Notes from the Principal, Mrs. Roux ...

Here we are with just 8 and 1/2 days of school left for this year. This has been such an amazing school year and we are hoping to make these last couple of weeks a positive end to all of the learning and fun that has happened. Last week we welcomed our newest friends during Kindergarten screening. This week we started the process of saying goodbye to our oldest friends as they visited the middle school to start to get a feel for next year.

As we wrap up this year, please be watching for information about special events and opportunities for you to participate in activities and support our students during field days, 5th grade celebration, spring concerts, etc. Each school has several events planned for this last stretch.

As I mentioned last week, please continue to monitor your child and help him/her with the upcoming transition to summer and next year.

(email: lroux@rsu3.org school phone: 722-3636 home phone: 568-3980 cell: 323-0990)

Notes from the Office:

If your child is absent from school, please remember to contact the school office/secretary directly either by phone or email. Please do not rely on communicating this via facebook or through other staff members. Thank you.

Important Upcoming Dates.....

June 8 - Spring Concert 1:45 p.m.

June 9 - 5th Grade Celebration

June 12 - Field Day

June 13 - Last Student Day (early release)

June 13 - Budget Referendum - please get out and vote

June 14 - School Board Meeting

Check Out What's Happening at Morse School: **Week of 5/22**

<p>1</p>	<p>The space rocket has taken off and our Flower Shop is now up in the dramatic play area. We will be working more on our last science unit-Plants to wrap up the year. Mrs. Johnston has been doing many lessons with us during Gardening as well. In math we have been making numbers up to 120 with base ten models and comparing numbers with greater than, less than, or equal to. This is a busy time of year with finishing up units and our spring assessments.</p>
<p>3</p>	<p>This week we move from our study of the solar system to something essential to our lives on Earth: water. We will talk about where it can be found, in what forms and what we can do to conserve. In math, we will be continuing to work on fractions. We look at how to place fractions on number lines, this week we will start to look at comparing fractions.</p> 
<p>4</p> 	<p>We finished our spring assessments this week, and it has been exciting to see everyone's progress! We celebrated all students who earned enough coins for following expectations with a trip to the park for ice cream! We will finish up the year by reviewing what we've learned and with some fun activities.</p> 
<p>SEL</p>	<p>This week at Morse students played a review Kahoot.</p>
<p>Garden</p>	<p>We are so thankful for donations to our school garden program! Fifth graders planted flowers in our school sign, thanks to a donation from a garden supporter. Second, third, and fourth graders readied the garden beds for potatoes, then planted them. Many thanks to a donation of many seed potatoes from a parent! Our youngest students also watered, weeded, and checked on our growing garden.</p>
