### Student Data Presentation

The High School principal and assistant principal presented a variety of data for the Benjamin School District students who are now at the high school. Elementary Principal Pfaffenstiel and Middle School Principal Fitzgerald presented the STAR Enterprise Assessment data for the elementary school and middle school Benjamin District 25 students. Throughout the presentation, the administrators explained the information and, board members asked questions.

A dialogue among the attendees took place to identify strengths and to discuss areas that could be improved. For example, since the high school students are now also taking the STAR Enterprise Assessment, the administrators will select a report from Benjamin School District 25 which would be helpful to follow the students as they enter high school.
