## **SUBJECT: CONCUSSION MANAGEMENT**

The Board of Education recognizes that concussions and head injuries are the most commonly reported injuries in children and adolescents who participate in sports and recreational activities. The physical and mental well-being of our students is a primary concern. Therefore, the \_\_\_\_\_ School District adopts the following Policy to support the proper evaluation and management of concussion injuries.

A concussion is a mild traumatic brain injury (MTBI). A concussion occurs when normal brain functioning is disrupted by a blow or jolt to the head or body that causes the head and brain to move rapidly back and forth. Recovery from concussion and its symptoms will vary. Avoiding re-injury and over-exertion until fully recovered are the cornerstones of proper concussion management. Concussions can impact a student's academics as well as their athletic pursuits.

### **Concussion Management Team (CMT)**

In accordance with the Concussion Management and Awareness Act, the School District is authorized, at its discretion, to establish a Concussion Management Team (CMT) which may be composed of the certified athletic director, a school nurse, the school physician, a coach of an interscholastic team, a certified athletic trainer or such other appropriate personnel as designated by the School District. The Concussion Management Team shall oversee and implement the School District's concussion policy and regulations, including the requirement that all school coaches, physical education teachers, nurses and certified athletic trainers who work with and/or provide instruction to pupils engaged in school-sponsored athletic activities complete training relating to mild traumatic brain injuries. Furthermore, every concussion management team may establish and implement a program which provides information on mild traumatic brain injuries to parents and persons in parental relation throughout each school year.

### **Staff Training/Course of Instruction**

Each school coach, physical education teacher, school nurse and certified athletic trainer who works with and/or provides instruction to students in school-sponsored athletic activities (including physical education class and recess) shall complete a course of instruction every two (2) years relating to recognizing the symptoms of concussions or MTBIs and monitoring and seeking proper medical treatment for students who suffer from a concussion or MTBI.

Components of the training will include:

- a) The definition of MTBI;
- b) Signs and symptoms of MTBI;

(Continued)

**SUBJECT: CONCUSSION MANAGEMENT (Cont'd.)**

- c) How MTBIs may occur;
- d) Practices regarding prevention; and
- e) Guidelines for the return to school and school activities for a student who has suffered an MTBI, even if the injury occurred outside of school.

The course can be completed by means of instruction approved by SED which include, but are not limited to, courses provided online and by teleconference.

**Information to Parents**

The District shall include the following information on concussion in any permission or consent form or similar document that may be required from a parent/person in parental relation for a student's participation in interscholastic sports. Information will include:

- a) The definition of MTBI;
- b) Signs and symptoms of MTBI;
- c) How MTBIs may occur;
- d) Practices regarding prevention; and
- e) Guidelines for the return to school and school activities for a student who has suffered an MTBI, even if the injury occurred outside of school.

The District will provide a link on its website, if one exists, to the above list of information on the State Education Department's and Department of Health's websites.

**Identification of Concussion and Removal from Athletic Activities**

The District shall require the immediate removal from all athletic activities of any student who has sustained, or is believed to have sustained, a mild traumatic brain injury (MTBI) or concussion. Any student demonstrating signs, symptoms or behaviors consistent with a concussion while participating in a class, extracurricular activity, or interscholastic athletic activity shall be removed from the class, game or activity and must be evaluated as soon as possible by an appropriate health care professional. Such removal must occur based on display of symptoms regardless of whether such injury occurred inside or outside of school. If there is any doubt as to whether the student has

(Continued)

# POLICY

3 of 3

Students

## **SUBJECT: CONCUSSION MANAGEMENT (Cont'd.)**

sustained a concussion, it shall be presumed that the student has been injured until proven otherwise. The District shall notify the student's parents or guardians and recommend appropriate evaluation and monitoring.

The School District may choose to allow credentialed District staff to use validated Neurocognitive computerized testing as a concussion assessment tool to obtain baseline and post-concussion performance data. These tools are not a replacement for a medical evaluation to diagnose and treat a concussion.

