## **5.2—PLANNING FOR EDUCATIONAL IMPROVEMENT**

Each school in the district, in collaboration with administrators, teachers, other school staff, parents, the community, and students, shall develop a school-level improvement plan (SLIP) to:

- Establish goals or anticipated outcomes based on an analysis of student's needs'

- Identify student supports and evidence-based interventions and practices to be implemented;
- Describe the professional learning necessary for adults to deliver the supports or interventions;
- Describe the implementation timeline for monitoring of the interventions and practices for effectiveness;
- Describe the timeline and procedures for evaluation of the interventions and practices for effectiveness; and
- Evaluate and modify a parent, family, and community engagement plan.

Each SLIP shall include a literacy plan that includes a curriculum program and a professional development program that is aligned with the District’s literacy needs and is based on the science of reading.

Some of the data that shall be considered when developing the SLIP includes, but is not limited to:

- Statewide assessment results;
- Interim assessment results;
- Similarly situated school’s SLIPs; and
- Evaluation(s), including staff, student, and community feedback, of the existing SLIP.

The SLIP is to be reviewed on an ongoing basis with reports to the board on implementation progress of the SLIP throughout the year of implementation. By May 1 of each year, the SLIP to be implemented in the upcoming school year shall be presented to the District Board of Directors for review and approval. The District will post the District’s SLIP(s) to the District’s website under State-Required Information by August 1 of each year.

The district shall develop, with appropriate staff; school board members; and community input, a school district support plan (SDSP). The SDSP, in coordination with the District’s SLIPs shall

- Specify the support the District will provide to the District’s schools;
- Collaboratively establish priorities regarding goals or anticipated outcomes with the District’s schools, including feeder schools;
- Identify resources to support the established priorities;
- Describe the time and pace of providing support and monitoring for the established priorities;
- Describe the measures for analyzing and evaluating that the District support was effective in improving the school performance;
- Establish, evaluate, and update a parent, family, and community engagement plan; and
- Direct the use of Enhanced Student Achievement funding for strategies to close gaps in academic achievement.

If the District’s data reflects a disproportionality in equitable access to qualified and effective teachers and administrators, the District shall develop and implement strategies to provide equitable access as part of the SDSP.

If forty percent (40%) or more of the District’s students scored “in need of support” on the prior year’s statewide assessment for reading, the District shall develop a literacy plan as part of the SDSP that includes:

- Goals for improving reading achievement throughout the District; and

- Information regarding the prioritization of funding, including without limitation, Enhanced Student Achievement funding, for strategies to improve reading achievement throughout the District.

The District shall post the District’s SDSP to the District’s website under State-Required Information, including any updates to the District’s SDSP.

The District’s Board of Directors shall hold a meeting annually to provide a report that systematically explains the District’s policies, programs, and goals to the community. The District’s report shall detail the progress of the District and the District’s schools toward accomplishing program goals, accreditation standards, and proposals to correct any deficiencies. The report shall be made available to the public, including by posting a copy on the District’s website under State-Required Information no later than ten (10) days following the meeting. The meeting shall provide parents and other members of the community the opportunity to ask questions and make suggestions concerning the District’s program.

### **5.3—CURRICULUM DEVELOPMENT**

Sequential curricula should be developed for each subject area. Curricula are to be aligned with the curriculum frameworks and used to plan instruction leading to student proficiency on the Arkansas Academic Standards. Curricula should be in alignment with the District’s vision, mission, goals, and educational philosophy. Student achievement is increased through an integrated curriculum that promotes continuity and a growth in skills and knowledge from grade to grade and from school to school. Therefore, the Board desires that unnecessary duplication of work among the various grades and schools be eliminated and that courses of study and their corresponding content guides be coordinated effectively.

The Board of Education is responsible for reviewing and approving all instructional programs offered by the District as well as approving significant changes to courses or course materials before they are implemented. The Superintendent is responsible for making curriculum recommendations.

Each school shall review each curriculum area annually to address the continued relevancy, adequacy, and cost effectiveness of individual courses and instructional programs and to ensure each area is aligned with the current curriculum frameworks and course content standards approved by the State Board of Education. Each school’s administration shall implement a monitoring process to ensure that the instructional content of each course offered is consistent with the content standards and curriculum frameworks approved by the State Board of Education.

