Aberdeen School District Mission, Vision, and Beliefs

Mission

Empowering all students to succeed in a changing world.

Vision

To provide all students with the knowledge and skills necessary to reach their potential in a global community through high expectations of academic achievement, diverse educational opportunities and community involvement in a safe environment.

Beliefs

- All students can succeed when given the opportunity to learn through appropriate instruction, academic experiences and involvement in activities.
- All students benefit from a safe and nurturing learning environment.
- All students benefit from positive role models.
- Student progress is achieved by holding all students, parents and the school district accountable.
- Students' success is enhanced when the school, parents and community work together as partners.

Goals

- To meet AYP in all schools in the areas of math and reading.
- Provide a safe and supportive learning environment for all students and staff.
- Provide equitable access to current and developing technology tools for all students and teachers.
- Ensure a positive climate/culture that promotes collegiality among/between staff, parents and students.
- Promote active partnerships within the community.

May Overby Elementary School

612 14th Avenue SE Aberdeen, SD 57401 605.725.7300 (phone) 605.725.7399 (fax)

Mike Neubert, Principal

Mike.Neubert@k12.sd.us

In an effort to facilitate and enhance student achievement at May Overby Elementary School, parents, teachers, and administrators have joined to form a School Improvement Planning Committee. The committee's findings are found in this document, which is a tool that will enable stakeholders to sustain the school improvement focus at May Overby Elementary. This document is known herein as the May Overby Improvement Plan (MOIP) and the primary goal pages are located on pages 17 and 18. This plan should drive subsequent decision-making, interactions, activities, and planning processes to further the goal of student achievement and to ensure that no child will be left behind.

May Overby School Profile

Aberdeen is located in northeastern South Dakota, a primarily rural state. It is the third largest city in the state with a population of about 26,000. Aberdeen has two post-secondary institutions, Northern State University and Presentation College. Its main employers are the schools, the hospitals, Molded Fiberglass, and 3M. Agriculture is still the community's predominant industry. Grain terminals, livestock sale barns, a grain inspection service, and related agribusiness help support the area.

The Aberdeen Public School District is comprised of nine attendance centers: one 9-12 high school, two 6-8 middle schools, and six K-5 elementary buildings. Unique characteristics of the staffing patterns and student population of Lincoln Elementary School are listed below.

Comprehensive Needs Assessment

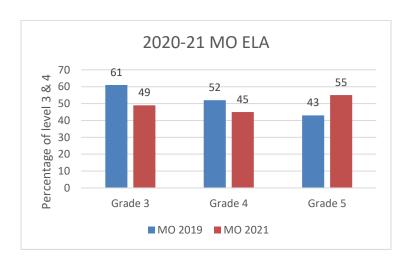

On August 23, 2021, staff members gathered to complete a comprehensive needs assessment of the entire school. Qualitative and quantitative data was reviewed based on the four areas of the CNA, leadership, curriculum and instruction, talent development and family engagement/culture. Data sources included state assessment results, AIMS web results, ACT Test results, ACCESS results, attendance, and discipline reports. Data retreat participants broke down into sub-groups and identified strengths, areas of concern, and key areas in math and reading in need of improvement. Data is reviewed for all subgroups. An action plan was developed and possible strategies were then brainstormed. Detailed notes from all groups were submitted, kept, and referred to subsequent SIP meetings.

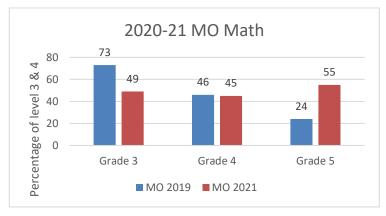

The School Improvement Committee met on the afternoon of August 24, 2021, finalize the action plan statements, and to refined the strategies for implementation. After discussing a wide variety of strategies, an action plan was tentatively designed with time frames, persons responsible, and necessary resources. Follow-up conversations and emails were held with Sub-Committee Chairpersons. The sub-committees other than the School Improvement Committee will handle most of the specific details and refining for the action plan. The details of the action plan will be reviewed on an on-going basis with modifications made, as the school improvement committee deems necessary. Staff, students, and parents will complete surveys in October of 2021. This information will be analyzed and changes to the action plan will be done in January of 2022 if necessary.

