

EQUAL EDUCATIONAL OPPORTUNITIES

In recognition of the diversified characteristics and needs of our students and with the keen desire to be responsive to them, the school committee will make every effort to protect the dignity of the students as individuals. It also will offer careful consideration and sympathetic understanding of their personal feelings, particularly with reference to their race, creed, sex, gender identity, religion, nationality, and physical and intellectual differences.

To accomplish this, the committee and its staff will make every effort to comply with the letter and the spirit of the Massachusetts equal educational opportunities law (known as Chapter 622 of the Acts of 1971), which prohibits discrimination in public school admissions and programs. The law reads as follows:

No child shall be excluded from or discriminated against in admission to a public school of any town, or in obtaining the advantages, privileges and course of study of such public school on account of race, color, sex, gender identity, religion, national origin or sexual orientation.

This will mean that every student will be given equal opportunity in school admission, admissions to courses, course content, guidance, and extracurricular and athletic activities.

All implementing provisions issued by the Board of Education in compliance with this law will be followed.

EDUCATIONAL EQUITY

The School Committee's goal is to strive to address the needs of every student in each of our schools, subject to budgetary, space and other limitations.

Educational equity for the purpose of this policy is defined as providing all students, as reasonably practical, the high quality instruction and support they need to reach and exceed a common standard.

To achieve educational equity the district will commit to:

1. Systematically, when appropriate, use district wide and individual school level data, disaggregated by race/ethnicity, gender/gender identity, national origin, language, special education, socioeconomic status and mobility to inform district decision making.
2. Raise the achievement of all students.
3. Graduate all students ready to succeed in a diverse local, national and global community.

In order to reach the goal of educational equity, as reasonably practical, for each and every student, the District shall:

1. Provide every student with access to high quality curriculum, support, and other educational resources.
2. Seek to promote educational equity as a priority in professional development.
3. Endeavor to create schools with a welcoming and inclusive culture and environment.
4. Provide multiple pathways to success in order to meet the needs of the diverse student body and actively encourage, support and expect high academic achievement for each student.

The Superintendent shall include equity practices in the district's strategic plan and goal strategies to implement this policy. The Superintendent, upon request, will periodically report to the Committee the progress of the implementation of this policy.

ATTENDANCE AREAS

Attendance areas for the various schools of the town will be drawn up by the superintendent and approved by the school committee. The primary considerations that govern the establishment of a school attendance area are school capacity and transportation considerations. Generally, students will attend the school in the attendance area in which they live.

In establishing an attendance area, the following general guidelines will also be applied:

1. Use of safe walking conditions consistent with the committee's transportation policies; where possible, major traffic thoroughfares and natural barriers will be used for boundaries.
2. Honoring community of interest; where possible, school attendance zones will incorporate community patterns.

From time to time an overcrowded condition in an existing school, the development of new residential areas, or the opening of a new school may require the establishment or change of previously established school attendance areas.

The committee will confer with community representatives prior to setting new attendance lines. However, the committee's primary basis for judgment must be equality of educational opportunity for all students rather than the personal desires of any one group.

The superintendent is authorized to make exceptions to attendance lines for individual children in the best interests of the student and/or the school.

ASSIGNMENT OF STUDENTS TO SCHOOLS

Generally, students will be required to attend school in the attendance area in which they reside, unless special permission has been granted by the superintendent.

Special permission may be granted for the following reasons:

1. If the change involves an exceptional child, a hardship case or if there are medical considerations.
2. If the change appears to be in the interests of the child, of the schools and for disciplinary and administrative reasons.
3. If the legal residence of a child changes from one attendance area to another during the school year and the parents wish the child to remain in his/her former school; permission will not extend beyond the current school year.
4. To permit secondary school students to take courses not offered in their assigned schools.

School bus transportation will not be provided for students attending schools outside their attendance area unless they can be accommodated on existing bus routes and schedules; or an exceptional child is involved; or unless specific permission is granted by the school committee.

