

As summer approaches and you want to provide meaningful activities for your children, consider the Summer Enrichment courses offered as a partnership between the Woodbridge Recreation Department and the Woodbridge Township School District. These fun and enriching camp-style classes inspire children as they enjoy learning. Whether your child wants to write a book, become a wildlife biologist, perform in a musical or dance show, create artwork, explore the ocean or space, make a movie, advance their engineering skills, visit the world of Harry Potter or Dan Gutman, learn music production, serve the community with creativity, engage in math competition, or become a forensic detective, we have a class for you! AM, PM, Early Bird and Late Owl classes are available during the weeks of July 24-28 or August 14-18. Students can bring their lunch and stay all day!

Click the link below and then:

1. click the brochure icon to view course descriptions
2. click the communitypass link to register.
