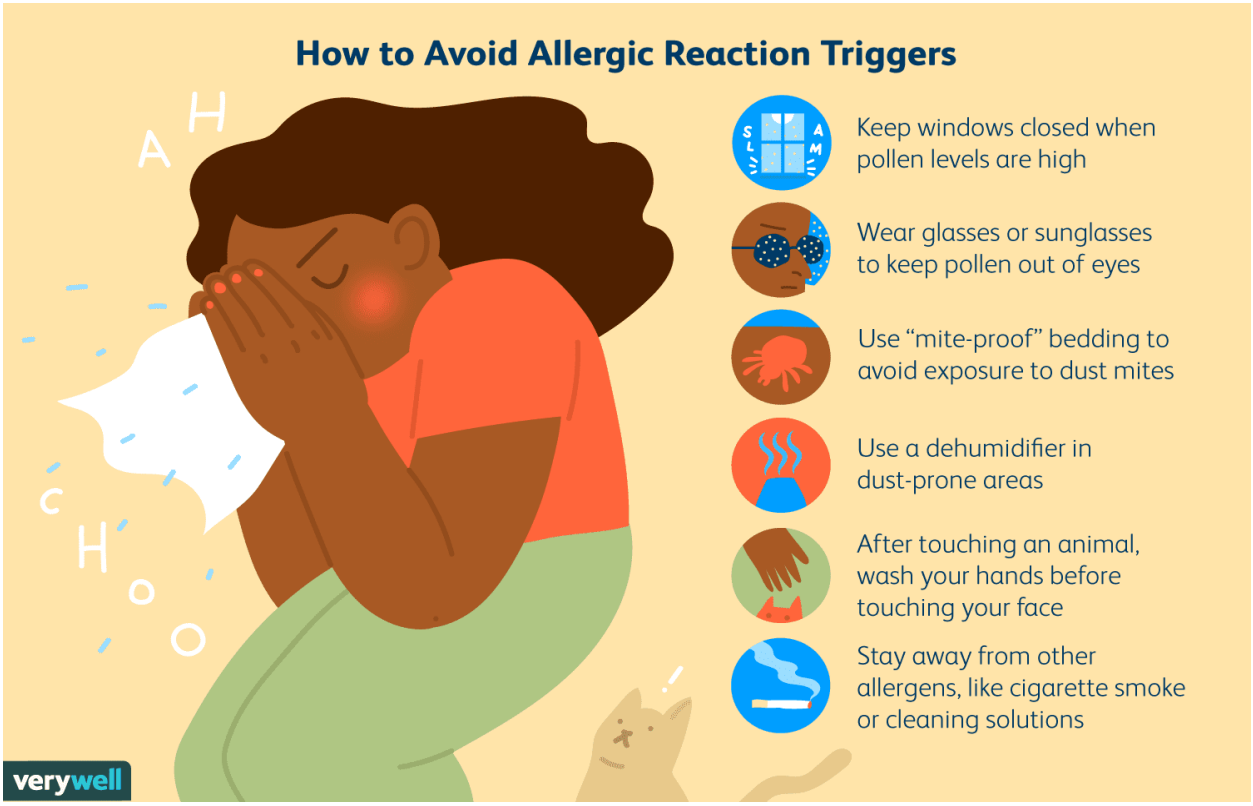
Maple Run Health Watch
(Maple Run Unified School District)

Date: 9/13/2021

Number of MRUSD Cases

While last week was only a four-day week, students, teachers, and parents were busier than ever. Yes, back to homework, sports, and busy morning/afternoons. While students and parents gather together, we see an increase in common illnesses like colds, upset stomachs, and allergies. While we would all like things to be as it was in the past, this year continues to hold all the same requirements as last year when it comes to illness. Due to COVID having the same symptoms, ruling it out will be necessary.



Your school nurses are working hard to respond to your questions quickly regarding illness and missed time from school. Unfortunately, due to high call/email volume, they may not be able to return your call or email for up to 24 hours within business hours only. When in doubt, keep your students home, and they will get back to you as soon as they can. We understand it can be stressful, and we want to help.

Surveillance Testing Update:

Each school in the Maple Run Unified School District will be offering free COVID-19 testing to all adults/students who wish to participate starting September 20th, 2021. Please refer to Mr. Kimball's letter, which was sent to families last week.

Valarie Lipka, RN, Covid-19 Coordinator
