INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

School Board
Mobridge-Pollock School District 62-6
Mobridge, South Dakota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of Mobridge-Pollock School District No. 62-6, Mobridge, South Dakota (School District), as of June 30, 2018, and for the year then ended which collectively comprise the School District's basic financial statements and have issued our report thereon February 8, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Mobridge-Pollock School District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Current Audit Findings and Questioned Costs, we identified certain deficiencies in internal control over financial reporting we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the School District's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying Schedule of Current Audit Findings and Questioned Costs as items listed as 2018-001 through 2018-004 to be material weaknesses.

MEMBERS: AMERICAN INSTITUTE OF CERTIFIED PUBLIC ACCOUNTANTS

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

School District's Response to Findings

The School District's responses to the findings identified in our audit are described in the accompanying Schedule of Current Audit Findings and Questioned Costs. We did not audit the Mobridge-Pollock School District's responses and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. As required by South Dakota Codified Law 4-11-11, this report is a matter of public record and its distribution is not limited.

CERTIFIED PUBLIC ACCOUNTANTS AND CONSULTANTS
INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH
MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE

School Board
Mobridge-Pollock School District 62-6
Mobridge, South Dakota

Report on Compliance for Each Major Federal Program

We have audited the Mobridge-Pollock School District No. 62-6, South Dakota (School District) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Compliance Supplement that could have a direct and material effect on each of the School District's major federal programs for the year ended June 30, 2018. The School District's major federal programs are identified in the summary of audit results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the School District's major federal programs based on our audit of the types of compliance requirements referred to above.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Mobridge-Pollock School District No. 62-6 complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

MEMBERS: AMERICAN INSTITUTE OF CERTIFIED PUBLIC ACCOUNTANTS

Report on Internal Control Over Compliance

Management of the School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit, we considered the School District's internal control over compliance with these types of requirements that could have a direct and material effect on a major federal program in order to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly this report is not suitable for any other purposes. As required by South Dakota Codified Law 4-11-11, this report and our report on compliance for each major federal program are matters of public record and their distribution is not limited.

MOBRIDGE-POLLOCK SCHOOL DISTRICT NO. 62-6
SCHEDULE OF PRIOR AUDIT FINDINGS AND QUESTIONED COSTS
AS OF JUNE 30, 2018 AND FOR THE YEAR THEN ENDED

FINDINGS - FINANCIAL STATEMENT AUDIT

Finding 2017-001:

A material weakness was reported for a lack of segregation of duties for cash, revenues, receivables, inventories, payables, trust and agency, capital assets, and equity. This is undesirable from an internal control viewpoint, and could result in a loss of control over accounting transactions and errors not being found in a timely manner. This has been a finding since June 30, 1998.

Current Status: This has not been corrected and is restated as current audit finding 2018-001.

Finding 2017-002:

No internal control system designed to provide for the preparation of the financial statements in accordance with generally accepted accounting principles (GAAP). This has been a finding since June 30, 1998.

Current Status: This has not been corrected and is restated as current audit finding 2018-002.

Finding 2017-003:

No internal control structure to provide for the recording of all necessary material adjustments. This has been a finding since June 30, 1998.

Current Status: This has not been corrected and is restated as current audit finding 2018-003.

FINDINGS - MAJOR FEDERAL AWARD PROGRAM AUDIT

No prior federal findings exist.

**MOBRIDGE-POLLOCK SCHOOL DISTRICT NO. 62-6
SCHEDULE OF CURRENT AUDIT FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2018**

A - SUMMARY OF AUDIT RESULTS

Financial Statements

- a. An unmodified opinion was issued on the financial statements of each opinion unit.
- b. Material weaknesses were disclosed by our audit of the financial statements. They are described in findings 2018-001 through 2018-004.
- c. Our audit did not disclose any noncompliance which was material to the financial statements.

Federal Awards

- d. An unmodified opinion was issued on compliance with the requirements applicable to major programs.
- e. Our audit did not disclose any audit findings that need to be disclosed in accordance with the 2 CFR 200.516(a).
- f. The federal awards tested as major programs were:
 - a. Special Education Cluster
 - i. Grants to States, 84.027
 - ii. Preschool Grants 84.173
 - b. National Cscool Lunch Program
 - i. School Breakfast 10.553
 - ii. School Lunch 10.555
 - iii. Summer Food Service 10.582
 - c. Impact Aid 84.041
- g. The dollar threshold used to distinguish between Type A and Type B federal award programs was \$750,000.
- h. Mobridge-Pollock School District No 62-6 did not qualify as a low-risk auditee.

CURRENT FINDINGS - FINANCIAL STATEMENT AUDIT

FINDING 2018-001

Criteria

To obtain adequate internal control over cash management, the duties of collecting and handling of cash must be segregated from the recording of the cash transaction. The duties of preparing, mailing or otherwise distributing checks should be segregated from the recording process.

Statement of Condition

A lack of proper segregation of duties existed for the revenue and expenditure functions resulting in decreased reliability of reported financial data and increased potential for the loss of public assets. As a result, an inadequate segregation of duties existed for these functions of the School District.

MOBRIDGE-POLLOCK SCHOOL DISTRICT NO. 62-6
SCHEDULE OF CURRENT AUDIT FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2018

Cause and Effect

Inaccurate financial statement and/or misappropriations of funds could result from a lack of segregation of duties.

Identification of Repeat Finding:

This finding has been a repeat finding for several years.

Recommendation

We recommend that the School District's officials be cognizant of this lack of segregation of duties for revenues and attempt to provide compensating internal controls whenever, and wherever possible and practical.

FINDING 2018-002

Criteria

An organization's internal control structure should provide for the preparation of financial statements in accordance with generally accepted accounting principles (GAAP).

Statement of Condition

The School District does not have an internal control system designed to provide for the preparation of the annual financial statements including required footnotes and disclosures, in accordance with generally accepted accounting principles. As auditors, we were requested to draft the financial statements and accompanying notes to the financial statements.

Cause and Effect

This condition may affect the School District's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements.

Identification of Repeat Finding:

This finding has been a repeat finding for several years.

Recommendation

This circumstance is not unusual in an organization of this size. It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost or other considerations.

FINDING 2018-003

Criteria

While conducting our audit, we proposed material audit adjustments that would not have been identified as a result of the School District's existing internal controls, and therefore could have resulted in a material misstatement of the School District's financial statements.

