Pursuant to the Open Public Meetings Act, the Board has set aside a portion of this meeting, the length of which will be announced by the presiding Board Officer prior to the first member of the public being acknowledged, for public comment.

Any person who wishes to speak must wait to speak until they have been recognized by the presiding Board Officer. Out of respect for other members of the public that may wish to speak, the Board requests that each speaker

cede the floor to the next member of the public as soon as they have finished making their respective comment(s).

If your questions or comments pertain to litigation, student, or personnel matters, the Board asks that you see the Superintendent after the meeting since the Board does not, pursuant to the Open Public Meetings Act, discuss or respond to these items in public.

In addition, please note that the Board has established a specific grievance process in order to ensure an orderly and prompt response to certain public complaints. This process is set forth in File Code: 1312, "Community Complaints and Inquiries." A copy of this policy is available at your request in the Office of the Superintendent. 1. AGENDA

PLEASE NOTE:

QUESTIONS FREQUENTLY ARISE CONCERNING WHAT AN AGENDA MUST LOOK LIKE. IN COMMON USAGE, AGENDA REFERS TO A LIST OF ITEMS TO BE DISCUSSED AND ACTED UPON, AN OUTLINE OF THINGS TO DO. SINCE THERE IS NOTHING IN THE SUNSHINE LAW TO INDICATE ANY SPECIAL MEANING TO THE WORK AGENDA, THE ATTORNEY GENERAL HAS STATED THAT THE ORDINARY AND UNDERSTOOD MEANING OF THE WORD IS TO BE USED. HE CONCLUDED THAT AGENDA REFERS SOLELY TO THE LIST OF SUBJECT MATTERS TO BE DISCUSSED AND ACTED UPON AT THE NEXT MEETING, AND DOES NOT INCLUDE THE SUPPORTIVE OR EXPLANATORY MATERIALS AND REPORTS. EVALUATION OF INDIVIDUAL STUDENT PERFORMANCE**K-12 Forward**

The Pennsville School District values the importance of using accurate grading methods to effectively evaluate student achievement. Assigning grades that are valid, reliable, and transparent promotes effective communication of student achievement. Therefore, grading guidelines that address the validity, reliability, and transparency of grades that are assigned to students are essential.

Overall Philosophy

In today's world of education, individual staff and District accountability has increased and come to the forefront. Grading Guidelines increases the validity, reliability, transparency, and accountability of grading, while at the same time demonstrating an accurate account of students' achievement of the standards set forth by the District and the State of New Jersey. Overarching ideas incorporated in the overall philosophy that shaped the grading guidelines are:

- Grading practices must be consistent, valid, reliable, transparent, and fair;
- Grading practices must be consistent within departments and across grade levels;
- Grades must be transparent and easy for parents/guardians and students to understand and calculate;
- Grades are to reflect student achievement of the New Jersey Core Curriculum Content Standards;
- Grades must be a valid measure of student achievement and include multiple and varied types of assessments; and
- Grading practices must incorporate flexibility to allow for course differences.

High School and Middle School Guidelines

The following grading guidelines will be implemented for students in Pennsville Memorial High School and Pennsville Middle School:

A. Total Points

- Using total points is the most transparent way for parents/guardians and students to calculate averages.
- Grades are to be standards based.
- Grades must reflect the degree to which the student has mastered the essential knowledge and skills.
- The grade book will document completion of work, enrichment activities, and remediation.

B. Homework

- Homework is to be no more than 10% percent of a grade.
- Homework is not to be accepted late unless provided for in a student's Individualized Education Plan ("IEP"), Section 504 Accommodation Plan and/or other similarly developed academic plan.

C. Extra Credit

- If a teacher chooses to offer extra credit, it must be standards based and offered to all students in that course.
- Extra credit can be no more than 5% per assignment.
- Extra credit can not be applied to a student's final grade, except in the case of the three (3) extra points applied to Honors or AP final grade.
- Extra credit must be used by the teacher judiciously.

D Absences

- Students who are absent, whether excused or unexcused, will be permitted to make up missed work and assessments.
- Students will have at least as many school days as the student was absent to make up work.

