When incidents happen, parents should be informed directly before it hits facebook

### Communication Exposure Parents

**Communication between parents and high school staff is minimal at best**

## THOUGHTS

### Social Media

Robo calls and text messages are very effective. for people not on social media

4.1 ★★★★★ ( 14 👤 )

Communication with parents and employees could be better. Not everyone is on social media, not everyone has the app, nor checking the website daily.

3.9 ★★★★★ ( 21 👤 )

Social media should not be used for important communication unless the person posting understands how to use boosts, hash tagging, and target audience Unless all these tools are used, posts may not appear in feeds and community members miss communications.
