Aberdeen School District

Mission, Vision, and Beliefs

Mission

Empowering all students to succeed in a changing world.

Vision

To provide all students with the knowledge and skills necessary to reach their potential in a global community through high expectations of academic achievement, diverse educational opportunities, and community involvement in a safe environment.

Beliefs

- All students can succeed when given the opportunity to learn through appropriate instruction, academic experiences and involvement in activities.
- All students benefit from a safe and nurturing learning environment.
- All students benefit from positive role models.
- Student progress is achieved by holding all students, parents and the school district accountable.
- Students' success is enhanced when the school, parents and community work together as partners.

Goals

- To meet AYP in all schools in the areas of math and reading.
- Provide a safe and supportive learning environment for all students and staff.
- Provide equitable access to current and developing technology tools for all students and teachers.
- Ensure a positive climate/culture that promotes collegiality among/between staff, parents, and students.
- Promote active partnerships within the community.

In an effort to facilitate and enhance student achievement at Central High School, parents, teachers, and administrators have joined to form a School Improvement Planning Committee. The committee's findings are found in this document, which is a tool that will enable stakeholders to sustain the school improvement focus at Central High School. This plan should drive subsequent decision-making, interactions, activities, and planning processes to further the goal of student achievement and to ensure compliance with Every Student Succeeds Act (ESSA) and the Next Generation Accountability Model.

Central High School Profile

Aberdeen is located in northeastern South Dakota, a primarily rural state. It is the third largest city in the state with a population of 25,000. Aberdeen has two post-secondary institutions, Northern State University and Presentation College. Its main employers are the schools, the hospitals, Molded Fiberglass, and 3M. Agriculture is still the community's predominant industry. Grain terminals, livestock sale barns, a grain inspection service, and related agribusiness help support the area.

The Aberdeen School District is comprised of eight attendance centers: one 9-12 high school, two 6-8 middle schools, and six elementary buildings. Unique characteristics of the staffing patterns and student population of Central High School are listed below:

Staff FTE	2019-20	2020-21	2021-22	School Improvement Planning Committee

Administrative Waivers

Aberdeen School District hereby applies for a waiver from certain South Dakota administrative rules that govern school accreditation, using the procedures outlined in § 24:43:08. It is the intent of the School District to implement the strategies for continued school improvement as outlined herein, and to annually report on the implementation of the of those strategies as described in § 24:43:08:08. The Aberdeen School Board of Education has held a public hearing and approved the following applications. At the end of each waiver term a report must be completed and submitted to the Department of Education.

Administrative Rule Waived: 24:43:01:01(53) Units of Credit

Academic Years Being Reported On: 2015-16, 2016-17, 2017-18, 2018-19, 2019-20

Course(s) to Which Waiver Applies: Algebra I, Algebra II, Geometry, Biology, Chemistry, Physics, World History, US History, Spanish I, Government, Geography

School Year	Students Attempting EOC Exam	Students Receiving Credit
2016-17	0	0
2017-18	0	0
2018-19	0	0
2019-20	2	2
2020-21	2	0

Administrative Rule Waived: §§ 24:43:11:01 Credit Before Grade Nine

Academic Years Being Reported On: 2015-16, 2016-17, 2017-18, 2018-19, 2019-20

Course(s) to Which Waiver Applies: Algebra I, Algebra II, and Geometry

School Year	Students Attempting EOC Exam	Students Receiving Credit
2016-17	53	52
2017-18	93	93
2018-19	118	113
2019-20	127	126
2020-21	116	114

