

Mask Survey Repondents

Mask Survey Respondents

Do you believe that JNPSD should require masks to be worn this school year?

Do you believe that JNPSD should require masks to be worn this school year?

EMPLOYEES: Do you believe that JNPSD should require masks to be worn this school year?

EMPLOYEES: Do you believe that JNPSD should require masks to be worn this school year?

PARENTS/SCHOLARS: Do you believe that JNPSD should require masks to be worn this school year?

PARENTS/SCHOLARS: Do you believe that JNPSD should require masks to be worn this school year?

If the District implements a mask requirement, what areas/ times should the mask be worn?

All the time

When they are unable to social distance and on bus rides

.

@ all times and in all areas

24/7

7:00-3:00

8:00 to 4:00

8:00am-3:30 pm during school

A mask should be worn at all times unless eating, drinking or there is a medical concern.

All

All

All area

All areas all day

All areas all the time

All areas all the time until cases go back down

All areas and times, except at outdoor recess

All areas except lunch

All areas throughout the school besides eating

All areas where social distancing can't be maintained.

All areas, all the time with the exception of eating while social distancing

all areas. This state has a 17% vaccination rate in children. It is not safe.

All areas/times

All crowded school events and on buses.

All day

All day

All day except extracurricular events

All day and everyday , Until numbers drop

All day besides lunch and breakfast

All day besides recess

All day except during lunch and/or sports

All day except eating at a social distance

All day except lunch

All day except outside

All day except PE class

All day except when eating

All day except while eating.
All day indoors or in crowded spaces
All day when at school and on the bus.
All day when in the classroom.
All day while in the school buildings.
All day with at least a 10 minute interval in class, 6 ft. apart , lunch in class rooms, 6 ft apart. . apart and not d
All Day with the exception of lunch and recess. Recess limited to non-contact activities.
All day, every day, maybe except outdoor recess and lunch
All day, except during lunch time which should be socially distant
All day, hallways, classrooms,lunch rooms, any congested area
All day, inside and outside
All day. Have a 10 minute break every hour. Or go virtual. COVID is KILLING our Kids !!!
All during class
All during school and in any crowd situations
All except eating and when outdoors/6ft apart
All except lunch
All except meals
All except outdoors
All hours except for when eating.
All indoor activities and buses
All indoor activities, when individuals are within close contact of each other.
All indoor areas and outdoors including sports venues.
All indoor areas at all times regardless of vaccination status.
All indoor times and all outdoor times when students are within 6 feet of each other.
All inside areas
All inside locations
All places, mainly in places with lots of people
All school day
All school day and at school functions.
all schools and meetings
All the time
All the time
All the time everywhere. The air needs to be sanitized before and after lunch.
All the time except meals.
All the time except of lunch and breakfast.
All the time except when at lunch.
All the time unless it's lunch time
All the time with 5 or 10 minute mask breaks.
All the time, unless eating in the cafeteria.

All time
All time EXCEPT outside
All time when students and staff are on campuses
All times
All times and areas
All times around students
All times aside from lunch
All times except breakfast and lunch while eating
All times except eating
All times except eating.
All times except for meals
All times except for outside
All times except lunch
All times except lunch and outdoors
All times except lunch.
All times except recess and lunch/snack
All times except when eating
All times except when eating or drinking
All times except when eating or outside unless 6ft of space between scholars are possible.
All times except when eating.
All times in the building.
All times indoors
All times inside except when eating.
All times like last year.
All times other then eating or outside
All Times students are present and during big groups
All times unless 6ft away and outdoors, or eating.
All times unless its gym time or something like that
All times unless medically excused.
All times unless they are eating
All times when not social distanced.
All times, all places on campus.
All times, classrooms hallways busses lunch room
All times, except eating
All times, other than sports I guess.
All unless physical activity
All, just like last year
All.
Always

always during class times and passing in hallways around her people
Always except to eat or drink
Always required
Always unless you are in far enough proximity
always, unless eating
Any areas outside of normal classroom. Ie: bathrooms, hallways, art, music, library
Any closed quarters
Any high population areas or areas where groups will be for extended times. (During class)
Any time a scholar is in close proximity to others.
Any time in contact with others
Any time individuals are in confined spaces together, spring or standing close together
Any time indoors
Any time indoors where social distancing isn't possible
Any time kids are not outside
Any time people are within 3 feet of each other.
Any time scholars/staff can't social distance
Any time scholars/staff members are in close contact with each other.
Any time that the scholar is in a classroom, Cafeteria or hallway.
Any time where social distance can not be maintained
Any time with 6 feet can not be done
Any time your not eating
Any transitions that involve going in the hallway.
Anytim you can't be 6 ft apart
Anytime
Anytime a class leaves the classroom.
Anytime and place people can not socially distance.
Anytime besides eating.
Anytime children and or staff are in close proximity to others
Anytime distance cannot be maintained
Anytime other than eating and outside unless people can be spread apart.
Anytime scholars are unable to do social distancing
Anytime scholars can't be social distanced
Anytime scholars/staff are closer than 3 feet apart.
Anytime someone is inside the school buildings
Anytime staff and scholars are inside the building and in close contact with each other.
Anytime the students/staff are indoors together OR within 6 feet of each other.
Anytime they aren't active with other students
Anytime they're in school
Anytime they're not able socially distance

Anytime we can't social distance
Anytime we cannot social distance
Anytime you are in close contact with someone face
Anytime you are up close in someone's face
Anytime you can't do social distancing with students/people who are unvaccinated
Anytime, except when outside or when eating.
Anywhere indoors
Anywhere indoors
Anywhere/time that scholars, teachers and staff are indoors and can't socially distance.
Areas where the students and teachers cannot social distance
Around people who can not be vaccinated
As long as your inside the building
Assembly's ONLY
at all times
At all times
At all times , and in all areas, except when eating.
At all times except for lunch.
At all times except lunch please share additional covid except okay if the district implements Mass what time do you think she'll be relaxed lunch I said that
At all times except when eating
At all times if 6ft distance cant be maintained
At all times if indoors.
At all times in all areas
At all times in all school buildings and events.
At all times inside
At all times inside, to be removed while eating.
At all times possible. Including sports and band.
At all times that they can't be 6ft apart
At all times unless eating
At all times unless eating or drinking
At all times unless eating time.
At All Times when in doors, outdoors if within 3-6 feet of others
At all times when indoors except when eating/drinking. Outdoors where social distancing cannot be maintained.
At all times when indoors unless eating or drinking. . Outdoors unless socially distanced.
At all times when social distancing is not an option
At ALL times, ALL areas, and ALL school events!!!!
At all times,,and then again it depends
At all times!
At all times! It will keep everyone healthy and safe. Only time they shouldn't be worn is when they are eating.