**MOBRIDGE-POLLOCK SCHOOL DISTRICT NO. 62-6
SCHEDULE OF CURRENT AUDIT FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2018**

Statement of Condition

An organization's internal control structure should provide for the recording of all necessary material adjustments in order to ensure that accounting records are in accordance with generally accepted accounting principles.

Cause and Effect

This condition may affect the School District's ability to record, process, summarize, and report financial statement data consistent with the assertions of management in the financial statements.

Identification of Repeat Finding:

This finding has been a repeat finding for several years.

Recommendation

It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost and other considerations.

FINDING 2018-004

Criteria

An organization's internal control structure should provide for the necessary controls to ensure that all payroll items are being properly calculated and reported.

Statement of Condition

While conducting our audit, we identified a payroll item for an insurance stipend that was being included in wages eligible for SDRS contributions. This is a violation of SDCL 3-12-47.6.

Cause and Effect

This condition affects the amount of retirement being withheld and submitted for certain employees.

Recommendation

It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost and other considerations.

CURRENT FINDINGS - FEDERAL AUDIT FINDINGS

There are no written current federal compliance audit findings to report.

Mobridge-Pollock School District No. 62-6

1107 1st Ave East – Mobridge, SD 57601

Phone # 605-845-9200

Fax # 605-845-3455

Finding Number 2018-001: Material weakness in internal controls due to a lack of segregation of duties.

Views of Responsible officials and Planned Correct Action Plan:

The Mobridge-Pollock School District Business Manager, Kim Schneider, is the contact person at this entity responsible for the corrective action plan for this finding. This finding is due to the limited number of staff employed in the district's business office. Staffing the office at an efficient and financially feasible level precludes the hiring of enough personnel to provide an ideal environment for internal controls. This is an ongoing process, requiring continual analysis of processes and procedures in order to minimize the risk to the district.

Finding Number 2018-002: Material weakness due to a lack of internal control structure to enable for the preparation of the financial statements and related notes.

Views of Responsible officials and Planned Correct Action Plan:

The Mobridge-Pollock School District Business Manager, Kim Schneider, is the contact person at this entity responsible for the corrective action plan for this finding. The district is award of our overall responsibility for the preparation of the School's financial statements and footnotes and plans to attempt to set aside time to complete these statements and required footnotes. This is an ongoing process, requiring continual analysis of processes and procedures in order to minimize the risk to the district.

Finding Number 2018-003: Material weakness due to a lack of internal control structure to provide recording of all necessary material adjustments in order to ensure that accounting records are in accordance with GAAP.

Views of Responsible officials and Planned Correct Action Plan:

The Mobridge-Pollock School District Business Manager, Kim Schneider, is the contact person at this entity responsible for the corrective action plan for this finding. The district is award of our overall responsibility for the preparation of all material adjustments of the School's financial statements to ensure their accuracy. This is an ongoing process, requiring continual analysis of processes and procedures in order to minimize the risk to the district.

Finding Number 2014-003: Material weakness due to a lack of internal control structure to ensure that all payroll items are being properly calculated and reported.

Views of Responsible officials and Planned Correct Action Plan:

The Mobridge-Pollock School District Business Manager, Kim Schneider, is the contact person at this entity responsible for the corrective action plan for this finding. The district is award of our responsibility to ensure the payroll system is calculating accurately. This finding was corrected upon identification of the auditors.

INDEPENDENT AUDITORS' REPORT

School Board
Mobridge-Pollock School District 62-6
Mobridge, South Dakota

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Mobridge-Pollock School District No. 62-6 (School District), South Dakota, as of June 30, 2018 and for the year then ended, which collectively comprise the School District's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

The School District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinions.

MEMBERS: AMERICAN INSTITUTE OF CERTIFIED PUBLIC ACCOUNTANTS

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Mobridge-Pollock School District No. 62-6, South Dakota as of June 30, 2018, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Budgetary Comparison Schedules, Pension Schedules and Schedule of Funding Progress on pages 44 through 55 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The School District has omitted the Management's Discussion and Analysis (MD&A) that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The Schedule of Expenditures of Federal Awards which as required by the *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*, and the Combining Balance Sheet and Statement of Revenue, Expenditures and Changes in Fund Balance listed in the Table of Contents are presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated February 8, 2019 on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the School District's internal control over financial reporting and compliance.

MOBRIDGE-POLLOCK SCHOOL DISTRICT NO. 62-6
RECONCILIATION OF GOVERNMENTAL FUNDS
BALANCE SHEET TO THE STATEMENT OF NET POSITION
FOR THE YEAR ENDED JUNE 30, 2018

Total fund balances - governmental funds	\$	4,506,175
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.		16,451,181
Net pension asset reported in governmental activities is not an available financial resource and therefor is not reported in the funds.		16,722
Pension and other related outflows are components of pension liability (asset) and therefore are not reported in the funds.		1,780,813
Pension related deferred inflows are components of pension liability (asset) and therefore are not reported in the funds.		(379,620)
Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds.		
Early retirement benefits	\$125,002	
Qualified Zone Academy Bonds payable	\$866,000	
Other post-employment benefits	\$317,624	(1,308,626)
Property taxes become due and payable on January 1, each year, but are not collected/available soon enough to pay current period expenditures; therefore, they are reported as deferred inflow of resources in the fund financial statements. However, because the <i>delinquent taxes</i> are due and payable by the taxpayer at June 30, the delinquent taxes are reported as revenue on the government-wide financial statements.		40,878
Internal service funds are used by management to charge the costs of activities, such as insurance, to individual funds. The assets and liabilities of internal service funds are included in governmental activities in the statement of net position.		1,427
Net position- governmental funds	\$	<u>21,108,950</u>

MOBRIDGE-POLLOCK SCHOOL DISTRICT NO. 62-6
RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2018