### **Return to School Activities and Athletics**

The student shall not return to physical activity (including athletics, physical education class and recess) until he/she has been symptom-free for not less than twenty-four (24) hours, and has been evaluated and received written authorization from a licensed physician. In accordance with Commissioner's Regulations, the School District's Medical Director will give final clearance on a return to activity for extra-class athletics. All such authorizations shall be kept on file in the student's permanent health record. The standards for return to athletic activity will also apply to injuries that occur outside of school. School staff should be aware that students may exhibit concussion symptoms caused by injuries from outside activities and that these visible symptoms also indicate a removal from play.

The District shall follow any directives issued by the student's treating physician with regard to limitations and restrictions on school and athletic activities for the student. The District's Medical Director may also formulate a standard protocol for treatment of students with concussions during the school day.

In accordance with NYSED guidelines, this Policy shall be reviewed periodically and updated as necessary in accordance with New York State Education Department guidelines. The Superintendent, in consultation with the District's Medical Director and other appropriate staff, may develop regulations and protocols for strategies to prevent concussions, the identification of concussions, and procedures for removal from and return to activities or academics.

## By-Laws

**SUBJECT: DUTIES OF THE SCHOOL PHYSICIAN/NURSE PRACTITIONER**

The school physician/nurse practitioner shall be appointed by the Board of Education. The duties of the school physician/nurse practitioner shall include, but are not limited to, the following:

- a) Performs professional medical services in the examination and care of school children;
- b) Performs routine examinations of school children to detect the presence of contagious diseases and physical defects;
- c) Serves as an on call member on the Committee on Special Education;
- d) Reports to the Board on school health services;
- e) Coordinates scheduling for physical examinations to all students participating in interscholastic athletics;
- f) Provides final medical clearance for a return to ~~physical activity~~ extra class athletic activities for all students ~~suspected of~~ who have or are believed to have sustained a mild traumatic brain injury (concussion);
- g) Develops the program of health service in accordance with policies approved by the Board and as directed by the Superintendent of Schools;
- h) Conducts physical exams for all bus drivers and substitutes prior to employment and annually thereafter;
- \*i) Conducts physical exams for all new employees (instructional and non-instructional);
- j) Conducts a medical evaluation on any employee at the request of the Board of Education.

8 NYCRR Section 136.5

Education Law Sections 902, 913 and 6902

*\*Customize to District -- delete if District does not conduct physical exams for all new employees.*  
Adoption Date

**SUBJECT: FIRE DRILLS, BOMB THREATS AND BUS EMERGENCY DRILLS****Fire Drills**

The administration of each school building shall provide instruction for and training of students, through fire drills, in procedures for leaving the building in the shortest possible time and without confusion or panic.

Fire drills shall be held at least twelve (12) times in each school year; eight (8) of these shall be held between September 1 and December 1. At least one-third (1/3) of all such required drills shall be through use of the fire escapes on buildings where fire escapes are provided. At least one (1) of the twelve (12) drills shall be held during ~~each of the~~ regular lunch periods, or shall include special instruction on the procedures to be followed if a fire occurs during a student's lunch period.

At least two (2) additional drills shall be held during summer school in buildings where summer school is conducted and one (1) of these drills shall be held during the first week of summer school.

After-School Programs

The Building Principal or his/her designee shall require those in charge of after-school programs, attended by any individuals unfamiliar with the school building, to announce at the beginning of such programs the procedures to be followed in the event of an emergency.

