

Please check each option you would consider for the upcoming school year:	If you have a preschool aged child please answer the following question.	There are many schools that have opened in other states with masks optional that have had to move to masks requirements due to outbreaks shortly after school started. If you selected that you were comfortable with a tiered approach, check the following options that you are comfortable with.	The state is currently looking at potentially training school staff to be able to administer rapid Covid tests for symptomatic students. The goal of this rapid test is to keep students in person learning 5 days per week. Parent permission would be needed before a Covid test were administered. If this happens (we do not have a lot of guidance on this yet) check the following boxes that reflect your feelings on this.	Please check the following in regards to screening students/staff upon entrance to school.	Please provide additional comments in regards to the upcoming school year that you would like us to consider.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	If we want kids in school instead of quarantined, then masks are just common sense.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline date, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	I didn't understand the 3rd question and options for responses but I opt masks be optional.

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time., I am comfortable with all options	I do not have a preschool aged child	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	I am ok with masks being required for everyone, I would like to see masks optional for those that are vaccinated.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.			I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	Although my son is vaccinated, because of his compromised immune system, I will encourage him to wear a mask if optional for his safety. I will respect whatever decision the board makes and hope that he can attend in person school all year :) Thank you for all you do
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	Masks optional or i will not fill out any paperwork for additional funding for this school.

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	My preschooler had to wear a mask last year in Mrs. Lavigne's class. I was okay with that. I have since learned that he drooled and spit in his mask and was breathing that in. He has been diagnosed with asthma since school got out. I do not think preschoolers should be required to wear them. Even though I thought he was wearing it correctly, it still did more harm for him. My soon to be first grader had a hard time liking school last year because of the masks. She is normally extremely excited for school and has become the total opposite, it is a fight to get her to go to school. I do feel as if the county numbers get high again, masks should be considered. As of now though, it is an extremely low number.
I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	I feel that we are honestly going over board with the whole mask/quarantine thing. Kids need to be in school, kids need to be exposed to germs, it's how they keep healthy immune systems. Let's get on with our lives.... But we will do whatever it takes to have the kids in school, I am totally against distance learning!
I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population uneligible to be vaccinated)., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time., I am comfortable with all options	I do not have a preschool aged child	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	I believe it's critical for the well being of our children to be in school 5 days a week. If that means wearing a mask we are fine with that.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population uneligible to be vaccinated).	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population uneligible to be vaccinated).	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	I prefer masks especially following data on schools that started without masks and are now either switching to distance already or are masking up. Both my children are too young to be vaccinated. Additionally, as their mother I am immune compromised (vaccinated but still at risk).

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I want the school to screen all staff/students .	I would like to know the plan when students get sick from continued mask use, the long term effect it can have on their growing bodies. The learning, mental, and sensory challenges it forces our children to have. Please elaborate as to why these long term issues were not brought into consideration when your decision was made. Also I did not like any response to question 3. I feel if our children are not feeling well, or the screening isn't at 100% than a mask can be considered.
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline date, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population uneligible to be vaccinated).	Masks should be required for preschool aged children.	I am not comfortable with a tiered approach because I feel masks should be required at all times. I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	

Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population ineligible to be vaccinated).	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	<p>I would not feel safe if my sixth grade student was in a classroom where masking was optional. I may feel differently after he gets vaccinated, but know that many children in his grade will not have that opportunity until later in the school year. I would still want him to wear a mask after he is vaccinated.</p> <p>I may be open to a tiered system at some point, but feel there are too many unknowns with the variants at this time.</p> <p>In addition to health concerns, there's quarantine concerns as well. If the kids are masked and there's a positive case, they can stay in school. If there are no masks, then they all quarantine. I want my child to be able to stay in school and learn in that setting rather than trying to participate from home.</p> <p>My son wants to wear a mask, and he wants his classmates to wear a mask so they can all keep each other safer.</p>
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population ineligible to be vaccinated)., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I am comfortable with a tiered system that would require masks only if district or county numbers indicate a high/substantial risk.	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	I fully on board with whatever needs to be done to keep students and staff healthy and safe, for full in person learning all year long!
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Why is there a required question about tiered requirements yet there is no answer for if you don't think this is appropriate? Seems to me like this is a bunk format so the school district can say "hey look everyone said they're okay with this method." Even though there isn't an option for anything else. So we basically have to agree to a tiered approach to have our survey even counted.

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Make masks optional or my children will not be attending. Covid test my children and you will hear from my lawyer.
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	Masks should be optional for preschool aged children.	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	No masks
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.		I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	I feel that vaccinated individuals should have the option to wear masks but unvaccinated should have to wear a mask . The school should be able to ask for your vaccine card just like they do for all other immunizations in order for children to be in school .

I am comfortable with all options	I do not have a preschool aged child	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population ineligible to be vaccinated).	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I want the school to screen all staff/students .	
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	I'm on the fence about sending my children to a different school where masks are optional.

Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.		I am not comfortable with a tiered approach because I feel masks should be required at all times.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	<p>We're all vaccinated in our house hold but I know there are some who are not that are staff and are not forthcoming with information when not feeling well. I find this unethical and irresponsible especially when working with people that may not be able to fight this virus. It is because of this that I feel masks should be required until there is scientific evidence provided to make it safe for my family to be around unvaccinated and/or symptomatic individuals. I absolutely do not like wearing a mask but if that's the difference of my children staying healthy and in school getting the education they need then it's worth the inconvenience.</p> <p>In response to the rapid Covid test, I'm really not sure I feel comfortable with it being done at school. I guess it depends on who is doing it. If my son was symptomatic then he would need a test one way or another. I'm in between the two options I guess.</p>
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	<p>We want our voices to be heard in regards to mask being an optional item vaccinated or not.</p> <p>Thank you.</p>
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I am comfortable with a tiered system that would require masks only if district or county numbers indicate a high/substantial risk.	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	

I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	My family will comply with and support the district's decisions.
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	Thank you for the thoughtfulness you have approached this decision with. I am grateful that you are listening to families, but basing your final decision on what the science tells us will help keep our kids and learning community safe.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.		I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Masks should be optional. From the beginning of the school year until the end.
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	We are 100% for masking. At least until we can get kiddos vaccinated or the delta variant slows down.
I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	I would like more information on lots of things such as quarantining, non vaccinated children and what you're going to truly require kids to do about anything covid related. I truly hope that parents feedback will be taken into consideration. Too many board members including the chair have said they don't care what a survey says so I'm interested to know why now.
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I am comfortable with a tiered system that would require masks only if district or county numbers indicate a high/substantial risk.	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	This shouldn't be what it has become. What a mess. Better to be safe than sorry. A piece of cloth (mask) could save a whole lot of time, confusion, and sickness.

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population ineligible to be vaccinated)., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population ineligible to be vaccinated)., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time., I am comfortable with all options	I am comfortable with a tiered system that would require masks only if district or county numbers indicate a high/substantial risk.	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline date, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	As a parent I appreciated the temperature screening as I think it's an easy step to help prevent kids spreading illness, not just covid.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	My child my choice
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	My question is who would be administering the rapid tests at the school? What are their qualifications? Is this another item to put on teacher's plates or will there be dedicated staffing to do this? I'm all for being as careful as possible, including masking, but I also feel that anyone who is administering these tests is at an increased risk to contract Covid-19. If teachers are tasked with daily rapid tests, who will manage their classrooms while the testing takes place? Another concern is the safety of teachers, admin and school board members. There are members of our community who have proven they are extremists - please keep not only our children safe, but the adults who are responsible for them.

