Dear Parents & Guardians,

The Jacksonville North Pulaski School District has learned of a potential safety issue that may affect your child. It involves a product recall from Amazon.

Back in July, district leaders purchased **3-Ring Binder Pencil Pouches** from Amazon. The products were distributed among our seven (7) JNP school campuses.

District leaders have since learned that the pencil pouches are being recalled because the product ***“may exceed the federal limits for lead and/or cadmium or contains a defect that presents a substantial product hazard under CPSA Section 15(A)(1) or (2).***

Parents, if your scholar is in possession of this product, we urge you to ***stop using it immediately and dispose of the item.*** The safety of our Titan scholars is our highest priority. We regret any inconvenience this may cause you.

Best Regards,
JNPSD Administrative Team
