Early Childhood Screening is FREE through the school district. Children should be screened between the ages of 3-5 (before Kindergarten). We at ECFE feel the best time to screen is from 3 years 2 months to before your child's 4th birthday. Private schools may not require screening, but it is a good way to check your child's development.

1038 Play and Learn (Ages birth -5)

Come to our site and get the wiggles out as you explore a place and toys that are different from your own. This class will allow you to have some special time with your child while also giving you and your child time to socialize and meet new friends. There is no separation or formal parent time in this class. At the end of each class there will be a short circle time with a story and songs. Enter your child's world and explore with them!

Mix it up! This class has a little something for everyone. The first half of class parents and children spend time together on developmentally appropriate activities such as sensory experiences, making art projects, and other activities that build preschool skills. After enjoying a short circle time, parents and children separate. While parents have time to visit with others about relevant parenting topics, children will have time to practice social skills during snack and a time of free play that is monitored by a licensed ECFE teacher.

One thing is for certain, toddlers are learning by leaps and bounds! Come and join us as we offer sensory experiences, simple art, music, movement, finger plays, stories, and age-appropriate activities for you to enjoy with your child.