SCHOOL ADMISSIONS

All children of school age who reside in the town will be entitled to attend the public schools, as with certain children who do not reside in the town but who are admitted under school committee policies relating to non residential students or by specific action of the school committee.

Advance registration for prospective kindergarten students will take place in April. Every student seeking admission to school for the first time must present a birth certificate or equivalent proof of age acceptable to the principal, proof of vaccination and immunizations as required by the state and the school committee, unless there is a legally required exemption to this policy, such as for homeless or foster care students. Proof of residency of legal guardianship may also be required by the school administration.

For homeless students, who are temporarily residing in the District, the District will enroll the student immediately, even if they do not bring the records usually required for enrollment with them and will contact the previously attended school district to request the records.

For foster care students residing in the District, if it is in the best interest of a student to leave the school of origin and enroll in the District, the District will enroll the student immediately, without waiting to receive the typical student enrollment documentation (other than emergency contact information). The District will immediately contact the child's school and district of origin to obtain the relevant records and documentation. The District will require DCF representatives to present a Notice to LEA (Local Educational Agency) form that indicates that the student is in foster care, along with their state-agency identification badge to enroll the student.

For homeless and foster care students, the District will find alternative means to provide the enrollment paperwork after a student is enrolled in accordance with the above paragraphs. If the families do not have access to email, mail or cannot physically come to the District to pick-up the forms, the District will use additional means to have the forms completed such as having the parent complete the forms verbally via telephone with a staff member or hand delivering the forms.

STUDENTS ATTENDING THE MEDFIELD PUBLIC SCHOOLS

- a. while future residence is under construction
- b. while purchasing an existing home

Rationale:

The Medfield School Committee recognizes the educational value of a student attending school in the community in which his/her future residence will be located. However, the conditions for such attendance must be residency and not related to the laws and regulations governing school choice.

The Medfield School Committee empowers the Superintendent of Schools to arrive at a decision based on the following conditions or other reasonable alternative:

1. Future residence must be established in the Town of Medfield by meeting the following criteria:
 - a. Residence Is under construction or agreement: actual construction is taking place and the contract states clearly the time for completion of construction.
 - b. If a purchase and sales agreement has been signed on an existing home it clearly states the date for transfer of the deed.
2. The legal parents/guardian of the child will occupy the newly constructed residence within one month after the issuance of an occupancy permit or in the case of an existing home within one month after transfer of the deed.
3. No request for admission will be considered if residency will take longer than four months.
4. If permission is granted, parents/guardians must provide transportation under all circumstances until they physically reside in Medfield.

ADMISSION OF TRANSFER STUDENTS

The school district will enroll and place students who have left Commonwealth charter schools by adhering to the same policies and procedures in place for any other student enrolling in the school district including, but not limited to, examination of the course of study and level of academic attainment of the student when determining the student's appropriate grade placement or eligibility for high school graduation.

To the same extent provided for other students enrolling in the school district, students who enroll in the school district from a Commonwealth charter school shall be subject to the graduation requirements of the school district, may have certain graduation requirements waived, and may make-up certain graduation requirements.

STUDENT DISCIPLINE

The School Committee believes that all students deserve every opportunity to achieve academic success in a safe, secure learning environment. Good citizenship in schools is based on respect and consideration for the rights of others. Students will be expected to conduct themselves in a way that the rights and privileges of others are not violated. They will be required to respect constituted authority, to conform to school rules and to those provisions of law that apply to their conduct.

Each Principal shall include prohibited actions in the student handbook or other publication to be made available to students and parents/guardians.

Principals and staff shall not use academic punishment of any form as a consequence to inappropriate behaviors/actions by students.

The Principal may, as a disciplinary measure, remove a student from privileges, such as extracurricular activities and attendance at school-sponsored events, based on the student's misconduct. Such a removal is not subject to the remainder of this policy, law, or regulation.

The Superintendent shall provide each Principal with a copy of the regulations promulgated by DESE and shall have each Principal sign a document acknowledging receipt thereof, which shall be placed in their personnel file.