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	Masking should be the parent's/child's choice regardless of vaccination status.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Do not mask my children
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	Please delete my first submission ask question number three on here only allowed a tiered option when it first came out. I in no way want any tiered option.
I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	Wearing masks should be a parent/child choice regardless of vaccination status.
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	

A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	I am perplexed as to why a school board who had a 7-0 unanimous vote in favor of a mask mandate a few weeks ago (In my opinion an informed decision because of the outbreaks that are affecting schools nationwide) is buckling under the pressure from the local anti-mask movement? Let me remind you that kids 12< are not eligible for the vaccination and will be put at great risk if a mask mandate is not enforced. Hopefully if the mask mandate is relaxed or lifted the district will offer distanced learning as an option again this year.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population uneligible to be vaccinated)., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	I am unsure whether I agree with the tiered system as it is not clearly defined.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population uneligible to be vaccinated).			I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.		I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	If student test positive to report to students in close contact parents.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	<p>Parents should be allowed to decide whether or not our children need to wear a mask. I am comfortable with temperature checks at school but am not comfortable with the school administering a test on my child, this will be done in my presence at a doctors office. As a mother of a child with mental health concerns I'm fearful of what wearing a mask will do for his PTSD, anxiety, and lack of trust. Children need to see smiles and well as other gestures to learn how to identify emotions and cues.</p> <p>As far as my preschooler is concerned, he is 3 and has never had to wear a mask! Not even in the doctors office. It is not safe to wear one especially if not worn properly.</p>
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	The kids have had more of a normal summer without masks. I feel they are not building up their immune systems by having to wear them and they are doing more harm to them. Parents should always be making decisions for their children that are in their best interests.
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.		I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	Maybe think about the vaccinated children no masks
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. Perhaps requiring masks for the unvaccinated (grades 7-12) would help motivate them to get the jab. Thank you for requesting input!</p>

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	We are NOT in favor of masks being worn this coming school year.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Mask and vaccine should be optional for both students and teachers.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I want the school to screen all staff/students .	No masks
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population uneligible to be vaccinated).			I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	The kids do not want to wear masks. Start not wearing them and then if the testing shows a risk, require masks.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	I would happily have my child COVID tested if it is suspected that she has COVID or those symptoms. I would also be happy to test her myself. If this stays within reason. I DO NOT, under any circumstance want her tested for COVID or anything else unless I am present. I test children for COVID frequently, and I know that for small children lab tests can be very traumatizing. I do not want this to be associated with the school setting for her. Or any child. Temperature checks are one thing. I also am not sure the staff would really have the time to test every kid that has a sniffle for COVID. This sometimes involves a wrestling match. SO, that's a no from me on the COVID testing in the school setting. It's not appropriate. Let those kids worry about learning, not about if that runny nose they have is going to score them a spot in the nurses office with a QTip up their nose.
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I am comfortable with a tiered system that would require masks only if district or county numbers indicate a high/substantial risk.	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	I think it's important to take into account the safety of students, but also what the surrounding districts are doing for their safe learning plan. I believe it's fair to follow the numbers and see when/if children would need to be masked.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I want the school to screen all staff/students .	
I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	

Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be required for preschool aged children.		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	I support all staff and students being masked. I don't think anyone likes wearing a mask, but it is a small thing everyone is capable of doing in order to ensure that our children are able to attend school in person without disruptions.
I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Make masks optional or my children will not be attending. Covid test my children and you will hear from my lawyer.
I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	Thank you for worrying about our children's safety. I'm sorry that some people are so ignorant.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	If masks are required for preschool aged children I will not be sending my child

I am comfortable with all options	I do not have a preschool aged child	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning. Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	The mental health is too important. Having two kids use self harm last year we need them to be able to connect with others. Also using masks is just another way for kids to bully others. They don't need extra opportunities for this.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Masking children does more harm then good. There is very limited data that shows masks may slightly mitigate covid when worn proper. How many kids do you know that are going to wear them proper. They should not be forced to wear them all day.
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.			I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	

Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.		I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	None.. Just that everyone has a safe and healthy school year and the kids have fun and make memories
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Question #3....states if you selected a tiered approach, which I did not, to answer this question. It forces you to make a choice, so I just checked one. My choice would be to start the school year unmasked and make adjustments if needed.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	I choose not to answer question number 3.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	My wife and I are torn on what to do with our kids this upcoming school year. Please start this school year off as masks optional, giving us parents the choice to choose what is best for our own kids.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	As of June 25th the World Health Organization stopped asymptomatic testing recognizing that the virus does NOT spread unless you are sick. Masking an entire population is not warranted.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population uneligible to be vaccinated).	Masks should be optional for preschool aged children.	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	No masks... let the kids breath

A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I am comfortable with a tiered system that would require masks only if district or county numbers indicate a high/substantial risk.	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students.	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population ineligible to be vaccinated).	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	I think everyone eligible to receive the vaccine should be required to get it. Then we wouldn't have to worry about masks.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Masks optional for everyone all year

<p>Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.</p>	<p>Masks should be required for preschool aged children.</p>	<p>I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.</p>	<p>I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.</p>	<p>I will self screen my child at home prior to sending, I want the school to screen all staff/students .</p>	<p>To the question above, I am willing to self screen if that helps the school district.</p>
<p>Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.</p>	<p>I do not have a preschool aged child</p>		<p>I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.</p>	<p>I will self screen my child at home prior to sending</p>	<p>I am not comfortable with you testing or giving my kids a vaccine (jab). I this happens you will be hearing from my Lawyer!</p>

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	<p>the "rapid test" question needs to have another option: I am unsure at this time whether I would be comfortable or not with rapid testing done on my child....or... I would like to asses my rapid test response each time that a situation would come up.</p> <p>My oldest child is losing his love for school and learning because of masks. My middle child already hates going to school, even more with masks. My youngest has other situations that complicate his comfort while wearing a mask.</p> <p>I have my reasons to believe that masks should not be worn by myself or my family. Others are entitled to their beliefs, whether they are aligned with my own or oppose my own. Those who feel very strongly that masks should be worn at all times do not want me to force my beliefs that masks should not be required upon them and so their beliefs should not be imposed upon me or my own.</p> <p>Masks should be optional. If you would like to wear a mask, do so. If you would not like to wear a mask, don't.</p> <p>Those who would like to "stay safe" from COVID can take precautions to stay safe. Available options include, but are not limited to: Getting the vaccine, wearing a mask, staying out of public places (this includes PUBLIC school), staying home.</p> <p>It is time to accept COVID as a part of life (no different than the risk we take any other day with: influenza, measles, mumps, whooping cough, parasites, chicken pox, e.coli, salmonella, corona viruses (this is a VERY common group), diphtheria, norovirus, rotavirus, and the list goes on).</p>
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	<p>I would prefer no masks, but mask optional is what I am hoping you will consider. My daughter has a lisp that I feel should have been outgrown last year, however, with masks it only has increased (not to mention how gross the mask is after school). My son, who is older, suffers from headaches when he wears the masks. I respect you all and understand you are in a tough postion, but please know we just want whats best for our kids too. I am shocked that you are considering covid testing (why not strep testing too??) at school. I think this is a definite over reach of the schools job, teaching. Please reconsider that option as well.</p>

