INTRODUCTION

The Tonawanda Board of Education is committed to providing a safe and orderly school environment where students may receive and district personnel may deliver quality educational services without disruption or interference. Responsible behavior by students, teachers, other district personnel, parent(s)/caregivers and other visitors is essential to achieving these goals.

The District's expectations for conduct on school property and at school functions are based on the principles of civility, mutual respect, citizenship, character, tolerance, honesty and integrity. This Code also includes language regarding policy and practice in accordance with the Dignity for All Students Act. This ensures that no student is subject to bullying, cyber bullying, harassment, and/or discrimination based on a person's actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, transgender and gender status, or sex by school employees, or students whether on school property, on a school bus, or at a school function. Additionally, these Code requirements apply to off-campus behavior that creates or would foreseeably create a risk of substantial disruption within the school environment, where it is foreseeable that the conduct, threat, or intimidation or abuse might reach school property.

The Board recognizes the need to:

- Clearly define acceptable conduct;
- Provide proper training in the areas of civility, citizenship, and character education
- Identify the possible consequences of unacceptable conduct and,
- Ensure that discipline is administered promptly and fairly.

To this end, the Board of Education adopts this Code of Conduct.

Unless otherwise indicated, this code applies to all students, school personnel, parent(s)/caregivers and visitors when on school property or attending a school function.

If the student does not comply then this is a violation of the code of conduct and progressive discipline will be imposed. In-school suspensions are not governed by Education Law §3214. The student and the parent(s)/caregiver will be provided an opportunity to discuss the student's conduct (that led to the in-school suspension assignment) with the person authorized to impose the discipline.

Extracurricular-Activities (Grades 6-12)

Students have the right to participate in extracurricular activities offered by the District. However, that right is not without limits. Suspensions from extra-curricular activities are not governed by Education Law §3214. The student and the parent(s)/caregiver will be provided an opportunity to discuss the student's conduct (that led to the suspension from extra-curricular activities) with the person authorized to impose the discipline.

PROCESS: REPORTING VIOLATIONS

- All students are expected to promptly report violations of the Code of Conduct to a teacher, school counselor, the Building principal/ designee. Any student observing a student possessing a weapon, alcohol, marijuana or illegal substance on school property or at a school function shall report this information immediately to a teacher, the Building principal, the principal's designee or the superintendent. Additionally, any student witnessing bullying, cyber bullying, harassment, and/or discrimination shall report such behavior to a teacher, a building administrator, and/or Dignity Act Coordinator immediately.
- All District staff members that are authorized to impose disciplinary sanctions are expected to do so in a prompt, fair and lawful manner. District staff members who are not authorized to impose disciplinary sanctions are expected to promptly report violations of the Code of Conduct to their supervisor, who shall in turn impose an appropriate disciplinary sanction, if so authorized, or refer the matter to a staff member who is authorized to impose an appropriate sanction.
- Any weapon, alcohol, marijuana or illegal substance found shall be confiscated immediately, if possible, followed by notification to the parent(s)/caregiver of the student involved and the appropriate disciplinary sanction if warranted, which may include permanent suspension and referral for prosecution.
- The building principal/designee must notify the appropriate local law enforcement agency of those Code violations that constitute a crime and substantially affect the order or security of a school as soon as practical, but in no event later than the close of business the day the Principal/designee learns of the violation. The notification may be made by telephone, followed by a letter mailed on the same day as the telephone call is made. The notification must identify the student and explain the conduct that violated the Code of Conduct and constituted a crime.

All staff members must maintain confidentiality about all personal information and educational records concerning students and their families in accordance with the Family Educational Rights and Privacy Act (FERPA).

Consequences for misconduct

Students who are found to have violated the District's Code of Conduct may be subject to the following consequences, either alone or in combination. The school personnel identified after each penalty are authorized to impose that consequence, consistent with the student's right to due process (imposed consequences for student misconduct are based on the age and maturity level of the student). In each situation, where appropriate, the superintendent or principal may appoint a designee.

PROHIBITED STUDENT CONDUCT AND RANGE OF CONSEQUENCES

Note: Parent(s)/caregiver will review the prohibited conduct below with their child to ensure a clear understanding of the rules and regulations governing appropriate school conduct. Once your child has a clear understanding of our Code of Conduct, a cooperative relationship between home and school can foster your child's educational success at school.