**Bomb Threats**School Bomb Threats

A bomb threat, even if later determined to be a hoax, is a criminal action. No bomb threat should be treated as a hoax when it is first received. The school has an obligation and responsibility to ensure the safety and protection of the students and other occupants upon the receipt of any bomb threat. This obligation must take precedence over a search for a suspect object. Prudent action is dependent upon known information about the bomb threat - location, if any; time of detonation; etc. If the bomb threat is targeted at the school parking lot or the front of the school, building evacuation may not be an appropriate response. If the bomb threat indicates that a bomb is in the school, then building evacuation is necessary unless the building has been previously inspected and secured in accordance with State Education Department Guidelines. Specific procedures can be found in the building level school plan, as required by Project SAVE.

The decision to evacuate a building or to take shelter is dependent upon information about where the bomb is placed and how much time there is to reach a place of safety. Prudent action dictates that students and other occupants be moved from a place of danger to a place of safety. Routes of egress and evacuation or sheltering areas must be thoroughly searched for suspicious objects before ordering

(Continued)

**SUBJECT: FIRE DRILLS, BOMB THREATS AND BUS EMERGENCY DRILLS (Cont'd.)**

an evacuation. Failure to properly search evacuation routes before an evacuation takes place can expose students and staff to more danger than remaining in place until the search has taken place. Assistance is available from local police agencies and the New York State Police to train staff to check evacuation routes.

**Police Notification and Investigation**

A bomb threat to a school is a criminal act, which is within the domain and responsibility of law enforcement officials. Appropriate State, county, and/or local law enforcement agencies must be notified of any bomb threat as soon as possible after the receipt of the threat. Law enforcement officials will contact, as the situation requires, fire and/or county emergency coordinators according to the county emergency plan.

Therefore, the building administrator or designee is to notify local law enforcement officials and follow established procedures to move all occupants out of harm's way.

**Implementation**

The Board of Education directs the Superintendent or his/her designee to develop administrative regulations to implement the terms of this policy. Additionally, such regulations are to be incorporated in the District-wide School Safety Plan and the building level school safety plan, with provisions to provide written information to all staff and students regarding emergency procedures by October 1 of each school year, an annual drill to test the emergency response procedures under each of its building level school safety plans; and the annual updating of the District-wide and building level school safety plans, by July 1, as mandated pursuant to law and/or regulation.

**Bus Emergency Drills**

The Board of Education directs the administration to conduct a minimum of three (3) emergency drills to be held on each school bus during the school year. The first drill is to be conducted during the first seven (7) days of school, the second drill between November 1 and December 31, and the third drill between March 1 and April 30. No drills shall be conducted when buses are on routes.

Students who ordinarily walk to school shall also be included in the drills. Students attending public and nonpublic schools who do not participate in regularly scheduled drills shall also be provided drills on school buses, or as an alternative, shall be provided classroom instruction covering the content of such drills.

Each drill shall include instruction in all topics mandated by the Education Law and the Commissioner's Regulations and shall include, but will not be limited to, the following:

(Continued)

**SUBJECT: FIRE DRILLS, BOMB THREATS AND BUS EMERGENCY DRILLS (Cont'd.)**

- a) Safe boarding and exiting procedures with specific emphasis on when and how to approach, board, disembark, and move away from the bus after disembarking;
- b) The location, use and operation of the emergency door, fire extinguishers, first aid equipment and windows as a means of escape in case of fire or accident;
- c) Orderly conduct as bus passengers.

Instruction on Use of Seat Belts

When a school bus is equipped with seat safety belts, the District shall ensure that all students who are transported on such school bus owned, leased or contracted for by the District or BOCES shall receive instruction on the use of seat safety belts. Such instruction shall be provided at least three (3) times each year to both public and nonpublic school students who are so transported and shall include, but not be limited to:

- a) Proper fastening and release of seat safety belts;
- b) Acceptable placement of seat safety belts on students;
- c) Times at which the seat safety belts should be fastened and released; and
- d) Acceptable placement of the seat safety belts when not in use.

