

PUBLIC'S RIGHT TO KNOW

The Braxton County Board of Education believes that the public schools belong in every sense to the people who created them by consent, and support them by taxation.

The Board believes further that the schools are only as strong as the intelligent and informed support of the people of the community, and that the support of the people must be based upon their knowledge and understanding of, and their participation in the aims and efforts of the public schools.

The local newspapers, radio stations and other news media sources shall be kept informed by inviting representatives to attend regular or special Braxton County Board of Education meetings.

Simultaneously, however, the Board shall observe all statutory requirements relative to closed sessions where these are necessary to protect the good name of any individual.