The District shall not purchase curriculum for the District’s reading program that is not from the list of curricula approved by the Division of Elementary and Secondary Education.

Instructional and supplemental materials, including classroom events or activities associated with classroom instruction, are selected for their compatibility with the District’s educational program and their ability to help fulfill the District’s educational goals and objectives. Individuals wishing to challenge or express concerns about instructional or supplemental materials, including classroom events or activities associated with classroom instruction, may do so by filling out a *Challenge to Instructional Material* form available in the school’s office.

The contesting individual may present a copy of the form to the principal and request a conference be held at a time of mutual convenience. Prior to the conference, the principal shall consult with the teacher regarding the contested material. In the conference, the principal shall explain to the contesting individual the criteria used for the selection of the material and its relevancy to the educational program as well as any other pertinent information in support of the use of the material.

## **5.7 – SELECTION OF LIBRARY/MEDIA CENTER MATERIALS**

The ultimate authority for the selection and retention of materials for the schools' media centers rests with the Board of Education which shall serve as a final arbiter in resolving a challenge to any media center materials. Licensed media center personnel shall make the initial selections in consultation with school and district licensed staff. Materials selected shall be in accordance with the guidelines of this policy.

The purpose of the schools' libraries/media centers is to supplement and enrich the curriculum and instruction offered by the District. Promoting the dialogue characteristic of a healthy democracy necessitates the maintenance of a broad range of materials and information representing varied points of view on current and historical issues. In the selection of the materials and resources to be available in each library/media center consideration will be given to their age appropriateness. Materials should be available to challenge the different interests, learning styles, and reading levels of the school's students and that will help them attain the District's educational goals.

### **Selection Criteria**

The criteria used in the selection of media center materials shall be that the materials:

- a) Support and enhance the curricular and educational goals of the district;
- b) Are appropriate for the ages, learning styles, interests, and maturity of the schools' students, or parents in the case of parenting literature;
- c) Contribute to the examination of issues from varying points of view and help to broaden students understanding of their rights and responsibilities in our society;
- d) Help develop critical thinking skills;
- e) Are factually and/or historically accurate, in the case of non-fiction works and/or serve a pedagogical purpose;
- f) Have literary merit as perceived by the educational community;
- g) Are technically well produced, physically sound (to the extent appropriate), and represent a reasonably sound economic value.

### **Retention and Continuous Evaluation**

Media center materials shall be reviewed regularly to ensure the continued appropriateness of the center's collection to the school's curriculum and to maintain the collection in good repair. Those materials no longer meeting the selection criteria, have not been used for a long period of time, or are too worn to be economically repaired shall be withdrawn from the collection and disposed of. A record of withdrawn media materials including the manner of their disposal shall be maintained for a period of three years.

### **Gifts**

Gifts to the media centers shall be evaluated to determine their appropriateness before they are placed in any media center. The evaluation shall use the same criteria as for all other materials considered for inclusion in the media centers. Any items determined to be unacceptable shall be returned to the donor or disposed of at the discretion of the media specialist. The media centers shall have a list of desired items to give to prospective donors to aid them in their selection of materials to donate

**Challenges:**

The parent of a student affected by a media selection, or a District employee may formally challenge the appropriateness of a media center selection by following the procedure outlined in this policy. The challenged material shall remain available throughout the challenge process.

Before any formal challenge can be filed, the individual contesting (hereinafter complainant) the appropriateness of the specified item shall request a conference through the principal's office with a licensed media center employee. The complainant shall be given a copy of this policy and the *Request for Formal Reconsideration Form* prior to the conference. The meeting shall take place at the earliest possible time of mutual convenience, but in no case later than five (5) working days from the date of the request unless it is by the choice of the complainant.

In the meeting, the media specialist shall explain the selection criteria and how the challenged material fits the criteria. The complainant shall explain his/her reasons for objecting to the selected material. If, at the completion of the meeting, the complainant wishes to make a formal challenge to the selected material, he/she may do so by completing the *Request for Formal Reconsideration Form* and submitting it to the principal's office.

To review the contested media, the principal shall select a committee of five (5) or seven (7) licensed personnel consisting of the principal as chair and at least one media specialist. The remaining committee members shall be personnel with curriculum knowledge appropriate for the material being contested and representative of diverse viewpoints. The task of the committee shall be to determine if the challenged material meets the criteria of selection. No material shall be withdrawn solely for the viewpoints expressed within it and shall be reviewed in its entirety and not selected portions taken out of context.