Due Process

The amount of due process a student is entitled to receive before a penalty is imposed depends on the penalty being imposed. In all cases, regardless of the penalty imposed, the school personnel authorized to impose the penalty must inform the student of the alleged misconduct and must investigate, to the extent necessary, the facts surrounding the alleged misconduct. All students will have an opportunity to present their version of the facts to the school personnel imposing the disciplinary consequence in connection with the imposition of the consequence. Students who are to be given consequences other than an oral warning, written warning or written notification to their parent(s)/caregiver are entitled to additional rights before the penalty is imposed.

These additional rights are explained below. The following flow chart details the responsibilities of a teacher and Principal when a student who disrupts is removed from the classroom.

REMOVAL OF STUDENT WHO DISRUPTS BY TEACHER

PRINCIPAL/DESIGNEE’S RESPONSIBILITIES TRIGGERED BY STUDENT REMOVAL FROM A CLASS BY TEACHER

Within 24 hours of removal, the principal/designee must inform the parent(s)/caregivers of reasons of removal.

On, request, the student/parent(s)/caregivers must be given an opportunity to discuss reasons with principal.

If student denies charges the student/parent(s)/caregivers must be given explanation of basis of removal and an opportunity to present his/her version. This must take place within 48 hours of removal.

Principal must decide, by the close of business on the day following the opportunity for the informal hearing with the principal, whether the discipline will be overturned. Principal may only set aside discipline if:

- The charges against the student are not supported by substantial evidence.
- The student’s removal is in violation of the law.
- The conduct warrants suspension and a suspension will be imposed.

RESPONSIBILITIES TRIGGERED BY STUDENT

Suspension from School

Suspension from school is a significant penalty, which may be imposed only upon students who are insubordinate, disorderly, violent or disruptive, or whose conduct otherwise endangers the safety, morals, health or welfare of others.

The Board retains its authority to suspend students, but places primary responsibility for the suspension of students with the superintendent and the building principals.

Any staff member may recommend to the superintendent or the principal that a student be suspended. All staff members must immediately report a violent student and refer the student to the principal or the superintendent for a violation of the Code of Conduct. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases a written report is to be prepared as soon as possible by the staff member recommending the suspension.

The superintendent or principal, upon receiving a recommendation or referral for suspension or when processing a case for suspension, shall gather the facts relevant to the matter and record them for subsequent presentation, if necessary.

Short-term (5 school days or less) Suspension from School

When the superintendent or principal (referred to as the "suspending authority") proposes to suspend a student who violated the code of conduct for five school days or less pursuant to Education Law Section 3214(3), the suspending authority must immediately notify the student verbally. If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student's parent(s)/caregivers in writing that the student may be suspended from school. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the decision to propose suspension at the last known address for the parent(s)/caregivers. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting the parent(s)/caregivers/persons in parental relation.

The notice must provide a description of the penalty against the student and the incident for which suspension is proposed and shall inform the parent(s)/caregivers/persons in parental relation of the right to request an immediate informal conference with the principal. Both the notice and informal conference shall be in the dominant language or mode of communication used by the parent(s)/caregivers. At the informal conference, the student and/or parent(s)/caregivers/persons in parental relation shall be permitted to present the student's version of the event and to ask questions of complaining witnesses under such procedures as the principal may establish.

The notice and opportunity for an informal conference must take place before the student is suspended unless the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student's presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

After the conference, the principal must promptly advise the parent(s)/caregivers in writing of his/her decision. The principal shall advise the parent(s)/caregivers that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the superintendent within five business

days, unless they can show extraordinary circumstances precluding them from doing so. The superintendent shall issue a written decision regarding the appeal within 10 business days of receiving the appeal. If the parent(s)/caregivers are not satisfied with the superintendent's decision, they must file a written appeal to the Board of Education with the District clerk within 20 business days of the date of the superintendents' decision, unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

Long-term (more than 5 school days) Suspension from School

When the superintendent determines that a suspension for more than five school days may be warranted, they shall give reasonable notice to the student and the student's parent(s)/caregivers of their right to a fair hearing. At the hearing the student shall have the right to be represented by counsel, the right to question witnesses against them and the right to present witnesses and other evidence on his/her behalf.

The superintendent may personally hear and determine the proceeding or may, in their discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before them. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A digital recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the superintendent. The report of the hearing officer shall be advisory only, and the superintendent may accept all or any part thereof.

