- Emergency Plan – Evonne-Some of the alarm sensors were going off when the heater goes on causing unnecessary drills. Repair person has been working on fixing the sensors and fixing bells to go off outside instead of just in the classrooms. Evonne has concerns about having only one emergency route during fire-There is a protocol to follow during fire which all should follow unless it becomes impractical, in which case teachers/admin. Will use their best judgment. Off campus evacuation site is Harwood Hall parking lot. Mary asks about town emergency plan, Joanie says Mike Carter and Sue Carberry are working on it. County will be installing air quality sensor in town and updating at 5am daily.

Facilities/Construction-Elementary project closing out-room 10 demolition in progress, culinary arts continuing.

Other-Stacey asks that the supply chain be looked at. She is concerned that the companies we support with our purchases may have socio/political affiliations that are incompatible with the inclusive policies of the school district. Joanie will bring a list of our suppliers so that those interested can research their affiliations.

Shannon let us all know that an electronic scoreboard will be installed at Harwood Park for baseball and softball.
