The above-named individual has recently been identified by Crawford County Public Health as a direct contact of a person that has tested positive for COVID-19 using a test authorized for use by the Food and Drug Administration. Ohio Revised Code 3707.11 authorizes Crawford County Public Health to require the above-named individual to quarantine for 10 days following exposure to an individual who was laboratory confirmed (COVID-19) positive.

In collaboration with your school district, the following guidelines shall be adhered to:

\_\_\_\_\_ The above-named individual is a direct contact of a household member that has tested positive for COVID-19 and is not vaccinated and must quarantine at home until the date indicated above.

\_\_\_\_\_ The above-named individual is a direct contact of a household member that has tested positive for COVID-19 but it has been verified they are vaccinated and may choose to either quarantine at home until the date indicated above or may choose to report to school as long as they wear a facial mask and social distance as much as possible when around other people.

\_\_\_\_\_ The above-named individual is a direct contact of someone outside of his/her household that has tested positive for COVID-19 and may choose to either quarantine at home until the date indicated above or may choose to report to school as long as they wear a facial mask and social distance as much as possible when around other people.

Recommended actions during quarantine include maintaining social distance (at least 6 feet) from others, wearing a mask when around other people, and self-monitoring of symptoms of COVID-19 through 10 days.

If the above-named individual remains symptom free, they will have completed their quarantine on the above date and may return to work/school on the date indicated. Crawford County Public Health thanks you for your cooperation in protecting the health of our community. Our contact information is listed below, should you have any questions.

Sincerely,