Comprehensive Needs Assessment

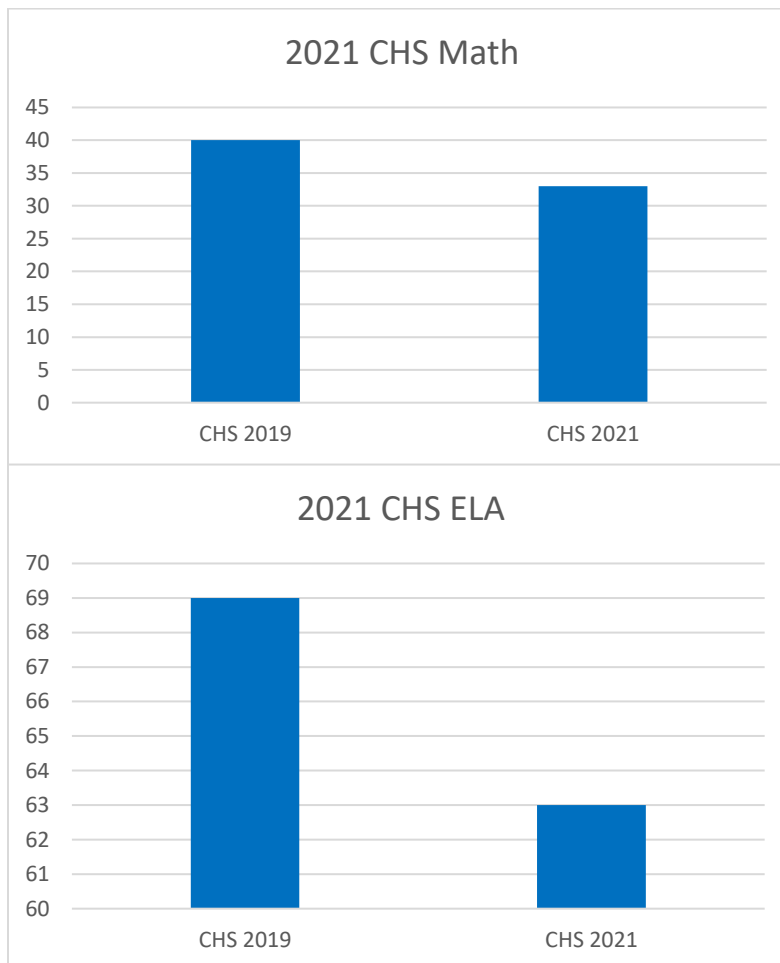

On August 23, 2021, staff members gathered to complete a comprehensive needs assessment of the entire school. Qualitative and quantitative data was reviewed based on the four areas of the CNA, leadership, curriculum and instruction, talent development and family engagement/ culture. Data sources included state assessment results, AIMS web results, ACT Test results, ACCESS results, attendance, and discipline reports. Data retreat participants broke down into sub-groups and identified strengths, areas of concern, and key areas in math and reading in need of improvement. Data is reviewed for all subgroups. An action plan was developed and possible strategies were then brainstormed. Detailed notes from all groups were submitted, kept, and referred to a subsequent SIP meetings.

The School Improvement Committee met on the afternoon of August 24, 2021 and finalize the action plan statements and refined the strategies for implementation. After discussing a wide variety of strategies, an action plan was tentatively designed with time frames, persons responsible, and necessary resources. Follow-up conversations and emails were held with Sub-Committee Chairpersons. Most of the specific details and refining for the action plan will be handled by the sub-committees other than the School Improvement Committee. The details of the action plan will be reviewed on an on-going basis with modifications made as the school improvement committee deems necessary. Surveys will be completed by staff, students, and parents in October of 2021. This information will be analyzed and changes to the action plan will be done in January of 2022 if necessary.

South Dakota State Assessment Results

Beginning in 2017, in compliance with the Every Student Succeeds Act (ESSA), the state of South Dakota required all students in grades 3-8 and 11 to take a computer adaptive test called the Smarter Balanced Assessment (SBA) now known as South Dakota State Assessment (SDSA). The SDSA assesses student achievement in the areas of math and reading. A student's score on each subtest places him or her in one of four achievement categories: Level 1, Level 2, Level 3, or Level 4. South Dakota's overarching goal for Student Achievement is to reduce by half the percentage of students (all subgroups) who are not proficient within six years. Proficiency is measured by performance on the annual statewide assessment. Targets, based on this six-year goal, are set for each subgroup at each school, in equal increments, to give that school a unique trajectory that recognizes where the school's subgroups started in terms of student proficiency and to support continuous improvement. In 2018 AMO targets were removed and a new growth model was adopted.

The following table displays the percentage of students who scored proficient (Level 3 or Level 4) for the 2018-19 school year and the 2020-21 school year. No testing was completed in 2019-20 due to COVID.

Analysis of Data: The data from the State Assessment has now been used since 2017. The CHS Reading scores of the percent of students proficient or advanced have traditionally been above the state average but we experienced a decrease of six percent over the 2019 year. Upon more detailed analysis females outscored males. All results for the non-white sub-categories of students fell below the CHS average. The CHS Math results of the percent of students proficient or advanced decreased by 7. Upon more detail analysis females outscored males slightly. All students in the non-white sub-categories fell below the CHS average.

