Summary: All of us want children throughout Michigan to be successful. An important part of student success centers around proficiency in reading. That’s why a group of education experts developed new approaches for teachers to use in the classroom.

Literacy Essentials are free documents designed for Michigan educators to improve childhood literacy development. The Literacy Essentials provide research-proven, effective approaches to markedly improve literacy skills among Michigan’s youngest students.

Using the Literacy Essentials with every child, in every classroom, every day will help improve literacy among our youngest learners.

(2/2): Guaranteed and Viable Curriculum

Owner: Charles Negro

Start Date: 04/13/2022

Due Date: 06/30/2026

Summary: A “guaranteed” curriculum is often defined as a mechanism through which all students have an equal opportunity (time and access) to learn rigorous content. This requires a school-wide (or district-wide) agreement and common understanding of the essential content that all students need to know, understand, and be able to do. The word “all” needs emphasis; a guaranteed curriculum promotes equity, giving all children equal opportunity to learn essential content, and to provide this opportunity, curricular materials and instructional approaches must be grounded in research, implemented with fidelity, and must include vertical as well as horizontal alignment. For a curriculum to be “viable,” there must be adequate time for teachers to teach the content and for students to learn the content. A viable curriculum eliminates the supplementary or “nice to know” content. Teachers must have the flexibility to meet student needs through different methods of content delivery, helping students dive deeper into their passions. At its essence, a GVC represents the core non-negotiables of student learning. It’s what schools and teachers commit to providing for all students.

Start Date: 05/09/2022

Due Date: 06/30/2026

Summary: "A Multi-Tiered System of Supports (MTSS) is a comprehensive framework comprised of a collection of research-based strategies designed to meet the individual needs and assets of the whole child at all achievement levels.