E Zeroes, Cheating, Incompletes, No Grades, and Plagiarism

- If a student is absent on the day that a test and/or quiz is administered or that an assignment for grade is collected, the grade for the test, quiz and/or assignment for grade is to be checked as "M" for missing and a zero placed in the gradebook until the test and/or quiz is taken, or the assignment for grade is completed.
- Students who have cheated on any assessment will be given a "0" with the opportunity for an alternate re-assessment during an administrative detention. If the student chooses to take the alternate re-assessment, the two scores will be averaged. If the student decides not to take the alternate re-assessment, the zero will remain.
- "EX" is to be used for excused assignments and it will not be used in the average.
- Marking period, Mid-term, and/or Final exam grades that are incomplete will be placed in the gradebook as a "0" with an "I" for incomplete checked. The "0" will be averaged into the semester or year average as a zero until the work is completed or until the deadline established for finalizing grades.
- Marking period, Mid-Term, and/or Final exam grades that are not graded will be placed in the gradebook as "NG" and are to be given only by Administrative directive from the Building Administrator, Superintendent or his/her designee.
- Plagiarism is defined as work that is copied from another source and presented as one's own, ranging from an idea to an entire paper. Plagiarism can be avoided through careful attention to proper citation and with the assistance of an online plagiarism prevention and originality checking service such as Turnitin.com.

- A student paper will be deemed to be plagiarized when the final submitted copy contains approximately 15-20% unoriginal work. This figure is a guideline for teachers, who will make the final determination. A smaller percentage of unoriginal writing will be considered faulty citation, and the paper will be graded accordingly.
- Composition assignments found to contain plagiarized work will be given a zero. The student will then have one day in which to write and submit a new assignment. The two grades will then be averaged.
- For a research paper assignment found to contain plagiarized work, the paper will be given a zero, and the student will be allowed one week to complete all the steps necessary for a properly researched and cited paper. The two grades will then be averaged as above.

F.Late work

- All assignments or assessments, including, but not limited to all major assignments and assessments such as long-term projects and research papers, shall be accepted no more than one school day late and shall be penalized 10% of the grade for lateness. "Late" is defined as any time after the class period the assignment was due. If a student was absent on the entire day the assignment was due, the student will have as many days as the student was absent to make up the assignment unless given additional time by the building administrator due to extenuating circumstances or religious event.
- All assignments must be submitted on time as a hard copy to avoid the possibility of technological problems with email or incompatible software.
- Students shall receive a "0" for assignments or assessments that are not turned in by the "late" time defined above. There shall be no exceptions after the due date unless made by the building administrator for an extenuating circumstance or religious event unless an additional exception is provided by the student's Individualized Education Plan (IEP), Section 504 Accommodation Plan, and/or other similarly developed academic plan.
- An assignment or assessment may be accepted late at any time with or without a grade penalty at the discretion of the building principal for extenuating circumstances.
- Homework will not be accepted late unless an exception is provided for in the student's Individualized Education Plan ("IEP"), Section 504 Accommodation Plan and/or other similarly developed academic plan.
- Students are responsible for obtaining and completing the make-up work in a satisfactory manner and within the time specified by the teacher.

G. Reassessment

- Reassessments are not permitted unless the teacher determines that the assessment was invalid and/or a reassessment is provided for in a student's Individualized Education Plan ("IEP"), Section 504 Accommodation Plan and/or other similarly developed academic plan.
- Every student that is reassessed will be reassessed using an alternate assessment.

- Teacher discretion may be used to postpone an assessment or redo an assessment for unusual extenuating circumstances on a case by case basis, such as family emergency the night before the assessment or illness.
- Programs such as Study Island and/or Accelerated Math, which are based on reassessment of skills until mastery is achieved, are exceptions to the above.
- Revisions in the writing process are not considered reassessment.

H. Bell curves

- Use of the bell curve is not consistent with standards-based assessment and, therefore, is not to be used.

I. Category values

- Teachers are to follow departmental guidelines and use consistent categories within like sections/courses.
- Multiple types of assessments are necessary to ensure differentiation of instruction.
- More emphasis and value are to be placed on summative/academic achievement which reflects a student's mastery of content skills rather than formative/academic practice.
*Please see attached guideline delineating summative/academic achievement versus formative/academic practice.