Net change in fund balances - total governmental funds	\$	(446,851)
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay (\$710,858) exceeded depreciation expense (\$274,199) in the current period.		
		436,659
In both the government-wide and fund financial statements, revenues from property tax levies are applied to finance the budget of a particular period. Accounting for revenues from property tax accruals in the funds' statements differs from the accounting in the government-wide statements in that the fund financial statements require the amounts to be "available". This amount reflects the application of both the application period and "availability criteria".		
		(15,262)
Governmental funds recognize expenditures for amounts of early retirement benefits actually paid to employees with current financial resources during the fiscal year. In the statement of activities, expenses for these benefits are recognized when the employees elect to retire early.		
Early retirement	<u>\$97,192</u>	(97,192)
Some expenses reported in the statement of activities that do not require the use of current financial resources are not reported as expenditures in the governmental funds. (e.g., pension expense)		
		603,970
Changes in the pension related deferred outflows/inflows are direct components of pension liability (asset) and are not reflected in the governmental funds.		
		(21,743)
The accrual of OPEB costs are not reflected in the governmental funds, but the statement of activities reflects the change in this liability from one year to the next.		
		<u>(25,417)</u>

MOBRIDGE-POLLOCK SCHOOL DISTRICT NO. 62-6
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018
(See Independent Auditors' Report)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the School District conform to generally accepted accounting principles applicable to governmental entities in the United States of America.

a. Financial Reporting Entity:

The reporting entity of Mobridge-Pollock School District No. 62-6, consists of the primary government (which includes all of the funds, organizations, institutions, agencies, departments, and offices that make up the legal entity, plus those funds for which the primary government has a fiduciary responsibility, even though those fiduciary funds may represent organizations that do not meet the criteria for inclusion in the financial reporting entity); those organizations for which the primary government is financially accountable; and other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the financial reporting entity's financial statements to be misleading or incomplete.

b. Basis of Presentation :

Government-wide Financial Statements

The Statement of Net Position and Statement of Activities display information about the reporting entity as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The Statement of Net Position reports all financial and capital resources, in a net position form (assets minus liabilities equal net position). Net Position are displayed in three components, as applicable, net invested in capital assets, restricted (distinguishing between major categories of restrictions), and unrestricted.

The Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the School District and for each function of the School District's governmental activities. Direct expenses and those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by recipients of goods and services offered by the programs and (b) grants and contributions that are restricted to meeting the operations or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

NOTES TO FINANCIAL STATEMENTS - Page 2
(See Independent Auditors' Report)

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the District or it meets the following criteria:

1. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and;
2. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined, or;
3. Management has elected to classify one or more governmental or enterprise funds as major for consistency in reporting from year to year, or because of public interest in the fund's operations.

The funds of the School District financial reporting entity are described below within their respective fund types:

Governmental Funds

General Fund - A fund established by South Dakota Codified Laws (SDCL) 13-16-3 to meet all the general operational costs of the School District, excluding capital outlay fund and special education fund expenditures. The General Fund is always a major fund.

Special Revenue Fund Types - Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Capital Outlay Fund - A fund established by SDCL 13-16-6 to meet expenditures which result in the lease of, acquisition of or additions to real property, plant or equipment, textbooks and instructional software. This fund is financed by property taxes. This is a major fund.

Special Education Fund - A fund established by SDCL 13-37-16 to pay the costs for the special education of all children in need of special assistance and prolonged assistance who reside within the district. This fund is financed by grants and property taxes. This is a major fund.

Pension Fund - A fund established by SDCL 13-10-6 for the purpose of paying pensions to retired employees of school districts, which have established such systems, paying the District's share of retirement plan contributions, and for funding early retirement benefits to qualifying employees. This fund is financed by property taxes. This is not a major fund.

Capital Project Fund Types - Capital projects funds are used to account for the financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds).

The Capital project fund is the only capital projects fund maintained by the School District. This is a major fund.

NOTES TO FINANCIAL STATEMENTS - Page 3
(See Independent Auditors' Report)

Debt Service Funds - Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

The Bond Redemption Fund - A fund established by SDCL 13-16-13 to account for the payment of interest and principal on all bonded indebtedness. The Bond Redemption Fund is the only debt service fund maintained by the School District. This is not a major fund.

Proprietary Funds

Enterprise Fund Types - Enterprise funds may be used to report any activity for which a fee is charged to external users for goods or services. Activities are required to be reported as enterprise funds if any one of the following criteria is met.

- a. The activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity. Debt that is secured by a pledge of net revenues from fees and charges and the full faith and credit of a related primary government or component unit-even if that government is not expected to make any payments-is not payable solely from fees and charges of the activity. (Some debt may be secured, in part, by a portion of its own proceeds but should be considered as payable "solely" from the revenues of the activity.)
- b. Laws or regulations require that the activity's costs of providing services, including capital costs (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenues.
- c. The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs (such as depreciation or debt service).

Food Service Fund - A fund used to record financial transactions related to food service operations. This fund is financed by user charges and grants. This is a major fund.

Internal Service Fund - Internal service funds are used to report activities that provide goods or services to other funds, departments, or agencies of the School District, or to other governments, on a cost-reimbursement basis. Internal service funds are never considered to be major funds.

The Unemployment Fund is the only internal service fund maintained by the School District.

Fiduciary Funds

Fiduciary Funds consist of the following sub-categories and are never considered to be major funds.

Private-Purpose Trust Funds - Private-purpose trust funds are used to account for all other trust arrangements under which principal and income benefit individuals, private organizations, or other governments. The School District maintains the following private-purpose trust fund:

The Scholarship fund is used for the purposes of providing scholarships to students.

NOTES TO FINANCIAL STATEMENTS - Page 4
(See Independent Auditors' Report)

Agency Fund Types - Agency funds are used to account for resources held by the School District in a purely custodial capacity (assets equal liabilities). Since agency funds are custodial in nature they do not involve the measurement of results of operations. The School District maintains agency funds to hold assets as an agent in a trustee capacity for various classes, clubs and student organizations.

c. Measurement Focus and Basis of Accounting:

Measurement focus is a term used to describe "how" transactions are recorded within the various financial statements. Basis of accounting refers to "when" revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements, regardless of the measurement focus.

Measurement Focus

Government-wide Financial Statements

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus, applied on the accrual basis of accounting.

Fund Financial Statements

In the fund financial statements, the "current financial resources" measurement focus and the modified accrual basis of accounting are applied to government funds, while the "economic resources" measurement focus and the accrual basis of accounting are applied to the proprietary and similar fiduciary funds.

Basis of Accounting

Government-wide Financial Statements

In the government-wide Statement of Net Position and Statement of Activities, governmental and business-type, are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues and related assets generally are recorded when earned (usually when the right to receive cash vests); and expenses and related liabilities are recorded when an obligation is incurred (usually when the obligation to pay cash in the future vests).

