

Student Name \_\_\_\_\_

Grade \_\_\_\_\_

Advisement Teacher: \_\_\_\_\_

Marking Period 1

Theme: Proactive

Proactive	Level 1	Level 2	Level 3	Level 4
Organization	My backpack and/or locker looks like a tornado went through and caused damage.	I am trying to use a system to stay organized but I have a hard time keeping with it.	I have a system to keep track of my assignments/papers/ notes, and I use it.	I use a system for keeping track of my things and can prove it with an organized backpack and/or locker.
Work completion	I am often (weekly) flagged for GSH due to missing or incomplete work.	I have been on GSH around five to ten times during the marking period.	I am on GSH rarely. I have been on less than five days during the marking period.	I am punctual at completing work and have not been on GSH this marking period.
Use of Technology	I don't know how to log into my school computer and/or I can't find it.	I use my school computer if I have to for class, but it is sometimes uncharged and/or I don't use it to help me complete my work outside of class often.	I use my school computer to keep my notes and assignments organized and updated. I can use these to look up something if I get stuck on a problem.	I use my school computer for tracking my grades, assignments, notes, e-mail, and calendar. If I have questions I have many ways to help myself figure it out.
Study Habits	I don't think that missing work is a big deal because I can't see the connection with work and my grades on tests.	I am working to be better at getting my work done on time as it helps me know if I learned what I should have learned in class to be ready for the tests.	I am successful on tests because I know what I am supposed to because I completed my work on time and I went back and studied what I wasn't sure about before the test.	I can tell you what areas are hard for me and I can explain how I am working on them through my adjusted study habits, re-testing, or use of advisement to improve my skills.
