Harvard Families,

I am frustrated to share that SHIELD testing will not be available for a few more weeks.

Although our district has been working closely with SHIELD since the summer, we were notified that a new SHIELD representative and test collection representative has been assigned to our district. We have reached out to SHIELD, but we have not yet been connected with our new representatives.

Everything the District has control over has been completed. We are waiting for SHIELD to be fully staffed and logistically prepared to make testing happen.

I apologize for this inconvenience. We will notify families as soon as we have further information from SHIELD and testing is able to begin.

Sincerely,

Dr. Corey Tafoya
Superintendent
Harvard CUSD 50
