September 29, 2021

Hello Community Members,

I hope this email finds everyone well. September has been a busy month for both students and staff at EVG and GW. It was great to see so many people at Back To School Night. It is always great to share our goals and the exciting experiences we plan for the school year.

I wanted to share some information regarding travel and quarantine.

If you choose to travel outside NY, NJ, PA, DE, and CT and your child is not vaccinated, your child will need to be quarantined for seven days if you get tested 3-5 days after you return. If your child does not get tested, they will need to quarantine for ten days. Please follow this link for more information on [domestic travel](#) and [international travel](#).

There is no virtual option for students that need to quarantine due to travel. Your child will be sent asynchronous work from their teachers. If you send your child to school after travel, you will need to come and pick them up and have them quarantined.

I appreciate your patience as we continue to navigate keeping our students healthy, safe, and in our buildings.

Sincerely,

Siobhan Tauchert