Fund Financial Statements

All governmental funds are accounted for using the modified accrual basis of accounting. Their revenues, including property taxes, generally are recognized when they become measurable and available. "Available" means resources are collected or to be collected soon enough after the end of the fiscal year that they can be used to pay the bills of the current period. The accrual period does not exceed one bill-paying cycle, the length of that cycle is 60 days. The revenues which are accrued at June 30, 2018 are reimbursements for federal program expenditures and utility taxes.

Under the modified accrual basis of accounting, receivables may be measurable but not available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Reported deferred revenues are those where asset recognition criteria have been met but for which revenue recognition criteria have not been met.

NOTES TO FINANCIAL STATEMENTS - Page 5
(See Independent Auditors' Report)

Expenditures generally are recognized when the related fund liability is incurred. Exceptions to this general rule include principal and interest on the general long-term debt which are recognized when due.

All proprietary funds and fiduciary funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

d. Interfund Eliminations and Reclassifications:

Government-wide Financial Statements:

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and balances in the fund financial statement have been eliminated or reclassified, as follows:

In order to minimize the grossing-up effect on assets and liabilities within the governmental and business-type activities columns of the primary government, amounts reported as interfund receivables and payables have been eliminated in the governmental and business-type activities columns, except for the net, residual amounts due between governmental and business-type activities.

e. Deposits and Investments:

For the purpose of financial reporting, "cash and cash equivalents" includes all demand and savings accounts and certificates of deposit or short-term investments with a term to maturity at date of acquisition of three months or less. Investments in open-end mutual fund shares, or similar investments in external investment pools, are also considered to be cash equivalents.

Investments classified in the financial statements consist entirely of certificates of deposit whose term to maturity at date of acquisition exceeds three months, and/or those types of investments authorized by South Dakota Codified Law (SDCL) 4-5-6.

f. Capital Assets:

Capital assets include land, buildings, machinery and equipment, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period.

The accounting treatment over capital assets depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Government-Wide Statements

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated fair value on the date donated. Reported cost values include ancillary charges necessary to place the asset into its intended location and condition for use. Subsequent to initial capitalization, improvements or betterments that are significant and which extend the useful life of a capital asset are also capitalized.

NOTES TO FINANCIAL STATEMENTS - Page 6
(See Independent Auditors' Report)

For governmental activities Capital Assets, construction-period interest is not capitalized, in accordance with USGAAP, while for capital assets used in business-type activities/proprietary fund's operations, construction period interest is capitalized in accordance with USGAAP.

The total June 30, 2018 balance of capital assets for governmental activities includes approximately 17 percent for which the costs were determined by estimates of the original costs. The total June 30, 2018 balance of capital assets for business-type activities includes approximately 12 percent for which the values were determined by estimates of the original cost. These estimated original costs were established by deflated current replacement cost.

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the government-wide Statement of Activities, with net capital assets reflected in the Statement of Net Position. Capitalization thresholds (the dollar values above which assets acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements and proprietary funds are as follows:

	Capitalization Threshold	Depreciation Method	Estimated Useful Life
Land	All	N/A	N/A
Improvements	\$ 5,000	Straight-line	15-50 years
Buildings	\$ 5,000	Straight-line	15-50 years
Machinery and equipment	\$ 5,000	Straight-line	3-20 years
Food service equipment	\$ 5,000	Straight-line	3-15 years

Land is an inexhaustible capital asset and is not depreciated.

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital expenditures of the appropriate governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for on the accrual basis, the same as in the government-wide statements.

g. Long-Term Liabilities:

The accounting treatment of long-term liabilities depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term liabilities to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term liabilities consist primarily of OPEB, a Qualified Zone Academy Bond issue, and early retirement benefits payable.

In the fund financial statements, debt proceeds are reported as revenues (other financing sources), while payments of principal and interest are reported as expenditures when they become due. The accounting for proprietary fund long-term debt is on the accrual basis, the same in the fund statements as in the government-wide statements.

NOTES TO FINANCIAL STATEMENTS - Page 7
(See Independent Auditors' Report)

h. Program Revenues:

In the Government-Wide Statement of Activities, reported program revenues derive directly from the program itself or from parties other than the District's taxpayers or citizenry, as a whole. Program revenues are classified into three categories, as follows:

1. Charges for services - These arise from charges to customers, applicants, or others who purchase, use, or directly benefit from goods, services, or privileges provided, or are otherwise directly affected by the services.
2. Program-specific operating grants and contributions - These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for use in a particular program.
3. Program-specific capital grants and contributions - These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for the acquisition of capital assets for use in a particular program.

i. Proprietary Funds Revenue and Expense Classifications:

In the proprietary fund's Statement of Activities, revenues and expenses are classified in a manner consistent with how they are classified in the Statement of Cash Flows. That is, transactions for which related cash flows are reported as capital and related financing activities, noncapital financing activities, or investing activities are not reported as components of operating revenues or expenses.

j. Cash and Cash Equivalents:

The School District pools its cash resources for depositing and investing purposes. For purposes of financial statement reporting, the School District considers all highly liquid investments (including restricted assets) with an original maturity of three months or less when purchased to be cash equivalents. Accordingly, the enterprise fund has access to its cash resources on demand. Accordingly, all reported enterprise fund deposit and investment balances are considered to be cash equivalents for the purpose of the Statement of Cash Flows.

k. Equity Classifications:

Government-wide Statements

Equity is classified as Net Position and is displayed in three components:

1. Net Invested in Capital Assets - Consists of capital assets, including restricted capital assets, net of accumulated depreciation (if applicable) and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
2. Restricted Net Position - Consists of net assets with constraints placed on their use either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

NOTES TO FINANCIAL STATEMENTS - Page 8
(See Independent Auditors' Report)

3. Unrestricted Net Position - All other net assets that do not meet the definition of "restricted" or "net invested in capital assets."

