Everyone that knows **Wes Dunkin** knows how happy he is and loves his bright smile and big hugs. What many students and staff do not know is how bright he really is. Wes has so much information and knowledge trapped in his brain with a limited way of showing it. Together his parents, teachers and aides are working very hard to find the right way for him to do this. Most kids would be very frustrated and show this frustration through bad behavior. This is not the case with Wes. This little guy has so much perseverance.