Suspension

In every case of student misconduct for which suspension may be imposed (except for offenses referenced in the note at the end of this policy), a Principal shall consider ways to re-engage the student in learning; and avoid using long-term suspension from school as a consequence until alternatives have been tried. Alternatives may include the use of evidence-based strategies and programs such as mediation, conflict resolution, restorative justice, and positive behavioral interventions and supports.

Notice of Suspension:

Except for emergency removal or an in-school suspension of less than 10 days, a Principal must provide the student and the parent/guardian oral and written notice, and provide the student an opportunity for a hearing and the parent/guardian an opportunity to participate in such hearing before imposing suspension as a consequence for misconduct. The Principal shall provide both oral and written notice to student and parent/guardian in English and in the primary language of the home if other than English. The notice shall include the rights enumerated in law and regulation. To conduct a hearing without a parent/guardian present, the Principal must be able to document reasonable efforts to include the parent/guardian.

Emergency Removal

A Principal may remove a student from school temporarily when a student is charged with a disciplinary offense and the continued presence of the student poses a danger to persons or property, or materially and substantially disrupts the order of the school, and, in the Principal's judgment, there is no alternative available to alleviate the danger or disruption. The Principal shall immediately notify the

Superintendent in writing of the removal including a description of the danger presented by the student.

The temporary removal shall not exceed two (2) school days following the day of the emergency removal, during which time the Principal shall: Make immediate and reasonable efforts to orally notify the student and the student's parent/guardian of the emergency removal, the reason for the need for emergency removal, and the other matters required in the notice as referenced in the applicable regulation; Provide written notice to the student and parent/guardian as required above; Provide the student an opportunity for a hearing with the Principal that complies with applicable regulations, and the parent/guardian an opportunity to attend the hearing, before the expiration of the two (2) school days, unless an extension of time for hearing is otherwise agreed to by the Principal, student, and parent/guardian; Render a decision orally on the same day as the hearing, and in writing no later than the following school day, which meets the requirements of applicable law and regulation.

A Principal shall also ensure adequate provisions have been made for the student's safety and transportation prior to removal.

In School Suspension – not more than 10 days consecutively or cumulatively

The Principal may use in-school suspension as an alternative to short-term suspension for disciplinary offenses.

The Principal may impose an in-school suspension for a disciplinary offense under this provision, provided that the Principal follows the process set forth in regulation and the student has the opportunity to make academic progress as required by law and regulation.

Principal's Hearing – Short Term Suspension of up to 10 days

The hearing with the Principal shall be to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction.

At a minimum, the Principal shall discuss the disciplinary offense, the basis for the charge, and any other pertinent information.

The student also shall have an opportunity to present information, including mitigating facts, that the Principal should consider in determining whether other remedies and consequences may be appropriate as set forth in law and regulation.

The Principal shall provide the parent/guardian, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the Principal should consider in determining consequences for the student.

The Principal shall, based on the available information, including mitigating circumstances, determine whether the student committed the disciplinary offense, and, if so, what remedy or consequence will be imposed.

The Principal shall notify the student and parent/guardian of the determination and the reasons for it, and, if the student is suspended, the type and duration of suspension and the opportunity to make up assignments and such other school work as needed to make academic progress during the period of removal, as required by law and regulation. The determination shall be in writing and may be in the form of an update to the original written notice.

If the student is in a public preschool program or in grades K through 3, the Principal shall send a copy of the written determination to the Superintendent and explain the reasons for imposing an out-of-school suspension, before the short-term suspension takes effect.

Principal's Hearing – Long Term Suspension of more than 10 days but less than 90 days (consecutive or cumulative)

The hearing with the Principal shall be to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction.

At a minimum, in addition to the rights afforded a student in a short-term suspension hearing, the student shall have the following rights: In advance of the hearing, the opportunity to review the student's record and the documents upon which the Principal may rely in making a determination to suspend the student or not; The right to be represented by counsel or a lay person of the student's choice, at the student's/parent's/guardian's expense; The right to produce witnesses on his or her behalf and to present the student's explanation of the alleged incident, but the student may not be compelled to do so; The right to cross-examine witnesses presented by the school district; The right to request that the hearing be recorded by the Principal, and to receive a copy of the audio recording upon request. If the student or parent/guardian requests an audio recording, the Principal shall inform all participants before the hearing that an audio record will be made and a copy will be provided to the student and parent/guardian upon request.

