XVI. PUBLIC COMMENTS

This meeting will now be open to members of the public who wish to speak or make comment on agenda items or a school district issue that may be of concern to the residents of the Township of Pennsville. Pursuant to the Open Public Meetings Act, the Board has set aside a portion of this meeting, the length of which will be announced by the presiding Board Officer prior to the first member of the public being acknowledged, for public comment.

Any person who wishes to speak must wait to speak until they have been recognized by the presiding Board Officer. Out of respect for other members of the public that may wish to speak, the Board requests that each speaker cede the floor to the next member of the public as soon as they finished making their respective comment(s).

If your questions or comments pertain to litigation, student or personnel matters, the Board asks that you see the Superintendent after the meeting since the Board does not, pursuant to the Open Public Meetings Act, discuss or respond to these items in public.

In addition, please note that the Board has established a specific grievance process in order to ensure an orderly and prompt response to certain public complaints. This process is set forth in File Code: 1312, "Community Complaints and Inquiries." A copy of this policy is available at your request in the Office of the Superintendent. In order to best facilitate public complaints, the Board requests that members of the public follow the process set forth in File Code: 1312.

XVII. CLOSED SESSION

XVIII. RECONVENE TO OPEN SESSION

XIX. ADJOURNMENT

THE FOLLOWING MATERIALS WERE AVAILABLE FOR PUBLIC REVIEW AT THIS MEETING:

1. AGENDA

PLEASE NOTE:

QUESTIONS FREQUENTLY ARISE CONCERNING WHAT AN AGENDA MUST LOOK LIKE. IN COMMON USAGE, AGENDA REFERS TO A LIST OF ITEMS TO BE DISCUSSED AND ACTED UPON, AN OUTLINE OF THINGS TO DO. SINCE THERE IS NOTHING IN THE SUNSHINE LAW TO INDICATE ANY SPECIAL MEANING TO THE WORD AGENDA, THE ATTORNEY GENERAL HAS STATED THAT THE ORDINARY AND UNDERSTOOD MEANING OF THE WORD IS TO BE USED. HE CONCLUDED THAT AGENDA REFERS SOLELY TO THE LIST OF SUBJECT MATTERS TO BE DISCUSSED AND ACTED UPON AT THE NEXT MEETING, AND DOES NOT INCLUDE THE SUPPORTIVE OR EXPLANATORY MATERIALS AND REPORTS. I. Parental/Guardian Request For Home Or Out Of School Instruction Due To A Temporary or Chronic Health Condition

1. To request home instruction due to a temporary or chronic health condition, the parent/guardian must submit a written request for such services to their child's Building Principal that includes a written determination from the student's physician documenting the projected need for confinement at the student's residence or other treatment setting for at least ten (10) consecutive school days or fifteen (15) cumulative school days during the school year;

In that capacity, the District Physician may contact the student's physician to secure additional information concerning the student's diagnosis or need for treatment. After completing his/her review, the District Physician will issue a written determination to the Supervisor of Special Programs that will either verify the student's need for home instruction or will provide reasons for denial of the request; and
4. Within five (5) school days of the Supervisor of Special Education's receipt of the District Physician's written determination, the Supervisor of Special Education and/or his/her designee will send written notification to the student's parent(s)/guardian(s) notifying them of the District's Physician's verification or reasons for denial of the request.

II. Providing Home or Out of School Instruction

1. In the event the District Physician verifies the need for home or out of school instruction, the District will provide such services within five (5) school days after

receipt of the District Physician's verification or, if verification is made prior to the student's confinement, during the first week of the student's confinement to the home or out-of-school setting; and

2. The home or out of school instructional services that are provided will comply with the standards provided by File Code 6173.

STANDARDS OF PROFICIENCY

The Superintendent or his/her designee, in consultation with teaching staff, shall develop criteria for evaluation, indicators of achievement of the criteria, and acceptable standards of achievement for all grade levels, courses and programs offered by the District. The criteria, indicators and standards must be related to District goals and objectives. Parents/guardians will be informed in a timely manner whenever their child appears in danger of failing to meet required proficiency levels. Parents/guardians shall be strongly encouraged to participate in designing remedial plans for their children.

