

May of 2022 Facilities Bond

MCC is exploring options that will improve our current facilities and add enhancements such as a performing arts center and shared space with the Scottville Area Senior Center. Improvements such as updating older sections of the high school, athletic field improvements, parking lot, driveway and pickup/drop off improvements are a few of the items being looked at. We encourage our community to view information by viewing recordings of past forums, provide input through the online survey, and attend future forums for updates.
