

# Yuba College CTE Transitions

Process for student enrolled in an articulated class to be considered for college credit:

1. Take an articulated CTE Transitions course
2. Attend a CTE Transitions presentation in the class conducted by Yuba College Outreach and Recruitment Specialist or teacher for the class
3. Complete the Student Enrollment Form (Forms cannot be completed after the class has already ended)
4. Once the course is completed, high school/ROP instructors verify students' grades by returning completed and signed CTE Transitions grade roster to the CTE Transitions Office
5. Qualified students who meet the requirements specified in the articulation agreement receive credit on their YCCD transcript

**Simply taking a class that is articulated does not automatically qualify the student to receive credit if the above steps are not completed.**

\*Grades are inputted during the summer by the end of August of the academic year that the roster is received for.
