CENTRAL SCHOOL DISTRICT

Career & Technical Education (CTE) Programs prepare students with the academic and technical knowledge and training necessary to succeed in their future careers and their future academic challenges.

Students enrolled in the CTE Programs:

- Develop a strong emphasis on applying academic skills, and deepening skills in communication, mathematics, science, and technology.
- Develop problem-solving, project completion, research, time management, and critical thinking skills in high school.
- Are eligible to participate in the CTE (4+1) Graduation Pathway.

CTE provides rigorous and relevant instruction, employability skills, improved student achievement, increase student engagement and college and career preparation.