The Principal shall provide the parent/guardian, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the Principal should consider in determining consequences for the student.

The Principal shall, based on the evidence, determine whether the student committed the disciplinary offense, and, if so, after considering mitigating circumstances and alternatives to suspension as required by law and regulation, what remedy or consequence will be imposed, in place of or in addition to a long-term suspension. The Principal shall send the written determination to the student and parent/guardian by hand-delivery, certified mail, first-class mail, email to an address provided by the parent/guardian for school communications, or any other method of delivery agreed to by the Principal and the parent/guardian.

If the Principal decides to suspend the student, the written determination shall: Identify the disciplinary offense, the date on which the hearing took place, and the participants at the hearing; Set out the key facts and conclusions reached by the Principal; Identify the length and effective date of the suspension, as well as a date of return to school; Include notice of the student's opportunity to receive education services to make academic progress during the period of removal from school as required by law and regulation; Inform the student of the right to appeal the Principal's decision to the Superintendent or designee, but only if the Principal has imposed a long-term suspension. Notice of the right of appeal shall be in English and the primary language of the home if other than English, or other means of communication where appropriate, and shall include the following information: The process for appealing the decision, including that the student or parent/guardian must file a written notice of appeal with the Superintendent within five (5) calendar days of the effective date of the long-term suspension; provided that within the five (5) calendar days, the student or parent/guardian may request and receive from the Superintendent an extension of time for filing the written notice for up to seven (7) additional calendar days; and that the long-term suspension will remain in effect unless and until the Superintendent decides to reverse the Principal's determination on appeal.

If the student is in a public preschool program or in grades K through 3, the Principal shall send a copy of the written determination to the Superintendent and explain the reasons for imposing an out-of-school suspension before the suspension takes effect.

Superintendent's Hearing

A student who is placed on long-term suspension following a hearing with the Principal shall have the right to appeal the Principal's decision to the Superintendent.

The student or parent/guardian shall file a notice of appeal with the Superintendent within the time period noted above (see Principal's hearing – Suspension of more than 10 days). If the appeal is not timely filed, the Superintendent may deny the appeal, or may allow the appeal in his or her discretion, for good cause.

The Superintendent shall hold the hearing within three (3) school days of the student's request, unless the student or parent/guardian requests an extension of up to seven (7) additional calendar days, in which case the Superintendent shall grant the extension.

The Superintendent shall make a good faith effort to include the parent/guardian in the hearing. The Superintendent shall be presumed to have made a good faith effort if he or she has made efforts to find a day and time for the hearing that would allow the parent/guardian and Superintendent to participate. The Superintendent shall send written notice to the parent/guardian of the date, time, and location of the hearing.

The Superintendent shall conduct a hearing to determine whether the student committed the disciplinary offense of which the student is accused, and if so, what the consequence shall be. The Superintendent shall arrange for an audio recording of the hearing, a copy of which shall be provided to the student or parent/guardian upon request. The Superintendent shall inform all participants before the hearing that an

audio record will be made of the hearing and a copy will be provided to the student and parent/guardian upon request. The student shall have all the rights afforded the student at the Principal's hearing for long-term suspension.

The Superintendent shall issue a written decision within five (5) calendar days of the hearing which meets the requirements of law and regulation. If the Superintendent determines that the student committed the disciplinary offense, the Superintendent may impose the same or a lesser consequence than the Principal, but shall not impose a suspension greater than that imposed by the Principal's decision. The decision of the Superintendent shall be the final decision of the school district with regard to the suspension.

Expulsion

Expulsion is defined as the removal of a student from school for more than ninety (90) school days, indefinitely, or permanently as allowed by law for possession of a dangerous weapon; possession of a controlled substance; assault on a member of the educational staff; or a felony charge or felony delinquency complaint or conviction, or adjudication or admission of guilt with respect to such felony, if a Principal determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school.

