

What is the Greyhound Intramural Sports Program?

The Lebanon Community Unit School District believes that participation in organized competitive sports will reward your student(s) with character, and a work ethic that will be valuable to them on and off the field of play for the rest of their lives. The Greyhound Intramural Sports Program is designed for the maintenance of a proud tradition of student-athletes who demonstrate good academics, sportsmanship, self-discipline, responsibility, character, commitment, fairness, and respect.

The Greyhound Intramural Sports Program is an extension of our district's physical education instructional program, including the development of movement skills, health-related fitness, and personal and social responsibility, conducted before and/or after school among students in the same school. Our program will provide students with a variety of sports offerings that will be designed to accommodate differing levels of need, skill, readiness, and interests, while at the same time, helping to prepare our students for participation in SIJHSAA and IHSA sports programs offered to students..

The primary objectives for participants in Greyhound Intramurals are enjoyment and development of skills. Such an environment will enable students to extend learning of the benefits of movement, develop positive attitudes, increase confidence and self-esteem, enjoy positive social interactions, and broaden their interest in fitness and athletic events.

What are the requirements for participation?