These standards of proficiency shall include but not be limited to the Core Curriculum Content Standards identified by the State Department of Education, and will form the basis for the District's grading system. The specific indicators of achievement and standards of proficiency developed for all courses and programs accepted for credit toward high school graduation will be given to pupils and parents/guardians, in writing, at the time the pupil registers for the course.

By the date required by law, the Superintendent or his/her designee will annually report to the Board and the community at a regularly scheduled meeting an evaluation of pupil achievement toward meeting District and school goals and objectives.

Low pupil achievement shall be regarded by the Board as an indication that revisions are needed in educational programming, general strategy, staff resource use, staff evaluation, and/or other aspects of the learning program.

GUIDANCE SERVICES

A guidance program shall be incorporated into the District's educational program to aid pupils in making informed and responsible decisions and in using effective decision-making processes. The guidance program will be developed and coordinated by the Superintendent or his/her designee in consultation with teaching staff members he/she has identified as possessing necessary skills and abilities, to help pupils acquire the insights and knowledge they need to become autonomous, mature members of adult society in a democratic nation.

The purpose of the guidance program shall be to help pupils in learning to make their own decisions concerning life's many choices – personal, educational, and career/vocational.

The guidance program will provide, as fully as possible, the information needed to make the best decisions concerning the pupil's educational program. Such information will include facts such as test scores, grades and educational history. Pupil records may also include anecdotes, but shall not carry judgments, opinions and other advice.

Pupils will be encouraged to avail themselves of the help of the guidance department's personnel. The guidance department in the high school will encourage the visits of educational and occupational representatives, including military recruiters. The Administration will have a positive attitude toward granting permission to seniors to visit schools, colleges and places of employment during school time. Pupils must have prior approval of the guidance department for the scheduled visit.

Guidance services will include establishment of a referral system that guards the privacy of the pupil and monitors the efficacy of such referrals, when District resources are not sufficient, as in drug or alcohol counseling.

CHILD STUDY TEAM

The Board shall provide the services of child study team personnel in numbers sufficient to ensure implementation of pertinent law and regulation. The Superintendent or his/her designee will present to the Board for approval job descriptions, qualifications and evaluation criteria for positions required, and shall present to the Board for hiring the best qualified applicants.

When complete evaluations of pupils are necessary, the Superintendent or his/her designee will recommend for Board approval qualified persons or agencies to supplement the District team. Appropriate staff members, such as the nurse and teachers assigned to the pupil, shall also be involved.

Pupils who have been identified by any professional staff member, the parents/guardians of the child, a child welfare agency or by the health services staff as possibly having an educational disability may be considered for evaluation.

Teachers and administrators will provide intervention resources (e.g., adaptive teaching methods and materials, schedule changes, modified workloads, corrective or remedial instruction, etc.) in order to discover whether an observed difficulty is the result of problems within the educational delivery system. Parents/guardians will be notified of such interventions. The members of the child study team will be available to discuss problems informally with teachers and parents/guardians.

If the problems persist despite these intervention techniques, a formal referral will be made. The evaluation of each such pupil will proceed in accordance with law. The Board will review and adopt the regulations governing the referral process.

Evaluation of potentially eligible children for special education and related services may consist of, among other tests, evaluation and assessments, a psychological examination, an educational examination, a social case study, as well as such other examinations as may be deemed necessary by the child study team.

Disaffected Pupils

In addition to the educationally disabled, the child study team will consider and recommend appropriate remedies and/or programs for pupils exhibiting disaffected behavior patterns. A survey of needs will be conducted for each such pupil. If the survey indicates the advisability of a complete evaluation, a referral will be initiated. If the survey indicates a change in program, the child study team will cooperate with the teaching staff in developing an appropriate program, including, if necessary, alternative programs.

Disruptive Pupils

All staff members shall be familiar with and implement the discipline policies and procedures adopted by this Board. This implementation will identify the pupil who is disruptive. Staff members shall report the names of pupils who disrupt the educational program to the appropriate administrator who shall initiate actions that will ensure the involvement of the pupil's family, as well as where appropriate the provision of counseling and assessment services, so as to determine the causes of the pupil's disruptive behavior. A request for pre-referral intervention or for referral for evaluation may be made to the child study team. Throughout this process, administrators, support staff, teachers, parents/guardians, and if prudent, the pupil are to be involved. If all strategies prove unsuccessful, referral to the appropriate outside agency may be made.