The principal shall convene a meeting after a reasonable time for the committee members to adequately review the contested material and the *Request for Formal Reconsideration Form* submitted by the complainant. The complainant shall be allowed to present the complaint to the committee after which time the committee shall meet privately to discuss the material. The committee shall vote by secret ballot to determine whether the contested material shall be removed from the media center's collection. A member from the voting majority shall write a summary of the reasons for their decision. A notice of the committee's decision and the summary shall be given (by hand or certified mail) to the complainant.

If the decision is to not remove the material, the complainant may appeal the committee's decision to the district Board of Directors by filing a written appeal to the Superintendent within 5 working days of the committee's decision or of written receipt of the decision. The Superintendent shall present the original complaint and the committee's decision along with the summary of its reasons for its position plus a recommendation of the administration, if so desired, to the Board within 15 days of the committee's decision. The Board shall review the material submitted to them by the Superintendent and make a decision within thirty (30) days of receipt of the information. The Board's decision is final.

## **5.8—USE OF COPYRIGHTED MATERIALS**

### **Use of Copyrighted Work in Face-to-Face Classroom**

The Board of Education encourages the enrichment of the instructional program through the proper use of supplementary materials. To help ensure the appropriate use of copyrighted materials, the Superintendent, or designee, will provide district personnel with information regarding the “fair use” doctrine of the U.S. Copyright Code as detailed in the “Agreement on Guidelines for Classroom Copying in Not-for-Profit Educational Institutions with Respect to Books and Periodicals” and “Guidelines for Educational Uses of Music.”

### **Use of Copyrighted Works in Digital Transmissions**

#### **Definitions**

“Class session” means the length of time provided for students to access the materials necessary for the completion of course assignments and tests. Depending on the copyrighted work’s overall importance to the course, which can vary from a single assignment to an entire course focusing on the copyrighted work, the class session will end on:

- The date set by the teacher for an assignment to be submitted; or
- The date on the school calendar for the end of classes.

“Course packs” are premade compilations of book excerpts; newspaper, magazine, and journal articles; and instructor-authored materials.

“Mediated Instructional activities” includes textbooks, workbooks, and course packs.

“Transmission” is the remote accessing, whether on or off campus, by students of a copyrighted work by means of a closed circuit television, an educational television channel, or in a digital format on a password protected secure webpage.

The District recognizes that advances in technology have resulted in the need for guidelines for the use of copyrighted materials that are transmitted to students through a digital network. While the requirements to use a copyrighted work in a digital transmission have many similarities to those required to use a copyrighted work in a face-to-face classroom, Federal law places several additional requirements on the District’s teachers, IT staff, and librarians for the use of a digitally transmitted copyrighted work. The District is dedicated to providing the tools necessary for teachers, IT staff, and librarians to meet these additional Federal requirements.

The District shall make sure the server where materials are stored is secured, whether the server is located locally or remotely.

The District’s Informational Technologies staff shall develop the proper protocols and train teachers on their use in order to ensure:

1. The transmission of the copyrighted work is limited to only the students enrolled in the course;
  - Each student shall have a unique ID and password for accessing digital courses/materials; or
  - Each course shall have a unique password to access course materials; and
  - The password to access the course materials shall be changed immediately following the close of the course.

2. To prevent students from retaining or further disseminating the copyrighted work for more than one class session;
  1. The print function will be disabled;
  2. A transparency shall be placed over any literary work, sheet music, or photograph;
  3. Audio and video transmissions will be set to be streamed; and
  4. The link to the webpage with a copyrighted work shall be deactivated at the end of the applicable class session.