Implications from Data: Reading scores have traditionally been solid. With the pandemic complications we experienced a downturn and we still need to improve in the areas of reading. We also plan to address the areas of discrepancies in our sub-categories. The overall math scores were down this past year and continues to be our biggest challenge. Our greatest need for focus is in the areas of Concepts and Procedures. We also need to address the areas of discrepancies in our sub-categories.

ACT Results

Year	Math		Science		English		Reading		Composite	
	Local	State	Local	State	Local	State	Local	State	Local	State
2017-18	20.8	21.6	21.3	22.2	20.0	20.2	22.1	22.4	21.2	21.9
2018-19	20.0	21.3	20.9	21.9	19.3	20.1	21.2	22.2	20.5	21.6
2019-20	20.8	21.8	20.09	22.2	19.2	20.8	20.9	22.6	20.6	21.9
2020-21	21.2	21.6	21.7	22.2	20.3	20.6	22.2	22.6	21.5	21.8

Analysis of Data: The traditional scores we assess are the percent of ACT-tested students that are college ready. The benchmarks scores represent the percent of students that were declared college in each specific area. This particular set of information was not available at the time the report was due. However, the mean scores were available. In our district the mean scores were up across the board. Our greatest area of strength in comparison to state averages was in the area Reading, and mean scores for 2019-2020 were up significantly. The reading scores were up from 21.2 to 21.7. Our weakest performing area for mean scores was in the English category. Scores remained steady in 2020-21, even during the COVID-19 pandemic.

Implications from Data: Our overall scores have been solid for several years. We had a one-year downturn 2018-19 that was disappointing. English and Science have been particularly strong over the years, but English was our lowest mean average this past year. Math scores were a major of concern in the past and those scores were up nicely. We need to improve in the area of math and preparing our students for College Algebra and closely monitor English scores for future trends.

Climate Surveys/Discipline Data

In the fall of 2021, school climate surveys will be administered to all students in grades 3 through 12 in the Aberdeen School District. The school climate surveys will also be provided to all district parents, teachers and other school staff. The purpose of the survey is to collect information to be used along with other data to improve our educational programs and for school accreditation purposes. We cross-referenced the information in the Climate Survey with CHS student discipline data. Climate Surveys are conducted every other year.

Analysis of Survey: To be completed in January of 2022.

2021-22 School Success Action Plan

<p>Theory of Action (If, Then, And Statement) Expresses the focus/direction: If we can get students in a proper math courses in a timely manner, have an increased focus on building and reinforcing math skills, and get students proper individual help, then the math failure rate should decrease and the South Dakota Math Assessment should increase and eventually our graduation and completion rates should increase.</p>			
<p>What potential implementation challenges need to be addressed? The biggest challenge will be following through in timely manner. We have action steps and tasks to help insure our plan is accomplished on time.</p>			
Action Plan	Timeline	Participation and Commitments	Completion Date
What actions/tasks will be used to achieve this milestone? What resources are required to implement the plan?		Who is involved and what role do they play?	
<p>Action 1: Make sure that students including all subgroups are enrolled in the correct math class. Counselors will review 100% of failures at the end of each term and math teachers will make recommendations at the end of each term. A review of rosters by math teachers will take prior to the third day of each term. Administrators will aid in communication and review process with counselors in teachers at transitions.</p> <p>Resources Required: N/A</p>	At the transition of every term beginning immediately	Middle school teachers – recommending students for honors and remedial Mrs. Rutherford – checking transcripts Super Study teachers – checking schedules and graduation progress	Review at transition of every term. First review Oct. 22, 2021
<p>Action 2: Build and reinforce math skills with all students in all subgroups. Math teachers are immediately building this in to their lesson plans daily. Administrators will check lesson plans as part of the teacher evaluation process to insure 100% compliance.</p> <p>Resources Required: collaborative Google drive with problems</p>	Ongoing beginning immediately	High school math teachers – do reviews during class time (can be quick like bell work)	Will review and discuss at October 8, 2021
<p>Action 3: Increase opportunities to help students get extra help in math through advisory tutoring, after-school tutoring, and peer tutoring. Math teacher will make referrals and communicate with parents. The SAT team will make referrals and communicate with parents. Administration participates in SAT meetings. Administration with monitor and review tutoring program weekly by tracking the number of participants with a goal of participation by 25% from first term to third term.</p>	Ongoing beginning September 7, 2021	Tutors (HS and college) NASA (T/Th Tutoring) Math Teachers (classroom)	Will review and discuss at October 8, 2021

