

HOMEBOUND INSTRUCTION

The schools may furnish homebound instruction to any student who must remain at home or in a hospital on a day or overnight basis, or any combination of both, for medical reasons and for a period of not less than 14 school days in any school year. The instruction is designed to provide maintenance in the basic academic courses so that when a student returns to school they will not be at a disadvantage because of the illness or the hospitalization.

To qualify for the program, the student needs a written statement from a medical doctor requesting the homebound instruction, stating the reasons why, and estimating the time the student will be out of school. This statement needs to be sent to the Director of Pupil Services.

Homebound instruction is offered in basic elementary subjects and in secondary subjects which do not require laboratories and special equipment, subject in all cases to the availability of qualified teachers. Certified teachers shall be assigned to homebound instruction by the Superintendent or designee.