**SUBJECT: SPORTS AND THE ATHLETIC PROGRAM**

Athletics are an integral part of a well balanced educational program. Therefore, the Board supports within its resources a broad sports program with equal access for both males and females, with an emphasis on maximum participation, through interscholastic and intramural activity. The District will comply with recommendations from the U.S. Department of Education's Office for Civil Rights (OCR) regarding Title IX equal opportunity for males and females in the District's total athletic program regarding any of the following factors which may be applicable:

- a) The nature and extent of the sports program to be offered (including the levels of competition, such as varsity, club, etc.);
- b) The provision of equipment and supplies;
- c) The scheduling of games and practice time;
- d) The provision of travel and per diem allowances;
- e) The nature and extent of the opportunity to receive coaching and academic tutoring;
- f) The assignment and compensation of coaches and tutors;
- g) The provision of locker rooms, practice and competitive facilities;
- h) The provision of medical and training facilities and services;
- i) The provision of housing and dining facilities and services; and
- j) The nature and extent of support, publicity and promotion including cheerleading, bands, published programs distributed at games, and booster club activities.

The interscholastic athletic program shall conform to the Regulations of the Commissioner of Education as well as the established rules of the New York State Public High Schools Athletic Association and the State Education Department.

Eligibility for interscholastic athletic competition requires that the students:

- a) Provide written parental/guardian consent. **A consent form for a student's participation in interscholastic sports must contain information regarding mild traumatic brain injuries (concussions) as specified in Commissioner's Regulations;**
- b) Pass satisfactorily the medical examination administered by the school physician/nurse practitioner or the student's personal physician. The school physician/nurse practitioner retains final approval on all physicals performed by the student's personal physician; and

(Continued)

Students

**SUBJECT: SPORTS AND THE ATHLETIC PROGRAM (Cont'd.)**

- c) Meet the requirements for interscholastic competition as set forth by the Commissioner's Regulations and the New York State Public High School Athletic Association.

**Booster Clubs**

The School District has a responsibility under Title IX to ensure that boys' and girls' programs are provided with equivalent benefits, treatment, services and opportunities regardless of their source. When determining equivalency, benefits, services and opportunities attained through the use of private funds (e.g., "booster clubs"), such funds are considered in combination with all benefits, services and opportunities.

Private fundraising, including student-initiated fundraising, is permissible under Title IX. Further, compliance with Title IX does not mean that teams must "share" proceeds from fundraising activities. It does, however, place a responsibility on the District to ensure that benefits, services, treatment and opportunities overall, regardless of funding sources, are equivalent for male and female athletes.

In accordance with OCR, in order for the District to be in continuing compliance with Title IX requirements, the District must assure that services, benefits and opportunities in its athletic programs are provided on an equivalent basis to both boys and girls, including those services, benefits and opportunities that are provided through the use of outside financial assistance such as donations, fundraising by coaches, and booster clubs.

**Selection/Classification Process**

The Board approves the use of the selection/classification process for all secondary school interscholastic team members. The Board directs the Superintendent to implement the procedures and maintain a file of those students deemed eligible as a result of those procedures.

**Student Athletic Injuries**

No student should be allowed to practice or play in an athletic contest if he/she is suffering from an injury. The diagnosis of and prescription of treatment for injuries is strictly a medical matter and should under no circumstances be considered within the province of the coach. A coach's responsibility is to see that injured players are given prompt and competent medical attention, and that all details of a doctor's instructions concerning the student's functioning as a team member are carried out. No student will be allowed to practice or compete if there is a question whether he/she is in adequate physical condition.

A physician's certificate may be required before an athlete is permitted to return to practice or competition.

(Continued)

**SUBJECT: SPORTS AND THE ATHLETIC PROGRAM (Cont'd.)****Concussions**

A student who has sustained or is believed to have sustained a mild traumatic brain injury (concussion) must be immediately removed from athletic activities. If there is any doubt, it shall be presumed that the student is so injured until proven otherwise. Before being permitted to return to athletic activity, a student must be symptom free for not less than twenty-four (24) hours and have been evaluated by and received written and signed authorization from a licensed physician. Additionally, for extra class athletic activities, a student must have received clearance from the School District Medical Director to participate in such activity.