Fund Financial Statements

Governmental fund equity is classified as fund balance, and is distinguished between Nonspendable, Restricted, Committed, Assigned or Unassigned components. Proprietary fund equity is classified the same as in the government-wide financial statements. Fiduciary fund equity (except for Agency Funds, which have no fund equity) is reported as net position held in trust for other purposes.

l. Application of Net Position:

It is the District's policy to first use restricted net position, prior to the use of unrestricted net position, when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

m. Fund Balance Classification Policies and Procedures:

In accordance with Government Accounting Standards Board (GASB) No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, the School District classifies governmental fund balances as follows:

- Nonspendable - includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.
- Restricted - includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.
- Committed - includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority and does not lapse at year-end.
- Assigned - includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund Balance may be assigned by the Board, Superintendent or Business Manager.
- Unassigned - includes positive fund balance within the General Fund which has not been classified within the above mentioned categories and negative fund balances in other governmental funds.

The School District uses restricted/committed amounts first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as a grant agreement requiring dollar for dollar spending. Additionally, the School District would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The School District does not have a formal minimum fund balance policy.

NOTES TO FINANCIAL STATEMENTS - Page 9
(See Independent Auditors' Report)

n. Pension:

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense (revenue), information about the fiduciary net position of the South Dakota Retirement System (SDRS) and additions to/deletions from SDRS's fiduciary net position have been determined on the same basis as they are reported by SDRS. School District contributions and net pension liability (asset) are recognized on an accrual basis of accounting.

NOTE 2 - DEPOSITS AND INVESTMENTS

The School District follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Various restrictions on deposits and investments are imposed by statutes. These restrictions are summarized below:

Deposits - The School District's deposits are made in qualified public depositories as defined by SDCL 4-6A-1, 13-16-15, 13-16-15.1 and 13-16-18.1. Qualified depositories are required by SDCL 4-6A-3 to maintain at all times, segregated from their other assets, eligible collateral having a value equal to at least 100 percent of the public deposit accounts which exceed deposit insurance such as the FDIC and NCUA. In lieu of pledging eligible securities, a qualified public depository may furnish irrevocable standby letters of credit issued by federal home loan banks accompanied by written evidence of that bank's public debt rating which may not be less than "AA" or a qualified public depository may furnish a corporate surety bond of a corporation authorized to do business in South Dakota.

Investments - In general, SDCL 4-5-6 permits school district funds to be invested only in (a) securities of the United States and securities guaranteed by the United States Government either directly or indirectly; or (b) repurchase agreements fully collateralized by securities described in (a) above; or in shares of an open-end, no-load fund administered by an investment company whose investments are in securities described in (a) above and repurchase agreements described in (b) above. Also, SDCL 4-5-9 requires investments to be in physical custody of the political subdivision or may be deposited in a safekeeping account with any bank or trust company designated by the political subdivision as its fiscal agent.

As of June 30, 2018, the School District did not have any investments. The investments reported in the financial statements consist of only certificates of deposit.

Credit Risk - State law limits eligible investments for the School District, as discussed above. The School District has no investment policy that would further limit its investment choices.

Interest Rate Risk - The School District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Credit Risk - The School District places no limit on the amount that may be invested in any one issuer. The School District does not have a deposit policy for custodial risk. As of June 30, 2018, the School District's deposits were fully insured or collateralized and were not exposed to custodial credit risk.

NOTES TO FINANCIAL STATEMENTS - Page 10
(See Independent Auditors' Report)

Assignment of Investment Income - State law allows income from deposits and investments to be credited to either the General Fund or the fund making the investment. The School District's policy is to credit all income from deposits and investments to the fund making the investment.

NOTE 3 - RESTRICTED CASH AND INVESTMENTS

Assets restricted to use for a specific purpose through segregation of balances in separate accounts are as follows:

<u>Amount</u>	<u>Purpose</u>
\$ 20,971	Student Incentives
<u>\$ 20,971</u>	

NOTE 4 - RECEIVABLES AND PAYABLES

Receivables and payables are not aggregated in these financial statements. The School District expects all receivables to be collected within one year. No allowances for estimated uncollectibles have been determined to be necessary.

NOTE 5 - INVENTORY

Inventory for consumption is stated at cost. Inventory for resale is stated at the lower of cost or market. The cost valuation method is consumption method. Donated commodities are valued at estimated market value based on the USDA price list at date of receipt.

In the government-wide financial statements, and in the enterprise fund financial statements, inventory items are initially recorded as assets and charged to expense in the various functions of government as they are consumed.

No material inventories were on hand as of June 30, 2018, in the government funds.

NOTE 6 - PROPERTY TAXES

Property taxes are levied on or before October 1, attach as an enforceable lien on property as of the following January 1, and are payable in two installments on or before the following April 30 and October 31. The county bills and collects the School District's taxes and remits them to the School District.

School District property tax revenues are recognized to the extent that they are used to finance each year's appropriations. Revenue related to current year property taxes receivable which is not intended to be used to finance the current year's appropriations and therefore are not susceptible to accrual has been reported as deferred revenue in both the fund financial statements and the government-wide financial statements. Additionally, in the fund financial statements, revenue from property taxes may be limited by any amount not collected during the current fiscal period or within the "availability period".

NOTES TO FINANCIAL STATEMENTS - Page 11
(See Independent Auditors' Report)

NOTE 7- CHANGES IN CAPITAL ASSETS

A summary of changes in capital assets for the year ended June 30, 2018 is as follows:

	Balance 7/1/2017	Increases	Decreases	Balance 6/30/2018
Primary Government				
Governmental activities				
Capital assets, not being depreciated				
Land	\$ 117,377	\$ -	\$ -	\$ 117,377
Construction in progress	-	700,531	-	700,531
Total capital assets, being depreciated	117,377	700,531	-	817,908
Capital assets, being depreciated				
Improvements	773,242	8,041	-	781,283
Buildings	16,364,360	-	-	16,364,360
Machinery and equipment	1,864,606	2,286	-	1,866,892
Total capital assets, being depreciated	19,002,208	10,327	-	19,012,535
Less accumulated depreciation for				
Improvements	291,413	28,800	-	320,213
Buildings	1,918,489	171,563	-	2,090,052
Machinery and equipment	895,160	73,836	-	968,996
Total accumulated depreciation	3,105,062	274,199	-	3,059,048
Total capital assets, being depreciated, net	15,897,146	(263,872)	-	15,633,274
Governmental activity capital assets, net	\$ 16,014,523	\$ 436,659	\$ -	\$ 16,451,182

Depreciation expense was charged to functions as follows:

Governmental activities	
Instruction	\$ 168,917
Support services	49,024
Co-curricular activities	52,866
Community	3,392
Total depreciation expense - governmental activities	\$ 274,199