Teachers who wish to provide copyrighted works to students through a digital transmission as part of a digital course as well as teachers wishing to supplement a face-to-face classroom course with a digital transmission must meet applicable copyright statutes and policy 5.11—DIGITAL LEARNING COURSES as well as the following requirements in order to use a copyrighted work:

- A. The use of the copyrighted work(s), whether in whole or in part, must be a part of regular classroom instruction and must be directly related and of material assistance to the course content;
- B. The extent of a copyrighted work that is used must comply with one or more of the following criteria:
  - The entirety of a non-dramatic literary or musical work may be used. A non-dramatic literary work includes poems and short stories. A non-dramatic musical work covers all music that is not part of an opera or musical and does not cover the use of the music video format of a song.
  - Dramatic literary and musical works as well as videos may only be used in limited portions. Dramatic literary and musical works may only be used in the same amount as set forth in the requirements for a face-to-face classroom while videos, including music videos, may only have the portion used that is directly related to the subject of the class session and may not be transmitted in their entirety.
  - Still images or slides that a teacher would have used in the ordinary course of a face-to-face classroom session on a projector or a transparency may be used in a transmission.
  - Works primarily produced or marketed for use in the digital education market may not be transmitted.
  - Works the teacher had knowledge or reasonably believes to be unlawfully made or acquired may not be used.
  - Mediated Instructional activities may not be transmitted.

## **5.10—RELIGION IN THE SCHOOLS**

The First Amendment of the Constitution states that “Congress shall make no law respecting the establishment of religion, or prohibiting the free exercise thereof...” As the Supreme Court has stated (*Abington School District v. Schempp*, 374 U.S. 203) the Amendment thus, “embraces two concepts—freedom to believe and freedom to act. The first is absolute but, in the nature of things, the second cannot be.” Therefore, it is the Board’s policy that the school system, as an agency of the government, shall be neutral in matters regarding religion and will not engage in any activity that either advocates or disparages religion. The District shall assume no role or responsibility for the religious training of any student.

The need for neutrality does not diminish our school system’s educational responsibility to address the historical role of religion in the development of our culture. Since we live in a diverse society, the District’s goal shall be to address the subject of religion objectively in such a way that it promotes an understanding of, and tolerance for, each other’s religious or non-religious views.

Discussions concerning religious concepts, practices, or disciplines are permissible when presented in a secular context in their relation to an inclusive study of religion or to the study of a particular region or country. The discussions shall be such that they are objective and academically informational and do not advocate nor denigrate any particular form of religious practice

Accommodation will be considered for those portions of instructional activities in the schools that unduly burden a student's sincere religious belief provided such accommodation doesn't amount to a

significant change in curriculum, program, or course of instruction and when it is possible that a substitution of equally rigorous material that advances the same instructional goals can be arranged. Parents and students are advised that such accommodations are easier to grant when the objection is to non-state mandated Framework material than if the material is required by the Frameworks.

A student or the student's parent can request the student's teacher accommodate the student's objection based on a religious belief to an instructional activity. Any such request must be made at least 25 school days prior to the assignment's due date. Any objection must be raised in accordance with this policy's requirements or it will not be considered.

Upon receiving such a request, the student's teacher shall determine within five (5) work days if an accommodation is possible under the provisions of this policy. If the teacher decides an accommodation cannot be made or if the student or the student's parent believes the accommodation to be unreasonable, the student or the student's parent may request a conference with the teacher and the teacher's principal. A requested conference will occur at a time of mutual convenience, but no later than five (5) working days following the request. The principal shall have five (5) working days in which to make a decision on the appeal. If the student, the student's parent, or the teacher is unsatisfied with the principal's decision, it may be appealed to the District Superintendent who shall convene a conference between the student, the parent and the teacher. The requested conference will occur at a time of mutual convenience, but no later than five (5) working days following the request. The Superintendent shall have five (5) working days in which to make a decision on the appeal which shall be final with no further right of appeal.

The teacher in charge of each classroom may, at the opening of school each day, conduct a brief period of silence with the participation of all students in the classroom who desire to participate.

Students and employees may engage in personal religious practices, such as prayer, at any time, and shall do so in a manner and at a time so that the educational process is not disrupted.

- “Digital Learning” means a digital technology or internet-based educational delivery model that does not rely exclusively on compressed interactive video (CIV). Digital learning includes online and blended learning.
- "Instructional Materials" means:
  1. Traditional books, textbooks, and trade books in printed and bound form;
  2. Activity-oriented programs that may include:
    - a. Manipulatives;

- b. Hand-held calculators;
  - c. Other hands-on materials; and
3. Technology-based materials that require the use of electronic equipment in order to be used in the learning process.
- “Online Learning” is education in which instruction and content are delivered primarily over the Internet. The term does not include print-based correspondence education, broadcast television or radio, videocassettes, compact disks and stand-alone educational software programs that do not have a significant Internet-based instructional component.
  - “Public School Student Accessing Courses at a Distance” means a student who is scheduled for a full course load through the District and attends all classes virtually.

