# Smart School Bond Act 2014

The Smart School Bond Act of 2014 was passed in 2014-2015 Enacted New York State Budget and approved in a statewide referendum held during the 2014 General Election. The Smart Schools Bond Act authorized the issuance of \$2 billion of general obligation bonds to finance improved educational technology infrastructure to improve learning and opportunity for students throughout New York State. Cassadaga Valley Central School was allocated \$1,333,520.

The following plan was developed to align with our district's goals and technological needs in the coming years. Areas of focus for the District fall under the Smart Schools Bond Act categories of Classroom Learning Technologies.

More information about the Smart Schools Bond Act can be found on the NYSED website:

	<b>Total</b>		\$139,850
	<b>Total District Allocation</b>		\$1,333,520
	<b>Total Remaining Funds</b>		\$1,193,670

# Plan Details

Cassadaga Valley Central School understand the expanding role of technology as a vehicle to improve student learning in school. Technology can foster differentiation, critical thinking and allow for more effective communication and collaboration. Our District is committed to continuing to expand device access in all classrooms for students and staff. This plan will allow us to continue to have more chromebooks in classrooms and will allow us to begin a replacement cycle of outdated teacher technology.

Data was collected throughout both the elementary and middle-high school buildings in order to determine necessity of technology.

Additionally, the District selected devices that would prepare students for college and career readiness. The web-based platform provides the flexibility to support all digital resources.
