

Spring Lake Heights Elementary School

Request for Administration of Medication in School (For all medications including over the counter)

School policies do not allow the school nurse to give any type of medication to a student (including over the counter medication) without written permission from a doctor. The only medications that should be given by the nurse are those that must be given during school hours. The same policies apply to class trips.

Medication must be clearly labeled, in the original container. This should include the child's name, dosage and pharmacy information. **ALL medication must be transported to and from school by an adult.** Children may not carry medication into school for safety reasons.

Student _____ Date of Birth ___/___/_____

Date _____ Teacher _____

Diagnosis _____

Medication _____

Dose _____ Time to be given _____

Possible side effects _____

Special instructions _____

Does this child need to receive this medication on field trips? Yes/No (Circle one)