### **Digital Course Offerings**

The District shall offer one or more digital learning course(s) through one or more District approved provider(s) as either a primary or supplementary method of instruction. The courses may be in a blended learning, online-based, or other technology-based format and shall be tailored to meet the needs of each student.

All digitally offered courses shall meet or exceed the State Board of Education's curriculum standards and requirements and be capable of being assessed and measured through standardized or local assessments. Additionally, the District shall ensure there is sufficient infrastructure to handle and facilitate a quality digital learning environment.

As an approved digital learning provider, the District shall annually determine what District created digital learning courses it will provide to our students. The District may also choose to provide digital learning courses by contracting with outside providers of such courses, who have been pre-approved by the Division of Elementary and Secondary Education (DESE). The School Board shall determine the provider method or combination of methods for the District. The Superintendent shall ensure that all digital learning courses provided to District students, regardless of the source of the course, have been approved by DESE.

District created digital courses and any digital courses the district purchases from outside providers shall adhere to the guidelines for the use of digitally transmitted copyrighted materials set forth in Policy 5.8-USE OF COPYRIGHTED MATERIALS as well as applicable statutory requirements.

The District shall require all outside providers to incorporate Policy 5.8 as a condition of the service contract. Failure of the outside provider to abide by Policy 5.8 shall constitute a breach of contract and the outside provider shall be responsible for any costs resulting from such breach.

A student may elect to take any or all of his/her scheduled courses digitally. The student’s attendance in the student’s digital course(s) shall be determined in accordance with Policy 4.7 – ABSENCES.

The District is responsible for providing all instructional materials for each student who enrolls in a District approved digital learning course.

Regardless of any other provisions of this policy, the District may restrict a student's access to digital courses when the student's building principal determines the student’s participation in such a course would not be academically appropriate based on the student's past performance in digital courses. Furthermore, the student's building principal may revoke a student's eligibility to continue taking a

digital learning course if the student's performance during the semester indicates the student is not succeeding in the course.

## **5.12— COMPUTER SCIENCE INTERNSHIPS AND INDEPENDENT STUDIES**

The Board of Directors believes that students who intend to begin careers immediately upon high school graduation or intend to complete post-secondary training prior to starting a career can benefit from an internship experience. The desired outcomes of the District's internship program include students advancing computer science skills, sharpening soft-skills, and learning new skills while in a workplace environment. The internship program provides intense, competency-based worksite immersion in advanced computer science concepts while linking the internship participants to current resources, information and guidance from computing professionals.

Students who wish to participate in the internship program shall submit an application to the building principal. In order for the student to be eligible to participate in the internship program, the student must have:

1. Received enough credits to qualify as a junior;
2. Either:
  - Have at least one (1) credit from Division of Elementary and Secondary Education (DESE) approved computer science course; or
  - Submit computer science work product that satisfactorily demonstrates the competencies expected within the DESE Computer Science Standards to the building principal.

The student participating in an internship program is responsible for making sure the building principal receives documentation authenticated by the student's supervisor of the hours worked by the student, proof of the student having completed projects, and regular evaluations of the students work by the student's internship supervisor.

A student who completes a computer science internship shall receive credit for the internship as a Computer Science Flex Credit based on the amount of documented on-the-job work hours as follows:

- 1) Half (1/2) credit for completing sixty (60) on-the-job work hours; or
- 2) One (1) credit for completing one hundred twenty (120) on-the-job work hours.

### **Independent Studies**

A Computer Science Independent Study Program shall be designed to enrich the student's computer science educational experience. A student who desires to complete an independent study shall:

1. Either:
  - Have at least one (1) credit from a DESE approved computer science course; or
  - Submit computer science work product that satisfactorily demonstrates the competencies expected within the DESE Computer Science Standards to a local advisor;

2. Develop an educational plan that is tied directly to extending the computer science concepts found within:
  - The most current revision of the Arkansas High School Computer Science Standards;
  - College Board AP Computer Science Principals or A; and/or
  - IB Computer Science SL or HL
3. Submit the study plan to a local advisor for approval.
4. Produce a final product for presentation.

