Attention all Staff

I have been informed by the Michigan Department of Education Office of Health and Nutrition Services Fiscal and Administrative Services, that we are not charging enough for our adult lunches. Our participation in the National School Lunch Program Seamless Summer Option (SSO) which is making it possible for all our students to receive meals at no cost and affording us the summer reimbursement rate, puts all our meals at the same price district wide (previously Adult meals were calculated on the price of the student meals per building). Our new adult lunch price will be \$5.00 district wide. This applies to complete lunches. You are always welcome to purchase ala carte, meal components.

Thank You,

Michele Lubahn

Food Service Coordinator
