

Updated: 2021-2022 South Vermillion Quarantine Guidance

Unvaccinated (can return on Day 11, if student has NO symptoms during the quarantine)	Partially vaccinated (You are not 2 weeks past second shot)	Fully vaccinated
<ul style="list-style-type: none"> Must quarantine for 10 calendar days from last day of exposure to positive person. Student can return to school on days 11-14 of quarantine, but student must wear a mask in school setting and distance from others as much as possible. CANNOT TEST OUT OF QUARANTINE. A negative test result will not allow a person to get out of quarantine early. If student has ANY signs or symptoms of COVID while at home, they should seek confirmatory PCR testing. If PCR is negative, due to being a close contact, you must complete the remainder (days 11-14) of quarantine at home and remain at home until symptoms are improved and fever-free for 24 hours For ALL extracurricular activities and sports: Masks must be worn at all times and socially distance >6 feet. If masks cannot be worn during activity and one can't socially distance, student should not practice/compete until after 14 days complete. 	<ul style="list-style-type: none"> Must quarantine for 10 calendar days from last day of exposure to positive person. Student can return to school on days 11-14 of quarantine, but student must wear a mask in school setting and distance from others as much as possible. CANNOT TEST OUT OF QUARANTINE. A negative test result will not allow a person to get out of quarantine early. If student has ANY signs or symptoms of COVID while at home, they should contact their physician or seek confirmatory PCR testing. If PCR is negative, due to being a close contact, you must complete the remainder (days 11-14) of quarantine at home and remain at home until symptoms are improved and fever-free for 24 hours For ALL extracurricular activities and sports: Masks must be worn at all times and socially distance >6 feet. If masks cannot be worn during activity and one can't socially distance, student should not practice/compete until after 14 days complete. 	<ul style="list-style-type: none"> You will not have to quarantine. You must continue to monitor for any symptoms for 14 days after exposure. You must wear a mask indoors for 14 days OR you can mask indoors until you have a PCR test completed 3-5 days after exposure and get a negative test result. If the test result is negative, you will not have to mask indoors. If you have any symptoms of COVID during your quarantine, stay home and seek confirmatory PCR testing. If test is negative, you may return to school once symptoms have resolved. For outdoor extracurricular activities or sports: If able to socially distance and participate in practice without contact, no masks worn. Masks recommended, when in close contact and when feasible, or unless you test negative. Indoor extracurricular activities or sports: Masks worn at all feasible times during the 14-day quarantine. If you get negative test results, no masking required. <hr/> <p>If you've had COVID in past 90 days:</p> <ul style="list-style-type: none"> You will not quarantine. Masks are recommended while indoors for 14 days after exposure. If you develop symptoms, contact your physician for guidance. Sports: If asymptomatic, you may participate fully.