The advisor is responsible for reviewing, monitoring and approving the student's study plan. The study plan should include anticipated objectives that allow the advisor to evaluate the student's study progress. The student is responsible for submitting regular written reports to the advisor concerning the student's progress towards the student's independent study goals.

The student's hours of study shall be documented by the most appropriate of the following methods:

- Being assigned a class period during the instructional day that is dedicated to the student's independent study;
- Using the District's system to track student time for digital courses if the student's attendance and assignments are through a digital classroom; and
- Using another hour tracking system approved by the district Superintendent that provides for accurate tracking of hours and provides safeguards against improper reporting by the student.

A student who completes a computer science independent study shall receive credit for the independent study as a computer Science Flex Credit based on the amount of documented study hours as follows:

- 1) Half (1/2) credit for completing sixty (60) study hours; or
- 2) One (1) credit for completing one hundred twenty (120) study hours.

### **5.14—HOMEWORK**

Homework is considered to be part of the educational program of the District. Assignments shall be an extension of the teaching/learning experience that promotes the student's educational development. As an extension of the classroom, homework must be planned and organized and should be viewed by the students as purposeful.

Teachers should be aware of the potential problem students may have completing assignments from multiple teachers and vary the amount of homework they give from day to day.

Parents shall be notified of this policy at the beginning of each school year.

Date Adopted:

Last Revised: July 2018

## **5.15—GRADING**

Parents, or legal guardians, persons having lawful control of a student, or persons standing in loco parentis shall be kept informed concerning the progress of their student. Parent-teacher conferences are encouraged and may be requested by parents, guardians, persons having lawful control of a student, persons standing in loco parentis, or teachers. If the progress of a student is unsatisfactory in a subject, the teacher shall attempt to schedule a parent-teacher conference. In the conference, the teacher shall explain the reasons for difficulties and shall develop, cooperatively with the parents, a plan for remediation which may enhance the probability of the student succeeding. The school shall also send timely progress reports and issue grades for each nine (9)-week grading period to keep parents/guardians informed of their student's progress.

The evaluation of each student's performance on a regular basis serves to give the parents/guardians, students, and the school necessary information to help effect academic improvement. Students' grades shall reflect only the extent to which a student has achieved the expressed educational objectives of the course.

The grades of a child in foster care shall not be lowered due to an absence from school due to:

1. A change in the child's school enrollment;
2. The child's attendance at a dependency-neglect court proceeding; or
3. The child's attendance at court-ordered counseling or treatment.

The grading scale for all schools in the district shall be as follows.

A = 100 – 90

B = 89 – 80

C = 79 – 70

D = 69-60

F = 59 and below

For the purpose of determining grade point averages, the numeric value of each letter grade shall be

A = 4 points

B = 3 points

C = 2 points

D = 1 point

F = 0 points

The grade point values for Advanced Placement (AP), approved courses for weighted credit, International Baccalaureate (IB), and approved honor courses shall be one (1) point greater than for regular courses with the exception that an F shall still be worth zero (0) points.

The final grades of students who transfer in for part of a semester will be determined by blending the grades earned in the district with those earned outside the district. Each final grade will be the sum of the percentage of days in the grading period transferred from outside the district times the transferred grade from outside the district plus the percentage of days in the grading period while in the district times the grade earned in the district.

For example: The grading period had forty (40) days. A student transferred in with a grade of eighty-three percent (83%) earned in ten (10) days at the previous school. The student had a grade of seventy-five percent (75%) in our district's school earned in the remaining thirty (30) days of the grading period. Ten (10) days is twenty-five percent (25%) of forty (40) days while thirty (30) days is seventy-five percent (75%) of forty (40) days. Thus the final grade would be  $(0.25 \times 83) + (0.75 \times 75) = 77\%$

### **Traditional Progression**

A student who has not previously received a computer science credit may elect to take an introductory level computer science course. A student who passes a computer science course level is eligible to take the next level computer science course in the same computer science course emphasis.

### **Alternative Progression**

A student who does not have credit for any computer science course, the introductory level computer science course for the particular computer science emphasis, or the preceding level course for the computer science emphasis may be placed in a computer science course based on any combination of the following factors:

- The student's grade point average;
- Recommendation from the student's teacher(s);
- Completion of computer science internships or independent studies;
- Demonstration of previous computer science work by the student; or
- Proficiency report from a computer science proficiency evaluation tool.