At all times.
At events only.
at school
At the choice of parents
Atvall
Beginning to End
between classes
Between classes and during group times.
Between classes in hallway
Bus and in the classroom
Bus, class times, Group restroom breaks, indoor playtime, anytime the kids are in a large group and not able to be spread out
Buses
By all unvaccinated individuals, by all students at all times, and teachers unless teaching and can be socially distant from the closest student
Cafeteria/Hallways between classes/Anytime a reasonable distance is not possible.
Carpet time for the preK kids, center time.
Changing classes
Changing classes and in crowded hallways or in the lunch line, in the classroom if students can not socially distance
Changing classes, when social distancing not available
Class and when 6ft apart from each other can't be done
Class room
Class rooms library
Class time
Class time and switching classes in hallways
Class time/centers/close contact times
Classes, close contact with each other
Classroom
Classroom
Classroom all times
Classroom only
classroom only and only second grade and up
Classroom settings
Classroom, auditorium
Classroom, hallways, bus, small gatherings, staff and faculty should wear a mask, and visitors should wear a mask regardless being vaccinated. Plus if kids have difficulty putting orkeeping mask on then a different mask should be given to them to see what is the best comfort for them
Classroom/hallways
Classrooms
Classrooms and other instructional areas

Classrooms and while in building with others.
Classrooms cafeteria
Classrooms during class
Classrooms or hallways
classrooms when students are present
Classrooms, halls, bathrooms
Classrooms, hallways, entering the school
Classrooms, hallways, in large gatherings
Classrooms, hallways, large gatherings
Classrooms, hallways, transportation
classrooms/0830-1540
Close contact areas, within 4 feet of one another. Also, the first and last 10 minutes of each class.
Close contact with unvaccinated individuals
close proximity in hallways and classrooms
Common areas such as classrooms, bathrooms, and cafeteria
Common areas. With flexibility for younger kids or kids with sensory issues.
Definitely indoor larger gatherings of people such as the arena and hallways. I think classrooms should have some flexibility. I also feel that there should be flexibility to place students in small groups and require masks during that work.
Depends on the individual or individuals in the space.
Desk and hallways.
Doing the time school is going on at all school event
During any group activities where distancing is not possible.
During any time with more then 4 people students or Trachers gathered
During breakfast and lunch
During class
During class and anytime they can not social distance
During class and while inside the building, off during time in cafeteria or outside in courtyard
During class change
During class change and during pick up/drop off
During class instruction and when in the hallways.
During class time
During class time/aoybd students.
During class times.
During class/lunch if not eating/hallways
During class/meetings
During classroom instruction, when arriving/departing school
During classrooms and close proximity.
During indoor interaction with other students
During instuction

During interaction with persons in a confined area
During periods in which they are not 6 feet apart, class room learning etc
During school classrooms, hallways, or lunchrooms
During school day
During school hours
During school hours and school functions.
During school hours when social distancing is not possible or school activities would dictate a need not to wear a mask.
During school hours/classroom
During times of difficult contact tracing.
Entire school day
everywhere
Everywhere and at all times
Everywhere but outside
Everywhere but outside
Everywhere except while eating/drinking or alone in a room
Everywhere inside and around a lot of people
Everywhere inside except when they are eating
Everywhere, all of the time
EVERYWHERE/all day
Face to face meetings. NEVER during sports. Athletes need extra oxygen, not carbon dioxide.
Families should be given the freedom to make their own decision about masks.
Follow the CDC recommendations. Remove masks when eating and outdoors only.
For all students and staff that are now vaccinated inside the building and on the bus
For the scholars not at all.
general meeting areas, larger gatherings, classroom/places where distancing isn't possible
Group activities
Group settings
Group work, traveling to and from classes anytime students are in close proximity to each other with movement.
Hall way transition
Hall ways classes that are full and buses
Halls and assemblies
Halls- changing classes -
Hallways
Hallways and classrooms unvaccinated ones only
Hallways/passing periods
High traffic areas (hallways, bathrooms)
High traffic areas & all day
High volume areas, school busses, assembly's
I believe it should be left up to the parents to decide what is best for their children.

I do not think masks should be required
I do not think masks should be required
I do not think they should be a requirement.
I don't think they should be
I don't think they should have to
I dont think they need to require the masks at all. It should be left up to the parent. Its obvisously not working. Its been shown that its not. People with the vaccine is dying and/or still gets the covid. Something with the masks.
I feel masks should be worn at all times except for eating and drinking.
I think it should be optional
I think it should be up to the individual
I'm large groups that include students outside their classroom
I'm not sure
I'm the building.
If implemented, should be worn when will be in close contact with another person (e.g., less than 5-6 ft).
IF REQUIRED - at arrival & dismissal
If we do, should be worn all the time
If you can not be 6 feet apart then yes they should wear a mask
if you can't safe distance
If you're going to be less than 3 feet apart
iin close areas
In a setting of more than 20 people
In all District operated buildings

<i>If the District implements a mask requirement, whatareas/times should the requirement be relaxed?</i>
?
.
@ breakfast and lunch
*
100% of the time
8:00am-4:30pm

Able to keep a distance apart
Activity times
After 3pm
After 4:00
After any student is off school grounds.
after hours
After school
After school outside
After you decontaminate
Again, I believe that decision should be left up to the parents to decided what is best for their children.
All
All
All areas/times
all day
All day
All day accept extracurricular events
All day except lunch
All day except pE class
All day, every where
All of the time, make it a parental choice
ALL OF THEM
All the time
All the time
All the time except when idle in direct proximity of other
All the time- especially for children under 12 and those with any mental or physical health issues
All time
All times
All times at school
All times social distancing is not feasible.
All. Day. Long.
Always
Always
Always.
Any given time
Any non school event
Any time outside
Any time outside or if you are in a room alone
Any time social distancing can be obtained
Any time they are with there grade level.

