

## **Military Recruiters at BCHS**

The Braxton County Board of Education recognizes the important role that our armed forces play in keeping our nation free. It will be the policy of Braxton County Schools to cooperate with the recruiters from the various branches of the military. A special relationship exists between the Braxton County High School and the local Army National Guard; therefore, the intent of this policy is to encourage, enrich, and maximize the relationship.

After students enter the second semester of their junior year, they may have directory information released to the armed forces upon request from the recruiters.<sup>1</sup> Such a policy shall be consistent with the Procedures for the Collection, Maintenance, and Disclosure of Student Data.

Recruiters may make one visit per week to Braxton County High School for the purpose of general circulation of information to interested students. Once a contact has been established, the recruiter may, with approval of the student and his/her parents, schedule follow-up visits. Visits are to be scheduled by calling the guidance office. The guidance office will confirm the appointment with the student and assist in providing a location for the appointment. Visits by recruiters shall not interrupt instructional time of students.

Any violation of this policy will be reported to the Superintendent for investigation.