Students who finished their 9th, 10th, or 11th grade year enrolled in a high school which has been closed due to consolidation/annexation with the Booneville District shall be selected valedictorian on the basis of the criteria in existence in their high school at the time of the closure and their subsequent academic achievement in Booneville High School. Their selection shall be separate from and in addition to selection of the valedictorian from non-consolidated/annexed students enrolled in Booneville High School.

The honor student with the second highest GPA and who has been enrolled in public school in grades 9 through 12 and in Booneville High School for his/her entire senior year shall serve as the salutatorian

### **5.21- ADVANCED PLACEMENT, INTERNATIONAL BACCALAUREATE, and HONORS COURSES**

Students in grades 7-12 who take advanced placement (AP) courses, International Baccalaureate (IB) courses; honors or concurrent credit college courses; or other courses approved for weighted credit by the Division of Elementary and Secondary Education (DESE) shall be graded according to the following schedule.

A = 100 – 90

B = 89 – 80

C = 79 – 70

D = 69 – 60

F = 59 and below

For the purpose of determining grade point averages, the numeric value of each letter grade shall be

A = 5 points

B = 4 points

C = 3 points

D = 2 point

F = 0 points

For a student to be eligible to receive weighted credit for an AP, or IB course:

-The course must be taught by an Arkansas licensed teacher who has received the appropriate training required by Arkansas statute and DESE Rule or, for an AP teacher, is in the process of completing an Additional Training Plan; and

-The student takes the applicable AP or IB examination after completing the entire course. Credit shall be given for each grading period during the course of the year, but shall be retroactively removed from a student's grade for any course in which the student fails to take the applicable exam. Students who do not take the applicable exam shall receive the same numeric value for the grade he/she receives in the course as if it were a non-AP or IB course.

"Honors Courses" are those courses that have been approved by DESE as honors courses. Honors courses must stress higher order learning and be offered in addition to curriculum offerings required by the Standards for Accreditation.

Students who transfer into the district will be given weighted credit for the AP courses; IB courses; honors or concurrent credit college courses; and other courses approved by DESE for weighted credit that were taken for weighted credit at his/her previous school(s) according to the preceding scale.

A ninth (9<sup>th</sup>) through twelfth(12<sup>th</sup>) grade student who successfully completes a college course(s) from an institution approved by the Division of Elementary and Secondary Education (DESE) shall be given credit toward high school grades and graduation at the rate of one (1) high school credit for each three (3) semester hours of college credit. Unless approved by the school's principal, **prior to enrolling for the course**, the concurrent credit shall be applied toward the student's graduation requirements as an elective.

As permitted by the DESE Rules Governing Grading and Course Credit, a student who takes a three (3)-semester hour remedial/developmental education course, shall receive a half (1/2) credit for a high school career focus elective. The remedial/developmental education course cannot be used to meet the core subject area/unit requirements.

Participation in the concurrent high school and college credit program must be documented by a written agreement between:

- The student;
- The student's parents(s) or legal guardian(s) if the student is under the age of eighteen (18);
- The District; and
- The publicly supported community college, technical college, four-year college or university, or private institution of higher education the student attends to take the concurrent credit course.

Students are responsible for having the transcript for the concurrent credit course(s) they've taken sent to their school in order to receive credit for the course(s). Credit for concurrent credit courses will not be given until a transcript is received. Students may not receive credit for the course(s) they took or the credit may be delayed if the transcripts are not received at all or in a timely manner. This may jeopardize students' eligibility for extracurricular activities or graduation.

Students will retain credit earned through the concurrent credit program that was applied toward a course required for high school graduation from a previously attended, accredited, public school.

A student eligible to receive free or reduced price meals shall not be responsible for any of the costs for the student's first six (6) concurrent credit hours so long as the concurrent credit courses are taught on the District grounds and by a teacher employed by the District. Any and all costs of concurrent credit courses beyond the six (6) hours permitted, that are not taught on the District's campus, or are not taught by a teacher employed by the District are the responsibility of the student. Students who are eligible to

receive free or reduced price meals are responsible for any and all costs associated with concurrent credit courses.