J. Number of Grades per Week and Frequency of Grades Entered In PowerTeacher

- Students are to be given multiple and varied opportunities (at least 2 per full week) to demonstrate their skills and knowledge.
- Grades are to be recorded in PowerTeacher within one week of the due date.
- Certain assessments, such as research papers and large projects, may be exempted from being recorded in PowerTeacher within one week of the due date. Teachers should use their discretion in these instances and notify students of when the grades will be recorded.

K. Final Marking Periods Grades

- For the first marking period, no student at the high school or middle school will receive a reported grade lower than sixty percent (60%) on his/her report card for a full year course.
- For the second marking period, no student at the middle school shall receive a reported grade lower than sixty percent (60%) on his/her report card for a full year course.
- For the third marking period, no student in the middle school shall receive a reported grade below fifty percent (50%) on his/her report card for a full year course.
- For semester courses, no student at the high school shall receive a reported grade lower than sixty (60%) on his/her report card for the first marking period of the semester.
- Grades for quarter/marketing period courses at the high school have no minimum grade in any marking period.

- For quarter and semester courses at the middle school, no student shall receive a reported grade lower than sixty (60%) on their report card.

L. Group projects

- For any group project, two rubrics must be used to grade group projects: a group grade and an individual grade.
- The individual grade must have a greater value than the group grade.

M. Home projects

- No more than two (2) major grades in any subject during one marking period shall be home projects other than in a project-based course. Home projects are defined as projects that are done entirely at home and that require a final product other than an essay or paper. A major grade is defined as comparable to a test grade in value.

N. Honor roll

- The honor roll requirements will be “All A Honor Roll” and an “A and B Honor Roll”.

O. English as a Second Language

- Until a student is determined to be fully English proficient, alternative grading procedures will be in effect.
- When an ELL achieves a numerical grade below seventy-eight percent (78%), an “NG” indicator with accompanying narrative detailing strengths and weaknesses is appropriate.

P. Related Arts or Project based Courses:

1. Middle School

In the middle school, the teacher should evaluate student progress in terms of individual growth and encourage student self-evaluation through individual and group critiques. Emphasis should be focused on the creative process rather than the final product. The teacher should use rubric based assessments for student work. Related Arts educators recognize that some skills may be measured by testing or objective product evaluation. Effective teachers also make evaluative judgments based on expressive measures. The grading criteria established for middle school related arts classes must recognize both of these elements.

Objective scores and documentation of the teacher’s professional judgment will be maintained to determine the student’s daily/weekly grades. In formulating grades the relative weight of these components may vary from unit to unit. Teachers should use rubrics showing how their subjective assessments translate into grades. When reporting progress, teachers must be sure that the system is easily understood by the students and the parents.

2. High School

In a high school related arts course, evaluation of the student's total experience requires consideration of the individual's aesthetic growth, understanding of art culture and heritage, and development of skills, as well as the quality of creative work. Teacher evaluation must include evidence of artistic growth. Since innovation, imaginative response, and expression are highly valued in the arts, evaluation must be based on the student's individual growth. The teacher's professional judgment is extremely important in evaluating that growth.

In both objective and expressive evaluation, in addition to rubrics the teacher may use a variety of formal and informal assessment tools (observations, checklists, discussion, portfolios, demonstrations, exhibitions, sketch-books, self-evaluation, written and oral reports and tests, and individual and group critiques). For grading purposes the relative weight of the objective and subjective components will vary depending on the criteria established for the individual unit or project. The student should have a good understanding of the criteria being used for each segment of the curriculum.

Q. Physical Education Courses:

1. Middle School/High School

For Physical Education courses at the middle school and high school, the teacher should evaluate student progress in terms of individual growth and mastery of the standards which the State of NJ has adopted for Physical Education. In order for students to show growth and ultimately achieve the standards, participation in all activities is essential. Due to the physical nature of the activities which students are performing, proper physical education clothing is required. Failure to provide and maintain all required uniform essentials will result in the loss of all points for that day's activity. Also, due to the size of the groups involved with Physical Education class, cooperation and proper attitude is essential to the safety and productivity of all students, and therefore points will be deducted for failure to maintain proper safety measures. Points will be given on a daily ten point scale, based on the student's mastery of the day's skill(s). One total point grade will be recorded at the end of each week, based on the total number of days' each class meets.