Any time you are more than 6 feet away from the scholars.
Anytime and place you can socially distance.
Anytime scholars/staff are further than 3 feet apart.
Areas that social distance and outdoors
At all times
At all times in all areas that does not allot 6 feet between each person is when we should have strict requirements.
At ALL times! ALL areas!!
At all times.
At all times. Scholars shouldn't be masked.
At desk, cafeteria and breaks.
at home
At lunch
At lunch and when outside
At lunch while seated.
At lunch, and maybe recess.
At nap time and lunch time
At naptime
At no time.
At recess./outside spread out
At the time the Supreme Court Times
Band choirs athletics
Before/after school when scholars are not present, any time in their classroom when scholars are not present
Beginning of day to end
Breakfast and lunch
Breakfast and Lunch
Breakfast, lunch, and snack times
Breakfast, lunch, outside for a few mins
Breakfast/lunch and outside
Breakfast/Lunches in classroom to have a mask break
cafeteria, outside
Cafeteria/meal times. When 6ft distancing can be achieved.

Class rooms
Classroom relaxed
Classroom, lunchroom, and outside
Classroom, outside, gym class
Classroom, playground, lunch, activity
classroom/practice
classrooms

Classrooms and outside
classrooms that are self contained
Classrooms. Lunchroom. Recess.
Common areas such as classrooms, bathrooms, and cafeteria
Doing all schools event and when kids a teacher are in the class room
Doing breakfast and lunch
Don't mask anymore.
Don't wear them
During breakfast/lunch and recess and during p.e.
During class
during class during lunch
During class if appropriately spaced, recess, lunch
During class when sitting at a single or 2 person desk, lunch, naps, and outside play times.
During class, and exercise/PE
During classroom learning and recess
During classroom time and while playing outside.
During classrooms and close proximity.
During classtime
During eating but spaced apart.
During eating times. Recess
During individual workstation and outside activity and lunch
DURING LUNCH
During lunch & recess with social distance at those times.
During lunch 6ft. apart, in class rooms. ten-15 minute intervals every hour.
During lunch and playtime
During lunch and recess and activity time
During lunch and recess, still social distancing
During lunch and sports
During lunch, Band, and Athletics
During meals and outside recess
During meals and recess
During meals or social distancing or outside
during out door festivities.
during outdoor activities
During outside play, if we as staff and students canbe distanced in the classroom if there aren't that many students at that time.
During PE, at recess and when eating in the cafeteria.
during physical education, and recess
During physical fitness, playing at recess, in the cafeteria etc.
During reading, phonics, language classes, activity classes, & recess

During recess and non-contact activities
During recess and while eating
During recess, PE or any time they are outside, during breakfast and lunch.
During recess/ lunch
During school hours
During school hours
During sports events. During outside activities. During recess for Elementary schools. During P.E. During lunch.
During times of eating and only while eating.
During times of eating, playing, and or exercise.
During times when social distancing is feasible.
Eat time, play time
Eating
Eating and drinking
Eating and outside activities
Eating and playing
Eating and potential physical activity
Eating at a social distance
Eating breakfast/lunch
Eating lunch
Eating lunch, recess, outdoor areas, in class if students can socially distance
Eating of course it goes down and again PE and certain outdoor events. but needs to get right back on
eating or during standarized testing if social distancing can be maintained
Eating or outdoors
eating or outside events
Eating time and outside
Eating, 6ft distance, or outside
eating, exercise
Eating, outside, 6ft apart
Eating. Recess
Eating/drinking/alone in a room
Elementary - specifically k/2. & home room
Every minute the school is running
Everyday , all day
Families should be given the freedom to decide what is best for their health regarding the masks.
Field trips/recess/lunch/outdoor activities/maintaining 6 ft distance
For the younger students I don't believe the mask should be a requirement it's more of a distraction
Guidelines should be in line with the transmissibility of the virus in the community. Guidelines should follow the medical guidelines for masks that are suggested by the Arkansas Department of Health.
gym, classrooms with small groups students, outdoor areas

Gym, outside, sitting at a desk
Gym/PE. Lunch. Outside recess
Gymnasium, cafeteria, outdoor activities
Hallway
Hallway travel and outdoor areas as well as once scholars are out of the building
Hallways/recess/lunch or if numbers go down.
Hard to say right now with numbers going up
I am not in favor of masks
I do not think masks should be required
I don't think they should.
I favor relaxed mask requirements in situations where there are low numbers of occupants in a room (10 or fewer people in an average size classroom-preferably vaccinated).
I feel like the student should be able to remove the mask outside .
I feel the masks should be relaxed when eating and drinking. I also feel that students can remove the masks for recess or when playing outside. If the student has a medical condition or disability in which a mask can't be worn that should be dealt with on a case by case basis.
I personally don't believe they keep anyone safe anyways
I think it should be optional
I think it should be up to the individual
I think they need to wear mask indoors. Unless there is lots of space like maybe gym.
I work areas where social distancing can be applied.
I'm class and meals
I'm the classroom, lunch, outside,
If everyone you're around are all vaccinated, the mask should be optional
If it is not required everywhere, then school should not be required.
If one class is outside at recess and no other class is using the same playground/area.
If students social distance themselves then it can be relax.
If teachers/students are fully vaccinated their should be some relaxations, When we have the ability to social distance (teacher teaching at the front of the room away from students, teacher at desk far enough away from students, etc.), lunch time, outside, PE, and I also feel like students may need periodic mask breaks
If you are fully vaccinated.
if your vaccinated no need to gear mask and also if you are outside
In class
In class and outside
In class, pe, lunch
In classes where distancing is good
in classroom if student can more than 6 feet between the scholars.
In classroom settings when the students can be socially distanced.
In classroom w/3ft distance- mask back on when up and about the class
In classrooms and cafeterias. Also during any outside activity.