**Athletic Program - Safety**

The District will take reasonable steps to see that physical risks to students participating in the interscholastic athletic program shall be kept at a minimum by:

- a) Requiring medical examinations of participants;
- b) Obtaining appropriately certified and/or licensed ~~officials~~ staff to coach all varsity, junior varsity, and modified games ~~and, along with certified and/or licensed officials to referee all such competitions;~~
- c) Ensuring that equipment is both safe and operative within approved guidelines; and
- d) Providing professional development and training opportunities for all coaching staff.

Title IX of the Education Amendments of 1972, 20 USC Section 1681 et seq.  
45 Code of Federal Regulations Part 86  
8 NYCRR Section 135 and 136

NOTE: Refer also to Policy #7522 -- Concussion Management

Adoption Date

Students

**SUBJECT: STUDENT PHYSICALS****Health Examination**

Each student enrolled in District schools must have a satisfactory health examination conducted by the student's physician, physician assistant or nurse practitioner within twelve (12) months prior to the commencement of the school year of:

- a) The student's entrance in a District school at any grade level;
- b) Entrance to pre-kindergarten or kindergarten;
- c) Entry into the 2nd, 4th, 7th and 10th grades.

The District may also require an examination and health history of a student when it is determined by the District that it would promote the educational interests of the student.

In addition, the District requires a certificate of physical fitness for:

- a) All athletes prior to their first sport of the school year, then only those who were injured or ill during their first sport before participating in a second sport during the school year; ~~and~~
- b) All students who need work permits; ~~and~~
- c) All students either suspected of or sustaining a mild traumatic brain injury (concussion) must receive a written and signed authorization from a licensed physician before returning to athletic activities in school.

**Health Certificate**

Each student must submit a health certificate attesting to the health examination within thirty (30) days after his or her entrance into school and within thirty (30) days after his or her entry into the 2nd, 4th, 7th and 10th grades. The health certificate shall be filed in the student's cumulative record. The health certificate must:

- a) Describe the condition of the student when the examination was given;
- b) State the results of any test conducted on the student for sickle cell anemia;
- c) State whether the student is in a fit condition of health to permit his/her attendance at public school and, where applicable, whether the student has defective sight or hearing, or any other physical disability which may tend to prevent the student from receiving the full benefit of school work or from receiving the best educational results, or which may require a modification of such work to prevent injury to the student;

(Continued)

Students

**SUBJECT: STUDENT PHYSICALS (Cont'd.)**

- d) Include a calculation of the student's body mass index (BMI) and weight status category. BMI is computed as the weight in kilograms divided by the square of height in meters or the weight in pounds divided by the square of height in inches multiplied by a conversion factor of 703. Weight status categories for children and adolescents shall be defined by the Commissioner of Health. BMI collection is mandatory, effective September 2008. Reporting is random, with districts chosen by the NYS Department of Health. Selected districts must report BMI results on-line using DOH's Health Provider Network (HPN), a secure website;
- e) Be signed by a duly licensed physician, physician assistant, or nurse practitioner, who is authorized by law to practice in New York State consistent with any applicable written practice agreement; or authorized to practice in the jurisdiction in which the examination was given, provided that the Commissioner of Health has determined that such jurisdiction has standards of licensure and practice comparable to those of New York. A certificate signed by a chiropractor is not acceptable except for a scoliosis evaluation.

Dental Certificate

The dental certificate law became effective on September 1, 2008. This law applies to new entrants in PreK, K, Grades 2, 4, 7 and 10. In accordance with this law, a notice of request for a dental health certificate shall be distributed at the same time that the parent/person in parental relation is notified of health examination requirements, such certificate to be furnished at the same time the health certificate is required. At this time, students will be permitted to attend school regardless of whether or not they have a dental certificate.