An appeal of the decision of the superintendent may be made to the Board that will make its decision based solely upon the record before it. All appeals to the Board must be in writing and submitted to the district clerk within 20 business days of the date of the superintendent's decision, unless the parent(s)/caregivers can show that extraordinary circumstances preclude them from doing so. The Board may adopt in whole or in part the decision of the superintendent. Final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

Permanent Suspension

Permanent suspension is reserved for extraordinary circumstances which a student's conduct poses a life-threatening danger to the safety and well-being of other students, school personnel or any other person lawfully on school property or attending a school function.

Minimum Periods of Suspension

- **Students who bring a firearm to school** - Any student, other than a student with a disability, found guilty of bringing a firearm onto school property will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law Section 3214. The superintendent has the authority to modify the one-year suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the following:
 - The student's age.
 - The student's grade in school.
 - The student's prior disciplinary record.
 - The superintendent's belief that other forms of discipline may be more effective.

- Input from parent(s)/caregivers, teachers and/or others.
- Other extenuating circumstances.
- **Students who perform violent acts other than bringing a firearm to school** - Any student, (other than a student with a disability), who is found to have performed a violent act, other than bringing a firearm onto school property, shall be subject to suspension from school for at least five days. If the proposed penalty is the minimum five-day suspension, the student and the student's parent(s)/caregivers will be given the same notice and opportunity for an informal conference given to all student's subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent(s)/caregivers will be given the same notice and opportunity for a hearing given to all student's subject to a long-term suspension. The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a firearm.
- **Students who are repeatedly substantially disruptive of the educational process or repeatedly substantially interfere with the teacher's authority over the classroom** - Any student, other than a student with a disability, who repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom, could be suspended from school for at least five days. For purposes of this Code of Conduct, "repeatedly is substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by teacher(s) pursuant to Education Law Section 3214(3-a) and this Code on four or more occasions during a semester, or three or more occasions during a trimester. If the proposed penalty is the minimum five-day suspension, the student and the student's parent(s)/caregivers will be given the same notice and opportunity for an informal conference given to all student's subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent(s)/caregivers will be given the same notice and opportunity for a hearing given to all student's subject to a long-term suspension. The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a firearm.

Referrals

- **Counseling**
The School Counselor's Office shall handle all referrals of students to counseling.
- **PINS DIVERSION**
The District is allowed to file a complaint within the PINS (Person In Need of Supervision).
 - Persons In Need of Supervision is a term used to describe youth with serious behavioral problems who come to the attention of the Juvenile Justice System, whereby an adjudication of PINS is made in Court. Youth under the age of 18 who show a pattern of ungovernable behavior, such as running away, curfew violations, alcohol and/or drug abuse, violent or destructive behavior, or severe school truancy are eligible through PINS.
 - As defined by law, a PINS is “a youth less than 18 years of age who does not attend school; or is incorrigible, ungovernable, or habitually disobedient and beyond the control of a parent(s)/caregiver or other person legally responsible for such child’s care; or a youth who violates the provision of 221.05 of the penal law (unlawful possession of drugs).”

Student referred to law enforcement

- The superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before the Family Court:
 - Any student who is found to have brought a weapon to school, or
 - Any student 12 - 17 years old who qualifies for juvenile delinquent or offender status under the Criminal Procedure Law Section 1.20(42).

ALTERNATIVE INSTRUCTION

When a student of any age is removed from class by a teacher or a student of compulsory attendance age is suspended from school pursuant to Education Law Section 3214, the district will take immediate steps to provide alternative means of instruction for the student by a certified teacher.

DISCIPLINE OF STUDENTS WITH A DISABILITY (SWDs)

The Board recognizes that it may be necessary to suspend, remove or otherwise discipline students with a disability to address disruptive or problem behavior. The Board also recognizes that students with disabilities may receive certain procedural protections whenever school authorities intend to impose discipline upon them. The Board is committed to ensuring that the procedures followed for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations. This Code of Conduct affords students with disabilities subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable federal and state law and regulations.