South Dakota State Assessment

Beginning in 2017, in compliance with the Every Student Succeeds Act (ESSA), the state of South Dakota required all students in grades 3-8 and 11 to take a computer adaptive test called the Smarter Balanced Assessment (SBA). The SBA assesses student achievement in the areas of math and reading. A student's score on each subtest places him or her in one of four achievement categories: Level 1, Level 2, Level 3, or Level 4. Students are deemed proficient when scoring Level 3 or Level 4. South Dakota's overarching goal for Student Achievement is to reduce by half the percentage of students (all subgroups) who are not proficient within six years. Proficiency is measured by performance on the annual statewide assessment. Targets, based on this six-year goal, are set for each subgroup at each school, in equal increments, to give that school a unique trajectory that recognizes where the school's subgroups started in terms of student proficiency and to support continuous improvement. AMO targets will be set following the results of the Smarter Balanced assessment in the 2014-15 school year. In 2018 AMO targets were removed and a new growth model was adopted.

The following table displays the percentage of students who scored proficient (Level 3 or Level 4) for the 208-19 school year and the 2020-21 school year. No testing was completed in 2019-20 due to COVID.

Analysis of Data:

In ELA 3rd grade decreased the percentage of level 3 & 4 by 12% when comparing years 2019 and 2021. 4th grade decreased their level 3 & 4 score by 7% when comparing years 2019 and 2021. 5th grade increased their ELA level 3 & 4 scores by 12% when comparing years 2019 and 2021. In Math 3rd grade decreased the percentage level 3 & 4 by 24% when comparing years 2019 and 2021. 4th graded decreased their level 3 & 4 math scores by 1% when comparing years 2019 and 2021. 5th grade increased their math level 3 & 4 scores by 31% when comparing 2019 and 2021.

Implications from Data: Teachers will continue to use CCSS, the Danielson model (teacher effectiveness), SLOs, Webb leveling, formative assessments, and AIMSweb results to guide and inform instruction. Addressing the significant needs of all students is also a priority, and research based strategies specific to the needs of all will be utilized. SBAC and AIMsweb data were used to determine reading goals, and SBAC data and classroom data were used to determine math goals.

AIMSweb Reading Assessments

Description of Data: AIMSweb is a formative assessment system that informs the teaching and learning process by providing continuous student performance data and reporting improvement to enable evidence-based evaluation and data-driven instruction. AIMSweb provides a 3 Tier Progress Monitoring and Response to Intervention system which assesses students' general reading achievement. AIMSweb utilizes Curriculum Based Measurement (CBM), an approved and standardized assessment practice based on over 25 years of scientific research. Specific skills assessed include reading comprehension and early literacy skills (phonics and phonological awareness). The AIMSweb system allows frequent monitoring of students who are at-risk for academic failure or currently below grade level by using general outcome measures in any of these areas. This system allows educators to determine if the current curriculum and instruction of core programs or interventions is having the intended effect on student progress.

K – Letter Naming			1 st Grade –	Oral Read	ding Fluen	су	
	Fall	Winter	Spring		Fall	Winter	Spring
% Average Or				% Average Or			
Above Average	29.6%	47.9%	51%	Above Average	15.7%	27.1%	42.9%

2 nd Grade - RCBM			3 rd Grade RCBM				
	Fall	Winter	Spring		Fall	Winter	Spring
% Average Or				% Average Or			
Above Average	55.4%	73.4%	77.1%	Above Average	62.1%	69%	80.3%

4 th Grade - RCBM			5 th	Grade RO	СВМ		
	Fall	Winter	Spring		Fall	Winter	Spring
% Average Or				% Average Or			
Above Average	88.4%	83.9%	76.2%	Above Average	94.5%	89.7%	90.9%

Analysis of Data:

In grades K-3 students showed improvement in AIMSweb scores from fall to spring benchmarks. In 4th grade, RCBM scores decreased by 12.2% from fall to spring benchmarks. IN 5th grades there was a overall 3.6% decrease from fall to spring benchmarks. This data will be used to help improve strategies and teaching methods in the upper elementary grades, to ensure that students needs are being met through the reading intervention program.

