- ❖ Sharpen the focus and strengthen instruction in reading, grammar, and writing to ensure all students are performing at grade-level expectations and ACT Ready and Exceeding levels.
- ❖ Use student assessment results as part of the data-driven decision making process to develop specific intervention strategies for individual students to ensure high levels of learning, and revise instruction for entire classes.
- ❖ Determine instructional decisions for struggling students with specific regard to type, intensity, and duration of interventions to address learning challenges with regular use of data.
- ❖ Celebrate students' citizenship academics, creativity, and diligent work habits through daily, weekly, monthly, and quarterly recognition. Hugh Goodwin will make every effort to ensure that all students have an opportunity to be recognized and praised for their hard work and improvement.