Resources Required:			
Expected Outcomes by the end of the school year: Increased South Dakota Assessment Scores in math, lower failure rate in math, eventual increased graduation and completion rate.			
Evidence of Progress:			
End of the Year Summary on Each Action Step:

School Enrichment Activities

The school offers a variety of different activities to enrich and strengthen all aspects of the school. Teachers use methods and instructional strategies that strengthen the academic program in the school to increase the amount of quality of learning time and help provide an enriched and accelerated curriculum to provide a well-rounded education. Activities will include: bringing in special presenters, such as Kevin Locke who promoted Native American culture, history, language, and the arts; Build Dakota Road Show promoting the Build Dakota Scholarship; hosting the community wide Veterans Day Program; bringing in community leaders and working with our students as part of the Junior Achievement Ethics in Business program; students attending the College and Career Fair on the campus of NSU; supporting over dozen student centered clubs that perform thousands of community service hours; quarterly class meetings; post-secondary representatives are invited into Student Services often; music students working and performing with professional groups; intensive term-long Internship experiences; and inviting in and working with the Aberdeen Police Department to promote their DARE project.

These are just a few of the enrichment activities we do. The above strategies and activities will be evaluated for effectiveness by gathering feedback from students, staff, and parents

Professional Development

Throughout the year, staff members will be engaged in a variety of activities to help them build scope with the two identified goals. Additionally, staff will attend appropriate national, state, and regional conferences that will support the school-wide goals.

Local professional development opportunities will include technology in-services that will encourage the delivery and management of instruction. Finally, Central's professional library is constantly being upgraded in the areas of effective strategies for math and reading instruction.

Highly Qualified Staff

The Aberdeen School District requires all staff to be Highly Qualified in their given assignment area. All staff must follow the certification regulations outlined by the South Dakota Department of Education.

Pursuing Highly Qualified Certification

Pursuant to SDCL 24:28:11, the following staff are currently pursuing the proper certification to be highly qualify in their current position. Staff have two years to complete all the Department of Education requirements to become highly qualified.

Date of Hire	Staff	Course Taught
July 1, 2021	Andre Cobbs	Information Technology, Computer Programming, Network Technology
August 1, 2021	Katy Grote	Health Science Careers, Medical Terminology, First Aid & CPR

Parent Involvement in Education

Parents/guardians play a vital role in supporting student achievement. The PTA is an active and dynamic organization which assists the school by promoting effective parent involvement. Parents are provided with staff development opportunities through the Back to School orientation, strategies that are presented in monthly newsletters, and a lending library which is available to provide parents with information and resources to increase their involvement in their child's education. Presentations on current topics are available to parents at each of our four parent-teacher conferences

The administration and staff communicate with parents through newsletters, brochures, the district website, team meetings, open houses, and parent workshops. Conferences are held four times a year to provide parents/guardians with information regarding academic skill development. Midterm reports and report cards are distributed four times a year and provide an overall view of student achievement. The Infinite Campus Parent Portal is an excellent tool for parents/guardians to review online grades, attendance, and discipline referrals from home. In addition, the school counselor provides an additional avenue for parent communication

In an effort to promote additional parent involvement and to build a stronger knowledge base of the requirements of federal mandates, attempts will be made to review test scores with parents in small group meetings. Parents were provided written notice of the school's improvement needs in the monthly newsletter. The school improvement plan was discussed at PTA meetings, School Board meetings, American Indian Parent Advisory meeting and district-wide listening sessions. Parents also serve on our School Improvement Committee to help determine goals and create action plan for school improvement.

Central High School keeps all parents involved in their child's education in several ways. Progress reports are sent out quarterly. Parent/teacher/student conferences are held quarterly. Each child has a teacher advocate that monitors students' grades, attendance, and behaviors and communicates concerns to parents. Advocates are required to contact parents directly at least twice a year. The advocate also provides academic, career and social counseling. Each child has a counselor designated to their case for more professional issues. CHS has a referral process that keeps parents involved via Student Assistance Teams, 504 teams, and IEP teams.