The dental certificate shall be signed by a duly licensed dentist authorized by law to practice in New York State or one who is authorized to practice in the jurisdiction in which the examination was performed, provided that the Commissioner has determined that the jurisdiction has standards of licensure and practice comparable to New York State. The certificate shall describe the dental health condition of the student upon examination, which shall not be more than twelve (12) months prior to the commencement of the school year in which the examination is requested, and shall state whether the student is in fit condition of dental health to permit his/her attendance at the public schools.

Requests are not to be retroactive (i.e., any physical requested prior to September 1, 2008 does not need to have an additional notice sent requesting the dental certificate). Requests are not required when the student or parent/person in parental relation objects on the grounds of conflict with their genuine and sincere religious beliefs. Within thirty (30) days following the student's entrance in the school or grade, the certificate, if obtained, shall be filed in the student's cumulative health record.

(Continued)

Students

**SUBJECT: STUDENT PHYSICALS (Cont'd.)**Examination by Health Appraisal

The Principal or the Principal's designee will send a notice to the parents of, or person in parental relation to, any student who does not present a health certificate, that if the required health certificate is not furnished within thirty (30) days from the date of such notice, an examination by health appraisal will be made of such student by the Director of School Health Services.

The Director of School Health Services shall cause such students to be separately and carefully examined and tested to ascertain whether any such student has defective sight or hearing, or any other physical disability which may tend to prevent the student from receiving the full benefit of school work or from receiving the best educational results, or which may require a modification of such work to prevent injury to the student.

The physician, physician assistant or nurse practitioner administering such examination shall determine whether a one-time test for sickle cell anemia is necessary or desirable and, if so determined, shall conduct such test and include the results in the health certificate.

Unless otherwise prohibited by law, if it is ascertained that any students have defective sight or hearing, or a physical disability or other condition, including sickle cell anemia which may require professional attention with regard to health, the Principal or Principal's designee shall notify, in writing, the student's parents or persons in parental relation as to the existence of such disability. If the parents or persons in parental relation are unable or unwilling to provide the necessary relief and treatment for such students, such fact shall be reported by the Principal or Principal's designee to the Director of School Health Services, who then has the duty to provide relief for such students.

**Health Screenings**

The District will provide:

- a) Scoliosis screening at least once each school year for all students in grades 5 through 9. The positive results of any such screening examinations for the presence of scoliosis shall be provided in writing to the student's parent or person in parental relation within ninety (90) days after such finding;
- b) Vision screening to all students who enroll in school including at a minimum color perception, distance acuity, and near vision within six (6) months of admission to the school. In addition, all students shall be screened for distance acuity in grades Kindergarten, 1, 2, 3, 5, 7 and 10 and at any other time deemed necessary. The results of all such vision screening examinations shall be provided in writing to the student's parent or person in parental relation and to any teacher of the student. The vision report will be kept in a permanent file of the school for at least as long as the minimum retention period for such records;

(Continued)

Students

**SUBJECT: STUDENT PHYSICALS (Cont'd.)**

- c) Hearing screening to all students within six (6) months of admission to the school and in grades Kindergarten, 1, 3, 5, 7 and 10, as well as at any other time deemed necessary. Screening shall include, but not be limited to, pure tone and threshold air conduction screening. The results of any such hearing tests shall be provided in writing to the student's parent or person in parental relation and to any teacher of the student.

The results of all health screenings (dental, hearing, vision and scoliosis) shall be recorded on appropriate forms signed by the health professional making the examination, include appropriate recommendations, and be kept on file in the school. The health records of individual students will be kept confidential in accordance with the federal Family Educational Rights and Privacy Act (FERPA) and any other applicable federal and State laws.

