

## **Announcement for October 14, 2021**

Good afternoon! If your child is currently quarantined due to close contact, please read the important reminder linked below.

Please remember that students who are currently quarantined should not be in attendance at a school activity such as tonight's football game. If this applies to your student, school personnel has notified you of your child's quarantine at some point in the last 10 days. Students who were moved to distance learning this week and whose parent or guardian has not been contacted directly about quarantine are not restricted from attending a school activity. If your child is experiencing any symptoms, such as fever or cough, please keep your child home from school and school activities. Thank you for your assistance in helping our school minimize the spread of COVID and other illnesses.