Transition Processes

Transition activities for incoming ninth grade students begin with the CHS counselors visiting the middle schools in January to present information about classes that are available at CHS. During the following week, middle school counselors and teachers work with students to complete their registration forms. The CHS registrar then goes to the middle schools to check and collect the students' registration forms. Special Ed teachers meet from the two levels to transition students on IEP's and to register these students for appropriate classes. Principals meet to transition students of concern. An 8th grade registration night is held at CHS for all incoming freshmen and their parents to advise them on academic planning and the registration process. LINK CREW orientation is a half day of activities at CHS that incoming ninth graders attend the week before school starts in the fall. Upperclassmen are trained as LINK CREW leaders and work with the ninth graders in small groups, lead tours, and facilitate activities during that orientation. Counselors aid new students that arrive during the school year. CHS holds a Parent/Student Orientation and Activity Fair session before the start of the school year. Indian Education Office involved within the CHS Activity Fair for parent/student accessibility of program information and support. Visits from various American Indian College Admission departments promote accessibility and program resources that embrace cultural and transition needs of Native American students. All high school students are provided opportunities for career exploration, options for postsecondary education, vocational training, and work force information. High school students may participate in Advance Placement courses and dual credit courses through the local college.

Monitoring and Support

Central High School has devised an Academic Intensive Care Unit where students who are failing or have incomplete assignments are assigned to receive extra help.

All students have a teacher advocate that meets with the student daily during Super Study/Advisory Time. The teacher advocate monitors grades, attendance, and behavior of each of their students and also conducts social, career and academic counseling. Students who experience difficulty are referred by their advocate, classroom teacher, or parent to the Student Assistance Team (SAT). Student needs are evaluated by the team with recommendations made to help rectify the problems identified. Recommendations may include counseling, before or after school tutoring, behavior management plans, an outside mentor, and/or further review by the team. The team shares this information with the teachers involved with the child as well as the child's parents.

If problems tend to persist, the student may be referred to the Student Needs Team (SNT) for formal evaluation of academic and/or psychological needs. After the evaluation has been completed, the team communicates the results to staff members and the child's parents. Recommendations may include special education services, professional counseling, and/or alternative placement of the child. All SAT, SNT, 504, and IEP Plans are reviewed annually by the designated team.

CHS administration will review the monitoring and support plan quarterly during the 2021-22 school year to recommend adjustments. As the plan is reviewed and modified, progress will be shared with the School Board on an annual basis.

Fiscal Requirement

As this plan is implemented, resources will be available to building teams. Release time will be provided for building teams to meet to review their current school improvement plan, review their school's data and to add new strategies to use for instructional purposes.

District-level administrators will be available to meet with school teams to support the development of school or student improvement plans and also to model effective instructional strategies in the classroom.

School curriculum and supplemental materials will be purchased according to the district curriculum adoption cycle. If additional support materials must be purchased, individual schools may use their building financial allocations to purchase those items.

Financial Resources Available:

Building Level-

- General fund and capital outlay fund allocations
- Special Education allocations for resource rooms and also financial support for after school tutoring

District Level-

- General fund allocations for all transition activities stipends, tutoring, and on-line classes.
- American Indian Parent Advisory Committee funding sources (Indian Education Act Title VI and Johnson O'Malley grants)
- United Way donation
-

Ongoing Program Development

The school improvement plan is part of a dynamic process with periodic evaluation needed to assess progress towards meeting goals. The school improvement plan is a two-year document requiring periodic evaluation to assess progress. The plan was written within three months of identification for state-mandated school improvement. It will be evaluated annually and revised as needed. Future revisions in the plan will be made according to data obtained from assessment results, surveys, state mandates, and student needs. A log will be kept on file of the periodic reviews and revisions.

The improvement plan will be presented to the Aberdeen School Board for final approval in October of 2021. After board approval, the School Improvement Plan will be fully implemented. The school improvement plan will be shared with the staff, parents, and the public through the Aberdeen School District website and copies will be available in the school office for interested patrons.

The timeline below indicates the school improvement activities for the 2021-22 school year.

July	Preliminary results identified by the DOE
Completed by August 23	Building data compiled and team members identified
August 23 & 24	Building data retreats held with all staff members
Completed by September 10	Building leadership teams meet to refine goals and strategies
Completed by September 10	Finalize requirements of building school improvement plans and submit to Assistant Superintendent
September 24	District school improvement meeting-conduct peer reviews of building plans
October 8	Building school improvement plan revisions due back to the Assistant Superintendent
October 25	School improvement plans submitted to school board for first reading.
November 8	School improvement plans submitted to school board for final approval
Completed by January 17	Building leadership teams meet to review student progress and make necessary adjustments to school improvement plan
Completed by March 10	Building leadership teams meet to conduct annual assessment of school improvement plans and make adjustments as necessary