In classrooms for elementary.
In classrooms when reasonable distance can be achieved.
In classrooms, in lunch room
In classrooms, in the office, places people can social distance
In classrooms, on play ground or outside
In classrooms, recess, activities
In hallways
In no school activist
In office, in small meetings
In outdoor settings only, where distance is still required
In self contained classrooms
in the classrooms and outside
In the cafeteria and outside areas
In the classroom
in the classroom
In the classroom , bathroom breaks , times when social distancing is possible
In the classroom and during lunch.
In the classroom and lunch
in the classroom during work time, recess, after school for teachers
In the classroom If the desk are spread apart.
In the classroom when social dististing
In the classroom, and when they're eating (if they all eat together)
In the classroom, during lunch and during recess
in the classroom, during lunch, and at recess
In the classroom, lunch, outside, one on one instruction.
In the classroom.
In the classroom. I hate the thought of wearing it ALL day.
In the halls and cafeteria, while participating in sports, when not sitting/standing within 6 feet of each other
in their own classroom, during specials (excluding transition), outside
In-class only
Indoors
Indoors when social distancing is not an option
Inside
Inside for small groups who can socially distance.
Inside self contained classrooms
Inside the class, where they take it off to eat and drink. And normally dont have them on over nose properly anyway.
Inside the classroom
Inside the classroom for primary grades
Inside the classroom with social distance guidelines

It doesn't matter, because if the kids don't wear them outside if school, what good does it do to wear them in school.
It should be relaxed outside and in the classrooms especially.
It should be relaxed when individuals are 6 ft apart or greater from others.
It should not be relaxed.
It shouldn't be
kids should not have to wear mask at their desk.
Large group/outdoors
Let each family decide for themselves.
luch
Lunb and playground
Lunch
Lunch
Lunch / physical education
Lunch and before we go home for the day.
Lunch and gym
Lunch and maybe at dismissal
Lunch and on playground
Lunch and outdoors
Lunch and outside activities where they Are able to follow cdc guidelines
Lunch and recess
Lunch and recess
Lunch and recess and nap time
Lunch and recess with non-contact activities available or social distancing
Lunch n resse
Lunch or breakfast
Lunch or when sitting alone
Lunch recess p.e. outside classes with distance
Lunch rooms with social distancing can occur
Lunch time
Lunch time
Lunch time and recess
lunch time and separated from others
Lunch time and social distancing
Lunch time of course.
Lunch time when hurry are eating and outside when they are being picked up by parents
Lunch time, drinking water only
Lunch time, outside time, gym class
Lunch times, outdoor playtime's, individual activities
Lunch to eat only

Lunch with partitions on 3 sides
Lunch, band, sports
Lunch, in the class rooms, outside on the playgrounds.
Lunch, independent work, etc
Lunch, naptime
Lunch, outside, individuals in offices alone
LUNCH, PLAY TIMES, AND ANY OUT DOOR ACTIVITY
Lunch, recess, and if safety protocol are established, maybe during physical education. Depending on close contact with students and staff members.
Lunch, recess, P.E.
lunch, recess, PE, art, music, and library
Lunch, time between classes, free time/recess
lunch, when evenly spaced between others
Lunch.
Lunch. Maybe playground
Lunch. Outdoors.
Lunch. PE. Outdoor activities (recess)
Lunch. With restrictions to # of people in cafeteria.
Lunch/ outside activity
Lunch/Breakfast
Lunch/Breakfast
Lunch/outdoors
Lunch/outside
Lunch/Recess
Lunch/recess
Lunches so kids can eat, outdoors, and in classes where there are less students
Lunchroom if scholars are eating and social distancing
Lunchtime
Lunchtime but while social distance themselves from friends.
Masks should not be required outdoors or when students are able to be kept 6 ft apart
Maybe at recess if they are far enough apart
Maybe during recess, outside and students socially distant
Maybe outdoor time
Maybe outside activity where a significant separation can be maintained
Maybe when inside the classroom.
meal time and anytime outside
Meal time and outdoor recess.
Meals
N class, lunchroom, recess

N/A
NA
Na
NA - Let the parents be responsible for their kids' health. If a parent wants their kid to wear one, cool. If not, also cool. Don't require it for those who decide it's not a benefit. Allow the option.
Nap time
never
Never
Never except to eat or drink
Never!!
No
No mask on the gym or outside period!!
NO MASKS

Please share any additional concerns or feedback about precautionary measures that the District should possibly implement, in light of the COVID-19 Pandemic.

Continue to follow CDC GUIDELINES
I feel there should be care taken for special needs and people with medical issues that make the mask dangerous
Maybe having a public handwashing station was best... as in the old days. Pinewood actually still has one. Other than that... what else can be done about a virus that was patented by the U.S. to make money.
The mask are not working for elementary students. They get nasty, wet, snotty, and most of them are not washed as they should be. It does not help kids from spreading the virus bc their hands and mouths are always on them. They lick them, swing them around in the air, and drop them on the ground all day. They should not have to breathe in mold and bacteria all day. Yes, the delta variant is showing up more in children but the severity of delta compared to the alpha variant is the same as research is showing. If parents and staff are concerned with their health they can wear a mask by choice.
?
.
..
*
6 foot distance
A mask mandate will help protect our scholars and staff.
A mask should be worn inside at all times vaccinated or not
A must to see to that all Jacksonville is on track to end this virus
Air purifier HEPA filters in ALL classrooms
Air purifiers in all rooms.

