall be heard by the Superintendent with a response to the appeal no more than 30 days after the receipt of the appeal. The principal shall be provided an opportunity to respond to the Superintendent with any additional documentation within 15 days of receiving Superintendent's response.
4. Following a review of the appeal documentation, the Superintendent shall render a written decision affirming, modifying or rejecting the rating.
5. The Superintendent's decision regarding the appeal is final.

GROUND FOR AN APPEAL

An appeal may be filed challenging the APPR based upon one or more of the following grounds:

- a. The substance of the Annual Professional Performance Review;
- b. The district's failure to adhere to the standards and methodologies required for the Annual Professional Performance Review, pursuant to Education Law §3012-d and applicable rules and regulations;
- c. The district's failure to comply with either the applicable regulations of the Commissioner of Education, or locally negotiated procedures;
- d. The district's failure to issue and/or implement the terms of the Principal's Improvement Plan, where applicable, as required under Education Law §3012-d.

THIS PROCESS WILL BE COMPLETED WITHIN 90 DAYS OF THE FILING OF THE APPEAL.

11.5) Assurance: Evaluators

The district/BOCES assures that all evaluators will be properly trained and lead evaluators will be certified on the below elements prior to completing a principal's evaluation. Note: independent observers and peer observers need only be trained on elements 1, 2, and 4 below.

Principal Improvement Plan

Purpose

A Principal Improvement Plan provides organizational support and assistance to Principals who are not meeting the district's standards based on the result of receiving an APPR composite rating of "Ineffective" or "Developing". The plan demonstrates the district's commitment to quality leadership by providing a supported, structured, and focused system of assistance to ensure that every Principal is meeting district standards.

Phase One

Upon rating a principal "Developing" or "Ineffective" through an annual professional performance review a principal improvement plan will be developed and finalized by the superintendent or his/her designee in the exercise of their pedagogical judgment. Plan will commence implementation by October 1 in the school year following the school year for which the principal's performance is being measured or as soon as practicable thereafter.

Phase One begins when the concern is brought to the attention of the principal using the district's Principal Improvement Plan Phase One Form.

The concern should be identified referencing the Marshall's Principal Evaluation Rubric (2012 Revised Edition) and the specific performance issue(s) in question. Goals will be defined, and clear criteria will be identified on the form.

The Superintendent will meet with the principal to discuss the completed form. The principal may have representation at the meeting.

Phase One will not exceed a full calendar year. It may be provided a shorter interval depending on the nature of the issue. The superintendent will consult with the principal and determine the appropriate time interval for Phase One.

Typically, Phase One would end in three possible ways:

1. The concern is addressed by the principal, and the performance improves, and the principal continues within the APPR process.
2. The principal and superintendent agree that more time is needed in this phase and the awareness phase time is extended.
3. The superintendent makes a determination that the principal has not made satisfactory progress, and the principal is moved into Phase Two.

This form identifies specific domain and/or components to clearly define the area of concern.

Teacher Improvement Plan

Purpose and Intent of a Teacher Improvement Plan

A teacher improvement plan provides teachers with organizational support and assistance in improving professional practice. The following processes demonstrate the district's commitment to quality teaching by providing a supported, structured, and focused system of assistance. All components of the teacher's improvement plan will be developed and finalized by the superintendent or his/her designee in the exercise of their pedagogical judgment.

Upon rating a teacher "Developing" or "Ineffective" through an annual professional performance review a teacher improvement plan will be developed by the superintendent or his/her designee in the exercise of their pedagogical judgment. Plan will commence implementation by October 1 in the school year following the school year for which the teacher's performance is being measured or as soon as practicable thereafter.

Phase One

"Phase One" begins when the concern is brought to the attention of the teacher using the district's Teacher Improvement Plan Phase One Form.

The concern should be identified referencing the Danielson Framework and specific performance issue(s) in question. Goals will be defined, and clear criteria for success will be identified on the form.

The Superintendent or his/her designee will meet with the teacher to discuss the completed form. The Superintendent or designee will consult with the teacher and determine the appropriate time interval for this phase. The teacher may have SCTA representation at this meeting.

Phase One will not exceed a full calendar year. It may be provided in a shorter interval depending on the nature of the problem.

Typically, the Phase One would end in three possible ways:

1. The concern is addressed by the teacher, the performance improves, and the Superintendent or his/her designee informs the teacher he/she will continue within the District's APPR Plan.
2. The Superintendent or his/her designee decides, with input from the administrator and teacher more time is needed in this phase, and Phase One time is extended.
3. The Superintendent or his/her designee makes a determination that the teacher has not made satisfactory progress, and the teacher is moved into Phase Two.

This form identifies specific domains and/or components to clearly define the area of concern.