When reporting progress, teachers must be sure that the system is easily understood by the students and the parents. Materials will be distributed to parents that list all possible deductions which can be received during a given class period.

Elementary School Guidelines

A. Product

- Assessments used for grades will be standards-based without any "non-achievement" factors.

- No work/project is to be used as a product grade if it is completed at home unless provided for in a student's Individualized Education Plan ("IEP"), Section 504 Accommodation Plan and/or other similarly developed academic plan.

B. Process

- A student's citizenship grade will be graded as "O," "S," or "N."
- A student's citizenship grade will be part of process with standardized rubric unless an exception is provided in a student's Individualized Education Plan ("IEP"), Section 504 Accommodation Plan and/or other similarly developed academic plan.
- One citizenship grade per week will be entered in PowerTeacher. Any score of an "N" in any sub-category will have comments. In addition, teachers will add comments in PowerTeacher if the student earns a lower overall average than usual for more than 2 weeks consecutively. For example, if a student earns an "S" for two weeks in a row, after only ever receiving "O"s since the marking period began, then the teacher will add comments.
- A student's Citizenship grade is to represent that student's behavior within the school community including classroom, cafeteria, playground, and specials.
- Please see attached Citizenship rubric.

C. Progress

- Student progress will be communicated through comments section on report card, as well as through any other means of communication provided for in a student's Individualized Education Plan ("IEP"), Section 504 Accommodation Plan and/or other similarly developed academic plan.

D. Total Points

- The actual earned student grade is to be entered in PowerTeacher; however, no student at the elementary level shall receive a reported grade lower than sixty (60%) on his/her report card for any marking period.
- Using total points is the most transparent way for parents/students to calculate averages.
- Grades are to be standards based.
- Grades must reflect the degree to which the student has mastered the essential knowledge and skills.
- The grade book will document completion of work, enrichment activities, and remediation.

E. Zeroes

- Assignments that are not graded will be entered in PowerTeacher as "NG" and are to be given only by administrative directives.

- There will be no point or percentage deduction for late work that is turned in within three (3) days of the due date. However, an assessment may not be turned in for credit after three (3) days of the due date unless an exception is made by the building administrator for an extenuating circumstance or an exception is made in a student's Individualized Education Plan ("IEP"), Section 504 Accommodation Plan and/or other similarly developed academic plan.
- A "0" is to be placed in the gradebook for an assignment that is not turned in with an "M" checked in the gradebook for missing. The grade will be calculated as a zero ("0") until the assignment is turned in and scored unless the assessment is not turned in, as noted above, within three (3) days of the due date. In that event, the "0" will remain in the gradebook and the grade will be calculated as a zero ("0"). However, an exception will be made in situations where additional time for the submission of an assessment beyond the three (3) day time frame noted above is provided for in a student's Individualized Education Plan ("IEP"), Section 504 Accommodation Plan and/or other similarly developed academic plan.
- It will be at the teacher's discretion to determine an assignment's due date.
- Homework will not be accepted late unless an exception is provided for in a student's Individualized Education Plan ("IEP"), Section 504 Accommodation Plan and/or other similarly developed academic plan.
- Assignments which are late due to absence will be treated according to Board policy.
- Students will have no less than one school day for each day absent to complete make-up work unless additional time is provided for in a student's Individualized Education Plan ("IEP"), Section 504 Accommodation Plan and/or other similarly developed academic plan.
- Assignments will be placed in the gradebook as "0" with "M" checked for missing until the assignment is completed and turned in for scoring.

F. Extra Credit

- Extra credit is not permitted at the elementary level; however, a teacher may give challenge or bonus questions that may be rewarded in ways other than through grades for correct completion.

G. Honor Roll

- There is an 'All A Honor Roll' and an 'A and B Honor Roll' in grades 4 and 5. To qualify for the 'All A Honor Roll', a student must have an A in all academic subjects and an O in citizenship.
- To qualify for the 'A and B Honor Roll', a student must have an A or B in all academic subjects with at least one A in any one academic subject, and a student must have an "O" in citizenship.

H. PowerSchool

- Information and "How-to" directions for parents/guardians will be included in the handbook and/or Back to School information packet. The information will include topics such as how to find teacher comments for a specific assignment.