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	Let the parents and children choose to wear a mask please! This is a difficult decision but wearing a mask for eight hours a day is not healthy the six foot rules good the screenings good (we know there are some bad apple parents that won't screen their own kids before sending to school) the masks on our kids is damaging to their physical health and mental health expecially, I also understand and don't object to if there is an outbreak that there could be a possible of a temporary mask mandate and I'm okay with that but I would also hope you all are okay with then removing said mask mandate when the number has gone down again. I do NOT want my children rapid tested at the school. I WILL take my kids to go get tested by medical professionals as was required and done last year when there was a possible exposure from another student or staff member in which case my child came back with a negative result which I knew she would, as I closely monitor her daily and with sickly family we take extra precautions always. Please don't force our kids to wear a mask all day everyday let them be kids let them have a semi normal school year the damage of the mask and distanced learning that has impacted my oldest both in mental health and also academically also! She went from a straight A student to barely passing sometimes please please don't force masks on our children make it the parents choice and children's choice thank you for surveying us parents! This is a tough decision but think of how this is messing with our beautiful children's mental and physical health. Also maybe have bottles of sanitizer right inside teachers doors anytime they're in and out of classroom make kiddos at least use station. I'm sure is parents would gladly buy hand sanitizer for the school if needed I'd go get a new bottle every day if you wanted!!! (my children all have sanitizer that they carry with them at all times even before the virus) thank you for listening to my ramble good luck with your decision.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	Masks should be optional for preschool aged children.	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	I would prefer that it be parents choice to let our children wear the masks unless our numbers to go in the red. Until then I stand with my two kids to not be in masks.

					<p>I'm not in favor of mandating masks or vaccines for staff or students. If an individual chooses to get vaccinated or wants their child vaccinated, or wear a mask, they should have the right to do so.</p> <p>Likewise, if a parent chooses they feel comfortable with their child NOT wearing a mask or being vaccinated, that is absolutely their right. Same goes for all district employees.</p> <p>If someone feels unsafe, that's their right to feel that way, but it doesn't write a ticket for mandating masks, vaccines or tests for others who don't feel "unsafe". The folks that think they should be able to choose what other people should or shouldn't do, don't have that right. They have the right to choose to wear a mask, get vaccinated or not go out where they could contract Covid or any other virus. It's their choice to do what they want to feel safe, but they absolutely don't get to take away any choice from others.</p> <p>The data does not indicate that Covid is any more deadly than influenza. We've never had mandated vaccines or mask for influenza before. If the masks and experimental vaccines work, then why is anyone who's had the vaccine or chooses to wear a mask afraid?? The recommendations have been all over the map from all known medical "experts", e.g. CDC, FDA, MDH etc. objectively, this would make most people question everything. My personal opinion is that whatever alleged "expert" status these department once had, is now gone. This is America, and ones persons feeling don't trump others rights.</p> <p>If masks, vaccines or tests are ever mandated, we will be looking at other options for our child's education. The school board should be cautious about letting their decisions to be driven by politics or feelings. No doubt, the times have changed. But there can be legal ramifications when a board chooses to let their decisions be driven by emotions instead of objective data. Especially when it encroaches on individual rights and liberties, regardless of anyone's feelings.</p> <p>My whole family has worked through this "pandemic", myself and others in my family work in healthcare, with Covid positive patients one on one. We know the risks of Covid. We've seen plenty of people die from Covid and other things. Some of us are vaccinated and some aren't. It's a personal</p>
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	

<p>A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.</p>	<p>Masks should be optional for preschool aged children.</p>	<p>I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.</p>	<p>I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.</p>	<p>I will self screen my child at home prior to sending</p>	<p>I don't feel the options reflect my current understanding of mask recommendations and guidance. Younger children still don't pose much threat of spreading or serious illness of covid 19. In fact there is a study that illustrates the detriment to normal social development for young children wearing masks all the time. Show me some science behind the thought of a benefit to masking elementary children.</p>
<p>A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.</p>		<p>I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.</p>	<p>I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.</p>	<p>I will self screen my child at home prior to sending</p>	
<p>Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.</p>		<p>I am not comfortable with a tiered approach because I feel masks should be required at all times.</p>	<p>I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.</p>	<p>I will self screen my child at home prior to sending, I want the school to screen all staff/students .</p>	<p>I think ISD 361 should follow the CDC guidelines for k-12 as they voted to do on Aug. 3. My kids will be masking whether it's following a tiered system or if masks are required. If masks are optional, our family will have to consider alternatives for our kids' education. Thanks to all ISD 361 staff and board members for trying to keep the community kids safe and educated!</p>

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Had to redo cuz I do NOT WANT a tiered approach. MY child, MY choice. Thanks!
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I want the school to screen all staff/students .	
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population uneligible to be vaccinated)., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline date, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	I want my kids in school 5 days a week....distance learning did not work!!!! So whatever that means, I am OK with. I know there are both benefits and downfalls to kids wearing masks in school. There isn't a happy medium. But I also believe in our immune system and letting it work. All of my kids except one (too young) are vaccinated and so I don't feel they should mask. They haven't worn masks all summer and we've been everywhere and stayed healthy. If people aren't comfortable then they can mask or stay home.

Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population ineligible to be vaccinated)., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	Masks should be optional for preschool aged children.		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population ineligible to be vaccinated).	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	if you are vaccinated you shouldn't have to wear a mask if you don't want to but if nonvaccinated wear a mask
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.		I am not comfortable with a tiered approach because I feel masks should be required at all times.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I want the school to screen all staff/students .	
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Masks should be optional. If some parents want all kids to wear masks because their kid has problems or they don't want their kid to get sick then they should keep their kid home and home school them.
I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	

A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	You already made your decision stick to that and move on . I would also keep distance learning in place for sick kids
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time., I am comfortable with all options	I do not have a preschool aged child	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	I trust the board to make the best decision for our schools. I appreciated being able to have a consistent schedule last year. My child would rather wear masks and be in person than distance learn if possible.
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	Rapid intervention of a sick child to stay at home, is better than punishing the whole class from not learning. The failure rate of our students depends on the teachers .
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population uneligible to be vaccinated)., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.		I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	Start the year with no masks

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I am comfortable with a tiered system that would require masks only if district or county numbers indicate a high/substantial risk.	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	no masks, not tests, no vaccinations would appreciate that our kids be treated right, and not killed with masks, remember the science. We learned about breathing out bad air out and into mask right???
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	It's Parents choice what's best for his/her child

A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Masks should be optional for all grades. If someone wants their kids to wear masks than they can do that. Currently masks are not mandated in a business so they shouldn't be in a school. If the masks are mandatory for students and staff than the staff should be mandated to wear the mask outside the school to make sure they aren't bringing it back to the children in school. Also in a room by themselves will still release covid once the mask is removed. Therefore the child that comes in and touches the contaminated surface then plays with their mask and is now contaminated.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	I respect everyone's personal option... I do not feel young children (pre-k) should be wearing masks as they need to be able to get ill and build immunity and learn to communicate and learn without obstacles, young children haven't seemed to be affected much with Covid. But again I will respect everyone's personal choice. Personal choice should definitely be considered for families.

Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	I appreciated measures all district staff took last year to keep my elementary aged children in school. Please continue to be proactive instead of reactive. Thank you all for all you do!
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	I fully agree with the decision to mask. All kids need to be in school 5 days per week. The number of severe depression cases in middle school and high school over the last 17 months is incredibly concerning. Distance learning is not an effective way to learn in the vast majority of cases and I'm sure it's incredibly difficult to teach from a distance.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Masks should be optional on an all time basis. Covid is going to happen regardless, we have to learn to live with it now just as the flu and other viruses. Kids should not have to suffer in school due to a mask, both of my children are close to asthma and were both sick due to wearing a mask as much as they had to last year. My daughter had non covid pneumonia multiple times last year due to a mask as her doctor said as did i from work. So masks cause more harm than good. Im asking for us as parent to have the option to choose for our children.
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.		I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	No masks, if parents want there child muzzled they can do it! If we dont want our children masked we have no choice if its mandated!
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Surveying the parents for input is the right thing to do. If only it had been done before the mask decision was made. I hope parents will taken time to complete the survey and board members will truly consider the data collected.
I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline date, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population uneligible to be vaccinated).	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	I think if staff and students are vaccinated they should have the option of masking based on their comfort level. If staff and students are not vaccinated (and are age eligible) they shouldn't have the option, the mask should be mandatory.
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	
I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline date, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	I am okay with whatever it takes to get and keep my child in the classroom
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	<p>It's a hard decision for you all, I know. My children are excited to go back this year so we are rolling with the punches. We have been told continually that if we follow along then Covid will improve and the restrictions will loosen but the reality is that we have implemented MANY restrictions, mandates and vaccines and really we are not much better off than last year at this time. We'll roll with it this year but if for any reason at all we are still masking next school year then I have no doubt I will withdraw my kids from public school and move to homeschooling.</p> <p>Food for thought- I own a business that really suffered while masking orders were in place- the very month masking orders were lifted our daily attendance almost tripled! For me that spoke volumes on how our population feels about masking.</p> <p>Lastly, No one on the school board is responsible for our children's safety surrounding illness. Self responsibility- those who want to wear a mask can.</p> <p>Vaccinated people can catch, carry + pass COVID. Masked people can catch, carry + pass COVID. Unvaccinated people can catch, carry + pass COVID. You are not responsible for people getting sick!!</p>
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	I value and support you in your decision. I am happy you as a board and administration are putting kids IN school and learning above all. You all are appreciated.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	Unless mandated by state or federal government please let the parents make the choice for their child.

I am comfortable with all options		I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	My children understand if they have to wear a mask to school and are just happy to be going back to school but my youngest has a hard time understanding directions and others emotions if she can not see there face and sometimes does better with reading people's lips.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	Masks should be optional for preschool aged children.	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline date, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	I want to remain in person 5 days per week and feel masks should be optional. I do like the tiered approach.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I want the school to screen all staff/students .	The masks are unhealthy for students regardless of the covid. Unmask our children. It was a rough year for the children and the parents having 5o deal with the masks and hybrid learning
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	Masks should be optional for preschool aged children.	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline date, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I want the school to screen all staff/students .	I believe the masks should be optional. I would like an extra measure to be used though. I do agree that all students should have their Temps checked upon arrival. The clinic check temps.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	As a staff member I see the way masks are being used. They are not preventing anything. They are being dropped on the floor, rubbed on the walls, they are wet and gross, some wear the same one every single day most likely unwashed. I feel like the extra cleaning and hand washing are what is helping the most! As a parent, I want my kids in school every day! I have a senior and a 6th grader, and I want them to be able to come to school and not feel like they are in prison with people yelling at them to wear their masks. My son who was in 11th grade last year said that school felt like a jail. School should be a fun place for them to learn and be social. They learn from that. These kids are together every day all summer long as they were all school year when school was over for the day, and they have been unmasked. Even the ones voting for masking.. they have been all over without masks. So why start now? My kids well being means more than the school getting some extra funding.
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.			I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	We know it's not a popular opinion with some, but, the covid numbers are undoubtedly rising with variants, we need to protect EVERYONE and keep our kids learning in a classroom environment. This is the best for their health and their education. I would rather send my child with a mask everyday than be out of school and work for a month with positive cases in my home not to mention be infected with this virus. Please keep them masked and safe. They all survived wearing them last school year, they will do it again. Masks work the BEST if EVERYONE is wearing them.
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population uneligible to be vaccinated).	Masks should be required for preschool aged children.	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	Quite honestly okay with any decision. Would prefer the decision that allows children to be in school the most while remaining happy and safe. My children do not like masks- no one does however if it is to protect the good of the whole they understand the importance of them.

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I want the school to screen all staff/students .	
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	A Mask on is not that big of a deal. If the maskers are wrong , we have to wear a mask, If the others are wrong then kids, teachers, and parents could get sick and or die. We are not asking to change things for ever, Just until we can get past this. A mask on shows respect for others health.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	Not comfortable with your tiered system,. Did not have an option of no masks. I understand if numbers spike, masks may be required at that time.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	Masks not required, they do nothing for you. And I did not select a tiered approach
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	

A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I am comfortable with a tiered system that would require masks only if district or county numbers indicate a high/substantial risk.	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students.	In addition to screening, continue the additional hand washing and hand sanitizing. I would like to see masking minimized and only used in times of high transmission.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	My children will be attending school no matter what the decision is; however, I myself do not believe in masks. I would definitely prefer no masks, especially for the elementary school children, they're not wearing them correctly anyway for Pete's sake. The disease must run its course, the more it is fought the more it will fight back- think of the common cold, how the virus mutates constantly and thus why a vaccine must be made. I believe we need to focus more on better ways to treat the illness and symptom management. That's just my two cents, and it doesn't change any outcomes, but now I got it off my chest. Seriously though, let the children be children. If people are scared, they can do on-line schooling and opt to isolate themselves rather than ruin everyone else's quality of life.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students.

I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.		I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	Distant learning for children with sensory disorders due to being in the spectrum.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline date, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline date, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Please let this be optional. If not, give us an option for distant learning.
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	Masks at all times
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.		I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline date, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	I don't agree with any of the tiered approach answers but this site would not let me finish this survey without answering. So I advise you not to use this as my answer because it would be a lie. I hope this is not a way of tricking people into getting your way. I am not pleased. Sincerely, Jasen Mayfield. (218)341-9594
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.		I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	We need to keep our kids in school they have been through enough. All we are doing by this is teaching them to give up there rights as an American citizens. I once thought we lived in a free country the last several years have made me question that. We are teaching our youth to question nothing and blindly follow orders without question if you want to do this wear a mask oh get vaccinated oh never mind get vaccinated and wear a mask will it ever end what's next living in a bubble? Every single American at some point has lived through some pandemic or the next thing that will wipe us out. Most of us survived let's let our children live life as we got too. Our children need hands on education and the ability to interact with their peers. They need the support of family and friends and their community back at there sporting events, concerts, etc. Our youth need to know and feel the support of our community isn't that what growing up in a small town is all about it's not just your family that raises you but your community and we have stripped them of that long enough. If you want to get vaccinated or wear a mask by all means do so but don't take someone else right to not, away.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., I am comfortable with all options	I do not have a preschool aged child	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	My son has an illness that would make wearing a mask difficult for him
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	

Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population uneligible to be vaccinated).	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	I strongly believe that the health risks from wearing the masks for prolonged periods of time strongly out weigh the risks of not wearing them. Students using good hygiene and staying home when sick is more important than keeping a dirty mask on all day.
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population uneligible to be vaccinated).	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	I feel under no circumstances should the vaccine status be a determining factor on any issue! It should not be mandated or administered by a school. Masks should not be required at any point as well as social distancing! Kids are at a higher risk of death from receiving the vaccine than they are from covid. They are at higher risk of illness due to bacteria build up on a mask than they are from covid. Kids are higher risk for depression and other social issues from being separated and social distancing than they are at risk for illness or death from covid. It's time to stop all this ridiculousness and let kids get back to being kids n learning the right way. If not my children will be removed from this school.