All children not vaccinated should wear masks.
All elementary students and staff should be required to wear masks.
All students and staff should wear a mask vaccinated or not
All teachers and staff should be vaccinated
Allow others to decide for themselves
Allowing students to wash hands before eating, keeping hand sanitizer in all classrooms & do extra cleaning after each class
Alternate on-campus days for students
Arkansas has the lowest vaccination rate in the country and is currently a hotbed for new COVID 19 cases. It would be irresponsible to not have a full time mask mandate. The health and wellbeing of our children and our fellow community members outweighs the minor inconvenience of wearing a mask.
As a community member, I am pleased that the school board is reaching out for input. The Covid-19 pandemic is something none of us ever anticipated. All I expect is for the board to use their best judgement regarding masks and other health/ safety issues.
As long as our case load is high the district needs to do everything it can to protect the students, faculty, staff, and families of JNPSD
As much as I hate the idea of singing with a mask on for choir, The idea that every student is vaccinated, is probably not true so we need to protect those who aren't so the ability of getting sick is less.
As much social distancing as possible. If in open areas, mask wearing can be minimized but with some distance in place.
At least have mask in the elementary schools where the kids have not had a chance to be vaccinated
At some point, you have to let the parent decide what the student should do.
Available masks
Basic sanitation before, during, and after class hours
Be patient, don't panic
Because children cannot be vaccinated it is important to require masks in some areas where they cannot be distanced apart and have to be close together.
Being able to see each other's faces greatly increases the positive atmosphere of a classroom environment. Most students whose parents are more relaxed about masks have their masks off or down majority of the day despite redirection from staff. Broken masks are an issue. Sound production for ESL students is crucial (f vs th)
Being able to see faces/mouths is HUGE in language and reading development, as well as social skills development. Requiring masks to be worn for two years in a row would have such a negative impact, especially on young elementary students
better safe than sorry
Better support for virtual option
Better thermometers.
Can we ask scholars to voluntarily disclose vaccination status.
Can't trust the vaccine ppl still get covid
Check temperature / Mask
Check temps daily
Checking scholars temperatures, with the numbers going up it is best to be proactive
Children should also be social distanced
Children should be social distanced
Children under 12 cannot be vaccinated. It is imperative that they are required to wear a mask to prevent community spread
Children's masks go so dirty and are worn day after day. How this can be healthy for the child?
Class numbers that prevents social distancing in classrooms

Classroom tables/desks should be wiped down twice daily to help contain germs
Clean classrooms daily. Thoroughly. Check temperatures before allowing kids to enter the building or get on the bus.
Cleaning extra
Clear screens should be provided with one on ones to be used when needed.
Concern that face mask are not mandatory at the moment it's scary that they sit 3-6 feet instead of 6 feet. A lot of nerve wrecking things to think about
Constantly sanitizing classrooms, cafeteria, restrooms and gym
Continue the covid 19 cleaning
Continue to sanitize properly, face coverings optional, provide hand sanitizer around the campus and in classrooms. Encourage parents to keep students home if their child is feeling bad
Continue to screen scholars as they come in, keep our buildings clean on a daily basis provide PPE and sanitizers
Continue to use hand sanitizer when all possible. Until all are vaccinated wearing a mask will protect us, or them.
Continue water bottle
Continue with social distance
Continued hygiene precautions is a good idea, as well as social distancing.
Courage is doing the right thing, even when it's not popular. You are the guardians of these children, and I trust you will do all you can to keep them safe. Hoping strength for you in these unique times.
Covid is more serious this year than it was last year. Teachers should not have to risk their lives when masks help prevent the spread!
COVID is serious! We need to set the standard for COVID protocols. Masks should be mandatory.
COVID leave
Daily Sanitizers
Distance
Distance / if a child is sick - send them home
Distance of 6 feet Min.
Distance when possible and wash hands
Distance when they can and wash hands often
Distancing
Don't make the kids feel alone by not allowing some interaction my kid is in therapy already from these times making him feel alone.
Don't be to live.
Don't force it-Make it a personal choice, where it doesn't make parents feel like they have no say.
Don't think masks will really help much with this age group
dont have any
Dont know
Due to the increase in cases in surrounding areas, I believe a mask mandate will help protect students and JNPSD employees. I also believe that recent news has proven that the school environment is certainly a place that enables the spread.
eating lunch in the classroom is counter-productive because it is a big group of kids with no masks on in a smaller area. there is more opportunity and it is more viable to be spread out in cafeterias than in the classrooms.
Educating children hand washing techniques
Elementary students are not vaccinated!
Encourage vaccinations and implement a mask mandate

Ensure classrooms are properly and regularly equipped with hand sanitizer and antibacterial wipes
Even if you're vaccinated, you can get a variant. Kids under 12 can't even get the vaccine
every one needs to wear a mask
Everyone needs to wash their hands more often
Everyone should have the choice.
Everyone should wear even if they are vaccinated including teacher or myself but I'm not so I should wear either or.
Everyone wears masks, limit outside individuals to school environment as much as possible.
Extra ckeaning
Extra cleaning supplies
Facemasks
Flex fridays
Follow all the cdc guidelines
Follow same protocols as last year to protect scholars not eligible for vaccine and for those scholars/ staff members who are considered high risk.
For children under the age of 12, masking is vital.
For safety
For students that has not taken th Covid-19 shot should be wearing masks like the elementary schools
For the kids safety
free to choose
Frequent cleaning, social distancing
Frequent hand washing
from my personal opinion masks are beneficial however having temperature checks with a forehead monitor do not seem to be effective, as temperatures typically read low or are not completely accurate. When taking temperatures outside (for bus or car duty), the monitors are effected by the weather/temperature outside and end up not reading accurately.
From the CDC: Regardless of the level of communitytransmission, it is critical that schools use and layer prevention strategies. Schools providing in-person instruction should prioritize two prevention strategies: Universal and correct use of masks should be required. Physical distancing should be maximized to the greatest extent possible. The following strategies should also be utilized as much as possible: Handwashing and respiratory etiquette. Cleaning and maintaining healthy facilities. Contact tracing in combination with isolation and quarantine. Schools must have soap and paper towels in every bathroom and classroom with a sink every day and all year long. Scholars must not be allowed to wear masks incorrectly or not at all. Consistency is the key regardless of the personal feelings of adults.
Get children temperatures before entering school.
Give kids, parents, teachers the option to wear a mask when they choose to.
go virtual , Tests on site 6ft apart. wash hands with soap and water. Wear masks, and eye protection if possible. Go virtual after holiday breaks for 7-10 days. The virus is Killing our kids. They are our future, they are not being protected. If we mandate masks and enforce hand washing that is giving them some protection.
Good luck and God Bless all of us!
guest speakers to discuss covid relevant topics and educate scholars to help them navigate through this difficult time
Hand sanatizer and washing hands and keeping a distance between the kids
Hand sanitizer outside of every classroom to use before and after classes
Hand sanitizer stations in all hallways
Hand sanitizer stations, even outside at recess

