Wow, that is a great question. There are a few things that we can do with the money. If possible I would make sure all rooms have a full cart of 25-30 laptop computers. I would like to investigate some reading, math, Science, ESL, and social studies intervention programs we could purchase with unlimited licenses, 2 full time intervention coaches (one reading and 1 math that can pull students everyday) a full time ESL teacher to help or ELL students. I would like to replace the old smart boards with j touches or some type of touch screen computer system in every classroom. (This will do any with the projectors.) Full sets of Sirius resources for all tested subject areas. I sure there is more but that is what is coming to mind. TY

If you had \$1 million dollars to split between the 3 of your campuses, what would you buy?

Remember:

You can not spend the money on:

1. building repairs
2. new buildings
3. items that you have purchased with general education monies

and:

the money has to be for the intervention and instruction for the students to be successful from the COVID year.

Give me some suggestions, please.

Instructional coaches on campus to be in classes
Interventionists
Interactive TVs for instruction in 3rd and 4th grades
Training for interventionist on Leveled Literacy
Technology for the intervention classes.
IXL Math and training

Just a few suggestions.

We can contract out instructional coaches. I am in agreement with Sonia on that one. If we could get them to come every three weeks, that would be great.

I would like interactive smart TVs with screencast capabilities. We could put them both in the classroom and in the hallways. I would like to be able to post announcements and highlights of junior high events. (Similar to the gallery on our website.)
