How to Set Up Your Schoology Parent Account

Schoology is a *learning management system* where Vail students collaborate with their teachers and each other to extend and enhance their learning. Student accounts are created automatically, but parent/guardian accounts have to be created manually. We'll outline the process here.

Click [here](#) to go to the Schoology parent registration page

Enter this code **12-AB-3852** where it asks for the "Access Code" and press "Continue"

This code is unique to your student, and will link your parent account to their student account. You may wish to simply copy and paste it. This code will also allow multiple parent accounts to be created if necessary (additional parent accounts will need to use a different email address). **NOTE:** Please keep this code safe as it will allow anyone to access your child's Schoology account.

You only need to sign up for your Schoology account with one of your children's access codes. For instructions on how to add your other children to your Schoology parent account, click [here](#)

Fill out the next screen with your information

TIP For consistency, use your PowerSchool account email address. You can find it [here](#)