Hand sanitizer usage.
Hand sanitizer washing hands
Hand washing
Hand washing on arrival, before lunch, after recess and on departure from school
Hand wipes for students.
Handling classrooms that have multiple kids get sick. How to delineate between COVID and other NORMAL sicknesses children experience.
Hands should be washed several times, and any illness should be sent home.
Have hand sanitizer available
Have lesson plans ready two weeks in case they have to quarantine.
Have medical grade air purifiers in each classroom. Have enough hand soap, toilet paper, paper towels, hand sanitizer everywhere. Do not allow soap to run empty and implement hand washing after recess time for all staff and students. Make sure kids and adults wash hands and are not giving hugs or high fives at the moment. Staff included. Provide seats to be separated at all times.
Have those adults that are vaccinated wear masks at all times, they are more likely to spread the virus without realizing it.
Health concern on wearing a mask for 8 straight hours
How could you, in good conscience, not do everything you can to protect your students?
How it will be hard to keep a kid to keep the mask on at times
I also feel like when eating the kids should be distanced at least 3 feet apart since 6 foot spacing might be difficult to achieve. Maybe have rapid tests at the nurses office so kids that have possible symptoms can be tested before being sent to class.
I am concerned for my child's safety. I think if masks are worn, we can help prevent the spread of Covid 19.
I am just trying to get my son moved from in school to virtual with the COVID numbers going up so high and have trouble reaching anyone on the phone.
I am not concerned
I am not only an employee, but I'm also a parent of two children who attend our schools. One of my children is not old enough to be vaccinated yet. I worry for her and other children under the age of 12 that don't want to wear a mask because none of the other kids are having to do it, so they don't want to. I worry for their safety and health because they are the main age groups that are having it hard as of right now.
I am not sure if the district purchased air purifiers but this may be helpful along with better ventilation systems. I have one child who is vaccinated and two who don't qualify because they are not old enough. Not having a mask mandate is playing Russian Roulette with our children's lives. One child catching COVID-19 and dying is too many. Everything needs to be done to protect our children. Any pediatrician or doctor would agree that a mask mandate is the safest way to open up schools for in-person learning.
I am scared for all of us
I am wanting my children to attend school virtually IF a mask mandate is no going to be achieved due to obvious health concerns regarding COVID 19 and the Delta variant where the state of Arkansas is leading in cases.
I believe kindergarten children should not have to wear a mask. I believe it's traumatizing, and kids at the age of 5/6 don't understand nor comply well with keeping the mask on properly.
I believe masks should be optional.
I believe parents should be allowed the choice whether or not to have their child wear a mask. Personally, I don't believe masks are beneficial especially with younger students. Masks become dirty and are not worn correctly by many people.
I believe that certain precautions should be taken, however I believe the masks are more harmful than they are helpful.
I believe that if a mask mandate is enforced it should only apply to non-vaccinated individuals. Also, if we employ a mask mandate again then the district should reopen virtual school for all scholars who want to do it. The masks will not be effective when you have 25-30 scholars in the classroom, therefore if a mask mandate is enforced, scholars then scholars should also have the opportunity to

go virtual.
I believe that it is a little to late to be changing things that have already been sent to the public. i.e. Virtual open house when it was already stated to be in person and masks have already been recommended, but not required
I believe we should do whatever we can to to make it safe a safe place for the kids
I can say from experience that masks do not work for elementary students. The students do not wear them appropriately most of the time. The masks get wet with saliva, mucus, and food/drinks. The masks are not being washed as they should. If does not help kids from spreading the virus because their hands and mouths are always on them. Even with proper mask procedures taught, students share masks, swing them around, and drop them on the ground all day long. Also, when trying to teach students to read, it is imperative for them to be able to hear me clearly and see my mouth form the letters and words as I say them. I also need to be able to see their mouths and hear their voices to correct any miscues they may occur. Masks impede this vital part of instruction.
I do not believe children should be required to wear face mask. That should be the decision of the individual's parents.
I do not feel that masks should be required. Children, as a majority, DO NOT wear them properly, nor do adults
I do not have any
I do not have any other responses at this time.
I do not know how anyone could live with their self if they could prevent one child's death by requiring a mask. I think vaccines should be mandatory also since people are apparently too dense to get it
I do not think masks should be required
I don't believe the temperature checks are necessary. Also, I'm a speech therapist and would like for kids to be able to remove their masks during articulation therapy (with a clear divider in between us) if masks are mandated.
I don't want to bring anything home to my baby brother that is too young to get vaccinated
I don't want to get my siblings that are to young to be vaccinated sick
I feel if we continue with same measures we used last school year we will be safe.
I feel like if we all use standard precautions and follow guidelines we can make this work and reduce the spread of the virus.
I feel we need to wear mask again and no parents in the building...to help prevent any outbreaks
I had a close friend lost his daughter last month to Covid it is not a joke. It is not funny how these so called government officials and their followers are trying to murder these innocent children by taking the mask mandate away. It is EVIL but everything back fires. And for the school district not to stand up for these babies y'all are just like these other demonic entities. You SHOULD BE ASHAMED. But you all will be the ones have to live with not doing what was right. This state is too red and it's going to put Arkansas under for once!
I have a condintion that prevents me from wearing a mask
I have children that are to young to be vaccinated and a husband with a lung disease that can't be vaccinated my children will be wearing a mask regardless
I have none
I I would like to see all schools mandated to wear masks at all times except for lunches. If not all schools and Arkansas all children been at least keep our children safe that's not vaccinated 12 and under thank you
I just want a mask mandate
I just want a safe school year for staff and students and if wearing the mask makes it safe I'm all for it.
I just want my child to get a good education
I just want my kids to be able to focus without so many distractions.
I know that this is a difficult decision to make, but the health and safety of scholars, especially, and staff should be the the deciding factor in this decision. The data on both the efficacy of vaccinations and proper mask use is very clear. And more importantly, as the Delta variant has become the dominant variant for now, the data is also clear on the risk to children. It is no longer a case where children would predominantly have mild or asymptomatic cases. Children's ICUs are filling as well. I know that community and

