Community Eligibility Provision (CEP) Schools/Districts

Dear Parent or Guardian:

We are pleased to inform you that Southland C-9 School will be implementing a new option available to schools participating in the National School Lunch and School Breakfast Programs called CEP for School Year 2014-2015.

Schools that participate in CEP are able to provide healthy breakfasts and lunches each day at no charge for ALL students. Applications for free and reduced price meals will not be collected.

If we can be of any further assistance, please contact me at 573-654-2422.

Sincerely,

Shannon Wilson
Food Service Director

Non-discrimination Statement: The U.S. Department of Agriculture prohibits discrimination against its customers, employees, and applicants for employment on the bases of race, color, national origin, age, disability, sex, gender identity, religion, reprisal, and where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department. (Not all prohibited bases will apply to all programs and/or employment activities.) If you wish to file a Civil Rights program complaint of discrimination, complete the USDA Program Discrimination Complaint Form (PDF), found online at http://www.ascr.usda.gov/complaint_filing_cust.html, or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at program.intake@usda.gov. Individuals who are deaf, hard of hearing or have speech disabilities may contact USDA through the Federal Relay Service at (800) 877-8339; or (800) 845-6136 (Spanish). USDA is an equal opportunity provider and employer.

Policy 2750
(Regulation 2750)

Student Welfare

Wellness

The District promotes healthy schools, by supporting wellness, good nutrition, and regular physical activity as part of the total learning environment. The District supports a healthy environment where children learn and participate in positive dietary and lifestyle practices. Schools contribute to the basic health status of children by facilitating learning through the support and promotion of good nutrition and physical activity. Improved health optimizes student performance potential. The goals of the District's wellness policy are as follows:

1. **Provide a comprehensive learning environment for developing and practicing lifelong wellness behaviors.**

The entire school environment, not just the classroom, shall be aligned with healthy school goals to positively influence a student's understanding, beliefs, and habits as they relate to good nutrition and regular physical activity. A healthy school environment should not be sacrificed because of a dependence on revenue from high added fat, high added sugar, and low nutrient foods to support school programs.

2. **Support and promote proper dietary habits contributing to student's health status and academic performance.**

All foods available on school grounds and at school-sponsored activities during the instructional day should meet or exceed the district nutrition standards. Emphasis should be placed on foods that are nutrient dense per calorie. To ensure high quality, nutritious meals, foods should be served with consideration toward variety, appeal, taste, safety, and packaging.

3. **Provide more opportunities for students to engage in physical activity.**

A quality physical education program is an essential component for all students to learn about and participate in physical activity. Physical activity should be included in a school's daily education program from grades K through 12. Physical activity should include regular instructional physical education, co-curricular activities, and recess. A goal of 150 minutes per week for elementary students, 225 minutes per week for middle school students, and 2 units for high school students during high school years.

4. **The District is committed to improve academic performance.**

Educators, administrators, parents, health practitioners, and communities should consider the critical role student health plays in academic stamina and performance and adapt the school environment to ensure students' basic nourishment and activity needs are met. To

ensure widespread understanding of the benefits to school environments where nutritious foods are provided and where students have an opportunity for physical activity, a public awareness campaign that highlights research demonstrating the positive relationship between good nutrition, physical activity, and capacity of students to develop and learn should be conducted.

- 5. Establish and maintain a district-wide Nutrition & Physical Activity Advisory Council with the purposes of:**
- Developing guidance to this policy
 - Monitoring the implementation of this policy
 - Evaluating policy progress
 - Serving as a resource to school sites
 - Revising policy as necessary