Any student expelled from school for such an offense shall be afforded an opportunity to receive educational services and make academic progress.

Academic Progress

Any student who is suspended or expelled shall have the opportunity to earn credits, make up assignments, tests, papers, and other school work as needed to make academic progress during the period of his or her removal from the classroom or school. The Principal shall inform the student and parent/guardian of this opportunity in writing, in English and in the primary language of the home, when such suspension or expulsion is imposed.

Any student who is expelled or suspended from school for more than ten (10) consecutive days, whether in school or out of school, shall have an opportunity to receive education services and make academic progress toward meeting state and local requirements, through the school-wide education service plan.

The Principal shall develop a school-wide education service plan describing the education services that the school district will make available to students who are expelled or suspended from school for more than ten (10) consecutive days. The plan shall include the process for notifying such students and their parents/guardians of the services and arranging such services. Education services shall be based on, and be provided in a manner consistent with, the academic standards and curriculum frameworks established for all students under the law.

The Principal shall notify the parent/guardian and student of the opportunity to receive education services at the time the student is expelled or placed on long-term suspension. Notice shall be provided

in English and in the primary language spoken in the student's home if other than English, or other means of communication where appropriate. The notice shall include a list of the specific education services that are available to the student and contact information for a school district staff member who can provide more detailed information.

For each student expelled or suspended from school for more than ten (10) consecutive days, whether in-school or out-of-school, the school district shall document the student's enrollment in education services. For data reporting purposes, the school shall track and report attendance, academic progress, and such other data as directed by the Department of Elementary and Secondary Education.

Reporting

The school district shall collect and annually report data to the DESE regarding in-school suspensions, short- and long-term suspensions, expulsions, emergency removals, access to education services, and such other information as may be required by the DESE.

PREGNANT STUDENTS

School-age mothers, unless they receive adequate assistance, might drop out of school without acquiring the necessary education or without marketable skills.

Pregnant students will be permitted to continue in school in all instances when continued attendance has the sanction of the expectant mother's physician. The physician's approval of this continued attendance must be on file at the school. The student and her physician, in cooperation with the school staff, will develop an appropriate educational plan if it is agreed she should no longer attend school regularly.

Every effort will be made to see that the educational program of the student is disrupted as little as possible; that health counseling services, as well as instruction are offered; that return to school after delivery is encouraged; and that every opportunity to complete high school is provided.

No school shall sponsor or participate in the organization of outside extra-curricular activities conducted as such school which restrict students' participation on the basis of race, color, sex, gender identity, religion or national origin. 603 CMR 26.06(1) does not prohibit school committees from allowing use of school premises by independent groups with restrictive membership.
- (2) No student shall be denied the opportunity in any implied or explicit manner to participate in an extra-curricular activity because of the race, color, sex, gender identity, religion or national origin of the student except as provided in 603 CMR 26.06(7).
- (3) Each school system shall provide a fair distribution of athletic expenditures. Each school within such system shall provide equal opportunity for male and female students to participate in intramural and interscholastic sports. Factors considered in determining equal opportunity shall include budgetary allocations, the proportion of male and female students in the student body, the number and nature of activities offered, levels of competition, equipment (including rate of replacement), supplies, awards, uniforms, facilities, scheduling of games and practice times, travel opportunities and allowances, opportunities to receive equitable coaching and instruction at each level of competition and the availability of services such as medical and insurance coverage, publicity, clerical and administrative staff, scouting services and audio-visual aids.

- (5) In order to insure fair distribution of athletic expenditures as defined in 603 CMR 26.06(4), each school shall indicate in the budget that is reviewed by the school committee the anticipated expenditure for each interscholastic and intramural athletic activity and the anticipated student participation in the activity by number and sex.
- (6) A school may establish separate teams for males and females for interscholastic and intramural compensation in a particular sport, provided that the requirements of 603 CMR 26.06(8) are satisfied.

When offering extra-curricular programs, schools shall take into consideration the ethnic traditions of the student body.