I. Tests

- The same assessments are to be used across grade levels for end of unit assessments unless an exception is provided for in a student's Individualized Education Plan ("IEP"), Section 504 Accommodation Plan and/or other similarly developed academic plan.
- Publisher assessments and teacher created assessments that are used across the grade level for summative assessments are to be kept for one year and then shredded.
- Teachers will record student progress on the Language Arts charts for tests. These charts and tests will be kept for one calendar year after the school year ends at which time they will be shredded.

J. Bell Curve

- Use of the bell curve is not consistent with standards-based assessment and, therefore, is not to be used.

K. Group grades

- Assignments that are completed by groups will be scored using a rubric.
- Students will receive an individual grade for their work on the project and not a group grade.

L. Weighting/Averages

- Categories are not to be weighted. Categories are only to be used to determine the type of assessment.
- End of Unit assessments values are to be consistent across grade levels.
- Reassessments are not permitted unless the teacher determines that the assessment will not be used for any student because of the need for more instruction, and/or an exception is provided for in a student's Individualized Education Plan ("IEP"), Section 504 Accommodation Plan and/or other similarly developed academic plan. In addition, teacher discretion may be used to postpone an assessment or redo an assessment for unusual extenuating circumstances on a case by case basis such as family emergency the night before the assessment or illness.

M. Number and frequency of grades per week entered in PowerSchool

- Students are to be given multiple and varied opportunities to demonstrate their skills and knowledge.
- Teachers will follow guidelines and requirements of building administrators/supervisors, as well as any modification and/or supports provided in a student's Individualized Education Plan ("IEP"), Section 504 Accommodation Plan and/or other similarly developed academic plan.

- Grades are to be recorded in PowerSchool within one week of the due date.
- There are to be enough grades in each subject to reflect an accurate assessment of student achievement.
- Teachers must follow grade level guidelines unless an exception is provided for in a student's Individualized Education Plan ("IEP"), Section 504 Accommodation Plan and/or other similarly developed academic plan.

N. Absences

- Students who are absent, whether excused or unexcused, will be permitted to make up missed work and assessments.
- Students will have at least as many days as the student was absent to make up work unless additional time is provided for in a student's Individualized Education Plan ("IEP"), Section 504 Accommodation Plan and/or other similarly developed academic plan.

O. Formative/Summative and General Guidelines

- Multiple types of assessments are necessary to ensure differentiation of instruction.
- More emphasis and value are to be placed on summative/academic achievement which reflects a student's mastery of content skills rather than formative/academic practice.
 - Please see attached guideline delineating summative/academic achievement versus formative/academic practice.
- Assignments/assessments such as projects that are not completed entirely in school and that will be used as a grade will be included with formative/academic practice; however, this does not include homework.
 - Homework is not to be used towards a product grade; however, homework is incorporated in the citizenship rubric.
- Comments indicating that an assessment has been completed with materials below grade level are to be reported on the comment section of the report card when grading a student who is working with below grade level materials, and who does not have an IEP.

P. Cheating

- Teachers will handle the issue of students cheating on graded assessments in collaboration with the building administrator and applicable Board Policy and Regulation.

Q. English as a Second Language

- Until a student designated as "English Second Language" ("ESL") is fully proficient in English, alternative grading procedures will be in effect.
- When an ESL student achieves a numerical grade below 78%, an "NG" indicator will be provided with accompanying narrative detailing strengths and weaknesses as appropriate.

Date: July 25, 2011

Summative/Academic Achievement and Formative/Academic Practice

Assessments and assignments that are included in summative assessments and academic achievement are those that are given to students to assess skills and knowledge after students have had a specific period of time to practice and learn the material. The following are examples of summative assessments and academic achievement:

- Standardized Tests
- End of Unit/Chapter Tests
- Benchmark assessments

1. Building level administrators and school staff members designated by the Principal likely to be confronted with the need to use physical restraint will be trained on the use of physical restraint.
2. In the event of an emergency, an individual who has not received training is not prohibited from using physical restraint. In such cases, training for the individual that used such restraint will occur within forty-five (45) days of utilizing the physical restraint.

3. Training must include techniques of prevention and de-escalation, as well as alternatives to physical restraint.
4. Training must include current professionally accepted practices and standards regarding behavior management and use of physical restraint.