Implications of Data:

Letter naming will be used for Kindergarten as it sets the stage for reading.

- 1st grade will use oral reading fluency (ORF) as the assessment for reading improvement.
- Grades 2-5 will use Reading Comprehension (RC) as the assessment for reading improvement.
- Teachers will collaborate regarding grade level performance from last school year.
- Some SLO growth goals will be determined based on AIMSweb Plus data.
- Classroom teachers and Interventionists will study data monthly to drive instruction and aid student success.

Climate Surveys

In the fall of 2021, school climate surveys will be administered to all students in grades 3 through 12 in the Aberdeen School District. The school climate surveys will also be provided to all district parents, teachers and other school staff. The purpose of the survey is to collect information to be used along with other data to improve our educational programs and for school accreditation purposes. We cross-referenced the information in the Climate Survey with CHS student discipline data. Climate Surveys are conducted every other year.

Analysis of Survey: To be completed in January of 2022.

2021-22 School Success Action Plan

Theory of Action (If, Then, And Statement) Expresses the focus/direction:

- 1. If students are low in math, then teachers will identify skills needed for intervention and increase proficiency by 10% on state assessment.
- 2. If there is low family engagement in the classroom, then teachers will use outreach strategies to involve parents and increase parental involvement by 50% school wide.
- **3.** If students are low in reading, then teachers will identify skills needed for intervention and decrease students in tier 3 by 5% on the AimsWebPlus assessment.
- **4.** If staff members consistently enforce and communicate school wide rules, then we will create a safer learning environment and decrease discipline referrals by 10%.

What potential implementation challenges need to be addressed?

- 1. Accountability with identifying needs and using classroom interventions.
- **2.** Difficulty involving parents without face to face interactions.
- 3. Following through with phonics, timing of assessments, reading best practices and using classroom interventions
- **4.** Consistent implementation & maintaining new procedures.

School Enrichment Activities

The school offers a variety of different activities to enrich and strengthen all aspects of the school. Teachers use methods and instructional strategies that strengthen the academic program in the school; increase the amount of quality of learning time; and help provide an enriched and accelerated curriculum to provide a well-rounded education, such activities include: Field trips to concerts, plays, and other fine arts events, school musical performed in the spring, orchestra, All City Choir select group, field trip to the Water Festival, special topics speakers, Junior Achievement program, School Counselor instruction in classrooms, specialized tutoring during the school day and after school, tutoring for Native American students, computer coding, walking club, dance at recess, Historical Society learning kits, NSU student athlete volunteers, SADD and adult mentors, Conflict Managers, foster grandmas, Fuel Up to Play 60 activities, Student Council, and parent nights.

The above strategies and activities will be evaluated for effectiveness by gathering feedback from students, staff, and parents, monitoring participation rates, noting academic improvement for some activities, and observing student engagement levels.

Professional Development

May Overby Elementary staff will continue to be engaged in a variety of activities emphasizing the two identified goals. Additionally, staff will attend appropriate national, state, and regional conferences that will support the LIP school-wide goals.

Local professional development opportunities will include technology in-services that will encourage the delivery and management of instruction. A mentor is assigned to each new staff member in our building. The mentor will assist new teachers with building expectations and routines, electronic attendance and grading, locating materials, etc. Finally, Lincoln's professional library is constantly being upgraded in the areas of effective strategies for math and reading instruction.

Highly Qualified Staff

The Aberdeen School District requires all staff to be Highly Qualified in their given assignment area. All staff must follow the certification regulations outlined by the South Dakota Department of Education.

Pursuing Highly Qualified Certification

Pursuant to SDCL 24:28:11, the following staff are currently pursuing the proper certification to be highly qualify in their current position. Staff have two years to complete all the Department of Education requirements to become highly qualified.

Date of Hire	Staff	Course Taught
NA	NA	NA

Parent Involvement in Education

May Overby Elementary School parents are provided directions to access the School Improvement Plan through the Aberdeen School District Web site in the May Overby Elementary Parent & Student Handbook (page 6) and occasionally in the monthly newsletter. In addition, the May Overby Elementary School Improvement Plan is discussed at PTA meetings, School Board meetings, and district-wide School Board listening sessions.