**Accommodation for Religious Beliefs**

No health examinations, health history, examinations for health appraisal, screening examinations for sickle cell anemia and/or other health screenings shall be required where a student or the parent or person in parental relation to such student objects thereto on the grounds that such examinations, health history and/or screenings conflict with their genuine and sincere religious beliefs. A written and signed statement from the student or the student's parent or person in parental relation that such person holds such beliefs shall be submitted to the Principal or Principal's designee, in which case the Principal or Principal's designee may require supporting documents.

**Homeless Students**

For homeless children, the enrolling school must immediately refer the parent or guardian of the student to the District's homeless liaison, who must assist them in obtaining the necessary medical records.

**SUBJECT: NOTIFICATION OF SEX OFFENDERS**

In accordance with the Sex Offender Registration Act ("Megan's Law"), the Board of Education supports the New York State Department of Criminal Justice Services (DCJS) in its effort to inform the community in certain circumstances of the presence of individuals with a history of sex offenses, particularly against children, in the school locality. This policy is enacted in order to minimize the possibility that the sex offender will come in contact with school-age children, and to assist law enforcement agencies in preventing further criminal activity from occurring. Furthermore, the District shall cooperate with local police authorities and the local community in promoting and protecting the safety and well being of its students.

It is the policy of the Board of Education to disseminate all information which the District receives from local police authorities in conjunction with Megan's Law to designated staff members who might have possible contact with the offender during the course of their school duties including, but not limited to, Building Principals, supervisors, teachers, office personnel, coaches, custodians, bus drivers, and security personnel. The Superintendent reserves the right to automatically disseminate such information to additional members of the staff, designated supervisors of non-school groups that regularly use District facilities and have children in attendance, parents/guardians of District students, and other community residents who, in the opinion of the Superintendent, have an immediate need to be notified of such data in order to protect the safety of our students.

All staff members shall be informed of the availability of the information received by the District pursuant to Megan's Law upon written request to the applicable Building Principal/designee or supervisor. *(\*If applicable to District practice, include in policy: Community residents shall be notified of the availability of this information, with written requests directed to the District Office. Districts may also choose to provide information to community residents through a link on the District's website to New York State's online Sex Offender Registry)*

Staff members shall inform their immediate supervisor if they observe within the school building, on school grounds, at school activities, or at or near bus routes any individual whose description matches the information which was provided to the District by local law enforcement authorities. Such law enforcement officials will be notified of this information by the District as appropriate.

Information that is disseminated to the School District pursuant to Megan's Law may be disclosed or not disclosed by the District in its discretion. Any information which the School District receives regarding a sex offender from a source other than the Sex Offender Registry, and which is maintained independent of the requirements of Megan's Law, will be available from the District, upon written request, in accordance with the requirements of the Freedom of Information Law (FOIL).

**SUBJECT: NOTIFICATION OF SEX OFFENDERS (Cont'd.)****Special Circumstances Whereby Sex Offenders May Enter Upon School Grounds**

As a mandatory condition of the sentence for sex offenders placed on probation or conditional discharge whose victim was under the age of eighteen (18) or who has been designated a Level 3 sex offender, the court requires that such sentenced offender refrain from knowingly entering into or upon school grounds or any other facility or institution primarily used for the care or treatment of persons under the age of eighteen (18) while one or more of such persons are present.

However, by exception, ~~entrance upon the premises shall be provided to the sentenced sex offender under the following conditions subject to the written authorization of his/her parole officer and the superintendent or chief administrator of the facility for the limited purposes authorized by that person~~ a sex offender may enter school grounds or facility with the written authorization of his/her parole officer and the Superintendent for limited authorized purposes. Entrance upon the premises is subject to the following conditions:

- a) The offender is a registered student, participant or employee of the facility;
- b) The offender is an employee of an entity contracted by the facility; ~~or~~
- c) The offender has a family member enrolled in the facility; ~~or~~
- d) If the school is the offender's designated polling place and he/she enters solely to vote.

**Implementation**

Administrative regulations shall be developed to implement this policy.