Interventions

1. Depending on the circumstances and nature of the situation at the time, classroom and security interventions may, but not necessarily include or be limited to, the following strategies:
 - a. The staff member may ignore the behavior;
 - b. The staff member may redirect the pupil to a task with verbal or non-verbal prompts or gestures;
 - c. The staff member will be clear, polite, and respectful when requesting the targeted behavior. The staff member may make eye contact and tell the pupil what to do such as “I can’t teach when you are talking, throwing things, ...” or “Please stop and listen, read, write, ...” The staff member should remind the pupil of consequences and rewards if they comply with the staff member’s request;
 - d. The staff member will be polite at all times. The staff member may repeat steps a. through c. above and/or quietly give the pupil adequate wait time. Sometimes if the staff member moves on with the lesson the pupil may comply after the initial confrontation;
 - e. The staff member may advise the pupil to proceed to a time-out area in the classroom for a limited time (elementary and middle school); and

2. If necessary, the staff member may utilize approved physical restraint, using the least amount of force necessary.
3. If necessary, the staff member shall restrain the pupil until the emergency no longer exists (i.e. the pupil stops punching, kicking, spitting, damaging property, etc.).
4. The staff member will contact the appropriate administrator and school nurse as soon as is possible under the circumstances. In addition, a written report on the physical restraint the staff member used during the emergency situation will be completed as soon as is possible under the circumstances.
5. If physical restraint is used, the Principal or his/her designee will attempt to notify the parent/legal guardian by telephone of the use of physical restraint on the day it occurs and written notification of the incident will be mailed to the parent within one (1) school day after the use of physical restraint.
6. Written documentation, including the Principal's or designee's report and any staff member's report regarding the incident and the use of physical restraint will be placed in the pupil's school file.

05-29-33AD On recommendation of the Superintendent and the Committee of the Whole, please move to conduct a first reading of Policy #6171.5 – Use of Physical Restraint.

MTJ

kag
05/14/12

USE OF PHYSICAL RESTRAINT

The Board strives to provide a safe atmosphere and learning environment that supports all pupils in the least restrictive environment. On occasion, during an emergency, a situation may arise making it necessary to temporarily restrain a pupil.

For purposes of this Policy an “emergency” is defined as a situation in which the pupil’s behavior poses a threat of imminent, serious physical harm to the pupil or others or imminent, serious property destruction.

In addition, for purposes of this Policy, “physical restraint” refers the application of physical force for the purpose of holding a pupil or otherwise restricting his/her movements. Physical restraint shall also include the use of specific, planned techniques and shall only be used with reasonable limitations by school staff members who shall receive training in the use of physical restraint.

In accordance with applicable State law, no person employed or engaged in a school or educational instruction, whether public or private, shall inflict or cause to be inflicted corporal punishment upon a pupil attending such school or institution. However, any such person may, within the scope of his/her employment, use and apply such amounts of force as is reasonable and necessary: to quell a disturbance, threatening physical injury to others; to obtain possession of weapons or other dangerous objects upon the person or within the control of a pupil, for the purpose of self-defense; and for the protection of persons or property. Any such acts shall not be construed to constitute corporal punishment within the meaning and intent of N.J.S.A. 18A:6-1.

Interventions consisting of positive, lesser restrictive strategies and supports should be implemented whenever possible prior to the use of any physical restraint. The use of physical restraint shall be limited to only those circumstances and situations where such interventions or strategies are not possible or have been unsuccessful.

A pupil shall be released from physical restraint immediately upon a determination by the school staff member administering the restraint that the pupil is no longer in imminent danger of causing harm to him/herself, others, or imminent property destruction. The Building Principal or his/her designee will notify the parent/legal guardian in the event an emergency existed and physical restraint was used on their child as soon as possible. The pupil will also be examined by the school nurse after any physical restraint. All incidents involving the use of physical restraint will be documented.

This policy, and accompanying regulation, applies to all Board pupils, including both general and special education pupils.

For pupils that are eligible for special education and related services, the use of specific interventions and application of physical restraint may be set forth in, and thus, are governed by,

the pupil's Individualized Education Plan (IEP). The application of physical restraint to regular education pupils that constitutes a pattern should be considered for referral for IR&S and/or receipt of special education and related services.