stakeholder feedback is always crucial in decision making. I also know that sometimes the right answer isn't the easy or popular answer.
I like the idea of flexibility when teaching up in front of the scholars. Staying a safe distance
I personally hate the fact that I am unable to introduce my children to their teacher before school starts. I am their first line of defense to danger and should be the one telling them who is safe and who isn't. (I have young children and this is their first time going to a "real" school)
I personally think it should be an individual's choice.
I personally think they should make it so that they should be vaccinated
I respect that there are no simple solutions for district leadership due to the social/political climate related to the pandemic. However, I would encourage the district to initiate other preventive measures such as periodic cleaning of the school building and other facilities and connect with local community outreach for vaccine distribution for eligible scholars and families.
I said what i thought.
I strongly advise against mandatory masks
i think plenty of ventilation in the buildings may help as well as utilizing UV LIGHTing in some capacity may make a difference
I think if an outbreak in the school occurs that the children should wear maskd for 14 days or however long quarantine takes place.
I think it is imperative that we take proper steps to reduce covid cases in our children , and have a productive year
I think it should be optional
I think it should be somewhat relaxed for the kids. I wouldn't be upset if my kids teacher was vaccinated and chose not to wear one in the classroom.
I think masks are important in keeping our children safe. However if one scholar in a class tests positive and you make the whole class stay home for 10 days anyway, i feel there could be some leeway in the classroom where they dont have to wear it. When rhey are around scholars from other classes (besides outside) or other public areas in the school, they should be required.
I think masks just raise kids anxiety
I think masks need to be worn since so many kids are not able to be vaccinated and the cases among children here in AR has increased drastically.
I think masks should be optional for teachers and students. Teachers and students that have either had COVID or have been fully vaccinated have a high level of protection from COVID-19. Those who have not had COVID or have not been vaccinated should be allowed to were a mask if they choose that option.
I think most parents would feel safe with masks in place
I think parents should immediately be notified of possible exposure
I think should wear all time in school
I think temperature check should be done as soon as scholars and staff enter the building daily. Hand sanitizer stands throughout the entire school. Temperature checks imperative for safety.
I think the District should continue the same guidelines as we implemented last year during this time. They should continue to provide hand sanitizer stations throughout the building, as well as cleaning wipes and spray to continue to protect our scholars and keep the room clean.
I think the masks should be personal preference
I think the school district is doing their best to implement what they think is right and more parents should support the choices being made to keep their children safe
I truly believe that we should revert back to virtual meetings. The vaccine does not stop the spread of the virus or its variants. I truly am fearful of sitting in a room full of people knowingthat COVID is taking over the ICU in Arkansas and more children are DYING from the virus than before. I feel that it is important that we keep our students and employees and employers safe. Being maskless, not social distancing, and having too many people in one area is not keeping us safe. It is giving us the opportunity to catch the virus and take it home to our families and loved ones. Thank you for reading my concerns and inquiring about them.

I trust whatever the school decides to do
I want masks at all times. We owe it to the kids who are too young to be vaccinated
I will be wearing a mask at all times while I am in the building.
I will be wearing my mask while scholars are in the classroom
I will do anything the district asks me to do,
I work at UAMS. I am caring for these COVID patients daily. This is so much worse than it has ever been. All precautions implemented last year should be in place this year as well. To be lax at this time would be detrimental to the health and safety of our children and teachers.
I work for a funeral home and we are burying people weekly who have passed from COVID. So, it's real. I will continue to wear mine at ALL times.
I worry about socially distancing and ensuring enough staff to student ratio
I worry about the students and the immunocompromised adults because of the variants.
I worry about the students following the mask mandate if one gets put into place.
I would hope that we are not teaching with a mask mandate this year. I do believe that people should be able to choose to wear a mask if it makes them feel safer or for any health risks they may deal with. I also think the people who have serious health risks should be given the opportunity to learn virtually during this pandemic.
I would hope that sound judgment for the safety of our students can be implemented while balancing their needs during the school year.
I would just like to see our elementary scholars have the opportunity to leave their classroom for activities with precautions.
I would let kids still play openly and outside often.
I would like to see schools giving students more opportunities to be outside. Instead of only having one 40 minute recess a day, I would like to see students get at least one time each morning and one time in the afternoon to be outside in the fresh air without a mask
I would prefer a mandate
I'm concerned for those of us who are unable to be vaccinated
I'm concerned they will force everyone to have a mask, even those who have been vaccinated.
I'm scared for our children
I'm very concerned for the safety of My children if we don't require masks. They are not able to be vaccinated as they are too young. This is our responsibility to do what we can to help provide as many layers as we can to keep them safe.
Idk
IF A CHILD HAS A COLD I UNDERSTAND WEARING A MASK BUT IT WAS VERY DIFFICULT ON ALL CHILDREN LAST YEAR WEARING MASK FULL TIME AND LIKE MY CHILD THAT HAS ASTHMA IT MAKES IT EVEN HARDER FOR THEM TO BREATHE. SO IF MASKS ARE NEEDED TO BE WORN PLEASE ALLOW THEM TIME TO HAVE THEM OFF AND BREATHE
If a child is coughing or sneezing all over the class will they be told to go home or mandatory mask
If a child is fully vaccinated and has proof that is made a part of his/her school record, he/she should be given the choice to wear a mask; make hand sanitizer available entering each classroom, bathroom, cafeteria
If a child presents with fever or persistent cough, they should be sent home
If a mask mandate is implemented then there should be exception for vaccinated people.
If a person is vaccinated they should have a choice to mask up
If it gets too bad shut it down
If masks are not required district wide, it should definitely be a requirement for those working with scholars who are not eligible for