I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Children should be free to choose to have a mask on or not. Most kids have a very hard time learning when they can't see the face of the person taking to them and I personally think it is taking something away from the learning process by teaching them to fear something that has a higher survival rate than influenza. If a medical doctor tells them they need to have a mask on then they should other than that it should be a choice
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.		I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	I elected the board. Use your best judgement. I support any decisions you make.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Make masks optional and I know you would be surprised in how parents will react due to them wanting to keep their children safe. If numbers were to rise I would bet that parents would start masking even before the school was to "mandate" let the parents be the parent and not the teachers or the schools. The parents know what is best for their children.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	I am going to self monitor my kids every morning before school. If the district has the employees, I think the monitoring they did each morning lady year was a great idea to keep sickness out of school. This would help the spread of many illnesses by knowing right away if kids entering the building have a fever. I am not comfortable with sending my 3 year old to school if he has to wear a mask. I think each parent regardless of age, should have the choice whether to mask or not. We have had so many illnesses within our district since my daughter started preschool, with no masking measures in place. Flu was so bad in 2019 that several schools around our area shut down to sanitize. Every district around northern Minnesota is optional currently, and our district should be as well. The parents should choose whether masking is right for their kids and every situation (as to why or why not) is different than the next. Activities have opened up and masking has been loosened all summer. These kids have been around so many others with no masks or outbreaks. And my youngest since this pandemic started, among other kids his age without covid being an issue. I think masking at this point in the year is premature. I would really like for the parents who left the district to be heard or allowed to take this survey, because the whole reason they left was because they were not given the option. This is our opportunity to gain trust and get them to come back. I would like that to be the ultimate goal. We need these kids back at our district and we can make that happen with the right outlook.
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population ineligible to be vaccinated).	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population ineligible to be vaccinated)., A tiered system that changes to meet the current local Covid status. Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Masks should be optional along with the vaccine (student and or teacher).
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population uneligible to be vaccinated).	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	Immune compromised parent in household (vaccinated but still at risk). Children not of age to get vaccinated and at risk.
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	<p>To whom this may concern,</p> <p>I know this year has brought so much chaos, its sad to see our town torn apart by something as so basic as a mask. I've seen this town come together through many challenge, and I'm hoping we can overcome this. I have faith that you guys will protect our kids even if standing up is hard. That is the value I hope that you guys can show by choosing to require masks. The virus does not discriminate and breakthrough cases happen, Covid doesn't care where we live.</p> <p>I hope that masks are require because if they are not we will see if distance learning is an option through your district. If that fails we will be pull Gabriel Piekarski out and enrolling online or home school. So I do hope that you all stand up for our kids health and protect them.</p>
I am comfortable with all options	I do not have a preschool aged child	<p>I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.</p>	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	Masking children should be a parents choice regardless of vaccination status.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Masks should be a parents option for their child. Unless masks are fitted N95s, all other cloth masks have been proven ineffective. They do more harm then good.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	It is blowing my mind that masks are even being considered required.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I want the school to screen all staff/students .	Thank you for putting this out. I just wish it had been done before the meeting where the mask issue was voted on. Parents felt blind sided and left out of a very important decision. Better late than never though. Also, PLEASE- during the upcoming special board meeting where this will be discussed, by all means remove individuals that become vulgar and or physical to be removed by the police- not the whole group and don't cancel the meeting due to a few individuals that can't be adults. There are many that can be and would appreciate the opportunity to speak and be heard. Thank you.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	Masks should be optional for preschool aged children.	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	Thank you for keeping the safety of our students as a top priority.

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.		I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .

I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	I understand the high emotions surrounding these topics. My ultimate desire is for the kids to remain with in person school for as long as possible, and if that means they have to get COVID tested and wear masks, I will support that decision 100%. As a healthcare worker, I see the dangers and severity of this virus everyday. If wearing a mask protects even just a few people in our school and community, it is worth it. Thank you for all do for our children!!
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be required for preschool aged children.	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	Please continue to make choices to keep our young students and staff safe. There are many people that still feel a safe environment is necessary. Thank you for help in providing a safe learning environment so far.
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I want the school to screen all staff/students .	Thank you for your hard work to keep our kids in school. My child would rather wear a mask and be in school than be at home on zoom.

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	All parents should have there way of making or unmasking there kids. They are out kids not yours. We dont mask them outside the school so why would we need to where they r learning and need to focus on the teachers masking is a choice for only the parents to decide not the school.
I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline date, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population uneligibile to be vaccinated).	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	This was a very bias worded survey and will not represent the feelings of the community as there was no option on how I really feel.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.		I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	Screen and masks are optional. I am happy to screen prior to my child going to school as I feel responsible and capable of doing so however some aren't may not so screening would be acceptable at entrance.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children. I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Involve parents in these decisions from the start!
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	Masks are useless unless they're N95's.

Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	There should be no requirements from the school district that the parents do not support no matter what! The constitution is for the people, by the people. It is the highest law in our great nation. Not the CDC, not the NHI and definitely not the elected school board members. If you base decision on lies you will always do more damage than good. Do your research, the PCR test is not a valid test for a supposed virus that was never isolated. Yes, people have died, but again look at the data on the CDC website, there were zero, yes zero excess deaths since the beginning of this "plandemic". Please I implore you, do the research, base your decisions on truth. The truth sets us free, lies put us in bondage. Choose wisely.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I want the school to screen all staff/students .	I am concerned about the long-term wearing of masks in children and the effects it has on their lungs. I am also very concerned about the long-term effects it will have on our students because they will not efficiently learn how to enunciate and pronounce words and letter sounds in the early years that is vitally important. Speech needs to be seen and heard clearly for children to learn properly. I was extremely disappointed that members of our school board felt the opinion of the children in our district was unnecessary, this survey should have been put out from day one. The school board is supposed to be in place to hear our concerns not to let a couple of people with strong opinions do whatever they want. In the future please keep in mind that you have hurt many families through this process and that a simple survey can help us voice our opinions in a calm and rational setting. It seems to be very easy to put out a call to everyone in the district. A simple call with push one for mask requirement push to for optional masks could have solved a lot of community problems and kept a lot of families within our district. I personally wanted to move my child from the district immediately but I chose to have a conversation with her and she wants to stay where her friends are
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	MY CHILD MY CHOICE
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline date, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	If preschoolers are required to wear masks I would like to switch to the half day schedule instead of full days.
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.		I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population ineligible to be vaccinated). I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	I'm unsure on my comfort level for testing being administered at the school, especially after I was just told by a doctor at Essentia 2 weeks ago that the rapids are not accurate and they had to do a send out test along with the rapid to ensure it's result. Regarding masks, I prefer them to be optional however, at the very least would be comfortable with a tiered system if there is an increase in DISTRICT cases. On the flip side of that, my preschooler will not wear a mask. And I will not force him to wear one. He does not do well with things on his face and if it becomes a requirement for his class, I question what happens if he will not keep on one.
I am comfortable with all options			I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status. I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	
Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population uneligible to be vaccinated).	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	Thank you for everything you have done for our students. This is a very tough time.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	I think it is easier for the young children to accept wearing masks when everyone has to wear them.
I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	The youngest children suffer the most from mask mandates. Language development will lack from the proposed requirements. Let's base this on science like the experts say and there is not study that shows masking children in schools has an effect on covid spread in schools.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I want the school to screen all staff/students .	Unmark are children unless necessary.. or I'll remove my children from FHS

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be required for preschool aged children.	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	My feeling is that masks should be mandatory until all children have the option to be vaccinated. Once I can get my children vaccinated I personally will not worry about masks as much. We have worked hard and worried a lot to keep our children healthy since the pandemic began. It is scary to think about sending them into school this year with a new more cobra variant that is increasingly infecting children with no precautions in place and 20+ students in a classroom.
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	My children's attendance in the district will be affected if the decision is to require masks.
Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population uneligible to be vaccinated).	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	If masks are required I would feel more comfortable if my daughter had more mask breaks than just snack and to take a drink (although not the recommended age masks were mandatory in her preschool class). We also have to remember to keep kids engaged in learning they need to enjoy school and I know several students including my daughter who the masks are making it difficult to learn (letter sounds, pronunciation ect) and to enjoy school. Which could cause life long consequences. She attended summer school in which masks were not required and no colds or other viruses were passed.

