- In 2020, there were 2,650 breast cancer cases reported in MEN in the U.S.
- SMOKING, including vaping, increases your risk of developing breast cancer by nearly 15%.
- Yearly mammograms, starting at age 40, can substantially reduce your risk of death due to breast cancer because early detection is crucial.

The Community Foundation of Western PA and Eastern OH, along with the Winner Foundation, has a mission to develop the concept of philanthropy in the hearts and minds of the young people within our community. To that end, the Winner Foundation will provide a matching grant of up to \$5,000.00 per year to our high school students with one basic requirement: The money should be disbursed to qualified charities or needy individuals within your specific school district at the sole discretion of the students.

The Sharon High School Girls Basketball program is looking for quality athletes to join the team!

If you are a student athlete and would like to meet the coaches or learn more about the team, come by room 217.

We are striving to build a quality program and need good student athletes!

The Hi-Y Club is a club whose objective is to promote cooperation among the members, faculty, administration, and community through a series of different activities. This year's tentative large-scale activities include hosting 3 blood drives, and becoming involved with the Sharon Code Office to support their program called Gettin' Gritty for Our City. There are some other small scale things we hope to participate in as well.

Any male student in grades 9-12 is welcome to join. See Mr. Whalen in room 303 with any questions.