Testing results are sent to parents annually, along with general information about the testing process and an interpretation guide. Parents are invited to contact their child's teacher or the principal if they have questions about the testing process or results. Parents are provided with a Parent Involvement Letter and Lincoln Elementary welcomes parents and families to an Open House during the first week of school. Parent-Teacher conferences are scheduled in the fall and spring, and Parent University (parent education and student activity) is conducted each fall.

Parent-teacher conferences are scheduled twice per school year, once in the fall and again in the spring. Parents may schedule a meeting with teachers at any time during the school year to discuss their child's educational program.

Transition Processes

The registration process for incoming Kindergarten students begins in January at each elementary school. Parents are required to provide the school with the child's name, birth certificate, immunization records, and social security card to complete the registration process. In the spring, the Kindergarten Open House is held for registered students to introduce the parents and students to the teachers, classroom areas, and overall school building. At the start of the new school year, the teachers meet with parents to provide them with information regarding the expectations for Kindergarten. Students begin the year by attending school in small groups to become better acquainted with their environment and daily schedule.

In the early spring, transition activities for fifth graders moving to the middle school begin with a visit from the middle school principals. During this session, the principals provide an overview of the middle school experience and distribute registration materials. Later in the spring, fifth grade students visit and tour the middle schools. The program includes musical entertainment, a school tour, snacks, and small group discussion time with eighth grade student leaders. Also, late spring, the middle school Improv Troupes visit fifth grade classrooms to present scenes that prompt further discussion of middle school issues.

New students are welcomed to their designated middle school with an orientation provided by the school counselor and/or representatives of the student council. Periodically, new student groups are formed to provide students with an opportunity to meet other new students and express their concerns in a small group setting.

All high school students are provided opportunities for career exploration, options for postsecondary education, vocational training, and work force information. High school students may participate in Advance Placement courses and dual credit courses through the local college.

Monitoring and Support

Students who experience difficulty are referred to the Student Assistance Team (SAT) by parents or teachers. Student needs are evaluated by the team with recommendations made to help rectify the problems identified. Recommendations may include extended school day tutoring, behavior management plans, an outside mentor, and/or further review by the team. The team shares this information with the teachers involved with the child as well as the child's parents.

If problems tend to persist, the student may be referred to the Student Needs Team (SNT) for formal evaluation of academic and/or psychological needs. After the evaluation has been completed, the team communicates the results to staff members and the child's parents. Recommendations may include special education services, professional counseling, and/or alternative placement of the child.

The School Improvement Committee will review the plan quarterly during the 2021-22 school year to analyze updated data and to make adjustments. As the plan is reviewed and modified, progress will be shared with the School Board on an annual basis.

Fiscal Requirement

As this plan is implemented, resources will be available to building teams. Release time will be provided for building teams to meet to review their current school improvement plan, review their school's data and to add new strategies to use for instructional purposes.

District-level administrators will be available to meet with school teams to support the development of school or student improvement plans and also to model effective instructional strategies in the classroom.

School curriculum and supplemental materials will be purchased according to the district curriculum adoption cycle. If additional support materials must be purchased, individual schools may use their building financial allocations to purchase those items.

Financial Resources Available:

Building Level -

- General fund and capital outlay fund allocations
- Special Education allocations for resource rooms and also financial support for after-school tutoring
 District Level
 - Title I allocation for reading teacher and tutors' salaries
 - Title I and general funds for extended school day tutoring program

Ongoing Program Development

The school improvement plan is part of a dynamic process with periodic evaluation needed to assess progress towards meeting goals. The school improvement plan is a two-year document requiring periodic evaluation to assess progress. The plan was written within three months of identification for state-mandated school improvement. It will be evaluated annually and revised as needed. Future revisions in the plan will be made according to data obtained from assessment results, surveys, state mandates, and student needs. A log will be kept on file of the periodic reviews and revisions.

The improvement plan will be presented to the Aberdeen School Board for final approval in October of 2021. After board approval, the School Improvement Plan will be fully implemented. The school improvement plan will be shared with the staff, parents, and the public through the Aberdeen School District website and copies will be available in the school office for interested patrons.

The timeline below indicates the school improvement activities for the 2021-22 school year.