I am comfortable with all options	Masks should be required for preschool aged children.	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	I am trusting school administrators and staff to do the best to keep all of us safe. Angry out bursts are not a good way to solve important issues. We are retired and have the greatest risk of getting the virus as we live with a second grader. We made no issue of wearing masks, so he did not seem to mind wearing his and never complains about it. Please do the best you can to keep students and families safe. This too shall pass.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	I think these kids have all been not wearing masks all summer being together and on vacations and such!!
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population ineligible to be vaccinated)., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.		I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be required for preschool aged children.	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I want the school to screen all staff/students .	I would like isd361 to consider the fact that not all parents are taking the covid situation seriously and often travel around the country to places that have much higher risk than our community does, and require the children wear masks. My son has asthma and I want to limit his exposure while allowing him the best education possible. Thank you for looking at this from all angles and thank you for not wavering and doing what is best for our children's safety

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.		I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	I would prefer to bring my child to their physician for a COVID test if needed. I would be comfortable allowing the school to administer the test, but would like to be notified prior, to make the decision myself.

I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline date, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	<p>I think that if staff has been vaccinated there is no need for them to wear masks. However I know some parents will send their child to school regardless of any symptoms, so I do agree with the children wearing masks and being screened upon entry.</p> <p>I do not think teachers should be administering covid testing, either a nurse or 1-2 trained professionals. And only AFTER a parent or guardian is called & informed.</p> <p>I understand that this is a difficult situation and the school board/staff has a hard enough job just by itself. So i thank you for putting our children's safety first. You are appreciated!</p>
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline date, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	I feel like masking is having a harsh psychological impact on our kids. If masks are to be required, I feel like distance learning should also be an option.
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time. Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	I believe we have all been living with this situation long enough to know what we as individuals are and are not comfortable with. I believe it should be up to individuals/families to make decisions on what precautions they should be taking and not being told what to do. From my personal observation we were supposed to social distance and that didn't stop it, then we were to wear masks and that didn't stop it, now roughly half the population is vaccinated and that hasn't stopped it. This is a force of nature it is going to run it's course and in the end it is not going to go away, we are going to get used to living with it as we do any other respiratory virus. I understand this is a difficult position for faculty and board to be in, and I understand they are trying to look out for the well-being of the whole. I appreciate the opportunity to have input into the path forward.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline date, or without. I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline date, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	I could not submit my answers without choosing one of the questions regarding a tiered approach. By making me choose one of these questions contradicts my other questions I answered. Let me make this clear... I think it should optional for everyone to wear a mask. Now if they have any symptoms and do not feel good but test negative for covid, then by all means wear a mask to keep other illnesses at bay. But let these kids try and have a normal year of school!!!
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.			I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Schools should not be approaching education as a public health care center. Testing should never be for anything other than academics. We don't send kids to the clinic to learn about math. They don't give children a 300 word essay to write after a surgery. Leave health care to the health care industry. I don't believe in masks or how kids or even most the adults wear them. It's like rubbing a band aid on a toilet seat before you stick it to a cut.
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time. I will self screen my child at home prior to sending, I want the school to screen all staff/students .	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	This is my second survey I do not want my first one to be acknowledged as I do not agree with any of the 3rd question. I do not feel kids should wear masks.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	Masks should be optional for preschool aged children.	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	<p>Let the government mandate the mask situation. Let the kids smiles be seen. Let them breathe fresh air.</p> <p>My ultimate goal would be no masks.</p> <p>A suggestion- if masks are required: mask in hallways only. If people can go to a restaurant and sit down at a table and take their masks off- students shouldn't need them in their desks. And they definitely shouldn't be wearing them during physical activities such as gym.</p> <p>Wondering why there is no distance learning option. Half the school board has been traveling all summer- I know one of them didn't even have their kids in school at all last year so they don't even know how miserable it was for the kids.</p>
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending

I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	

Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population uneligible to be vaccinated)., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.		I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	My kids are vaccinated
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	I would prefer my kids doing distance learning from home; as opposed to sitting hours in a classroom with a mask.
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	We wants kids in school and sports, full time. The way to do that is to use mitigation efforts like last year. It's our best hope until we can have herd immunity. Most large districts and almost all colleges have already gone to these efforts. We are all vaccinated in our family, but many of our students and friends of our family are not. We'd like to stay in school and keep everyone safe, following AAP, CDC, and WHO guidelines.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	NO MASKS

Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	I respect any guidelines you put in place for our children. I believe any guidelines you set in your space should be respected.
Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population ineligible to be vaccinated)., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.		I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	I would just like to thank everyone involved with our students. I can't imagine how hard this has been for all of you and my family appreciates everything you do. Thank you!
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	The parents should decide what level of masking and testing their children should endure. They are the healthiest of the population with a robust immune system which the covid-19 morbidity rates reflect. A tiered system can be flawed depending on data used in its framework. There is a huge difference in 10 positive cases in MN vs Koochiching County vs Ifalls vs Falls High. How many cycles of the PCR test were required to get a positive result? Many positive tests are detecting remnant's of the dead virus explaining asymptomatic cases. What are the age of the individuals with positive results? Should children be distance learning if there are 10 asymptomatic adults over 50 years old in International Falls? I have not seen a detailed flow chart of the tiered system which is being promoted by ISD361. We will continue to be involved in what is best for our boys and make decisions accordingly.

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status. I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I want the school to screen all staff/students .	No masks
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	While I said at no time am i comfrotable with my children receiving rapid tests, this is because it is such a new option. Once more information is available on this option I may be willing to reconsider.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Elementary pickup-will it be the same as last year???
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Regarding the question of having rapid tests performed at the school, neither of the two options listed portray my current opinion on this. While I am not opposed to my child being tested at the school, I'm not sure I'm comfortable with having this done by a teacher. Also, my belief is that the option to require a child to wear a mask should be at the discretion of the parents. While I understand that takes away the control of the school district, as a mature and responsible parent, I feel I should have the option to weigh the risks and monitor current local covid numbers to decide if I feel my child needs to wear a mask. I am responsible for every other health decision for my children and believe this should also fall under the same category.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	I worry about the social barriers masking is putting up for kids, please consider this, even if it seems small. They can't see smiles, frowns, emotions. I worry it will impact their social development. Thank you for hearing us.
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.		I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	Starting the year off with more restrictions is better. Bottom line is that we want our child in school.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	I don't think the school board should, nor has the right, to be more stringent than any MDH mandates.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	Masks should 100% be optional!
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	no masks, not tests, no vaccinations
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	Personally, with covid getting worse(sooon to hit us) and hospitals filling up, along with how transmissible the Delta variant is and its focus on the younger generation, I feel there is nothing more important than ones health. If you dont have your health, you dont have anything. Education is next. I truly believe that going directly to five days a week right away is a very bad idea, and will backfire. Even hi-bred with 3 days in class 2 days home is better..still using Wednesdays for catch up. But, I was wishing last year that there would have been online tutors available to assist our distant learners(especially with Math} I know for Luke, it would have made a huge difference. Too bad we couldnt have parent volunteers to take turns in classes they excelled in doing tutoring online. Even maybe hire a few paraprofessionals to do online tutoring. I would love to do that, but I wouldnt be a good candidate for math. Even 4 days in person and Wednesday distant to catch up and maybe that could be a day for online tuturing, as well as after school a couple days a week. International Falls has a lot of anti vaxer, and anti mask, not care about anyone else attitude that I am apprehensive about sending my child full time(5 days)without a mask mandate in place. Even though he is vaccinated, and with his breathing might not tolerate a mask that long, I feel there should still be options available for hi bred learning. Or maybe keep the unvaccinated unmasked kids distant learning this year. And let the high risk, vaccinated, masked children go to school this year. I really dont agree with the 5 days in class even with a mask mandate is appropriate right now.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	Hoping common sense prevails. Do NOT want my daughter masked but ultimately 5 days a week in the classroom is the utmost importance.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	