Authorized Suspensions or Removals of Students with Disabilities

- For purposes of this section of the Code of Conduct, the following definitions apply.
 - A "suspension" means a suspension pursuant to Education Law Section 3214.
 - A "removal" means a removal for disciplinary reasons from the student's current educational placement other than a suspension and change in placement to an interim alternative educational setting (IAES) ordered by an impartial hearing officer because the student poses a risk of harm to himself or herself or others.
 - An "IAES" means a temporary educational placement for a period of up to 45 school days, other than the student's current placement at the time the behavior precipitating the IAES placement occurred, that enables the student to continue to progress in the general curriculum, although in another setting, to continue to receive those services and modifications, including those described on the student's current individualized education program (IEP), that will enable the student to meet the goals set out in such IEP, and include services and modifications to address the behavior which precipitated the IAES placement that are designed to prevent the behavior from recurring.
- School personnel may order the suspension or removal of a student with a disability from his/her current educational placement as follows:
 - The Board, the district (BOCES) superintendent of schools or a building principal may order the placement of a student with a disability into IAES, another setting or suspension for a period not to exceed five consecutive school days and not to exceed the amount of time a non-disabled student would be subject to suspension for the same behavior.
 - The superintendent may order the placement of a student with a disability into an IAES, another setting or suspension for up to 10 consecutive school days, inclusive of any period in which the

student has been suspended or removed for the same behavior (as described within the first bullet, 3 arrows above), if the superintendent determines that the student has engaged in behavior that warrants a suspension and the suspension or removal does not exceed the amount of time non-disabled students would be subject to suspension for the same behavior.

- The superintendent may order additional suspensions in the same school year for separate incidents of misconduct, as long as those removals do not constitute a change of placement.
 - The superintendent may order the placement of a student with a disability in an IAES to be determined by the relevant members of the committee on special education (CSE), for the same amount of time that a student without a disability would be subject to discipline, but not more than 45 school days, if the student carries or possesses a weapon to school or to a school function, or the student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function.
 - "Weapon" means the same as "dangerous weapon" under 18 USC Section 930(g)(w) which includes "a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except...[for] a pocket knife with a blade of less than 2 ½ inches in length.
 - "Controlled substance" means a drug or other substance identified in certain provisions of the Federal Controlled Substances Act specified in both federal and state law and regulations applicable to this policy.
 - "Illegal drugs" means a controlled substance except for those legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under the Controlled Substances Act or any other federal law.
- Subject to specified conditions required by both federal and state law and regulations, an impartial hearing officer may order the placement of a student with a disability in an IAES setting for up to 45 days at a time, if maintaining the student in their current educational placement poses a risk of harm to the student or others.

Change of Placement Rule

- A disciplinary change in placement means a suspension or removal from a student's current educational placement that is either:
 - For more than 10 consecutive school days; or
 - For more than 10 consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they accumulate to more than 10 school days in a school year and because of such factors as the length of each suspension or removal the total amount of time the student is removed and the proximity of the suspensions or removals to one another.
- School personnel may not suspend or remove a student with a disability if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspension or removal. However, the District may impose a suspension or removal, which would otherwise result in a disciplinary change in placement, based on a pattern of suspensions or removals if it is determined that the behavior was not a manifestation of the student's disability, or the student is placed in an IAES for behavior involving weapons, illegal drugs or controlled substances.

Special Rules Regarding the Suspension or Removal of Students with a Disability Whose Conduct is found to be a Manifestation of the Student's Disability

- The District's Committee on Special Education shall:

