Associate Superintendent

September 16, 2021

Hello HESD Families!

HESD is pleased to announce that COVID-19 testing will be available in the district starting, Thursday, September 16th. Testing will be available to all HESD staff and students. The testing site is paid through special state grant funds, therefore it will not be available to the public, including staff and student family members who are not associated with the District.

There will be two testing locations:

**Mondays, Wednesdays and Fridays:**                      **Blackstock Junior High School, 701 E. Bard Road**  
**Tuesdays and Thursdays:**                                      **Haycox Elementary School, 5400 Perkins Road**

**Testing hours will be 10:00-4:00 at each location.** Both testing sites will be walk-up only, no appointments necessary.

Student testing results will be sent directly to the parent/guardian who registers the student for testing. The school nurses and site principals will also have access to student test results. The results may assist with COVID-19 contact tracing.

Students who are on a modified quarantine (they are a close contact to a positive case at school) will be asked to show two negative COVID-19 tests while on the modified quarantine. Students who are sent home with COVID-19 symptoms will be required to have a negative COVID-19 test or a note from their doctor before being allowed to return to school, otherwise it is a 10-day quarantine. Students who are kept home for not feeling well will be contacted by the school to determine if testing will be required for the student to return to school.

Each school has its own registration link, regardless of the testing site. Please follow the link for your student's school to register him/her for testing before bringing the student to be tested. If unable to register in advance, parents will also be able to register students at the testing site. You will only need to register your student once before the first visit. Results will be available in 24 to 48 hours.