A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I am comfortable with a tiered system that would require masks only if district or county numbers indicate a high/substantial risk.	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Not ok with just "any" trained staff member administering a nasal swab, but would be ok if it were an RN at the school. Toddlers are fidgety - I'd rather someone not try to force a Q-tip up my 3 year old's nose. I would also prefer to remain anonymous if these answers are shared.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population ineligible to be vaccinated)., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	Tough times for all. I love to see us work together to come up with solutions. Thanks for sending the survey.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	If you feel you will need extra law enforcement at the next meeting regarding masks, I feel that speaks volumes towards parent's feelings regarding the situation. I would hope that this could be handled in a calm and productive manner, but I think some parents are completely fed up with this entire situation. I don't think that there would be local Facebook groups against masks and also unmask our children signs in town if parents thought there was a significant threat to their children's safety.
I am comfortable with all options	Masks should be required for preschool aged children.	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	

A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. For the last 13 years I have entrusted ISD 361 with two of the most precious people I know. In that time you have thought them how to survive real life saving scenarios such as fire/tornado drills and what to do in case of a school shooter. I have always believed you have done your best to protect our children no matter what. That being said, please don't let this anti-mask mob mentality ruin another school year. I think that it's important the loudest voice come from a united school board, not the some bullies in the crowd. I only ask that your decision be made on science based facts and not opinion. Thank you for your time.</p>
<p>A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. Trust science and trust state/federal experts as it pertains to Covid. Thank you for all the tough decisions that come before you.</p>

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	I completely and totally 100% disagree and disapprove of forcing children to wear masks or to be socially distanced in order to receive an education my children will not participate in this
I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Start putting the students first, some teachers are don't get me wrong but it seems many have gotten complacent over the years or have the I don't care attitude anymore. Twenty plus years ago our school programs were 100 times better then they are now for example Music programs, Sport programs and even the education aspects of the school. Which are not helping our children especially getting them ready for college or the real world!
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	I support the school boards decision either way and appreciate thier time and efforts to help keep children safe and IN school

Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I am comfortable with a tiered system that would require masks only if district or county numbers indicate a high/substantial risk.		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students.	Make the best choices to keep all kids safe and in school.
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students.	Until all children can be vaccinated I feel everyone has to do what they can to protect them.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population ineligible to be vaccinated).	Masks should be required for preschool aged children.	I am not comfortable with a tiered approach because I feel masks should be required at all times. Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I want the school to screen all staff/students.	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Some kids arnt good candidates for masks. With know behavioral and stabilizes I feel the school board should not make parents jump through Hope's to get their special and vehavioral needs child exempt from mask wearing when they have attending the school and also follow a iep for said delayments and behaviors.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
I am comfortable with all options	Masks should be optional for preschool aged children.	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	I am concerned that my pre schooler will not properly see and hear how sounds are formed while wearing a mask. However I know the teacher will do her best to give our kids the best tools she has for a productive learning environment.

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	<p>This survey should have been sent out to all parents before the School Board voted, now it is almost one week prior to school starting. The ISD #361 District Wide Mission Statement quoted from the isd361.k12.mn.us website states,</p> <p>"In partnership with parents and the community, the International Falls School District will prepare every student to become a productive citizen by developing their maximum potential within a safe climate of mutual respect and trust."</p> <p>There was no communication with us parents before the School Board voted. In a partnership when people work together, then there will be respect and trust and that is what we want our children to learn!</p>
I am comfortable with all options	I am comfortable with a tiered system that would require masks only if district or county numbers indicate a high/substantial risk.	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Disregard my answer about tiered approach. I don't want a tiered approach and that question makes you answer it. I want masks optional. Thank you.
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.		I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	Thanks for keeping our children safe as your priority. Please consider even if masks are required letting them remove them while sitting at their own desks. I believe they need breaks and if they are in their own seats they really don't need a mask.

Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time., I am comfortable with all options	I do not have a preschool aged child	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	One thought is to require masks for high school students as they have more out of school interactions and travel more frequently for sports/events/etc. They are also better able to handle wearing masks all day. Allow masks at the elementary to be optional as those students benefit more from the social/emotional side of learning that can be done easier through observing facial expressions, they also benefit from seeing words spoken/pronounced. From what I see, most of parents who are verbally upset are parents of elementary aged children. Just a thought. I will probably mask my daughters regardless to try and avoid quarantine as much as possible.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be required for preschool aged children.	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	I desperately want my children (and the students in my own classroom) to have as "normal" a year as possible, and masks seem to be one of the most effective ways to do that. I have no problem wearing a mask to school every day if it means we can be in the building with all of our students 5 days a week. I was concerned about teaching and learning while wearing a mask at the beginning of last year, but those fears were unfounded. In short, the masks were effective at stopping the spread of EVERYTHING, and wearing them wasn't a big deal.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	We pulled our 4th grader out due to the mask mandate would consider putting him back in isd361 if the mandate is lifted and the third question is invalid because I'm not ok with any tiered restrictions no mask mandate it should be optional for children
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be optional for preschool aged children.	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	Masking has not proven to slow the spread and may even increase the spread.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I am comfortable with a tiered system that would require masks only if district or county numbers indicate a high/substantial risk.	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population ineligible to be vaccinated),. A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	I'm sorry that there are so many individuals in this community who are so angry about having our children wear masks. I believe that the mask policy went well last year and there were no adverse effects for any of my children due to the need for masks. I am fully behind any decision that the school board makes but might still require my child to wear a mask anyway.

I am comfortable with all options		I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	I will agree with anything as long as they stay in school learning. They CANNOT have remote learning again.
I am comfortable with all options	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	I appreciate all you are doing
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	Masks should be required for preschool aged children.	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	I will support the school's decision either way regarding masks but I struggle with the point of making kids wear them all day in school if there is no mask mandate in place anywhere else they go. It just seems there have been and continue to be too many inconsistencies with covid rules and regulations across the country. The school is in a difficult position, but I trust the decisions being made in regard to covid are being made with the best interests of the students and staff in mind.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time. I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	Thank you for asking for our input on this matter. While I believe this should have been done from the start, I am happy you are now doing so. I feel that as a parent, I am responsible for my child's health care and making these important decisions, not the school or school board as it is not a state mandated requirement. Also, I would be in favor of signing a release of responsibility, so that the school is not held liable if my child were to contract Covid from another student or staff member. Again, thank you for hearing our concerns and suggestions.

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	I do not want my child to have to wear a mask
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.		I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	I honestly do not feel comfortable with my child wearing a mask for 8 hours a day I think it interferes with learning as my child looks for facial recognition in determining how a person is feeling and how is he or she should feel watching facial expression .
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning. I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	Medical facilities still require masking - not a leap to require it in schools - if it keeps our kids in sports I'm all for it - Good luck and have a great year!!
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	Having the kids not wear a mask while seated at their desk.
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K-6 (population uneligible to be vaccinated).		I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	Having optional mask wearing in a single grade would be terrible for the kids who wore them. Those not wearing them would make fun of those who did wear them and then those who did wouldn't due to peer pressure. Safety is most important for kids 6th grade and under who can't get vaccinated. We did K12 last year due to this. We really want our child to attend in person. I ask that you do across the board masks for each grade until kids reach 7th. I agree with your original decision and appreciate the board.
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.			I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	Masks save lives.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I want the school to screen all staff/students .	Children with medical disabilities should be medically exempt from having to where a mask.
I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	This is my second vote due to the fact that I have two kids in high school.