- Conduct a functional behavioral assessment to determine why a student engages in a particular behavior, and develop or review behavioral intervention plans whenever the District is first suspending or removing a student with a disability for more than 10 school days in a school year or imposing a suspension or removal that constitutes a disciplinary change in placement, including a change in placement to an IAES for misconduct involving weapons, illegal drugs or controlled substances. If subsequently, a student with a disability who has a behavioral intervention plan and who has been suspended or removed from his/her current educational placement for more than 10 school days in a school year is subjected to a suspension or removal that does not constitute a disciplinary change in placement, the members of the CSE shall review the behavioral intervention plan and its implementation to determine if modifications are necessary. If one or more members of the CSE believe that modifications are needed, the school district shall convene a meeting of the CSE to modify such plan and its implementation, to the extent the committee determines necessary.
- Conduct a manifestation determination review of the relationship between the student's disability and the behavior subject to disciplinary action whenever a decision is made to place a student in an IAES either for misconduct involving weapons, illegal drugs or controlled substances or because maintaining the student in his current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension that constitutes a disciplinary change in placement.
- The parent(s)/caregivers of a student who is facing disciplinary action, but who has not been determined to be eligible for services under IDEA and Article 89 at the time of misconduct, shall have the right to invoke applicable procedural safeguards set forth in federal and state law and regulations if, in accordance with federal and state statutory and regulatory criteria, the school district is deemed to have had knowledge that the child was a student with a disability before the behavior precipitating disciplinary action occurred. If the district is deemed to have had such knowledge, the student will be considered a student presumed to have a disability for discipline purposes.
 - A student will only be considered a student presumed to have a disability for discipline purposes if:
 - The parent(s)/caregiver of the student has expressed concerns in writing to supervisory or administrative personnel or a teacher of the student that the student is in need of special education. Such expression of concern need not be in writing if the parent(s)/caregiver does not know how to write or has a disability that prevents a written statement; or Conducted an individual evaluation and determined that the student is not a student with a disability; or
 - The parent(s)/caregiver of the student has requested an evaluation of the student in conformity with the state special education regulations; or
 - A teacher of the student or other personnel of the district has expressed specific concerns about a pattern of behavior demonstrated by the student, directly to the administrator in charge of special education or other supervisory personnel of the district.

If there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student shall be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors. However, if a request for an individual evaluation is made while such non-disabled student is subjected to a disciplinary removal, an expedited evaluation shall be conducted and completed in the manner prescribed by applicable federal and state law and regulations. Until the expedited evaluation is completed, the non-disabled student who is not a student presumed to have a disability for discipline purposes shall remain in the educational placement determined by the District, which can include suspension.

- The district shall provide parent(s)/caregivers with notice of disciplinary removal no later than the date on which a decision is made to change the placement of a student with a disability to an IAES for either misconduct involving weapons, illegal drugs or controlled substances or because maintaining the student in his/her current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension or removal that constitutes a disciplinary change in placement. The procedural safeguards notice prescribed by the Commissioner shall accompany the notice of disciplinary removal.
- The parent(s)/caregivers of a student with disabilities subject to a suspension of five consecutive school days or less shall be provided with the same opportunity for an informal conference available to parent(s)/caregivers of non-disabled students under the Education Law.
- Superintendent hearings on disciplinary penalties against students with disabilities subject to a suspension of more than five school days shall be bifurcated into a guilt phase and a penalty phase in accordance with the procedures set forth in the Commissioner's regulations incorporated into this Code.
- The removal of a student with disabilities other than a suspension or placement in an IAES shall be conducted in accordance with the due process procedures applicable to such removals of non-disabled students, except that school personnel may not impose such removal for more than 10 consecutive days or for a period that would result in a disciplinary change in placement, unless the CSE has determined that the behavior is not a manifestation of the student's disability.
- During any period of suspension or removal, including placement in an IAES, students with disabilities shall be provided services as required by the Commissioner's regulations incorporated into this Code.

Expedited Due Process Hearings

- An expedited due process hearing shall be conducted in the manner specified by the Commissioner's regulations incorporated into this Code, if:
 - The district requests such a hearing to obtain an order of an impartial hearing officer placing a student with a disability in an IAES where school personnel maintain that it is dangerous for the student to be in his/her current educational placement, or during the pendency of due process hearings where school personnel maintain that it is dangerous for the student to be in his/her current educational placement during such proceedings.
 - b. The parent(s)/caregiver requests such a hearing from a determination that the student's behavior was not a manifestation of the student's disability, or relating to any decision regarding placement, including but not limited to any decision to place the student in an IAES.
 - During the pendency of an expedited due process hearing or appeal regarding the placement of a student in an IAES for behavior involving weapons, illegal drugs or controlled substances, or on grounds of dangerousness, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the student shall remain in the IAES pending the decision of the impartial hearing officer or until expiration of the IAES placement, whichever occurs first, unless the parent(s)/caregivers and the District agree otherwise.
 - If school personnel propose to change the student's placement after expiration of an IAES placement, during the pendency of any proceeding to challenge the proposed change in placement, the student shall remain in the placement prior to removal to the IAES, except where the student is again placed in an IAES.
- An expedited due process hearing shall be completed in accordance with the applicable state education regulations.

