V. If the same information is listed in more than one category (Co-curricular, Leadership, Service, Work Experience), you may want to explain to the Faculty Council how that information fulfills each area separately.

In a few cases I have held leadership positions in volunteer and extracurricular activities that can be seen above. To my knowledge I have only doubled up on information in those cases. Other than those cases there is no doubled information.

VI. Please provide a written response to the following question (required):

How do you feel your activities or experiences make you a good candidate for the National Honor Society? (Remember, not all Faculty Council members may know you personally, they only know you by what you present on this résumé.) We recommend between 100 - 300 words.

My experiences volunteering, working, and in engaging extracurricular endeavors have only helped me to be an excellent candidate for Bullock Creek High Schools National Honors Society. In all of my different activities I have been able to become a leader and think out of the box. While evolving into the person I have become, I have learned many valuable lessons including, but not limited to, how to keep up with school while making volunteering a priority, knowing how to include everyone and how much a smile can impact someone. Being involved in robotics, church groups, student council and many volunteer activities, I have learned the very definition of working as a group. While on various mission trips I have also learned the true meaning of hard work. As of now I have completed building my fourth house in Mexico. Through these experiences I know when and how to be a leader. This is why I believe I am a good candidate for Bullock Creek High School's National Honors Society.