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	
Masks required for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I am not comfortable with a tiered approach because I feel masks should be required at all times.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	<p>One issue with masks being optional is that staff is not going to be able to keep track of which kids are supposed be wearing them. So, kids will see friends without one and decide to not wear one, too.</p> <p>I feel like the adults who choose not to be vaccinated and get Covid can easily give it to their kids. And those kids can give it to all the other kids because they aren't able to be vaccinated. I feel like it's easy for some people to say masks shouldn't be worn or should be optional until they're child or a close relative gets it and by then, it could be too late. What about all the children out there with weakend immune systems and other medical complications that make them easily susceptible to getting sick. I understand that masks are not comfortable to wear, but I would gladly wear one and would be fine with my child wearing one if I knew that it could/would prevent other children/adults from needlessly getting Covid. I feel like the unmask parents really aren't thinking about everyone in this situation.</p>
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	Masks should be optional.... Not required
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	MY child My choice
(population able to be vaccinated), Masks are	have a	tiered approach because I	covid test being administered	school to	and staff who are NOT vaccinated wear a mask. If vaccinated staff or

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status., A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline date, or without. A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.		I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	<p>Please keep them in school if possible. I respect other opinions but we are all in this together. I think the states need to make the call. The correct call appears to be 100% vaccination for age 12 and up. Mandatory masks must also be considered since they are effective in limiting transmittal. We just can't have a do-over if we mess up. Perhaps something different could be offered at home for those students or parents who do not want vaccination or masks. We also hope that our kids are able to enjoy athletic competition. Last year ended poorly for the hockey team as we forfeited our playoff game yet we luckily got a majority of games in. We tragically lost our neighbor to Co-VID. We have learned that you cannot let your guard down. I do feel that spectators are important at athletic events. I think we need to have temperature monitors at all gates and require vaccinations. Also low seats near players need to be roped off and social distance enforced. We are all in this together. Please, please try to keep calm. Last year we desperately needed a vaccine. People were dying. Even with a vaccine people are still dying. Please do the right thing and get vaccinated. Our thoughts and prayers go out to the school board who has to gather information and make the tough decisions that are in the best interest of everybody. We will get thru this. We have to get thru this. I think that Minnesota needs to make drastic short term changes in their school plan. My daughter is a nurse. She is so wore down to the point of depression. I feel the teachers must feel the same way. Everything should be under consideration to limit the stress of the educators. Here are a few examples. A 3 or 4 day school week. I am thinking Tues thru Thursday? I am not in favor of running long however.</p> <p>Facilities. It appears the district did an excellent job in keeping the facilities sanitized. Double those efforts.</p> <p>Temperature monitor checks every time a person enters a building.</p> <p>Encourage participation by sharing with students when we hit safety goals/milestones. Much like PCA DOES.</p> <p>If we need to shut down, what does the reset look like. If we have only 50% of our people vaccinated, Co-Vid will not just go away. Our best chance is to all get vaccinated now. the longer we let it stay around the more likely the chance of mutations. With mutations the virus gets harder to kill or control.</p> <p>Prioritize the following.</p> <ol style="list-style-type: none"> 1. Life 2. Learning 3. New Car 4. New Boat 5. Mental Health 6. Physical Health 7. Teamwork. 8. Day Care 9. Care for the elderly 10. Quality of life. <p>We will all prioritize differently. We want it all. We can't have it all. Learning is life long. We can kick the can down the road a little to save lives. We are not going to have perfection because the game of COVid has no rules. We would be fools to think we can control this especially if we are only 50 percent vaccinated.</p> <p>Let's cut back our days, lower our expectations but increase our prevention measures. Use Minnesota-nice. Support our teachers and school board. MASK UP. Make good team decisions because what you get exposed to so does your entire team.</p> <p>The school district has done an excellent job of communication. It has been fantastic. Continue or even expand your efforts.</p> <p>This is not over. Do not be lulled into thinking we are past the effects of this virus. Have a rapid response team that can make critical decisions within a few hours. What we know is that we don't know what the school year will look like. Plan for the best with all available precautions and prepare for the worst which would be suspension of school/activities. Monitor the teachers and shorten the school week. Maybe break the school year down into smaller sizes which will give us more ability to react. Lets hope this thing is over but don't be surprised if we are having the same discussion next fall and even the one after that.</p> <p>You have an amazing talented board. You will do right.</p> <p>Thanks for the opportunity to give input. We will support whatever you put forth.</p>
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.		I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	It is dangerous for bus drivers to have masks on my glasses fog up , I had a face shed on and I seen double vision.

Masks required for all students and staff in school buildings, in all grades regardless of vaccination status., Masks optional for students in grades 7-12 (population able to be vaccinated), Masks are required for students K 6 (population uneligible to be vaccinated).	Masks should be optional for preschool aged children.	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending, I want the school to screen all staff/students .	As soon as my kids can get vaccinated all bets are off. That's the best that's available to us. Once we are all vaccinated who want it let's get back to normal.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child	I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Mask aren't needed
A tiered system that changes to meet the current local Covid status. (If there were 0 cases in X days, indicating a Low/moderate situational risk then masks would be optional. If there were X cases in X days indicating a high/substantial risk, masks may be required for a period of time.		I selected a tiered approach and would be comfortable with my child starting the school year wearing a mask for at least a two week time period, at which time the district/board would evaluate local county and building numbers to determine a baseline to move to masks optional. This gives the district a time period to determine if students are asymptomatic etc... and will be proactive in preventing unforeseen outbreaks and prioritizing in person learning.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.		I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline date, or without.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Masks optional
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.	I do not have a preschool aged child		I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	

Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status. I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	
I am comfortable with all options		I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I will self screen my child at home prior to sending	My #1 priority is having my kids in school 5 days a week (not distance learning). If that means wearing masks, they will wear masks. I'm also comfortable having masks be optional for students and teachers. I would prioritize decisions based on keeping kids in school 5 days a week.
I am comfortable with all options	I do not have a preschool aged child	I am comfortable with either start in a tiered approach meaning starting with masks to gather baseline data, or without.	I would be okay with a rapid covid test being administered to my child with the goal to keep them in school learning.	I want the school to screen all staff/students .	Do whatever necessary to keep kids in school and sports. My son is a senior and I just want his last year of high school to happen.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.		I selected a tiered approach but want my child to start the school year with masks optional regardless of summer activities and having baseline data.	I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Let the kids be kids. They will be together for prolonged periods of time, well over the 15 minute mark of exposure, irregardless of masks being worn. Leave it optional for kids/families to wear masks, but please don't make it required. Also consider the home the kids are coming from when they either wear or don't wear a mask; parents make a lot of those decisions, and the kids are just along for the ride, so to speak. I think the staff/teachers will be more than understanding and compassionate in regards to that, judging from those I have met. This has seemed like a good school district from what I've experienced/observed.
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.			I under no circumstances would be comfortable with the school administering a rapid Covid test for my child.	I will self screen my child at home prior to sending	Early out on Fridays!
Masks are optional for all students and staff in school buildings, in all grades regardless of vaccination status.