Referral to Law Enforcement and Judicial Authorities

In accordance with the provisions of IDEA and its implementing regulations:

- The district may report a crime performed by a student with a disability to appropriate authorities, and such action will not constitute a change of the student's placement.
- With parent(s)/caregiver consent, the superintendent shall ensure that copies of the special education and disciplinary records of a student with a disability is transmitted for consideration to the appropriate authorities to whom a crime is reported. \

STUDENT SEARCHES

The Board authorizes the superintendent, building principal's/designee, assistant principals, the school nurse, and District security officials to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the District Code of Conduct.

- An authorized school official may conduct a search of a student in accordance with New York State Law, so long as the school has legitimate reason for such a search.
- An authorized school official may search a student or the student's belongings based upon information received from a reliable informant. Individuals, other than the district employees, will be considered reliable informants if they have previously supplied information that was accurate and verified, or they make an admission against their own interest, or they provide the same information that is received independently from other sources, or they appear to be credible and the information they are communicating relates to an immediate threat to safety. District employees will be considered reliable informants unless they are known to have previously supplied information that they knew was not accurate.
- Before searching a student or the student's belongings, the authorized school official should attempt to get the student to admit that he or she possesses physical evidence that they violated the law or the district Code, or get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought.
- Whenever practicable, searches will be conducted in the privacy of administrative offices and students will be present when their possessions are being searched.

Student Lockers, Desks and Other School Storage Places

The rules in this Code of Conduct regarding searches of students and their belongings do not apply to student lockers, desks and other school storage places. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent.

Use of Time Out Rooms, Restraints, and Locked Classroom Doors

In accordance with the provisions of IDEA and its implementing regulations:

- The use of time out rooms are prohibited unless the Part 200.22 (c) requirements are met and it is recorded in the student's IEP and Behavioral Intervention Plan (BIP).
- At no time shall a student be placed in a room for the purpose of discipline and have the door locked so he/she cannot safely get out if he/she desires.
- Only adults who have current training will restrain or transport a student in crisis. If such a student is a student with a disability, the use of restraint (CPI) shall be within the management section of the student's IEP. All restraints will be recorded by district personnel.

Documentation of Searches

- The building principal/designee shall be responsible for the custody, control and disposition of any illegal or dangerous item taken from a student. The principal/designee shall label each item taken from the student and retain control of the item(s), until the items is turned over to the police and/or parent(s)/caregiver if appropriate. The principal/designee shall be responsible for personally delivering dangerous or illegal items to police authorities.

Police Involvement in Searches and Questioning of Students

District officials and their designees are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Police officials may enter school property or a school function to question or search a student or to conduct a formal investigation involving students who may be suspected of performing a crime only if they have:

- A search or an arrest warrant; or
- Probable cause to believe a crime has been performed on school property or at a school function; or
- Been invited by school officials.

Before police officials are permitted to question or search any student, the building principal/designee shall first try to notify the student's parent(s)/caregiver to give the parent(s)/caregiver the opportunity to be present during the police questioning or search. If the student's parent(s)/caregiver cannot be contacted prior to the police questioning or search, the questioning or search shall not be conducted. The principal/designee will also be present during any police questioning or search of a student on school property or at a school function. Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. This means:

- They must be informed of their legal rights.
- They may remain silent if they so desire.
- They may request the presence of an attorney.

Child Protective Services Investigations

Consistent with the district's commitment to keep students safe from harm and the obligation of school officials to report to child protective services when they have reasonable cause to suspect that a student has been abused or maltreated, the district will cooperate with local child protective services workers who wish to conduct interviews of students on school property relating to allegations of suspected child abuse, and/or neglect, or custody investigations.

All requests by child protective services to interview a student on school property shall be made directly to the building principal/ designee. The principal/designee shall set the time and place of the interview. The principal/designee shall decide if it is necessary and appropriate for a school official to be present during the interview, depending on the age of the student being interviewed and the nature of the allegations. If the nature of the allegations is such that it may be necessary for the student to remove any of his/her clothing in order for the child protective services worker to verify the allegations, the school nurse or other district medical personnel must be present during that portion of the interview. No student may be required to remove his/her clothing in front of a child protective services worker or school district official of the opposite sex.

A child protective services worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if he or she were not

removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent(s)/caregiver's consent.

VISITORS TO THE SCHOOLS

- 6) Any unauthorized person on school property will be reported to the principal/designee. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.