NOTES TO FINANCIAL STATEMENTS - Page 12
(See Independent Auditors' Report)

	Balance 7/01/2017	Increases	Decreases	Balance 6/30/2018
Business-type activities				
Capital assets, being depreciated				
Machinery and equipment	\$ 184,908	\$ -	\$ -	\$ 184,908
Less accumulated depreciation for Machinery and equipment	139,448	5,237	-	144,685
 Total capital assets, being depreciated, net	 \$ 45,460	 \$ (5,237)	 \$ -	 \$ 40,223

Depreciation expense was charged to functions as follows:

Business-type activities	
Food Services	\$ 5,237

NOTE 8 - LONG-TERM LIABILITIES

A summary of changes in long-term liabilities for the year ended June 30, 2018 is as follows:

	Balance 7/1/2017	Additions	Deletions	Balance 6/30/2018
Primary government				
Governmental Activities:				
Qualified Zone	\$ 866,000	\$ -	\$ -	\$ 866,000
Early retirement benefits payable	\$ 27,810	\$ 115,606	\$ 18,414	\$ 125,002
Total governmental activities	\$ 893,810	\$ 115,606	\$ 18,414	\$ 991,002

Liabilities payable at June 30, 2018 are comprised of the following:

Qualified Zone Academy Bonds Payable:	
Payable from the Debt Service Fund	866,000
Early Retirement Payable: Payable from the Pension Fund	125,002
	<u>\$ 991,002</u>

NOTES TO FINANCIAL STATEMENTS - Page 13
(See Independent Auditors' Report)

Annual Requirements to Maturity for Long-Term Debt		
June 30, 2018		
Year Ended June 30	Early Retirement	QZAB
2019	\$ 25,246	-
2020	17,224	-
2021	17,224	-
2022 - 2032	65,308	866,000
Totals	\$ 125,002	\$ 866,000

The amounts for Early Retirement payable are calculated based upon undiscounted cash flows at 20% of the current base salary.

Qualified Zone Academy bonds are term bonds in which the School District makes annual deposits to a money market account at Dacotah Bank until the final term date at which time the entire liability becomes due.

Early Retirement Benefits payable for governmental activities typically have been liquidated from the general fund.

NOTE 9 - OPERATING LEASES AND MAINTENANCE SERVICE AGREEMENT

The School District currently leases a copier from Marco.

The following are the minimum payments on this operating lease and maintenance service agreement:

	Copier Lease	Total
2019	25,332	25,332
2020	25,332	25,332
2021	25,332	25,332
	<u>\$ 99,964</u>	<u>\$ 99,964</u>

NOTE 10 - INDIVIDUAL FUND INTERFUND TRANSACTIONS

The following interfund transfers were made for the year ended June 30, 2018.

	<u>Transfers to</u>			
<u>Transfers From</u>	Capital Project Fund	Bond Redemption Fund	Food Service Fund	Total
General Fund	\$ 400,000	\$ -	\$ 67,995	\$ 467,995
Capital Outlay Fund	700,000	86,600	-	786,600
Totals	\$ 1,100,000	\$ 86,600	\$ 67,995	\$ 1,254,595

The School District transferred money from the general fund to the food service fund to subsidize the operating loss of that fund. The transfer to the Bond Redemption fund from the Capital Outlay fund was to move the debt service payment to that account.

NOTE 11 - OTHER POST EMPLOYMENT BENEFITS - HEALTHCARE PLAN

Plan Description - Sanford Health Plan is a single-employer defined benefit healthcare plan administered by the Mobridge-Pollock School District. The Sanford Health Plan provides medical insurance benefits to eligible retirees and their spouses as permitted by South Dakota Codified Law 6-1-16. Benefit provisions were established and may be amended during the negotiated agreement process between district certified staff and the governing board. The health plan issues a publicly available actuarial report that includes required supplementary information. That report may be obtained by writing to the Mobridge-Pollock School District or by calling them.

Funding: The contribution requirements of plan members and the School District are established and may be amended during the negotiated agreement process between district certified staff and the governing board. A teacher or administrator, who retires from the District on or after the age of 55 and with at least 15 years of consecutive service with the District, may be eligible for retiree health insurance coverage. Coverage ceases when the retiree attains the age of 65. The retiree is responsible for 100% of the full active premium rates for either single or family coverage. (The pay-as-you-go basis).

Actuarial Methods and Assumptions: Where consistent with the terms of the plan, actuarial assumptions have utilized the assumptions for the South Dakota Retirement System (SDRS) as provided in the June 30, 2018 Actuarial Valuation Report.

Changes in the Total OPEB Liability:

Beginning of Year Balances	292,207
Service Cost	60,346
Interest on Net OPEB Obligation	9,703
Effect of Assumptions Changes or Inputs	(20,255)
Benefit Payments	(24,377)
Net OPEB Obligation (Asset) - End of year	<u>317,624</u>

Sensitivity of liability (asset) to changes in the discount rate:

The following presents the total OPEB liability of the District calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate of 3.58%:

	1% Decrease	Current Discount Rate	1% Increase
Total OPEB liability	345,863	317,624	292,686

For the year ended June 30, 2018, the School District recognized OPEB expense of \$67,765. At June 30, 2018 the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Inflows Of Resources	Deferred Outflows of Resources
Changes of assumption	\$ (17,971)	\$ -

NOTES TO FINANCIAL STATEMENTS - Page 15
(See Independent Auditors' Report)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be

Year ended June 30:

2019	\$	(2,284)
2020	\$	(2,284)
2021	\$	(2,284)
2022	\$	(2,284)
2023	\$	(2,284)
Thereafter	\$	(6,551)
	\$	<u>(17,971)</u>

NOTE 12 - RESTRICTED NET POSITION

The following table shows the net assets restricted for other purposes as shown on the Statement of Net Position:

<u>Fund</u>	<u>Restricted By</u>	<u>Amount</u>
Major Purposes:		
Capital Outlay purposes	Law	\$ 1,435,829
Special Education purposes	Law	\$ 128,338
Capital Project purposes	Law	\$ 398,375
Other Purposes		
Debt Service purposes	Debt Covenants	\$ 241,170
Pension purposes	Law	\$ 65,077
SDRS pension purposes	Law	\$ 1,435,886
Pow Wow	Donor	\$ 5,141
Student Incentives	Donor	\$ 20,971
Total Restricted Net Position		<u>\$ 3,730,787</u>

NOTE 13 - PENSION PLAN

Plan Information:

All permanent employees working twenty or more hours per week participate in the South Dakota Retirement System (SDRS), a cost-sharing, multiple employer public employee retirement system established to provide retirement benefits for employees of the State of South Dakota and its political subdivisions. The SDRS provides retirement, disability and survivor benefits. The right to receive retirement benefits vests after three years of credited service. Authority for establishing, administering and amending plan provisions are found in South Dakota Codified Law 3-12. The SDRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the SDRS, PO Box 109, Pierre, SD 57501-1098 or by calling (605) 773-3731.