## **5.29—WELLNESS POLICY**

The health and physical well-being of students directly affects their ability to learn. Childhood obesity increases the incidence of adult diseases occurring in children and adolescents such as heart disease, high blood pressure and diabetes. The increased risk carries forward into their adulthood. Research indicates that a healthy diet and regular physical activity can help prevent obesity and the diseases resulting from it. It is understood that the eating habits and exercise patterns of students cannot be magically changed overnight, but at the same time, the Board of Directors believes it is necessary to strive to create a culture in our schools that consistently promotes good nutrition and physical activity.

The problem of obesity and inactivity is a public health issue. The Board of Directors is keenly aware that it has taken years for this problem to reach its present level and will similarly take years to correct. The responsibility for addressing the problem lies not only with the schools and the Division of Elementary and Secondary Education (DESE), but with the community and its residents, organizations and agencies. Therefore, the District shall enlist the support of the larger community to find solutions that improve the health and physical activity of our students.

### **Wellness Committee**

To enhance the district's efforts to improve the health of our students, a School Nutrition and Physical Activity Advisory Committee (SNPAAC) shall be formed. It shall be structured in a way to ensure age-appropriate recommendations are made that correlate to the District's grade configurations. The SNPAAC shall have the powers and responsibilities delegated to it by statute and Rule and are incorporated into this policy by reference. The overarching goal of the committee shall be to promote student wellness by monitoring how well the District is doing at implementing this policy. The SNPAAC shall use modules 1, 2, 3, 4, 10 and 11 of the Centers for Disease Control (CDC) School Health Index as a basis for annually assessing each school's progress toward meeting the requirements of this policy. The results of the annual assessment shall be included in the school district's support plan (SDSP), provided to each school's principal, and reported to the board. Goals and objectives for nutrition and physical activity shall also be included in the SDSP.

The SNPAAC shall be made up of individuals from the following groups to the extent interested persons from each group desire to be included in the development, implementation, and periodic review of the District's wellness policy:

- Members of the District's Board of Directors
- School administrators

- School nutrition personnel
- Teacher organizations
- Teachers of physical education
- Parents
- Students
- Professional groups (such as nurses)
- School health professionals (such as school nurses, school counselors, and social workers) and
- Community members

The SNPAAC shall provide written recommendations to the District's Child Nutrition Director concerning menus and other foods sold in the school cafeteria. Such recommendations shall be based, at least in part, on the information the Committee receives from the District on the requirements and standards of the National School Lunch Program and from menus for the National School Lunch Program and other food sold in the school cafeteria on a quarterly basis.

The SNPAAC will meet at least quarterly. Meeting dates for the SNPAAC will be placed on the District's calendar.

### **School Health Coordinator**

To assist the SNPAAC in ensuring that the District fulfills the requirements of this policy, a District level School Health Coordinator (Designated District Official) shall be appointed. In addition, a school level School Health Coordinator shall be appointed who shall be responsible for assisting the District level School Health Coordinator in ensuring that each school fulfills the requirements of this policy.

### **Goals**

In its efforts to improve the school nutrition environment, promote student health, and reduce childhood obesity, the District will adhere to the DESE Rules Governing Nutrition and Physical Activity Standards and Body Mass Index for Age Assessment Protocols. To promote nutrition, physical activity, and other school based activities that will improve student wellness, the District, working with the SNPAAC, has established the following goals:

1. Implement a grade appropriate nutrition education program that will develop an awareness of and appreciation for nutrition and physical activity throughout the curriculum;
2. Enforce existing physical education requirements and engage students in healthy levels of vigorous physical activity;
3. Strive to improve the quality of physical education curricula and increase the training of physical education teachers;
4. Follow the Arkansas Physical Education and Health Education Frameworks in grades K-12;
5. Not use food or beverages as rewards for academic, classroom, or sports performances;
6. Establish class schedules and bus routes that do not directly or indirectly restrict meal access;
7. Provide students with ample time to eat their meals in pleasant cafeteria and dining areas;
8. Abide by the current allowable food and beverage portion standards;
9. Meet or exceed the more stringent of Arkansas' or the U.S. Department of Agriculture's (USDA) Nutrition Standards for reimbursable meals and a la' carte foods served in the cafeteria;