In accordance with State law and Board policy, disruptive pupils whose continuing attendance interrupts the educational program and/or threatens harm to themselves and others may be suspended and considered for expulsion.

COMPLAINTS REGARDING INSTRUCTIONAL TEXTS

The Board recognizes that opinions may differ on the appropriateness of any given instructional materials and equipment. Occasionally an individual or group may find instructional materials used in the schools that conflict with their views. Any resident of this District shall have the right to present a request, suggestion or complaint in reference to the physical plant, playgrounds, subject matter or instructional materials.

The Superintendent or his/her designee will develop procedures to give careful consideration to such requests, suggestions or complaints. These procedures shall provide that:

- A. All such requests, suggestions or complaints be in writing;
- B. Whenever possible the process be initiated and solved at the lowest effective level;
- C. District response be courteous and prompt;
- D. Successive steps of appeal and mechanisms for review are available when necessary.

The use of challenged texts or equipment by class or school shall not be restricted until a final decision has been reached or an appeal has been abandoned.

The final decision on an appeal of a Building Principal's and Superintendent's decision on a request, suggestion or complaint on a controversial reading text that is alleged to be controversial shall rest with the Board after careful examination and discussion of the book or reading matter with school officials or others the Board may wish to involve.

INSTRUCTIONAL PLANNING/SCHEDULING

The Superintendent or his/her designee and staff will keep abreast of developing technologies and teaching methodologies, investigating those likely to be of benefit to District pupils, and recommending them for Board consideration.

The Board recognizes that District pupils vary in learning styles and in ability. Therefore, the Superintendent or his/her designee will ensure that teaching staff adapt their instructional methods and arrangements to meet identified pupil needs and encourage maximum individual progress.

The Superintendent or his/her designee will ensure that District personnel, time and facilities are used in such a way as to provide the most favorable learning environment for all pupils, as well in a manner that fosters achievement of District goals, objectives and standards.

Because the Board believes that pupils can learn better and faster when the skills learned in one discipline are integrated into another, programs, projects and units of study will be encouraged that require the use of reading, writing and mathematics skills in conjunction with other areas of study, such as music, art, science, etc. The Board also encourages programs that call on various skill levels of several grades in one discipline, such as musical presentations, science fairs, and other similar efforts.

Every effort should be made to further the District Affirmative Action and Equality goals in developing instructional arrangements.

The Board directs that instruction be planned and scheduled in such a way that there is minimum disruption of the school day, including movement between classes and conflicting activities.

Nonpublic School Pupils

Required instructional services will be delivered to nonpublic school pupils in facilities that are acceptable and convenient to staff and students.

HOMEWORK/MAKEUP WORK

The Board believes that homework relevant to material presented in class provides an opportunity to broaden, deepen or reinforce the pupil's knowledge. Teachers must use discretion in deciding the number and length of assignments. The Board encourages the use of interrelated major homework assignments such as term papers, themes and creative art projects.

Homework shall not be used for punitive reasons.

Any made assignments, classwork and/or tests shall be treated pursuant to Board Policy and Regulation 6147.1

INSTRUCTIONAL SERVICES AND RESOURCES

The Board believes that personnel and materials appropriate to the needs of the school program must be available to each pupil and teacher.

To be in compliance with the requirements of Federal Law, the Board directs the Superintendent or his/her designee to distribute curriculum materials and instructional supplies to the schools in such a way that equivalence of such materials is ensured among the schools. Staff assignments will also comply with this directive.

The District will adhere to and follow applicable State and Federal Laws concerning student assessment and achievement.

The Board will endeavor to provide the supportive resources and personnel necessary for teachers to implement the approved curriculum in their classrooms and work effectively with students.

It will be the Administration's responsibility to set up and maintain such central services for curriculum materials, including audiovisual materials, as needed and appropriate channels through which teachers and pupils will be supplied with these resources.

In addition, there will be a Media Resource Center and Media Specialist to offer children instruction and teachers assistance in selecting and using learning resources.