Benefits Provided:

SDRS has three different classes of employees, Class A, Class B public safety and Class B judicial. Class A retirement benefits are determined as 1.7 percent prior to 2008 and 1.55 percent thereafter of the employee's final 3-year average compensation times the employee's years of service. Employees with 3 years of service are eligible to retire at age 55. Class B public safety benefits are determined as 2.4 percent for service prior to 2008 and 2.0 percent thereafter of employee final average compensation. Class B judicial benefits are determined as 3.733 percent for service prior to 2008 and 3.333 percent thereafter of employee final average compensation. All Class B employees with 3 years of service are eligible to retire at age 45. Employees are eligible for service-related disability benefits regardless of length of service. Three years of service is required for nonservice-related disability eligibility. Disability benefits are determined in the same manner as retirement benefits but are payable immediately without an actuarial reduction. Death benefits are a percent of the employee's final average salary.

The annual increase in the amount of the SDRS benefits payable on each July 1st is indexed to the consumer price index (CPI) based on SDRS funded status:

- If the SDRS market value funded ratio is 100% or more – 3.1% COLA
- If the SDRS market value funded ratio is 80.0% to 99.9%, index with the CPI
 - 90.0% to 99.9% funded — 2.1% minimum and 2.8% maximum COLA
 - 80.0% to 90.0% funded — 2.1% minimum and 2.4% maximum COLA
- If the SDRS market value funded ratio is less than 80% — 2.1% COLA

The 2017 legislation modified the COLA, effective for the July 1, 2018 increase:

Baseline actuarial accrued liabilities will be calculated assuming the COLA is equal to long-term inflation assumption of 2.25%.

If the fair value of assets is greater or equal to the baseline actuarial accrued liabilities, the COLA will be:

The increase in the 3rd quarter CPI-W, no less than 0.5% and no greater than 3.5%.

If the fair value of assets is less than the baseline actuarial accrued liabilities, the COLA will be:

The increase in the 3rd quarter CPI-W, no less than 0.5% and no greater than a restricted maximum such that, that if the restricted maximum is assumed for future COLAs, the fair value of assets will be greater or equal to the accrued liabilities.

All benefits except those depending on the Member's Accumulated Contributions are annually increased by the Cost-of-Living Adjustment.

Contributions:

Per SDCL 3-12, contribution requirements of the active employees and the participating employers are established and may be amended by the SDRS Board. Covered employees are required by state statute to contribute the following percentages of their salary to the plan; Class A Members, 6% of salary; Class B Judiciary Members, 9.0% of salary; and Class B Public Safety Members, 8.0% of salary. State statute also requires the employer to contribute an amount equal to the employee's contribution. The Cooperative's share of contributions to the SDRS for the years ended June 30, 2018, 2017 and 2016 were \$233,909, \$194,373 and \$189,990, respectively, equal to the required contributions each year.

NOTES TO FINANCIAL STATEMENTS - Page 17
(See Independent Auditors' Report)

Pension Liabilities (Assets), Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources to Pensions:

At June 30, 2017, SDRS is 100.1% funded and accordingly has a net pension asset. The proportionate shares of the components of the net pension asset of South Dakota Retirement System, for the School District as of June 30, 2018 are as follows:

Proportionate share of total pension liability	\$ 22,324,458
Less proportionate share of net position restricted for pension benefits	22,341,871
Proportionate share of net pension liability (asset)	<u>\$ (17,413)</u>

At June 30 2018, the District reported an asset of \$17,413 for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2017 and the total pension asset used to calculate the net pension asset was based on a projection of the School District's share of contributions to the pension plan relative to the contributions of all participating entities. At June 30, 2017, the School District's proportion was .19187390%, which is a increase of .00215057% from its proportion measure as of June 30, 2016.

For the year ended June 30, 2018, the School District recognized reduction of pension expense of \$402,348. At June 30, 2018 the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows Of Resources</u>	<u>Deferred Inflows Of Resources</u>
Difference between expected and actual experience	\$ 279,000	\$ -
Changes in assumption	\$ 1,351,992	\$ -
Net difference between projected and actual earnings on pension plan investments	\$ -	\$ 334,777
Changes in proportion and difference between the District contributions and proportionate share of contributions.	\$ 14,669	\$ 59,705
District contributions subsequent to the measurement date	\$ 225,221	\$ -
Total	<u>\$ 1,870,882</u>	<u>\$ 394,482</u>

\$225,221 reported as deferred outflow of resources related to pensions resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (revenue) as follows:

Year Ended June 30:

2019	342,301
2020	578,351
2021	417,973
2022	(87,446)
TOTAL	<u>\$ 1,251,179</u>

NOTES TO FINANCIAL STATEMENTS - Page 18
(See Independent Auditors' Report)

Actuarial Assumptions:

The total pension liability (asset) in the June 30, 2017 actuarial valuation was determined using the following actuarial

Inflation	2.25 percent
Salary Increases	Graded by year of service, from 6.5% at entry to 3.0%
Investment Rate of Return	6.5% net of plan investment expenses

Mortality rates were based on 97% of the RP-2014 Mortality Table, projected generationally with Scale MP-2016, white collar rates for females and total dataset rates for males. Mortality rates for disabled members were based on the RP-2014 Disabled Retiree Mortality Table, projected generationally with Scale MP-2016.