the vaccination.
If masks are relaxed at any time beyond lunch it's pointless to wear them
If masks are required my kids will be taken out
If measurements are going to be put in place they need to be followed through with.
If my children Athena and Raven Nunez dont want to wear the masks please do not force them. They do not like wearing masks all the time.
If scholars/employees are vaccinated, they should not be required to wear a mask.
If somebody tests positive, those who were associated with said person should be tested with negative results and not only quarantined before coming back to school.
If teachers could have the clear face shields again that would be fantastic!
If the District implements a mask requirement, the District should check numbers every month. If the cases lower then the mask requirement should be lifted.
If the district requires masks, please share the data that drives this decision. What school districts similar to JNPSD that required masks last year had less transmission than we did at JNPSD
If the masks are required, kids should get more breaks outside to remove masks and get fresh air.
If the numbers go down then we should stop the mask requirement.
If you aren't comfortable then mask if you are then don't. To each their own.
if you're been vaccinated you shouldn't have to use up sick days
If you've been vaccinated it should be optional but it still will no hurt to wear a mask.
Implement mask wearing for all staff, and scholars to assist in keeping everyone safe.
In cafeterias
In light of the COVID-19 Pandemic, I believe this is a time were the precautionary should be put back in place for schools. I believe that without a mask mandate we will fall back into a teacher shortage in classroom and even worse ill children within our district. The COVID-19 vaccine does help reduce the effects, but does not completely stop the spread because they can still test positive..
In order for an individual to build an immunity to something they have to be exposed
In the hall way mask need to be on!
Install water bottle refill stations. Kids still need water
It doesn't bother me one way or the other
It is crazy to think a person that has a Covid vaccination that should not quarantine if exposed, you can still be a symptomatic and spread covid to other. My family has just proven it can happen. Vaccination is only going to less the severity of the symptoms.
It is very difficult to be understood in a mask either by the teacher or the students. Additionally, facial cues are hard to decipher when covered by a mask. I am an asthmatic and have issues with claustrophobia, which the mask exacerbates. I am fully vaccinated and do not feel that I should be punished with a mask that restricts my communication abilities and exacerbates my own health issues.
It seemed like the mask policy and class isolation worked last year for keeping spread to a minimum
It would be ice to know which students are not vaccinated to ensure social distancing to protectt hem when creating seating arrangements since it is impossible to spread 30 students 6 feet apart in a standard classroom.
It's like the flu let them build up immunity
It's important to keep our children as best we can.
Its 520 days since "2 weeks to flatten the curve"we are over it
Its irresponsible to send children back to school when they are not old enough to get a vaccine, when this virus is much more contagious, much sicker, and more kids getting it. We must protect them by putting in place safety measures to keep them as safe as possible.

Just focusing on wiping down surfaces and washing hands more
Just keep hands cleaned and bring their own water bottles
Just making sure that the kids are safe
Just needs to be mandated especially for the children under 22
Just that it be reevaluated as needed throughout the year.
Just trying to keep our students safe the best we can
Just want everyone to be safe
K
Keep distance and wash hands
Keep everyone happy
Keep everyone safe
Keep everything you implemented from last year. It saved lives!
Keep Implementing great disinfecting skills and make sure the kids wash their hands regularly
Keep kids in school and not sick
Keep kids safe
Keep stressing the importance of vaccination
Keep the six feet apart rule and wear the mask when needed.
Keep them in hand whips
Keeping it sprayed and wiped down.
Keeping mask on when in groups or close to others
Kids have refillable bottles
Kids need school and to feel normal, safe, and able to play/interact with their friends.
Kids should be instructed in an environment where they are not fearful of something. Having them wear masks just instills fear in them. Teach them to wash their hands, keep their hands off of others, and respect people's right to choose to wear a mask or not.
L
Last year was handled great, my child only was quarantined once during the whole year.
Less typical illnesses last year!
Let each family decide for themselves.
Let it be optional per person
Let the kids be kids, and let their lives go back to some type of normalcy. Allow their parents and families back into the schools. Bring back Fall Fest, Grandparents Luncheon, Thanksgiving Lunch, PTA Meetings, Dances, etc. Let them have a school life.
Let the kids that were virtual last year but decided to go back to in school learning to have the opportunity to change their mind and go back to virtual
Let the science and the CDC guide your decisions, not politicians or misinformed people!
Let them be kids it's fine
Let's just wear a mask in be safe
Like seating charts in different classes when possible so it is easier to contact trace. For instance, 4th/5th grade departmentalized.
Limit number of visitors in the building, Hand washing practices, bringing water bottles and meetings with parents virtually
Lots of sanitizer available. No sharing of materials. Encouraging students to distance and wash hands.

Lunch and Breakfast in the classroom, teachers travel and not students, virtual days if cases reach a predetermined level.
Make it mandatory to protect our children
Make mandatory indoors
Make sure every student and teacher is wearing a mask. We need to be safe!!
Make sure hand sanitizer is easily assemble. Temp checks.
Make sure mask are worn over both nose and mouth
Make sure our children's are safe!
Make sure the staff knows not to push the vaccine on kids, it's the parents decision.
Making sure all areas are cleaned throughly & hand sanitizer available & washing hands with good soap
Making sure classrooms are fully stocked with disinfectant
Making sure students sanitize their hands when entering and leaving a classroom. Doing temperature checks on students and staff when entering the building.
Many parents will not send their children back to school if you do not have a mask mandate in place,it would be for the benefit of everyone if students and staff wore masks
Many younger students cant be vaccinated yet.
Mask and 6ft rule
Mask do not prevent the spread of COVID-19.
Mask for everybody and, mandatory vaccines for ALL employees
Mask mandate helps the spread of young children.
Mask should be required. Sanitizer provided and time allowed to wash hands frequently
Mask should be worn even if fully vaccinated
Mask wearing should be inforced by every person
Mask worn at all times
Mask worn inside and hand sanitizer stations in the buildings
MASK.
Masking has been proven to not be as effective as pushed
Masks
Masks always in the hallway, bathroom, close spaces
Masks and social distancing while indoors
Masks and vaccines are the ONLY way ti slow the spread especially since the Delta variant is spread a 1000 times more than any other variant and is hitting the younger population!!!
Masks and vaccines will not stop a virus.
Masks are a number 1 must especially with new variant and some kids not able to be vaccinated.
masks are filthy
Masks are important for our safety!!
Masks are not necessary
Masks are very demoralizing and individuals in good health should be allowed to manage their own risks.
Masks aren't protecting us
Masks help keep other illnesses at bay last year too

Masks never prevents the virus, ever.
Masks should be required to protect our students and our teachers
Masks should be required to protect scholars and staff