Investment portfolio management is the statutory responsibility of the South Dakota Investment Council (SDIC), which may utilize the services of external money managers for management of a portion of the portfolio. SDIC is governed by the Prudent Man Rule (i.e., the council should use the same degree of care as a prudent man). Current SDIC investment policies dictate limits on the percentage of assets invested in various types of vehicles (equities, fixed income securities, real estate, cash, private equity, etc.). The long-term expected rate of return on pension plan investments was determined using a method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2017 (see the discussion of the pension plan's investment policy) are summarized in the following table using geometric means:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	58.00%	4.80%
Fixed Income	30.00%	1.80%
Real Estate	10.00%	4.60%
Cash	2.00%	0.70%
Total	100.00%	

The discount rate used to measure the total pension liability (asset) was 6.5%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that matching employer contributions from will be made at rates equal to the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability (asset).

NOTES TO FINANCIAL STATEMENTS - Page 19
(See Independent Auditors' Report)

Sensitivity of liability (asset) to changes in discount rate:

The following presents the District's proportionate share of net pension liability (asset) calculated using the discount rate of 6.5% as well as what the School District's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage point lower (5.5%) or 1-percentage point higher (7.5%) than the current rate:

	1% Decrease	Current Discount Rate	1% Increase
District's proportionate share of the net pension liability (asset)	\$ 3,189,143	\$ (17,413)	\$ (2,628,592)

Pension Plan Fiduciary Net Position

Detailed information about the plan's fiduciary net position is available in the separately issued SDRS financial report.

NOTE 14 - SPECIAL TERMINATION BENEFITS

The School District maintains an early retirement program. Eligible employees at least 55 years of age with 15 years of service to the School District may elect early retirement benefits. The payment will be 20% of the current year's negotiated base salary until reaching the age of 62. For all employees beginning early retirement after July 1, 2008, benefits will be extended to age 65. As of June 30, 2018, the School was paying benefits to four qualified individuals.

NOTE 15 - RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the period ended June 30, 2018 the School District managed its risks as follows:

Employee Health Insurance

The School District purchases health insurance for its employees from a commercial insurance carrier. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

Liability Insurance

The School District purchases liability insurance for risks related to torts, theft or damage to property; and errors and omissions of public officials and vehicle coverage from a commercial insurance carrier. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

Workmen's Compensation

The School District purchases liability insurance for workers compensation from a commercial carrier. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

NOTES TO FINANCIAL STATEMENTS - Page 20
(See Independent Auditors' Report)

Unemployment Benefits

The School District has elected to be self-insured and retain all risk for liabilities resulting from claims for unemployment benefits.

During the year ended June 30, 2018, no claims were filed for unemployment benefits. At June 30, 2018, no claims had been filed or were outstanding for unemployment benefits and none are anticipated in the next fiscal year.

NOTE 16 - PRIOR PERIOD ADJUSTMENT

A prior period adjustment is necessary to transition from GASB 45 to GASB 75 as of June 30, 2017. The following exhibit displays that transition.

Net OPEB obligation/(asset) on June 30, 2017	\$ 142,451
Prior-period adjustment	<u>\$ 149,756</u>
Net OPEB liability on July 1, 2017	\$ 292,207

NOTE 17 - LITIGATION

At June 30, 2018, the School District was not involved in any litigation.

NOTE 18 - SUBSEQUENT EVENTS

Management has evaluated whether any subsequent events have occurred through December 21, 2018, the date on which the financial statements were available to be issued. Management has determined there are none.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
SCHEDULES OF BUDGETARY COMPARISONS FOR THE GENERAL FUND AND FOR EACH
MAJOR SPECIAL REVENUE FUND WITH A LEGALLY REQUIRED BUDGET
FOR THE YEAR ENDED JUNE 30, 2018

NOTE 1 - BUDGETS AND BUDGETARY ACCOUNTING

The School District followed these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to the first regular board meeting in May of each year the school board causes to be prepared a proposed budget for the next fiscal year according to the budgetary standards prescribed by the Auditor General.
2. The proposed budget is considered by the school board at the first regular meeting held in the month of May of each year.
3. The proposed budget is published for public review no later than July 15 each year.
4. Public hearings are held to solicit taxpayer input prior to the approval of the budget.
5. Before October 1 of each year, the school board must approve the budget for the ensuing fiscal year for each fund, except trust and agency funds.
6. After adoption by the school board, the operating budget is legally binding and actual expenditures of each fund cannot exceed the amounts budgeted, except as indicated in number 8.
7. A line item for contingencies may be included in the annual budget. Such a line item may not exceed five percent of the total School District budget and may be transferred by resolution of the school board to any other budget category, except for capital outlay, that is deemed insufficient during the year.
8. If it is determined during the year that sufficient amounts have not been budgeted, state statute allows adoption of supplemental budgets when moneys are available to increase legal spending authority.
9. Unexpended appropriations lapse at year-end unless encumbered by resolution of the school board.
10. Formal budgetary integration is employed as a management control device during the year for the General Fund and Special Revenue Funds.

MOBRIDGE-POLLOCK SCHOOL DISTRICT NO. 62-6
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
SCHEDULES OF BUDGETARY COMPARISONS FOR THE GENERAL FUND AND FOR EACH
MAJOR SPECIAL REVENUE FUND WITH A LEGALLY REQUIRED BUDGET
FOR THE YEAR ENDED JUNE 30, 2018

11. The following reconciles the U.S. GAAP Basis Fund Balance to the budgetary basis Fund Balance for the General Fund as of June 30, 2018:

U.S. GAAP Basis Fund Balance	\$	2,251,729
Add: portion comprised of excess Impact Aid funds transferred	\$	227,558
Budgetary Basis Fund Balance	\$	<u>2,479,287</u>

NOTE 2 - USGAAP/BUDGETARY ACCOUNTING BASIS DIFFERENCES

The financial statements prepared in conformity with USGAAP present capital outlay expenditure information in a separate category of expenditures. Under the budgetary basis of accounting, capital outlay expenditures are reported within the function to which they relate. For example, the purchase of a new school bus would be reported as a capital outlay expenditure on the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances, however in the Budgetary RSI Schedule, the purchase of a school bus would be reported as an expenditure of the Support Services-Business/Pupil Transportation function of government, along with all other current Pupil Transportation related expenditures.

NOTE 1 - BUDGETS AND BUDGETARY ACCOUNTING

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the School District under programs of the federal government for the year ended June 30, 2018. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the School District.

NOTE 2 - FEDERAL REIMBURSEMENTS

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The School District has elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE 3 - FEDERAL REIMBURSEMENTS

Federal reimbursements are not based upon specific expenditures. Therefore, some amounts reported here represent cash received and/or food commodities used rather than federal expenditures.
